

Apple Pro Training Series Final Cut Pro X

The Apple-Certified Way to Learn Record, arrange, mix, produce, and polish your music with this bestselling, Apple-certified guide to Logic Pro X 10.3. Veteran producer and composer David Nahmani uses step-by-step, project-based instructions and straightforward explanations to teach everything from basic music creation to sophisticated production techniques. Using the book's downloadable lesson files and Logic Pro X, you'll begin making music in the first lesson. From there, you'll learn to record audio and MIDI, create and edit sequences, and master mixing and automation techniques such as submixing with Track Stacks or the practical uses of true stereo panning. You will create both acoustic and electronic virtual drum performances using Drummer tracks with Drum Kit Designer and Drum Machine Designer. You'll use Logic Pro X MIDI plug-ins and Smart Controls to control software synthesizers from a MIDI controller or an iPad. Flex Time will allow you to precisely edit the timing of notes inside an audio recording, and you'll explore Flex Pitch to correct the pitch of a vocal recording. Finally, you'll mix, automate, and master the song, using plug-ins to process only selected sections or entire tracks, giving your audio creations the final polish needed to achieve a professional sound. Downloadable lesson and media files allow you to perform the hands-on exercises. Focused lessons take you step by step through practical, real-world tasks. Ample illustrations help you master techniques fast. Lesson goals and time estimates help you plan your time. Chapter review questions help you prepare for the Logic Pro X 10.3 certification exam. The Apple Pro Training Series is both a self-paced learning tool and the official curriculum of the Apple Training and Certification program. Upon completing the course material in this guide, you can become Apple Certified by passing the Logic Pro X 10.3 certification exam at an Apple Authorized Training Provider. To find an Apple Authorized Training Provider near you, please visit training.apple.com. Also in the Apple Pro Training Series: Final Cut Pro X 10.3 Pages, Numbers, and Keynote macOS Support Essentials

Whether you're an accomplished musician or a student, GarageBand is the most rewarding way to create, perform, and record your own music. In the only Apple-certified guide to GarageBand, composer Mary Plummer starts by teaching you the interface and basic recording techniques and moves on to arranging a song, editing and mixing tracks, adding effects, and distributing your music files. Using practical step-by-step lessons and original music, you'll learn how to record with any guitar, microphone, or MIDI keyboard; score a QuickTime movie; create an iPhone ringtone; jam with virtual musicians; and much more. A bonus lesson on advanced techniques covers little-known tips and time-savers that help you get the most out of GarageBand in a professional setting.

- Turn your Mac into a full-featured recording studio
- Arrange a song, edit and mix tracks, add effects, and distribute your music
- Use Magic GarageBand Jam to create your own virtual backing band
- Create a podcast complete with narration, music, sound effects, and artwork.
- Build a soundtrack and learn to score a professional trailer
- Create a fun iPhone ringtone from scratch
- Learn piano and guitar through interactive video lessons with legendary recording artists

You will find a link in the last few pages of your eBook that directs you to the media files. Helpful tips: If you are able to search the book, search for "Where are the lesson files?" Go to the very last page of the book and scroll backwards. You will need a web-enabled device or computer in order to access the media files that accompany this ebook. Entering the URL supplied into a computer with web access will allow you to get to the files. Depending on your device, it is possible that your display settings will cut off part of the URL. To make sure this is not the case, try reducing your font size and turning your device to a landscape view. This should cause the full URL to appear.

Presents a guide to video editing, color correcting, and finishing using Final Cut Pro X.

