That's around the time the rumors began. They said that Tokyo had returned to its dark, old ways. But this time, warped and infected by the pharmacological and technological graffiti of 2043.This version of Tokyo was a place no foreigner had been unfortunate enough to lay eyes upon. Until now. This expansive, must-have coffee table book paints a robust portrait of the Walt Disney World Resort, across half a century, through diverse and vibrant voices and mostly unseen Disney theme park concept art and photographs. Walt Disney's vision for the Florida Project begins with Disneyland and the 1964-1965 New York World's Fair. After an imaginative and expansive design, a unique land acquisition process, and an innovative construction period, the Walt Disney World Resort celebrated its Grand Opening in October 1971. It featured a theme park dubbed the Magic Kingdom and three recreational resorts: Disney's Contemporary Resort, Disney's Polynesian Village, and Disney's Fort Wilderness Resort & Campground. As Walt Disney World consistently grew and further evolved through the five decades that followed, certain themes reverberated: an appreciation for nostalgia, a joy for fantasy, a hunger for discovery, and an unending hope for a better tomorrow. Inspirational and memorable theme parks, water parks, sports arenas, recreational water sports, world-class golf courses, vast shopping villages, and a transportation network unlike any other in the world resulted in fun, festive, and familiar characters, traditions, spectacles, merchandise, and so much more. The resort has come to represent the pulse of American leisure and has served as a backdrop for life's milestones both big and small, public and private. Walt Disney World: A Portrait of the First Half Century serves as a treasure trove for vacationers, students of hospitality, artists, and all Disney collectors. If the pandemic has taught us one thing, it's that people love parks As horizons shrank, we took stock. At first, a sense of panic set in: nowhere to go, nothing to do... Then we all went to the park, and we realized something: we need greenery - we crave it. Whether we're in Colombia or Korea, America or Australia, urban parks are places where we can find calm amid the chaos. They can also (more often than we may realize) conceal intriguing hidden histories, and can tell us something about modern life in our frenzied world, too. With fondness and humour, travel

writer Tom Chesshyre recalls 50 of his favourite urban parks from across the world, in a love letter to the green escapes that bring us joy in our cities.

This is the inspiring story of an ordinary guy who achieved two great goals that others had told him were impossible. First, he set a record for the longest automobile journey ever made around the world, during the course of which he blasted his way out of minefields, survived a breakdown atop the Peak of Death, came within seconds of being lynched in Pakistan, and lost three of the five men who started with him, two to disease, one to the Vietcong. After that-although it took him forty-seven more years-Albert Podell set another record by going to every country on Earth. He achieved this by surviving riots, revolutions, civil wars, trigger-happy child soldiers, voodoo priests, robbers, pickpockets, corrupt cops, and Cape buffalo. He went around, under, or through every kind of earthquake, cyclone, tsunami, volcanic eruption, snowstorm, and sandstorm that nature threw at him. He ate everything from old camel meat and rats to dung beetles and the brain of a live monkey. And he overcame attacks by crocodiles, hippos, anacondas, giant leeches, flying crabs-and several beautiful girlfriends who insisted that he stop this nonsense and marry them. Albert Podell's Around the World in 50 Years is a remarkable and meaningful tale of quiet courage, dogged persistence, undying determination, and an uncanny ability to extricate himself from one perilous situation after another-and return with some of the most memorable, frightening, and hilarious adventure stories you have ever read.

Today we are living longer than ever before, and a few of us can expect to live to 100 or more. But many people feel that they will inevitably suffer the diseases of old age in their final years. Pharmaceutical companies have spent billions of dollars trying to find a cure for the "diseases of aging"—they may have found ways to stem some of the symptoms, but they have yet to find a panacea. Yet there are places in the world where, all along, people have commonly lived to 100 or more without suffering so much as a headache. How do they do it? The answer is simple: through sound dietary habits and balanced, healthy lifestyles. The 50 Secrets of the World's Longest Living People looks at the nutrition and lifestyle mores of the world's five most remarkable longevity hotspots—Okinawa, Japan; Bama, China; Campodimele, Italy; Symi, Greece; and Hunza, Pakistan—and explains how we too can incorporate the wisdom of these people into our everyday lives. It offers each of the secrets in detail, provides delicious, authentic recipes, and outlines a simple-to-master plan for putting it all together and living your best, and longest, life.

