Cahlir Decker and Bizay Donneeter had an extraordinary involvement that resulted in more than either of them ever intended. Their connection went deeper than the sexual chemistry that sizzled to life between the powerful corporate consultant and the lingerie entrepreneur. At least, that was what Biz thought until their enjoyable time together ended when she woke one morning to an empty bed and no sign of Cahilir. Biz refused to acknowledge how deeply the man had wounded her-how deeply her feelings for him had grown in the short span of time they had known each other. She was angry and hurt and leaned on a fair amount of hate to survive. Not a bad plan until she received word that her family's advertising firm was in trouble and that Cahilir was its new owner. Biz didn't have time to let fear register over the unexpected turn of events. Fear however, did eventually find its way to the forefront of her mind as did a healthy dose of suspicion. Did Cahilir know that she'd left San Diego pregnant with their child?

First published in 1951 Arnold Hauser's commanding work presents an account of the development and meaning of art from its origins in the Stone Age through to the Film Age. Exploring the interaction between art and society, Hauser effectively details social and historical movements and sketches the frameworks in which visual art is produced. This new edition provides an excellent introduction to the work of Arnold Hauser. In his general introduction to *The Social History of Art*, Jonathan Harris assesses the importance of the work for contemporary art history and visual culture. In addition, an introduction to each volume provides a synopsis of Hauser's narrative and serves as a critical guide to the text, identifying major themes, trends and arguments.

Upton Sinclair, one of America's foremost and most prolific authors, addresses the cultivation of the mind and the body in this 1922 volume. Sinclair's goal was to attempt to tell the reader how to live, how to find health, happiness and success, and how to develop fully both the mind and the body. Part One: *The Book of the Mind* covers such subjects as faith, reason, morality, and the subconscious. Part Two: *The Book of the Body* develops such subjects as errors in diet, the fasting cure, food and poisons, work and play, and diseases and their

cures .

When Vivian left town for a three-month residency, she had no idea that she'd come back to find her life turned upside down.

The casual boyfriend who'd seemed ready to commit? Changed his mind.

The job she'd loved so much? Gone.

The parents she'd assumed would be there for emotional support? Off on the adventure of their lives.

When she realizes that she's essentially homeless, jobless and boyfriend-less, Vivian knows something has to change. She needs to take charge.

Inspired by her aunt's idea that a girl has to kiss at least fifty frogs to find her prince, Vivian comes up with a plan: she's going to go on a series of first dates only, and each one must end in a kiss. She'll chronicle each date--the good, the bad and the downright unbelievable--and turn the stories into an in-depth magazine series about the realities of dating in the twenty-first century.

While none of the frogs she meets--and kisses--make her heart leap, there's a guy closer to home who definitely does . . . and despite the fact that Charlie always seems to catch Vivian at her most awkward and embarrassing moments, she can't help wondering if it's time to ditch the plan . . . and kiss just one more frog.

is a bias-free introduction for students studying the philosophy of art for the first time. Each chapter of the book begins by considering a particular work of art - from contemporary conceptual art, through literature to TV soap operas - to help students understand and explore key philosophical discussions and ideas. *Introducing Aesthetics and the Philosophy of Art* covers such topics as: definitions and the ontology of art; interpretation and intention; aesthetic properties and evaluation; emotion and the arts; art and morality; natural, environmental, and everyday aesthetics. Chapter summaries and outlines help to navigate the major topics covered, while annotated guides to further reading and 'unresolved questions' sections help to encourage and animate study and discussion beyond the text. For those seeking to master the subject this is the most complete introduction available.

Art across Time combines sound scholarship, lavish visuals, and a lively narrative to provide students with a comprehensive, accessible, and engaging introduction to Art History. Popular with majors and non-majors alike, the text offers readers more than a chronology of art by placing each work within the time-and-place context within which it was created. Encountering and interpreting a work of art in context offers the reader the richest possible experience of it. Large scale and high quality visual reproductions of artworks are often presented from multiple perspectives to enhance visual appeal and allow students to view details and elements of composition with greater ease. A thoughtful pedagogical approach helps students consider what they are viewing.

From the Fourteenth Century to the present day, and newly enhanced with the "Core Concepts" CD-ROM, volume two of "Art across Time" presents a manageable survey that emphasizes art in its cultural and social context.

A man named Jesus, whom is considered the Christ by countless people around the world to this day, lost his life at the hands of barbarians while residing in Canaan, where he devoted his life to making those around him aware they had the potential to become gods. Despite the accumulation of so many technological innovations over the past two

millennium that were supposed to ease the daily hardship of people everywhere, so more time could be devoted to pursuits that cultivate the mind, evidence indicates that the size of the Homo-sapien brain, male and female alike, has persistently decreased over this passage of time. The pain, and suffering, endured by Jesus was supposed to serve as a wake up call to the savages in his midst, and the generations to follow, that they had much to learn about what he means to be civilized, as we see amply evidence of to this very day.

From prehistory through the Fourteenth Century, volume one of Art across Time presents the most accessible survey of art history available. Unencumbered by global flashbacks and confusing concurrent narratives, Art across Time presents a manageable survey that emphasizes art in its cultural and social context.
