To further complicate things, each of the groups’ most promising followers (Patricia, a brilliant witch and Laurence, an engineering “wunderkind”) may just be in love with each other. Shortlisted for the 2021 Booker Prize Longlisted for the 2021 National Book Award for Fiction A heartrending new novel from the Pulitzer Prize–winning and #1 New York Times best-selling author of *The Overstory*. Named one of the Most Anticipated Books of 2021 by Newsweek, Los Angeles Times, New York Magazine, Chicago Tribune, BuzzFeed, BookPage, Goodreads, Literary Hub, The Millions, New Statesman, and Times of London The astrobiologist Theo Byrne searches for life throughout the cosmos while single-handedly raising his unusual nine-year-old, Robin, following the death of his wife. Robin is a warm, kind boy who spends hours painting elaborate pictures of endangered animals. He’s also about to be expelled from third grade for smashing his friend in the face. As his son grows more troubled, Theo hopes to keep him off psychoactive drugs. He learns of an experimental neurofeedback treatment to bolster Robin’s emotional control, one that involves training the boy on the recorded patterns of his mother’s brain... With its soaring descriptions of the natural world, its tantalizing vision of life beyond, and its account of a father and son’s ferocious love, *Bewilderment* marks Richard Powers’s most intimate and moving novel. At its heart lies the question: How can we tell our children the truth about this beautiful, imperiled planet?

A major new exploration of the refugee crisis, focusing on how borders are formed and policed Forty thousand people have died trying to cross between countries in the past decade, and yet international borders only continue to harden. The United Kingdom has voted to leave the European Union; the United States elected a president who campaigned on building a wall; while elsewhere, the popularity of right-wing antimigrant nationalist political parties is surging. Reece Jones argues that the West has helped bring about the deaths of countless migrants, as states attempt to contain populations and limit access to resources and opportunities. “We may live in an era of globalization,” he writes, “but

much of the world is increasingly focused on limiting the free movement of people.” In *Violent Borders*, Jones crosses the migrant trails of the world, documenting the billions of dollars spent on border security projects and the dire consequences for countless millions. While the poor are restricted by the lottery of birth to slum dwellings in the ailing decolonized world, the wealthy travel without constraint, exploiting pools of cheap labor and lax environmental regulations. With the growth of borders and resource enclosures, the deaths of migrants in search of a better life are intimately connected to climate change, environmental degradation, and the growth of global wealth inequality. Newly updated with a discussion of Brexit and the Trump administration.

Presents a new model for the origins of Basketmaker II culture based on the evolution of maize use, focusing on the changes in maize growing rather than on the changes in, or to, the people involved.

"A virtual roadtrip through the highway's legends, stories, people, and funky businesses that are the essence of the Route 66 experience"--

The HCM 2010 significantly enhances how engineers and planners assess the traffic and environmental effects of highway projects by: Providing an integrated multimodal approach to the analysis and evaluation of urban streets from the points of view of automobile drivers, transit passengers, bicyclists, and pedestrians; Addressing the proper application of microsimulation analysis and the evaluation of the results; Examining active traffic management in relation to demand and capacity; and Exploring specific tools and generalized service volume tables to assist planners in quickly sizing future facilities. The four-volume format provides information at several levels of detail, to help users more easily apply and understand the concepts, methodologies, and potential applications.

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

It was the way out. Invented on the cusp of the depression, Route 66 was the road out of the mines, off the farm, away from troubled Main Street. It was the road to opportunity. Between 1926 and 1956, many people from the southern and plains states trekked west to California on Route 66, the Mother Road. Some never reached California. Instead, they settled along the road, building restaurants, tourist attractions, gas stations, and motels. The architecture of each structure reflected regional building traditions and the difficulties of the times. The designs of buildings and signs served as invitations for passing travelers to stop, fill their tanks, have a bite, and stay the night. Along Route 66 describes the architectural styles found along the highway from Chicago, Illinois, to Santa Monica, California, and pairs photos with stories of the buildings and of the people who built them, lived in them, and made a living from them. With striking black-

and-white images and unforgettable oral histories of this rapidly disappearing architecture, Quinta Scott has documented the culture of America's most famous road.

The most important book on antitrust ever written. It shows how antitrust suits adversely affect the consumer by encouraging a costly form of protection for inefficient and uncompetitive small businesses.

Filled with enticing alternatives for chain-weary-travelers, Roadfood provides descriptions of and directions to (complete with regional maps) the best lobster shacks on the East Coast; the ultimate barbecue joints down South; the most indulgent steak houses in the Midwest; and dozens of top-notch diners, hotdog stands, ice-cream parlors, and uniquely regional finds in between. Each entry delves into the folkways of a restaurant's locale as well as the dining experience itself, and each is written in the Sterns' entertaining and colorful style.

This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are "Albion's Seed," no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations.