In *Bright of the Sky*, Kay Kenyon introduced a milieu unique in science fiction and fantasy: The Entire, a five-armed radial universe that exists in a dimension without stars and planets and is parallel to our own universe. Stretched over The Entire is a lid of plasma, called the bright, which ebbs and flows, bringing day and twilight. Under the vast canopy of the bright live many galactic species, copied from our own universe. Former star pilot Titus Quinn loves The Entire, but now he must risk annihilating it by destroying the fortress of Ahnenhoon. To sustain a faltering Entire, Ahnenhoon's great engine will soon reach through the brane separating the universes and consume our own universe in a concentrated ball of fire. Quinn sets off on a journey across The Entire armed with the nan, a small ankle bracelet containing nanoscale military technology that can reduce Ahnenhoon and its deadly engine to chaos. He must pursue his mission even though his wife is held prisoner in Ahnenhoon and his own daughter has sent the assassin MoTi to hunt him down. As he traverses the galactic distances of The Entire, he learns more of the secrets of its geography, its fragile storm walls, its eons-long history, and the factions that contend for dominance. One of these factions is led by his daughter, who though young and a slave, has at her command a transforming and revolutionary power. As Quinn wrestles with looming disaster and approaches the fabled concentric rings of Ahnenhoon's defenses, he learns that in the Entire, nothing is what it appears. Its denizens are all harboring secrets, and the greatest of these is the nature of the Entire itself.

Trees are one of humanity's most constant and most varied companions. From India's sacred banyan tree to the fragrant cedar of Lebanon, they offer us sanctuary and inspiration—not to mention the raw materials for everything from aspirin to maple syrup. In *Around the World in 80 Trees*, expert Jonathan Drori uses plant science to illuminate how trees play a role in every part of human life, from the romantic to the regrettable. Stops on the trip include the lime trees of Berlin's Unter den Linden boulevard, which intoxicate amorous Germans and hungry bees alike, the swankiest streets in nineteenth-century London, which were paved with Australian eucalyptus wood, and the redwood forests of California, where the secret to the trees' soaring heights can be found in the tiniest drops of water. Each of these strange and true tales—populated by self-mummifying monks, tree-climbing goats and ever-so-slightly radioactive nuts—is illustrated by Lucille Clerc, taking the reader on a journey that is as informative as it is beautiful.

PMPope brings his unique voice to the printed word. A prolific multimedia poet, his work finds its audience via art and word collaborations, video and audio tentacles reaching all around the word. The currents of history run deep and often unseen beneath the everyday ripple of events. But now and again the current rises to the surface, and the events of a single day change the world for ever. Such events are the subject of *Days that Changed the World*. Some of the fifty days described here mark the end of an era; others the start of something new. Many are the dates of bloody battles or murders; of momentous decisions or breathtaking discoveries. All are remembered as powerful symbols of their time whose legacy continues to reverberate around the world. The book begins almost 2500 years ago on 28 September 480 BC, when the Athenian navy destroyed the Persian invasion fleet in the Bay of Salamis. Had the Persians won we might never have heard the names of Plato, Aristotle or Alexander, nor recognize the word democracy. Taking in

the assassination of Julius Caesar, the fall of Constantinople, the first day of the Somme, Nelson Mandela's release from prison and concluding with 11 September 2001 and the destruction of New York's Twin Towers, Days that Changed the World is a unique and fascinating way to tell the story of world history.

All Around the World is a charmingly illustrated journey of discovery through different environments, including the ocean, forest, jungle, desert, and Arctic. Each is shown in a giant fold-out panorama, ready to be populated with the four hundred reusable animal stickers that bring the landscapes to life. On the reverse side of the panoramas are large outline pictures of animals to complete. When finished, the panoramas can be detached and hung on the wall or left in the book to be used again. With eight large fold-out scenes and hundreds of charming reusable stickers, this book lets young children discover a whole new world of adventure and fun and make it their very own.

