The Art of Money Getting P. T. Barnum - Those who really desire to attain an independence, have only to set their minds upon it, and adopt the proper means, as they do in regard to any other object which they wish to accomplish, and the thing is easily done. But however easy it may be found to make money, I have no doubt many of my hearers will agree it is the most difficult thing in the world to keep it. Yet I beg to say that perhaps more cases of failure arise from mistakes on this point than almost any other. The fact is, many people think they understand economy when they really do not. True economy consists in always making the income exceed the out-go. A penny here, and a dollar there, placed at interest, goes on accumulating, and in this way the desired result is attained. It requires some training, perhaps, to accomplish this economy, but when once used to it, you will find there is more satisfaction in rational saving than in irrational spending. If, then, sound health is the foundation of success and happiness in life, how important it is that we should study the laws of health, which is but another expression for the laws of nature! The nearer we keep to the laws of nature, the nearer we are to good health, and yet how many persons there are who pay no attention to natural laws, but absolutely transgress them, even against their own natural inclination. We ought to know that the "sin of ignorance" is never winked at in regard to the violation of nature's laws; their infraction always brings the penalty. A child may thrust its finger into the flames without knowing it will burn, and so suffers, repentance, even, will not stop the smart. Many of our ancestors knew very little about the principle of ventilation. They did not know much about oxygen, whatever other "gin" they might have been acquainted with; and consequently they built their houses with little seven-by-nine feet bedrooms, and these good old pious Puritans would lock themselves up in one of these cells, say their prayers and go to bed. In the morning they would devoutly return thanks for the "preservation of their lives," during the night, and nobody had better reason to be thankful. Probably some big crack in the window, or in the door, let in a little fresh air, and thus saved them.

Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with

deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

The book is packed with practical advice that we've heard before but need hearing again. Despite this, I struggled reading this book, because of the disconnect between what I was reading, and who Barnum was. He talks about valuing your customers, and operating with integrity, which are very good things. However, Barnum was a scam artist and hoaxer, who manipulated the people who came to see his shows. This book is written in the format of listing the golden rules for making money according to PT Barnum. There was a movie released recently called *The Greatest Showman* about PT Barnum's success. Even though the book is written from the perspective of an earlier time, the terminology was not difficult to apply to today. Before the "rules" are laid out, the introduction makes it sound simple and easy to make money. It says it's not difficult to make money and the road to wealth is plain. But it then explains that it's only easy for people who really understand economics. Examples were given of saving on many small expenses that make it feel like you are trying to save more money, when many people that do that end up spending more on one thing that is something much more expensive that they could do without. The introduction also says that some of the worst reasons people spend more money than they have are due to what can be called sinful behaviors. They want to keep up with their neighbors and be seen as successful, or they have bad habits like tobacco that cost money and ruins their health, or they drink too much that not only cost money and ruins their health but also does not let them think clearly. *The Art of Money Getting: Golden Rules for Money Making* written by P.T. Barnum, is a very noble, helpful and inspiring read, still until this day. Barnum is basically listing out the different ways he believes are helpful to not only getting but attaining money as well, while going into detail as how to do such. The way he gets his point across in the book is surprisingly relatable, often telling stories that almost anyone can relate to. His main point in regards to obtaining money is that there are a lot of ways in which one needs to be smart in how they go about and what they do with the money they receive. Barnum separates the topics in his book by stating exact phrases that coincide with what you should do with your money, such as "Avoid Debt", "Use The Best Tools", "Advertise Your Business", and "Preserve Your Integrity". It seems that in sectioning off his book in that way, he wanted to make it easier for people to find the section that best applies to the circumstance they are currently in.

"Those who really desire to attain an independence, have only to set their minds upon it, and adopt the proper means, as they do in regard to any other object which they wish to accomplish, and the thing is easily done. But however easy it may be found to make money, I have no doubt many of my hearers will agree it is the most difficult thing in the world to keep it. The road to wealth is, as Dr. Franklin truly says, "as plain as the road to the mill." It consists simply in expending less than we earn; that seems to be a very simple problem." PT Barnum

Doing well with money isn't necessarily about what you know. It's about how you behave. And behavior is hard to teach, even to really smart people. Money—investing, personal finance, and business decisions—is typically taught as a math-based field, where data and formulas tell us exactly what to do. But in the real world people don't make financial decisions on a spreadsheet. They make them at the dinner table, or in a meeting room, where personal history, your own unique view of the world, ego, pride, marketing, and odd incentives are scrambled together. In *The Psychology of Money*, award-winning author Morgan Housel shares 19 short stories exploring the strange ways people think about money and teaches you how to make better sense of one of life's most important topics.