This book features oral histories, mainly of members of the ranching families who have lived in the Mexican State of Sonora and the

corresponding territory in the US that stretches from Tijuana on the California border to Agua Prieta on the Arizona border. The elders in those families recall the tales that their grandparents told, providing a century of perspectives on the revolution in economics, culture, and drug trade that the area has witnessed. The book uses the voices of those who have lived through the vicissitudes of border life to paint this cultural upheaval in gripping, personal terms.

"It took me a long time and most of the world to learn what I know about love and fate and the choices we make, but the heart of it came to me in an instant, while I was chained to a wall and being tortured." So begins this epic, mesmerizing first novel by Gregory David Roberts, set in the underworld of contemporary Bombay. Shantaram is narrated by Lin, an escaped convict with a false passport who flees maximum security prison in Australia for the teeming streets of a city where he can disappear. Accompanied by his guide and faithful friend, Prabaker, the two enter Bombay's hidden society of beggars and gangsters, prostitutes and holy men, soldiers and actors, and Indians and exiles from other countries, who seek in this remarkable place what they cannot find elsewhere. As a hunted man without a home, family, or identity, Lin searches for love and meaning while running a clinic in one of the city's poorest slums, and serving his apprenticeship in the dark arts of the Bombay mafia. The search leads him to war, prison torture, murder, and a series of enigmatic and bloody betrayals. The keys to unlock the mysteries and intrigues that bind Lin are held by two people. The first is Khader Khan: mafia godfather, criminal-philosopher-saint, and mentor to Lin in the underworld of the Golden City. The second is Karla: elusive, dangerous, and beautiful, whose passions are driven by secrets that torment her and yet give her a terrible power. Burning slums and five-star hotels, romantic love and prison agonies, criminal wars and Bollywood films, spiritual gurus and mujaheddin guerrillas---this huge novel has the world of human experience in its reach, and a passionate love for India at its heart. Based on the life of the author, it is by any measure the debut of an extraordinary voice in literature.

Parents had questions about the tests their children took at school. They considered them to be common sense questions. They posed them to the businesspeople, publishers, and politicians who championed tests. They also posed them to the school administrators, teachers, and union leaders who criticized them. This book examines the questions the parents posed, the answers they elicited, and the changes they prodded.

A collection of down-home stories about two boys growing up on the old family homestead during the Depression-era in Cochise County. The Henry in the title of the book is Walter's brother and he is along for many of the scrapes and adventures as the stories unfold in a chronological order.

U.S. Army chaplain Winfield Scott and his wife, Helen, founded Scottsdale in 1888 as a small farming and ranching settlement on undeveloped desert east of Phoenix. After World War II, many people were attracted by the dry climate, desert landscape, and business opportunities. The community encouraged creativity in architecture, and Frank Lloyd Wright, Paolo Soleri, and Paul Schweikher designed buildings here. To draw tourists, the business community adopted "The West's Most Western Town" as a slogan in 1947. By the time employers such as Motorola arrived, fast-paced construction was already underway and the architecture reflected that era. In the 1970s, an architectural debate took place between western and modern styles, resulting in innovative architecture. Transitioning into the 21st century, Scottsdale witnessed more growth with downtown revitalization, a new appreciation of contemporary projects, and an awareness of desert preservation.

Named a Most Anticipated Book of Fall 2021 by The New York Times, USA Today, Vulture, The Week, and more! "There's some kind of genius sorcery in this novel. It's startlingly original, hilarious and harrowing by turns, finally transcendent. Watkins writes like an avenging angel. It's thrilling and terrifying to stand in her wake." —Jenny Offill, author of *Dept. of Speculation* and *Weather* A darkly funny, soul-rending novel of love in an epoch of collapse—one woman's furious revisiting of family, marriage, work, sex, and motherhood. Since my baby was born, I have been able to laugh and see the funny side of things. a) As much as I ever did. b) Not quite as much now. c) Not so much now. d) Not at all. Leaving behind her husband and their baby daughter, a writer gets on a flight for a speaking engagement in Reno, not carrying much besides a breast pump and a spiraling case of postpartum depression. Her temporary escape from domestic duties and an opportunity to reconnect with old friends mutates into an extended romp away from the confines of marriage and motherhood, and a seemingly bottomless descent into the past. Deep in the Mojave Desert where she grew up, she meets her ghosts at every turn: the first love whose self-destruction still haunts her; her father, a member of the most famous cult in American history; her mother, whose native spark gutters with every passing year. She can't go back in time to make any of it right, but what exactly is her way forward? Alone in the wilderness, at last she begins to make herself at home in the world. Bold, tender, and often hilarious, *I Love You but I've Chosen Darkness* reaffirms Watkins as one of the signal writers of our time.

"For a calculated 1,400 years, Snaketown was a viable village, but unlike so many tells in the Near East, the people remained the same while their culture changed. The smoothly graded typological sequences for most attributes suggest to me that the ethnic identity of the inhabitants was not interrupted, that they were one and the same people experiencing normal internal evolutionary cultural modifications with occasional boosts of features and ideas newly arrived from the outside." —Emil W. Haury
