Advanced Geography David Redfern, Malcolm Skinner, 2005-09 AQA (B) Advanced Geography meets the specific needs of AS and A2 students by providing comprehensive and accessible coverage of topics on the AQA (B) specification. This major textbook develops student knowledge and understanding of the core topics in physical and human geography, enabling them to meet the requirements of the specification with confidence and enthusiasm. The second edition incorporates the revisions made to the specifications for examination from 2006 onwards, including an entirely new focus on issue evaluation in Module 5, as well as new case studies of hazard topics such as the Asian tsunami and the 2004 hurricane season. Written by David Redfern and Malcolm Skinner, both experienced authors and senior examiners, the text comprises 14 chapters, which cover in detail the subject content of each AS and A2 module. A Content Guidance section combines an overview of the specific unit or module and the key terms and concepts, with an examiner's interpretation so that students understand precisely what they need to understand and learn, the skills required and the potential pitfalls. A Question and Answer section provides graded answers, typically A and C, to questions which have been set to reflect the style of the unit. All responses are accompanied by commentaries which highlight their respective strengths and weaknesses, giving students an insight into the mind of the examiner.