Please note: Updates for Logic Pro v10.2 can be found at www.peachpit.com/apts.logicprox101 on the Updates tab. Completely revised and updated for Logic Pro v10.2, this Apple-certified guide shows you how to record, produce, and make music files that stand out with the Apple professional audio software. Veteran music producer David Nahmani's step-by-step instructions teach you everything from basic music creation to professional production techniques using Logic's software synthesizers, samplers, and digital signal processors. You'll learn about all of the key features in Logic Pro v10.2 and use the book's online files to begin making music from the very first lesson. Whether you're looking to use your computer as a digital recording studio, create musical compositions, or transfer that song in your head into music

In the only Apple-certified book on the Apple productivity apps—Pages, Numbers, and Keynote, you'll learn the how and why of creating and publishing first-rate documents, spreadsheets, and presentations. Working through this guide, you will gain confidence working on progressively more complex, real-world projects, using Pages, Numbers, and Keynote both alone and together to produce sophisticated and robust results. This guide provides coverage of the latest features in the Apple productivity apps. All new guide covers the Pages, Numbers, and Keynote productivity apps for Mac; explores iOS versions of the apps; and shows workflows using iCloud Drive. Quick tour through all three apps on OS X highlights the similarities in their interfaces and tools and reveals important new features. Self-paced course-in-a-book with accompanying lesson files focuses on practical, real-world projects building in complexity throughout the guide. The official curriculum of Apple Training Pages, Number, and Keynote course used in Apple Authorized Training centers worldwide. Chapter review questions summarize what students learn to prepare them for the Apple certification exam.

The Apple-Certified Way to Learn This fully updated Apple-certified guide presents a real-world workflow from raw media to finished project to demonstrate the features of Final Cut Pro X 10.3 and the practical techniques you will use in editing projects. Using professionally acquired media, you'll utilize the same tools and editing techniques used by editors worldwide in this revolutionary editing software. Renowned editor and master trainer Brendan Boykin starts with basic video editing techniques and takes you all the way through Final Cut Pro's powerful features. The lessons start as real world as it gets—with an empty application. After downloading the media files, you will be guided through creating a project from scratch to finished draft. The basic workflow and tools are covered in Lessons 1 through 4 where you create a rough

cut. The real-world workflow continues through the remaining lessons as you take the basic project and enhance it with a deeper dive into the more advanced Final Cut Pro X 10.3 features, including how to easily import and organize media using metadata, advanced audio design with Roles, stunning effects including 3D titles, and much more. * Downloadable lesson and media files to work sequentially through exercises for hours of hands-on training. * Focused lessons teach concepts and take students step by step through professional, real-world editing scenarios to create a final project. * Chapter review questions summarize what students learn to prepare them for the Apple certification exam. * Web Edition provides full text of the book available online with revised content for significant software updates. The Apple Pro Training Series is both a self-paced learning tool and the official curriculum of the Apple Training and Certification program. Upon completing the course material in this guide, you can become Apple Certified by passing the certification exam at an Apple Authorized Training Center. To find an Apple Authorized Training Center near you, please visit training.apple.com.

Designed for video-production professionals, Final Cut Server sets the standard for intuitive media asset management, making it easy to manage large collections of media files efficiently. In this Apple-authorized reference guide, system integrator Drew Tucker takes you on a comprehensive tour of the software, covering everything from tools for tracking, reviewing, and approving jobs to automating complex sequences of tasks in a busy post environment. Along the way, Tucker shares essential workflows that will shave hours from your post-production jobs. You'll learn techniques for searching, cataloging, and finding the right asset quickly, as well as how to handle large quantities of real-time HD video, audio, and still image assets in a fast-paced production environment. Administrators will find a comprehensive overview of how to set up and configure this powerful collaboration tool, how to customize it to serve individual sites, and how to automate workflows and manage storage locations, users, and groups. The guide provides comprehensive coverage of the new features in Final Cut Server 1.5 including a robust edit proxy workflow, support for still sequences and production hierarchies. DVD-ROM includes lesson and media files Focused lessons take you step by step through real-world projects Accessible writing style puts expert instructors at your side Ample illustrations help you master techniques fast Lesson goals and time estimates help you plan your time Chapter review questions summarize what you've learned and help you prepare for the Apple Pro certification exam All of Peachpit's eBooks contain the same content as the print edition.