Around the World in 50 Years My Adventure to Every Country on Earth Macmillan

Sixteen-year-old Max and 10-year-old Tessa were fully prepared for another horrible summer vacation. While they always hoped to go somewhere fun like Disney World or Universal Studios, they usually went somewhere weird and cheap that their father, former boy bander Don Masters, found in an ad in a truck stop coupon magazine. But this year was different. Where they went couldn't be found on any map or in any truck stop coupon book. They passed through a portal to a place called Turtle Island, an alternate version of America that diverged from our history before the pilgrims landed at Plymouth Rock. It was there where they met world famous action movie star Jordie Paine -- star of such films as I Plan to Kill You Now and the sequel, I Plan to Kill You Now, Too, the ninja film, Chuck Butcher: Sword Wielding Jackal, as well as the light-hearted romp, Harry Hinklehoffer and the Giant Dancing Toad of East Nebraska -- who would be their guide in this strange new world. Jordie, they later learned, brought the Masters family to Turtle Island for a very specific reason. Because they look just like the ruthless first family of Turtle Island, the Masters are pawns in a coup to overthrow the dictator. But things don't go as planned and the Masters wind up in the Survival Games, Turtle Island's national pastime/system of justice where criminals competitors, or crimpetitors, compete for their freedom. In this scifi comedy, the stakes are very simple -- if they win, they rule, if they lose, they must suffer the consequences.

Acclaim: "The language is understated, but quietly beautiful, and I find myself invested in Jabonkah as she's portrayed on the page, not only because of what happens to her, but because of her view of the world, sometimes sweet and sometimes shrewd, and always strong." Rebecca, agent "The story is compelling and the writing is extremely strong--some of the metaphors are wonderfully original. Moreover, the author manages to capture the child's voice perfectly." Valerie, professor Description: Jabonkah Sackey's only desire in life was to be like her mother and to be left alone. However, being born deep in the African bush in 1948, her desires didn't really matter. Cursed with an abusive father, Jabonkah was saddled with the plans he had for her. Instead of being a "stupid bush woman" like her mother, she was going to learn to obey. But after repeatedly disappointing and rebelling against her father, he sets forth on a rampage targeting her mother and nearly beats her to death. After stepping in to save her mother and scalding her father with boiling water in the skirmish, Jabonkah's fate is unfortunately sealed. She is sent to the Society as punishment, where women from her own tribe perform the ritual of female circumcision. Six weeks later, Jabonkah returns home to the continued beatings until she is eventually disowned and sent away to live with a missionary by the name of Mother Stevens. Unfortunately, it's with Mother Stevens that her real struggle begins. Will Jabonkah escape the oppression and misery that is ruling her life, or will she succumb to her depression? Set against the harsh setting of mid-century Africa, Driving the Birds takes readers on a journey from small villages in Liberia to African missions, and eventually the United States. With this particular backdrop, Jabonkah's story brings many issues to light that affect countless women around the world. By documenting the horrible genital mutilation that she suffers in detail, Driving the Birds aims to bring about further awareness to an issue that is still prevalent today. Though the subject matter can be intense and discouraging at times, Jabonkah uses her faith and an uncommon personal resiliency to keep the story from setting into a despondent manner. With true personal freedom as her goal, Jabonkah is able to overcome numerous obstacles and a lifetime of hardships in route to achieving her dreams and ensuring her happiness. Driving the Birds by Russell Traughber is the uplifting true story of one woman's courageous journey from a small village in Liberia to the freedom that America offers. With unmistakable charm, unwavering determination, and a truly unique worldview, Jabonkah enthralls readers with each passing chapter. Her personal journey and repeated injustices are equal parts heartbreaking and infuriating. From repeated abuses at the hands of others and the subjection to female genital mutilation, Jabonkah's plight provides a window to the sufferings of less fortunate women around the world. However, where parts of her story enrage and discourage, it's her spirit and determination that ultimately leave readers feeling like they have taken part in Jabonkah's triumphs as well.

This rich collection of biographies of African men and women adds a crucial human dimension to our understanding of the continent's tumultuous history since 1800. They coped with upheavals such as the Atlantic slave trade, the absorption of smaller societies by larger ones, and growing European intrusion and conquest. More recently, they were actors who participated in the changes and challenges of independence, including dictatorship, economic boom and bust, internal conflict, and, for some, migration from their homeland. Their lives demonstrate that individual women and men can and do indeed "make history."

