

Applied Ict Gce As A

A core textbook for A2 GCE Applied ICT for Edexcel covering various units students need to achieve their award.

Offering you complete choice whatever your needs for the new GCE Exactly what you need for the new GCEs in ICT with books matching each specification and providing all information needed for either the single or double award. The only books matched to every type of course students can take - whether it is a single award or double award, with Edexcel, OCR or AQA. The theory is linked to real IT industry practices so that students feel engaged and motivated Each book is written by an experienced author team to give tutors absolute confidence in the quality of the content. The colourful clear design and lay-out allows students to easily access the material Clearly differentiated assessment activities make it easy for students to work to a particular level This student book matches the new specification and provides all information needed for the single award and three units of the double award (15, 16 and 18). The theory is linked to real IT industry practices so that students feel engaged and motivated. Clear design and lay-out allows students to easily access the material.

Exactly what you need for the AS Level GCE Double Award in Applied ICT for AQA - this student book matches the specification and provides all information needed for the double award.

This book uses an easy-to-follow, step by step approach which focuses on helping students to learn the practical skills needed for success in AS Applied ICT.

Exactly what you need for the AS Level GCE Double

Award in Applied ICT for OCR - this student book matches the specification and provides all information needed for the double award.

Exactly what you need for the AS Level GCE Single Award in Applied ICT for OCR - this student book matches the specification and provides all information needed for the single award.

BTEC First ICT Practitioners is a key new course book for the 2006 BTEC First ICT Practitioner schemes from Edexcel. Full coverage is given to the core units of the Certificate and Diploma (units 1 and 2) and to selected specialist units: * Using ICT to Present Information (Unit 1) * Introduction to Computer Systems (Unit 2) * Website Development (Unit 4) * Networking Essentials (Unit 6) * Database Software (Unit 9) * Spreadsheet Software (Unit 10) * ICT Graphics (Unit 18)

Each chapter in the textbook corresponds to one of these units of the syllabus. Students of BTEC First ICT programmes will find this text essential reading for the duration of their study - all the core material they will be following throughout their course is included in this book. Each chapter includes numerous illustrations, learning outcome summaries, definitions, learner activities, test your knowledge quiz questions and exercises. The result is a clear, straightforward and easily accessible text, which encourages independent study and acts as a reference to various topics within the qualification. The choice of specialist units reflects the breadth of Information and Communication Technology, rather than focusing on specific computing areas such as hardware and programming, and puts the emphasis on practical rather than academic units. It provides students with an excellent portfolio of knowledge and skills that will enable them to progress onto higher qualifications, such as the BTEC National, AS and A2, or to suitable employment within

the ICT sector. Sharon Yull is a Senior Lecturer at City College Norwich and a Senior Subject Examiner for Higher Nationals in Computing for Edexcel. Sharon also runs the Training and Education Company, an IT and education consultancy, and has written books for other BTEC IT qualifications.

Edexcel AS GCE Applied ICT Double Award Heinemann
This series provides the underpinning knowledge for the course in an accessible and easy to navigate style, encouraging the development of the skills required in ICT tools and applications. The use of case studies throughout allows students to apply theory to vocational practice. The series contains features that link to the four QCA Assessment Objectives for ICT.

Featuring what you need for the AS Level GCE Single Award in Applied ICT for Edexcel, this student book matches the specification and provides information needed for the single award.

Each resource in this series is written by examiners Trevor Heathcote and Steve Farrell. Seamlessly integrating ICT resources, they give students support with using the ICT material, help with key skills and practice they need for their exams.

The world of information technology is diverse, impacting on, driving and supporting westernised business and industry as well as affecting every individual. Teachers of IT need to ensure that students recognise and understand why information technology is so important to business and society, as well as helping them to develop functional skills.

Teaching Information Technology 14+ helps teachers of IT do

just that. It explores the nature of Information Technology (IT), describes some of the current issues and debates surrounding IT and suggests appropriate strategies for successful learning and assessment. In addition to providing teachers with support in differentiating between the numerous Information Technology qualifications, it also includes some examples of relevant teaching and learning strategies and includes case studies and quotations from successful IT teachers and industry practitioners, drawn from a range of environments to highlight key concepts. Teaching Information Technology 14+ is not designed simply as another resource book, but as a means to engage students in the wider aspects of IT through the inclusion of reflective questions, encouraging readers to research and debate the place of IT today.

Exactly what you need for the AS Level GCE Single Award in Applied ICT for AQA - this student book matches the specification and provides all information needed for the single award.