Barnum, the great American showman of the 19th century, wrote this short book about making and keeping money. He certainly had life experiences that qualify him for the subject--he started a small newspaper in his twenties, bought and transformed a museum into a showplace for curiosities, built a circus empire that gave performances in America and Europe, promoted a performing tour of a singer, fell into debt in the 1850s and pulled himself out by lecture tours, was a mayor, and founded a hospital. The Art of Money GettingPage2Page

A self-help guide in the form of a book, P. T. Barnum's 'The Art of Money Getting; Or, Golden Rules for Making Money' was first published in the year 1880.

Racing to freedom with thousands of other refugees as Russian forces close in on their homes in East Prussia, Joana, Emilia, and Florian meet aboard the doomed Wilhelm Gustloff and are forced to trust each other in order to survive.

WINNER OF THE PULITZER PRIZE "The Goldfinch is a rarity that comes along perhaps half a dozen times per decade, a smartly written literary novel that connects with the heart as well as the mind....Donna Tartt has delivered an extraordinary work of fiction."--Stephen King, The New York Times Book Review Theo Decker, a 13-year-old New Yorker, miraculously survives an accident that kills his mother.

Abandoned by his father, Theo is taken in by the family of a wealthy friend. Bewildered by his strange new home on Park Avenue, disturbed by schoolmates who don't know how to talk to him, and tormented above all by his longing for his mother, he clings to the one thing that reminds him of her: a small, mysteriously captivating painting that ultimately draws Theo into the underworld of art. As an adult, Theo moves silkily between the drawing rooms of the rich and the dusty labyrinth of an antiques store where he works. He is alienated and in love--and at the center of a narrowing, ever more dangerous circle. The Goldfinch is a mesmerizing, stay-up-all-night and tell-all-your-friends triumph, an old-fashioned story of loss and obsession, survival and self-invention, and the ruthless machinations of fate.

P. T. Barnum, the great American showman of the 19th century, wrote this short book about making and keeping money. He certainly had life experiences that qualify him for the subject--he started a small newspaper in his twenties, bought and transformed a museum into a showplace for curiosities, built a circus empire that gave performances in America and Europe, promoted a performing tour of a singer, fell into debt in the 1850s and pulled himself out by lecture tours, was a mayor, and founded a hospital.Excerpts:"Those who really desire to attain an independence, have only to set their minds upon it, and adopt the proper means, as they do in regard to any other object which they wish to accomplish, and the thing is easily done. But however easy it may be found to make money, I have no doubt many of my hearers will agree it is the most difficult thing in the world to keep it. ... True economy consists in always making the income exceed the out-go." "Unless a man enters upon the vocation intended for him by nature, and best suited to his peculiar genius, he cannot succeed. I am glad to believe that the majority of persons do find their right vocation. Yet we see many who have mistaken their calling..."His advice is indicated by the chapter titles:DON'T MISTAKE YOUR VOCATION,SELECT THE RIGHT LOCATION,AVOID DEBT,PERSEVERE,WHATEVER YOU DO, DO IT WITH ALL YOUR MIGHT,USE THE BEST TOOLS,DON'T GET ABOVE YOUR BUSINESS,LEARN SOMETHING USEFUL,LET HOPE PREDOMINATE, BUT BE NOT TOO VISIONARY,DO NOT SCATTER YOUR POWERS,BE SYSTEMATIC,READ THE NEWSPAPERS,BEWARE OF "OUTSIDE OPERATIONS",DON'T INDORSE WITHOUT SECURITY,ADVERTISE YOUR BUSINESS,"DON'T READ THE OTHER SIDE",BE POLITE AND KIND TO YOUR CUSTOMERS,BE CHARITABLE,DON'T BLAB,PRESERVE YOUR INTEGRITY.

"Perhaps the best book by the foremost stylist of his generation" (New York Times), J. D. Salinger's Franny and Zooey collects two works of fiction about the Glass family originally published in The New Yorker. "Everything everybody does is so--I don't know--not wrong, or even mean, or even stupid necessarily. But just so tiny and meaningless and--sad-making. And the worst part is, if you go bohemian or something crazy like that, you're conforming just as much only in a different way." A novel in two halves, Franny and Zooey brilliantly captures the emotional strains and traumas of entering adulthood. It is a gleaming example of the wit, precision, and poignancy that have made J. D. Salinger one of America's most beloved writers.
