This timely collection brings together original explorations of the COVID-19 pandemic and its wide-ranging, global effects on human rights. The contributors argue that a human rights perspective is necessary to understand the pervasive consequences of the crisis, while focusing attention on those being left behind and providing a necessary framework for the effort to 'build back better'. Expert contributors to this volume address interconnections between the COVID-19 crisis and human rights to equality and non-discrimination, including historical responses to pandemics, populism and authoritarianism, and the rights to health, information, water and the environment. Highlighting the dangerous potential for derogations from human rights, authors further scrutinize the human rights compliance of new legislation and policies in relation to issues such as privacy, protection of persons with disabilities, freedom of expression, and access to medicines. Acknowledging the pandemic as a defining moment for human rights, the volume proposes a post-crisis human rights agenda to engage civil society and government at all levels in concrete measures to roll back increasing inequality. With rich examples, new thinking, and provocative analyses of human rights, COVID-19, pandemics, crises, and inequality, this book will be of key interest to scholars, students, and practitioners in all areas of human rights, global governance, and public health, as well as others who are ready to embark on an exploration of these complex challenges.

This third edition of the "Encyclopedia" examines the theoretical and practical aspects of law enforcement, discussing past and present practices.

In *Fixing Families*, Jennifer Reich takes us inside Child Protective Services for an in-depth look at the entire organization. With her characteristic brilliance, grace and radical audacity, Angela Y. Davis has put the case for the latest abolition movement in American life: the abolition of the prison. As she quite correctly notes, American life is replete with abolition movements, and when they were engaged in these struggles, their chances of success seemed almost unthinkable. For generations of Americans, the abolition of slavery was sheerest illusion. Similarly, the entrenched system of racial segregation seemed to last forever, and generations lived in the midst of the practice, with few predicting its passage from custom. The brutal, exploitative (dare one say lucrative?) convict-lease system that succeeded formal slavery reaped millions to southern jurisdictions (and untold miseries for tens of thousands of men, and women). Few predicted its passing from the American penal landscape. Davis expertly argues how social movements transformed these social, political and cultural institutions, and made such practices untenable. In *Are Prisons Obsolete?*, Professor Davis seeks to illustrate that the time for the prison is approaching an end. She argues forthrightly for "decarceration", and argues for the transformation of the society as a whole.

From 1910 to 1919, New Orleans suffered at the hands of a serial killer. The story has been the subject of short stories, novels, and the television series American Horror Story. But the full story of gruesome murders, accused innocents, public panic, the New Orleans Mafia, and a mysterious killer has never been written—until now. The Axeman broke into the homes of Italian grocers in the dead of night, leaving his victims in a pool of blood. Iorlando Jordano and his son Frank were wrongly accused of one of those murders; corrupt officials convicted them with coerced testimony. Miriam C. Davis here expertly tells the story of the search for the Axeman and of the exoneration of the Jordanos. She proves that the person suspected of being the Axeman was not the killer—and that the Axeman continued killing after leaving New Orleans in 1919.

The true story of a killer nurse whose crimes were hidden by a hospital for years. It's 1980, and Genevieve Jones is working the 3 to 11 PM shift in the pediatric ICU in San Antonio's county hospital. As the weeks go by, infants under her care begin experiencing unexpected complications—and dying—in alarming numbers, prompting rumors that there is a murderer among the staff. Her eight-hour shift would come to be called "the death shift." This strange epidemic would continue unabated for more than a year, before Jones is quietly sent off—with a good recommendation—to a rural pediatric clinic. There, eight children under her care mysteriously stopped breathing—and a 15-month-old baby girl died. In May 1984, Jones was finally arrested, leading to a trial that revealed not only her deeply disturbed mind and a willingness to kill, but a desire to play "God" with the lives of the children under her care. More shocking still was that the hospital had shredded records and remained silent about Jones' horrific deeds, obscuring the full extent of her spree and prompting grieving parents to ask: Why? Elkind chronicles Jones' rampage, her trials, and the chilling aftermath of one of the most horrific crimes in America, and turns his piercing gaze onto those responsible for its cover-up. It is a tale with special relevance today, as prosecutors, distraught parents, and victims' advocates struggle to keep Jones behind bars. "A horrifying true-life medical thriller..."—Publishers Weekly "Gripping...A remarkable journalistic achievement!"—Newsweek "Murder, madness, and medicine...superb!"—Library Journal "Shocking...true crime reporting at its most compelling."—Booklist

Robert Leon Davis was a respected police officer in New Orleans serving for four years until 1979-when he was arrested. He had begun his career with aspirations of being a great cop. But he was exposed to a darker side of law enforcement. While partnered with a veteran Robert first witnessed an officer violate the very laws he vowed to uphold - and shared his crime. One compromise led to another, and Davis faced arrest. From studying criminal law at Loyola University and becoming an award winning officer, Davis was a fugitive, living off the land in remote forests in America and Canada to elude capture. The church upbringing, where his grandmother made sure he learned about God and Jesus, was abandoned in anger. Through a stranger's prayer the angry atheist realised he was weary of running. He yielded his life to God, and gave himself in. When the District Attorney finally dusted off his file, what would his sentence be?

