A massive research effort by leading professional tubists in 36 countries presents a comprehensive picture of the tuba. The "baby" of the orchestra, the tuba was "born" in 1835. The first major solo compositions for the instrument appeared only in the 1950s, but in the next forty years the body of literature for the tuba increased at an amazing pace. The first several chapters of The Tuba Source Book identify that literature by ensemble type. They provide bibliographic data and descriptions of 1,900 pieces for tuba and keyboard, 234 for tuba and band, 1,056 for tuba ensemble, 106 for tuba and strings, and 258 for unaccompanied tuba, as well as hundreds of works in other categories and 456 methods and studies. The chapter entitled "Recommended Basic Repertoire" is subdivided by level, from high school through professional, and "Orchestral Excerpts," in addition to listing 146 works that every tubist should know, includes advice on how to audition. The Tuba Source Book also offers an extensive discography (400 entries), a very complete bibliography, biographies of professional tubists, career advice, guidelines for composing and arranging music for the tuba, and lists of instrument builders and sources of tuba equipment. This encyclopedic volume fills a need for tubists at all levels of study and accomplishment. It is invaluable for composers, music educators, conductors, administrators, librarians, historians, and everyone who enjoys the art of tuba performance.

Edward Kleinhammer, author of The Art of Trombone Playing, joined the Civic Orchestra, the training orchestra for the Chicago Symphony, in 1940. After two years he was accepted by the Chicago Symphony Orchestra, where he remained for his entire career until he retired in 1985. He has played under every Chicago Symphony Orchestra conductor, covering from Frederick Stock to Sir Georg Solti. In 1986 he received the Distinguished Service Award from the

International Trombone Association. While Kleinhammer states that his book "is written for the student who has no teacher available or for the teacher seeking more fundamental knowledge of the field of trombone playing," he emphasizes that it is also "for the trombonist (in any stage of proficiency) who is always a student."

In *Giacomo Puccini: A Discography*, librarian and music historian Roger Flury brings together information on nearly 10,000 recordings of Giacomo Puccini's music. Flury looks at each of Puccini's operas chronologically from *Le Villi* to *Turandot*, followed by sections on Puccini's instrumental, chamber, orchestral, and solo vocal works. Details of each complete opera are listed by recording date, followed by excerpts in the order in which they occur in the opera. Recordings of each aria are listed alphabetically by the name of the artist. For ease of use, Flury establishes as the main criteria for inclusion those recordings assigned a commercial issue number and available for purchase, ensuring that this audio recording history of Puccini is free of gaps.

For ten days in March 1971, the Rolling Stones traveled by train and bus to play two shows a night in many of the small theaters and town halls where their careers began. No backstage passes. No security. No sound checks or rehearsals. And only one journalist allowed. That journalist now delivers a full-length account of this landmark event, which marked the end of the first chapter of the Stones' extraordinary career. *Ain't It Time We Said Goodbye* is also the story of two artists on the precipice of mega stardom, power, and destruction. For Mick and Keith, and all those who traveled with them, the farewell tour of England was the end of the innocence. Based on Robert Greenfield's first-hand account and new interviews with many of the key players, this is a vibrant, thrilling look at the way it once was for the Rolling Stones and their fans—and the way it would never be again.

Treasury of 63 works for keyboard by major French composer, harmonic innovator. Published between 1706 and 1741, they are reprinted in this volume from the authoritative edition edited by Camille Saint-Saëns. Included are such well-

known pieces as: "Musette en Rondeau," "Tambourin," "Les Niais de Sologne," "Les Cyclopes" and "La Poule." This book is the first to examine the brilliant gathering of composers, conductors, and other musicians who fled Nazi Germany and arrived in the Los Angeles area. Musicologist Dorothy Lamb Crawford looks closely at the lives, creative work, and influence of sixteen performers, fourteen composers, and one opera stage director, who joined this immense migration beginning in the 1930s. Some in this group were famous when they fled Europe, others would gain recognition in the young musical culture of Los Angeles, and still others struggled to establish themselves in an environment often resistant to musical innovation. Emphasizing individual voices, Crawford presents short portraits of Igor Stravinsky, Arnold Schoenberg, and the other musicians while also considering their influence as a group—in the film industry, in music institutions in and around Los Angeles, and as teachers who trained the next generation. The book reveals a uniquely vibrant era when Southern California became a hub of unprecedented musical talent.