Like lots of college grads, Daniel Seddiqui was having a hard time finding a job. But despite more than forty rejections, he knew opportunities had to exist. So he set out on an extraordinary quest: fifty jobs in fifty states in fifty weeks. And not just any jobs—he chose professions that reflected the culture and economy of each state. Working as everything from a cheesemaker in Wisconsin, a border patrol agent in Arizona, and a meatpacker in Kansas to a lobsterman in Maine, a surfing instructor in Hawaii, and a football coach in Alabama, Daniel chronicles how he adapted to the wildly differing people, cultures, and environments. From one week to the next he had no idea exactly what his duties would be, where he'd be sleeping, what he'd be eating, or how he'd be received. He became a roving news item, appearing on CNN, Fox News, World News Tonight, MSNBC, and the Today show—which was good preparation for his stint as a television weatherman. Tackling challenge after challenge—overcoming anxiety about working four miles underground in a West Virginia coal mine, learning to walk on six-foot stilts (in a full Egyptian king costume) at a Florida amusement park, racing the clock as a pit-crew member at an Indiana racetrack—Daniel completed his journey a changed man. In this book he shares stories about the people he met, reveals the lessons he learned, and explains the five principles that kept him going. This inspired collection of more than 50 authentic yet easy-to-follow recipes will enable you to enjoy freshly baked buns at home time and time again. From every corner of the world, here you'll find recipes both familiar and new. Legend has it that buns were developed to enable poor people to buy bread with dignity. Dignity for the buyer—who could not afford a loaf and for whom it was either humiliating or impossible to buy just a slice or two—and dignity for the bun—which was sold with its crust and crumb beautifully intact, a small peice of perfection to be shared as graciously as a big loaf. Whatever their history, we can find buns in just about every country in the world. There are sweet buns and savory buns; steamed buns and baked buns; stuffed buns and plain buns; buns for special occasions and buns for every day. *The Book of Buns* takes you on a journey around the world to explore bun culture. The clear recipes are often accompanied by step-by-step photography to make it both fun and easy to bake buns for family and friends to enjoy.

The classic travel narrative of a Don Quixote-of-the-seas – the first man to circumnavigate the world singlehandedly. Joshua Slocum's autobiographical account of his solo trip around the world is one of the most remarkable – and entertaining – travel narratives of all time. Setting off alone from Boston aboard the thirty-six-foot wooden sloop *Spray* in April 1895, Captain Slocum went on to join the ranks of the world's great circumnavigators – Magellan, Drake, and Cook. But by circling the globe without crew or consorts, Slocum would outdo them all: his three-year solo voyage of more than 46,000 miles remains unmatched in maritime history for its courage, skill, and determination. *Sailing Alone around the World* recounts Slocum's wonderful adventures: hair-raising encounters with pirates off Gibraltar and savage Indians in Tierra del Fuego; raging tempests and treacherous coral reefs; flying fish for breakfast in the Pacific; and a hilarious visit with fellow explorer Henry Stanley in South Africa. A century later, Slocum's incomparable book endures as one of the greatest narratives of adventure ever written. The motorcycle adventurer and author of *Two Wheels Through Terror* delivers a "spectacular and gripping read" of his solo journey around the world (*Friction Zone*). In November of 2001, on a motorcycle trip to the tip of South America, Glen Heggstad was kidnapped at gunpoint by Colombian rebels and held captive for five weeks. Yet even after his traumatic incarceration, Glen did what few others would—finished his trip. Three years later, frustrated by the climate of fear in a media-saturated world and the resulting stranglehold of self-imposed security in the United States, Glen decided to look for truth

on his own terms—on the back of his motorcycle. Starting in Japan, Glen wound his way through Siberia, Mongolia, Europe, the Middle East, Southeast Asia, and Africa, stopping in over thirty countries. This was not a tourist's bus tour—Glen battled extreme temperatures, knee-deep mud, bureaucratic roadblocks, health problems, and loneliness, but these problems faded to insignificance with the thrill of the open road and the smiling receptions he received from locals and fellow bikers at every turn. With *One More Day Everywhere*, readers can share Glen Heggstad's vision of a world ungoverned by fear and, like Glen, embrace each experience, with one eye always on the horizon. "If anyone knows determination, perseverance, agony and terror it is Glen Heggstad. And that motorcycles are fun!" —Jimmy Lewis, editor, *Cycle World Magazine* "This is a story of extreme travel at its finest." —*RoadRunner* "Heggstad manages to illustrate the joys and hardships and benefits and drawbacks of two-wheeled global travel to some of the most difficult places on the planet." —*Friction Zone*