On the cold streets of Crackston, Georgia, there was only one commandant the young hustler lived by: get rich or die tryin'. While decent folks worked a 9–5 and waited on the Lord for salvation, the young took to the streets for their own deliverance. Instead of waiting for a pie in the sky, they whipped up their own pies. Cutting precise slices, they toiled daily delivering their load up and down the highway of sin, praying for profit. But their hustle did not go unanswered, as some were saved out a life of poverty , while the rest were cast into the hell of despair. Money become their salvation and fame their deliverance. In the end, what seemed as the way out was the trap that keep them enslaved. Old School: "Young blood, the game is lose-lose: you either go lose everything you got or everyone you love."

The best-selling bible of the movement to defund the police in an updated edition The massive uprising that followed the police killing of George Floyd in the summer of 2020— by some estimates the largest protests in US history—thrust the argument to defund the police to the forefront of international politics. That case had been put persuasively a few years earlier in The End of Policing by Alex Vitale, now a leading figure in the urgent public discussion over policing and racial justice. The central problem, Vitale demonstrates, is the dramatic expansion of the police role over the last forty years. Drawing on firsthand research from across the globe, he shows how the implementation of alternatives to policing—such as drug legalization, regulation, and harm reduction instead of the policing of drugs—has led to reductions in

crime, spending, and injustice. This updated edition includes a new introduction that takes stock of the renewed movement to challenge police impunity and shows how we move forward, evaluating protest, policy, and the political situation.

Named a Best Book of the Year by NPR and LitHub A fascinating and provocative new way of looking at the things we use and the spaces we inhabit, and a call to imagine a better-designed world for us all. Furniture and tools, kitchens and campuses and city streets—nearly everything human beings make and use is assistive technology, meant to bridge the gap between body and world. Yet unless, or until, a misfit between our own body and the world is acute enough to be understood as disability, we may never stop to consider—or reconsider—the hidden assumptions on which our everyday environment is built. In a series of vivid stories drawn from the lived experience of disability and the ideas and innovations that have emerged from it—from cyborg arms to customizable cardboard chairs to deaf architecture—Sara Hendren invites us to rethink the things and settings we live with. What might assistance based on the body's stunning capacity for adaptation—rather than a rigid insistence on “normalcy”—look like? Can we foster interdependent, not just independent, living? How do we creatively engineer public spaces that allow us all to navigate our common terrain? By rendering familiar objects and environments newly strange and wondrous, *What Can a Body Do?* helps us imagine a future that will better meet the extraordinary range of our collective needs and desires.

The wisdom acquired during C. T. Vivian's lifetime is generously shared in *It's In the Action*, the civil rights legend's memoir of his early life and time in the civil rights movement. Vivian worked hand-in-hand with the movement's most famous figures, including Martin Luther King Jr. and John Lewis, and his contributions were no less vital to the successes of nonviolent resistance. Bearing a foreword from Andrew Young, *It's In the Action* is an important addition to civil rights history from Vivian and co-author Steve Fiffer. C. T. Vivian's life was never defined by the discrimination and hardship he faced, although there were many instances of both throughout his lifetime. The late civil rights leader instead focused on his faith in God and his steadfast belief in nonviolence, extending these principles nationwide as a member of the Southern Christian Leadership Conference. *It's In the Action* contains Vivian's recollections, ranging from finding religion at the young age of five to his imprisonment as part of the Freedom Rides. The late civil rights leader's heart wrenching and inspiring stories from a lifetime of nonviolent activism come just in time for a new generation of activists, similarly responding to systems of injustice, violence, and oppression. *It's In the Action* is a record of a life dedicated to selflessness and morality, qualities achieved by Vivian that we can all aspire to.

