Face Value Alexander Todorov, 2017-05-30 The scientific story of first impressions—and why the snap character judgments we make from faces are irresistible but usually incorrect We make up our minds about others after seeing their faces for a fraction of a second—and these snap judgments predict all kinds of important decisions. For example, politicians who simply look more competent are more likely to win elections. Yet the character judgments we make from faces are as inaccurate as they are irresistible; in most situations, we would guess more accurately if we ignored faces. So why do we put so much stock in these widely shared impressions? What is their purpose if they are completely unreliable? In this book, Alexander Todorov, one of the world's leading researchers on the subject, answers these questions as he tells the story of the modern science of first impressions. Drawing on psychology, cognitive science, neuroscience, computer science, and other fields, this accessible and richly illustrated book describes cutting-edge research and puts it in the context of the history of efforts to read personality from faces. Todorov describes how we have evolved the ability to read basic social signals and momentary emotional states from faces, using a network of brain regions dedicated to the processing of faces. Yet contrary to the nineteenth-century pseudoscience of physiognomy and even some of today's psychologists, faces don't provide us a map to the personalities of others. Rather, the impressions we draw from faces reveal a map of our own biases and stereotypes. A fascinating scientific account of first impressions, Face Value explains why we pay so much attention to faces, why they lead us astray, and what our judgments actually tell us.

Jnana Sankalini Tantra Prajñānānanda (Paramahansa), 2006 India is a civilisation of many images a culture of many visual feasts a tradition where the visible and the palpable are as important as the oral and the occurrent, where our highest truths are embodied in our kathas and gathas our songs and stories, where our temples are not only places of worship but equally a gallery of beautiful forms and figures where myth is as important as doctrine, where ancient memories are full of

cherished narratives where mythic beings are real in many different ways and we enrich our lives by festivals which celebrate events from the lives of our mythic gods and goddesses and where knowledge is gained as much from itinerant performers as it is from learned discourses and where when the wind blows through the Pipal tree is as if we hear the hymns of the Vedas.

For the Benefit of Those Who See Rosemary Mahoney, 2014-01-14 In the tradition of Oliver Sacks's *The Island of the Colorblind*, Rosemary Mahoney tells the story of Braille Without Borders, the first school for the blind in Tibet, and of Sabriye Tenberken, the remarkable blind woman who founded the school. Fascinated and impressed by what she learned from the blind children of Tibet, Mahoney was moved to investigate further the cultural history of blindness. As part of her research, she spent three months teaching at Tenberken's international training center for blind adults in Kerala, India, an experience that reveals both the shocking oppression endured by the world's blind, as well as their great resilience, integrity, ingenuity, and strength. By living among the blind, Rosemary Mahoney enables us to see them in fascinating close up, revealing their particular quality of ease that seems to broadcast a fundamental connection to the world. Having read *For the Benefit of Those Who See*, you will never see the world in quite the same way again. In this intelligent and humane book, Rosemary Mahoney writes of people who are blind . . . She reports on their courage and gives voice, time and again, to their miraculous dignity. -- Andrew Solomon, author of *Far From the Tree*

27 Stars, 27 Gods Vic DiCara, Vraja Kishor Das, 2012-12-29 Over a decade of dedicated research! Over a year of writing and editing! With the blessings and guidance of a swami, a babaji, and a Sanskrit scholar, Vic DiCara presents you the world's most definitive, simple and completely awesome explanation of the mythology and meaning within the 27 stars of ancient Indian astrology! If you are an astrologer or a fan of astrology, you will be transformed by Vic's radically clear and straightforward explanations of Sanskrit, Vedic mythology, and mastery of intuitive symbolism. If you are a lover of India and her culture, you will delight in these deep revelations and rare expositions of familiar gods like Vishnu, not-so-familiar gods like Varuna, and nearly forgotten gods like Ajaikapat. If you are a spiritual seeker, you will discover the origin of the universe, the meaning of life, and essential clues in the eternal quest for the fountain of youth. The 160 pages of this book are abundantly replete with exact references and footnotes to satisfy the scholars among you. The book is dripping with dramatic storytelling, filled with philosophy as clear and deep as a Himalayan lake, and precisely presents the perfectly useful astrological symbolism of the divine stars. ** If there is anything Vedic and spiritual about Hindu astrology, then this is the book that can teach us about it. Vic leads us into the wonderful depths of Vedic wisdom by relating the myths connected with each of the 27 lunar mansions and their deities. Using this approach, this book goes considerably deeper than other Jyotish textbooks I have seen. Warmly recommended, even to non-astrologers! Can we hope for follow-up book about the Hindu planetary deities? - Dieter Koch, Indologist and Archaeoastronomer Co-creator of the Swiss Ephemeris Vic DiCara's exploration and definitive research on the lunar mansions brings the primordial zodiac alive with the rich symbolism and sacred stories of Indian lore. We often forget that the basis of Vedic astrology will always be the mystical mythology associated with Jyotish, the science of light. Mr. DiCara's brilliant text illuminates our path home to the divine through his deep understanding and the blessings of the gods and goddesses of ancient India - Dennis M. Harness, Ph.D. Psychologist, Writer and Vedic Astrologer **27 Stars, 27 Gods** is a fantastically deep book about the fixed stars of Vedic astrology. It is well written and well researched, and is a clear and enjoyable read! I highly recommend it for everyone from astrologers to yogis and everyone in between. - Juliana Swanson, RN ACVA Teacher, Jyotish Visharada & Kovid More than a journey through the outer universe of astrological stars, **27 Stars 27 Gods** is a journey through the driving forces of the subconscious inner

universe. By helping us identify these influences Vic DiCara helps us understand ourselves better and progress more smoothly on our life's journey. 27 Stars 27 Gods can be a reference book in the hands of an experienced astrologer, but it is also a self improvement tool for any reader interested in exploring life in depth. It presents symbols, mythology, ancient storytelling and divine lila in language that immediately catches one's interest and speaks to us like a friend - never prescriptive, but always revealing our opportunities. Let me congratulate Vic on this unique book. Unlike most books in the spiritual market, this is not at all a copy of a copy of a copy. It is an outstanding new addition to our knowledge, written with an inspired pen of intensity and wit. - Sripad Sacinandana Swami Vaishnava Guru & Sanyassi
