“Terrifically exciting and fun” (Publishers Weekly), *Champagne Supernovas* is “a lucid, smoothly executed look at a pivotal decade in the legacy of American fashion” (Kirkus Reviews) as told through the lives of Kate Moss, Marc Jacobs, and Alexander McQueen—the three iconic personalities who defined the time. Veteran pop culture journalist Maureen Callahan takes us back to the pivotal style moment of the early 1990s—when supermodel glamazons gave way to heroin chic, when the alternative became the mainstream, and when fashion suddenly became the cradle for the most exciting artistic and cultural innovations of the age. *Champagne Supernovas* gives you the inside scoop from a bevy of supermodels, stylists, editors, photographers, confidantes, club kids, and scenesters who were there. They’ll tell the unvarnished story of three of the most influential personalities to emerge in fashion in decades—Kate, Marc, and McQueen—and show why the conditions in the 1990s were perfect for their rise...but also helped contribute to their personal struggles. Steeped in the creative brew of art, decadence, and genius that defined the era, *Champagne Supernovas* is a “titillating ride through the fashion world” (Elle) that offers readers front-row tickets to a gloriously debauched soap opera about the losers and freaks who became the industry’s It Girls and Boys...and who changed the larger culture forever.

Explores the homogenization of American culture and the impact of the fast food industry on modern-day health, economy, politics, popular culture, entertainment, and food production. For those interested in becoming slot managers, or those just curious about how casinos work, *Tales from the Slot Floor* gives you the inside story of slot operations, from those who do it. Recent decades have seen a dramatic shift away from social forms of gambling played around roulette wheels and card tables to solitary gambling at electronic terminals. Slot machines, revamped by ever more compelling digital and video technology, have unseated traditional casino games as the gambling industry's revenue mainstay. *Addiction by Design* takes readers into the intriguing world of machine gambling, an increasingly popular and absorbing form of play that blurs the line between human and machine, compulsion and control, risk and reward. Drawing on fifteen years of field research in Las Vegas, anthropologist Natasha Dow Schüll shows how the mechanical rhythm of electronic gambling pulls players into a trancelike state they call the "machine zone," in which daily worries, social demands, and even bodily awareness fade away. Once in the zone, gambling addicts play not to win but simply to keep playing, for as long as possible--even at the cost of physical and economic exhaustion. In continuous machine play, gamblers seek to lose themselves while the gambling industry seeks profit. Schüll describes the strategic calculations behind game algorithms and machine ergonomics, casino architecture and "ambience management," player tracking and cash access systems--all designed to meet the market's desire for maximum "time on device." Her account moves from casino floors into gamblers' everyday lives, from gambling industry conventions and Gamblers Anonymous meetings to regulatory debates over whether addiction to gambling machines stems from the consumer, the product, or the interplay between the two. *Addiction by Design* is a compelling inquiry into the intensifying traffic between people and machines of chance, offering clues to some of the broader anxieties and predicaments of contemporary life. At stake in Schüll's account of the intensifying traffic between people and machines of chance is a blurring of the line between design and experience, profit and loss, control and compulsion.

A notable contribution to our understanding of ourselves. This book explores the realm of human behavior in social situations and the way that we appear to others. Dr. Goffman uses the metaphor of theatrical performance as a framework. Each person in everyday social intercourse presents himself and his activity to others, attempts to guide and control the impressions they form of him, and employs certain techniques in order to sustain his performance, just as an actor presents a character to an audience. The discussions of these social techniques offered here are based upon detailed research and observation of social customs in many regions.

A number of UN conventions and declarations (on the Rights of Indigenous Peoples, the Protection and Promotion of the Diversity of Cultural Expressions and the World Heritage Conventions) can be understood as instruments of international governance to promote democracy and social justice worldwide. In Indonesia (as in many other countries), these international agreements have encouraged the self-assertion of communities that had been oppressed and deprived of their land, especially during the New Order regime (1966-1998). More than 2,000 communities in Indonesia who define themselves as masyarakat adat or "indigenous peoples" had already joined the Indigenous Peoples' Alliance of

the Archipelago” (AMAN) by 2013. In their efforts to gain recognition and selfdetermination, these communities are supported by international donors and international as well as national NGOs by means of development programmes. In the definition of masyarakat adat, “culture” or adat plays an important role in the communities’ self-definition. Based on particular characteristics of their adat, the asset of their culture, they try to distinguish themselves from others in order to substantiate their claims for the restitution of their traditional rights and property (namely land and other natural resources) from the state. The authors of this volume investigate how differently structured communities - socially, politically and religiously - and associations reposition themselves vis-à-vis others, especially the state, not only by drawing on adat for achieving particular goals, but also dignity and a better future.