Retired Air Force investigator Martin Collins is called in when Colonel Margaret Wildman and her two young children are found brutally slain, and as he wades through a morass of clues, he uncovers a deadly conspiracy leading to the highest levels of the government and the military and links between the victims and a series of fatal airline crashes. Reprint. Malcolm Gladwell, host of the podcast *Revisionist History* and author of the #1 New York Times bestseller *Outliers*, offers a powerful examination of our interactions with strangers and why they often go wrong—now with a new afterword by the author. A Best Book of the Year: The Financial Times, Bloomberg, Chicago Tribune, and Detroit Free Press How did Fidel Castro fool the CIA for a generation? Why did Neville Chamberlain think he could trust Adolf Hitler? Why are campus sexual assaults on the rise? Do television sitcoms teach us something about the way we relate to one another that isn't true? *Talking to Strangers* is a classically Gladwellian intellectual adventure, a challenging and controversial excursion through history, psychology, and scandals taken straight from the news. He revisits the deceptions of Bernie Madoff, the trial of Amanda Knox, the suicide of Sylvia Plath, the Jerry Sandusky pedophilia scandal at Penn State University, and the death of Sandra Bland—throwing our understanding of these and other stories into doubt. Something is very wrong, Gladwell argues, with the tools and strategies we use to make sense of people we don't know. And because we don't know how to talk to strangers, we are inviting conflict and misunderstanding in ways that have a profound effect on our lives and our world. In his first book since his #1 bestseller *David and Goliath*, Malcolm Gladwell has written a gripping guidebook for troubled times.

This important Research Handbook explores the nexus between human rights, poverty and inequality as a critical lens for understanding and addressing key challenges of the coming decades, including the objectives set out in the Sustainable Development Goals. The Research Handbook starts from the premise that poverty is not solely an issue of minimum income and explores the profound ways that deprivation and distributive inequality of power and capability relate to economic, social, cultural, civil and political rights.

Habeas Corpus in Wartime unearths and presents a comprehensive account of the legal and political history of habeas corpus in wartime in the Anglo-American legal tradition. The book begins by tracing the origins of the habeas privilege in English law, giving special attention to the English Habeas Corpus Act of 1679, which limited the scope of executive detention and used the machinery of the English courts to enforce its terms. It also explores the circumstances that led Parliament to invent the concept of suspension as a tool for setting aside the protections of the Habeas Corpus Act in wartime. Turning to the United States, the book highlights how the English suspension framework greatly influenced the development of early American habeas law before and after the American Revolution and during the Founding period, when the United States Constitution enshrined a habeas privilege in its Suspension Clause. The book then chronicles the story of the habeas privilege and suspension over the course of American history, giving special attention to the Civil War period. The final chapters explore how the challenges posed by modern warfare during the twentieth and twenty-first centuries have placed great strain on the previously well-settled understanding of the role of the habeas privilege and suspension in American constitutional law, particularly during World War II when the United States government detained tens of thousands of Japanese American citizens and later during the War on Terror. Throughout, the book draws upon a wealth of original and heretofore untapped historical resources to shed light on the purpose and role of the Suspension Clause in the United States Constitution, revealing all along that many of the questions that arise today regarding the scope of executive power to arrest and detain in wartime are not new ones.

From the revolutionary mind of television's legendary mad genius, a story of money, sex, greed, revenge, murder -- and reality TV The year is 2012, and as the Most Famous Television Producer in the World is walking down a wintry New York City block, he's accosted by a homeless-looking cripple who, like everyone else, insists he has the formula for the greatest TV show of all time. As it turns out, he does: Contestants will compete for one hundred million dollars. If they win, they're rich. If they lose, they face immediate on-camera execution. As the Producer begins scheming to steal the idea and revive his fading career, *The Big Question* introduces the extraordinary characters who will ultimately become the show's contestants -- a brilliantly rendered, Dickensian cast that includes the seventy-something Vera Bundle, with a taste for scotch and encyclopedias; Arthur Durch, a convicted sex offender-turned-relationship therapist; Retta Mae Wagons, a sixteen-year-old prostitute with an IQ of 170 and an ex-con-turned-Muslim fundamentalist boyfriend who doesn't appreciate her; Billy Constable, the Kentucky rube who gets off a bus in New York and promptly finds himself in trouble with the Mob; and Father Brady, the devout Catholic priest with a mortifying secret to hide at any cost. As the first episode is broadcast live in front of millions, the audience, the cast, and the crew behind the scenes do the unthinkable: they sit and watch, rapt and glassy-eyed, as the final contestant left on stage meets an unimaginable fate. To say *The Big Question* is a novel of greed and immorality would be putting it lightly. But to read this book without laughing out loud at every page would be impossible. This is more than just a funny book, though. With uncanny precision and razor-sharp wit, the inimitable Chuck Barris reveals the inconceivable lengths to which people will go for those priceless fifteen minutes, the fascination we have with the little black box in our homes -- and the horrifying deeds done in the name of entertainment.

