I don't have anything extraordinary. I am the typical guy that no one pays attention to because he's so discreet. I wasn't blessed with an amazing physique, nor am I endowed with an above average intelligence. I am just a regular guy, admittedly with a painful past, but a regular guy nonetheless. I don't possess any special talents; yet, I am able to return consistent profits, year after year, in an endeavor where most people fail. My name is Yvan Byeajee, I am a trader. Not the kind you see in the movies - those who partake in lavish lifestyles; snort lines of coke off of some hooker's behind; or threaten the very health of our economy - no, I am more modest than that. And I have my reasons. Durable success in the markets is the only logical outcome of the kind of consistency you cultivate in your day-to-day life. Furthermore, it is a function of your

ability to tame that voice in your head that is constantly nagging at you and forcing you to make poor decisions, whether in the markets or in your personal life. After having lost everything in the markets because of my inability to calm that inner voice, I knew I had to make some changes. Eventually, I stumbled upon an effective way to calm the zoo that is my mind, something I always assumed to be either impossible or useless. For the price of a cocktail, in this short book, you will learn the secret to my success in the markets! I will show you the one exercise that I think all traders should be doing on a daily basis. This exercise has not only changed my trading, but it has also changed my life - and I am confident it can change yours as well!

II and III. Every change in price reflects what happens in the battle between bulls and bears. Markets rise when bulls feel more strongly than bears. They rally when buyers are confident and sellers demand a premium for participating in the game that is going against them. There is a buyer and a seller behind every transaction. The Truth About Day Trading Stocks A realistic guide to day trading today's stock market In terms of the potential for heavy financial losses, day trading is a high-risk profession. No one should contemplate day trading without giving thought to the ways he can lose, and all the ways to lessen or avoid them. Yet many people enter the game with unrealistic expectations, unaware of what it takes to succeed. Seminars and software alone do not make a successful day trader, cautions author Josh DiPietro.

Instead, a trader must learn hard lessons of self-discipline, consistency, and staying in the game for the long haul to have a real chance of success. In *The Truth About Day Trading Stocks*, DiPietro offers the amateur day trader a brutally honest look at the pitfalls of day trading—and how to hopefully avoid them. Written in an engaging and sometimes humorous tone, *The Truth About Day Trading Stocks* draws on the author's own experiences as a day trader to offer a clear-cut departure from typical "golden goose" strategies promising instant wealth. Instead, he attempts to slow down the dangerous fervor of the average amateur and demonstrate the ways you can become a professional and not lose your shirt in the process. *The Truth About Day Trading Stocks* shows how trading decisions are bent and shaped by emotions, and why it is critical to know yourself, understand risk, and remember that increasing your skill level is a gradual, ongoing process—there's always more to learn! After dispensing with popular illusions, DiPietro proceeds to offer realistic, practical trading advice—comparing pay-per-trade with pay-per-share brokers, determining which works best and when, offering suggestions on how to avoid the prospect of perfect trades turning ugly, and more. At the end of the book, he also includes a section called "Rules to Remember," a list of over eighty rules, simply stated and easy to grasp, to benefit amateurs' performance. Throughout the book, the author describes his development of acute self-awareness while figuring out how to succeed. Through that blunt self-portrayal, the goal of *The Truth About Day Trading Stocks* is to help you create a disciplined mind-set and apply it to your own successful trading style.

Very few careers can offer you the freedom, flexibility and income that day trading does. As a day trader, you can live and work anywhere in the world. You can decide when to work and when not to work. You only answer to yourself. That is the life of the successful day trader. Many people aspire to it, but very few succeed. Day trading is not gambling or an online poker game. To be successful at day trading you need the right tools and you need to be motivated, to work hard, and to persevere. At the beginning of my trading career, a pharmaceutical company announced some positive results for one of its drugs and its stock jumped from \$1 to over \$55 in just two days. Two days! I was a beginner at the time. I was the amateur. I purchased 1,000 shares at \$4 and sold them at over \$10. On my very first beginner trade, I made \$6,000 in a matter of minutes. It was pure luck. I honestly had no idea what I was doing. Within a few weeks I had lost that entire \$6,000 by making mistakes in other trades. I was lucky.

My first stupid trade was my lucky one. Other people are not so lucky. For many, their first mistake is their last trade because in just a few minutes, in one simple trade, they lose all of the money they had worked so hard for. With their account at zero, they walk away from day trading. As a new day trader you should never lose sight of the fact that you are competing with professional traders on Wall Street and other experienced traders around the world who are very serious, highly equipped with advanced education and tools, and most importantly, committed to making money. Day trading is not gambling. It is not a hobby. You must approach day trading very, very seriously. As such, I wake up early, go for a run, take a shower, get dressed, eat breakfast, and fire up my trading station before the markets open in New York. I am awake. I am alert. I am motivated when I sit down and start working on the list of stocks I will watch that day. This morning routine has tremendously helped my mental preparation for coming into the market. Whatever your routine is, starting the morning in a similar fashion will pay invaluable dividends. Rolling out of bed and throwing water on your face 15 minutes before the opening bell just does not give you sufficient time to be prepared for the market's opening. Sitting at your computer in your pajamas or underwear does not put you in the right mindset to attack the market. I know. I've experienced all of these scenarios. In *How to Day Trade for a Living*, I will show you how you too can take control over your life and have success in day trading on the stock market. I love teaching. It's my passion. In this book, I use simple and easy to understand words to explain the strategies and concepts you need to know to launch yourself into day trading on the stock market. This book is definitely NOT a difficult, technical, hard to understand, complicated and complex guide to the stock market. It's concise. It's practical. It's written for everyone. You can learn how to beat Wall Street at its own game. And, as a purchaser of my book, you will also receive a membership in my community of day traders at www.vancouver-traders.com. You can monitor my screen in real time, watch me trade the strategies explained in his book, and ask questions of me and other traders in our private chat room. I invite you to join me in the world of day trading. I'm a real person who you can connect with. I'm not just a photograph here on the Amazon site. I love what I do. You can follow my blog post under Author Updates on my Author page on Amazon. It's honest. You'll see I lose some days. You can read the reviews of my book. I know you will learn much about day trading and the stock market from studying my book. You can join at no cost and with no obligation my community of day traders at www.vancouver-traders.com. You can ask us questions. Practical, hands-on knowledge. That's *How to Day Trade for a Living*.