Soon to be a Showtime documentary, *Murder in the Bayou* is a New York Times bestselling chronicle of a high-stakes investigation into the murders of eight women in a troubled Southern parish that is "part murder case, part corruption exposé, and part Louisiana noir" (New York magazine). Between 2005 and 2009, the bodies of eight women were discovered in Jennings, Louisiana, a bayou town of 10,000 in the Jefferson Davis parish. The women came to be known as the Jeff Davis 8, and local law enforcement officials were quick to pursue a serial killer theory, stirring a wave of panic across Jennings' class-divided neighborhoods. The Jeff Davis 8 had been among society's most vulnerable—impoverished, abused, and mired with mental illness. They engaged in sex work as a means of survival. And their underworld activity frequently occurred at a decrepit motel called the Boudreaux Inn. As the cases went unsolved, the community began to look inward. Rumors of police corruption and evidence tampering, of collusion between street and shield, cast the serial killer theory into doubt. But what was really going on in the humid rooms of the Boudreaux Inn? Why were crimes going unsolved and police officers being indicted? What had the eight women known? And could anything be done to stop the bloodshed? Mixing muckraking research and immersive journalism over the course of a five-year investigation, Ethan Brown reviewed thousands of pages of previously unseen homicide files to posit what happened during each woman's final hours delivering a true crime tale that is "mesmerizing" (Rolling Stone) and "explosive" (Huffington Post). "Brown is a man on a mission...he gives the victims more respectful attention than they probably got in real life" (The New York Times). "A must-read for true-crime fans" (Publishers Weekly, starred review), with a new afterword, *Murder in the Bayou* is the story of an American town buckling under the dark forces of poverty, race, and class division—and a lightning rod for justice for the daughters it lost.

In his first work of narrative nonfiction, Matthew Pearl, bestselling author of acclaimed novel *The Dante Club*, explores the little-known true story of the kidnapping of legendary pioneer Daniel Boone's daughter and the dramatic aftermath that rippled across the nation. On a quiet midsummer day in 1776, weeks after the signing of the Declaration of Independence, thirteen-year-old Jemima Boone and her friends Betsy and Fanny Callaway disappear near the Kentucky settlement of Boonesboro, the echoes of their faraway screams lingering on the air. A Cherokee-Shawnee raiding party has taken the girls as the latest salvo in the blood feud between American Indians and the colonial settlers who have decimated native lands and resources. Hanging Maw, the raiders' leader, recognizes one of the captives as Jemima Boone, daughter of Kentucky's most influential pioneers, and realizes she could be a valuable pawn in the battle to drive the colonists out of the

contested Kentucky territory for good. With Daniel Boone and his posse in pursuit, Hanging Maw devises a plan that could ultimately bring greater peace both to the tribes and the colonists. But after the girls find clever ways to create a trail of clues, the raiding party is ambushed by Boone and the rescuers in a battle with reverberations that nobody could predict. As Matthew Pearl reveals, the exciting story of Jemima Boone's kidnapping vividly illuminates the early days of America's westward expansion, and the violent and tragic clashes across cultural lines that ensue. In this enthralling narrative in the tradition of Candice Millard and David Grann, Matthew Pearl unearths a forgotten and dramatic series of events from early in the Revolutionary War that opens a window into America's transition from colony to nation, with the heavy moral costs incurred amid shocking new alliances and betrayals.

From Rodney King and "driving while black" to claims of targeting of undocumented Latino immigrants, relationships surrounding race, ethnicity, and the police have faced great challenge. *Race, Ethnicity, and Policing* includes both classic pieces and original essays that provide the reader with a comprehensive, even-handed sense of the theoretical underpinnings, methodological challenges, and existing research necessary to understand the problems associated with racial and ethnic profiling and police bias. This path-breaking volume affords a holistic approach to the topic, guiding readers through the complexity of these issues, making clear the ecological and political contexts that surround them, and laying the groundwork for future discussions. The seminal and forward-thinking twenty-two essays clearly illustrate that equitable treatment of citizens across racial and ethnic groups by police is one of the most critical components of a successful democracy, and that it is only when agents of social control are viewed as efficient, effective, and legitimate that citizens will comply with the laws that govern their society. The book includes an introduction by Robin S. Engel and contributions from leading scholars including Jeffrey A. Fagan, James J. Fyfe, Bernard E. Harcourt, Delores Jones-Brown, Ramiro Martínez, Jr., Karen F. Parker, Alex R. Piquero, Tom R. Tyler, Jerome H. Skolnick, Ronald Weitzer, and many others.
