

Astrology A Science Or Myth

All old cities have their secrets. Early morning, August 1882. Inspector Aloysius Allaway is awoken and brought into the investigation of a strangely dressed young woman found in King's Chapel Graveyard while one hundred and twenty-eight years later rookie Detective Shiloh Amsel finds a mummified human heart. Two different crimes, connected by Echo Cross, Boston's most closely kept secret. A hidden neighborhood, refuge of fae and supernatural beings, becomes the center of a conspiracy linking both detectives to a dark world of cults, conspiracy, and curious rifts in time.

Offers a critical look at the claims made for astrology, discusses the reasons for its popularity, and evaluates the predictions of astrologers

Enter a new dimension of spiritual self-discovery when you probe the mythic archetypes represented in your astrological birth chart. Myth has always been closely linked with astrology. Experience these myths and gain a deeper perspective on your eternal self. Learn how the characteristics of the gods developed into the meanings associated with particular planets and signs. Look deeply into your own personal myths, and enjoy a living connection to the world of the deities within you. When you finally stand in the presence of an important archetype (through the techniques of dreamwork, symbolic amplification, or active imagination described in the book), the god or goddess will have something to tell you.

From a sentient space ship lost in deep space to a man whose hatred of robots risks tearing his family apart, the characters in this collection of short stories will stay with you long after you've turned the last page. Discover the future face of human trafficking through the eyes of a little girl, follow an ancient tribe's shaman as he embarks on a journey to save his people, or share in an astronaut's final moments as an alien growth takes over his body; these are just some of the thrilling adventures packed into Infinite Science Fiction One. Infinite Science Fiction is intended to be a long-running series of anthologies. We aim to collect some of the best science fiction stories from all over the world. We will be back. # TABLE OF CONTENTS: Introduction by Dany G. Zuwen - "REAL" by Janka Hobbs - "BY THE NUMBERS" by Tim Major - "TIN SOUL" by Elizabeth Bannon - "SIX MINUTES" by P. Anthony Ramanauskas - "MATCHMAKER" by John Walters - "THE WEDDING" by Nick Hilbourn - "SLOW" by Jay Wilburn - "GOSPEL OF" by Rebecca Ann Jordan - "THE SILENT DEAD" by Dan Devine - "NOTHING BESIDE REMAINS" by Matthew S. Dent - "THE NIGHT WITH STARS" by William Ledbetter - "BUTTERFLIES" by Doug Tidwell - "MESSAGE OF WAR" by Michaele Jordan - "ROLLING BY IN THE MOONLIGHT" by Liam Nicholas Pezzano - "INFINITY" by J.B. Rockwell

The Earth is at a crossroads. Adrian Miller, one-time ruler of the modern world, reviled by many, is presumed dead. But in truth, he is quite lost, trapped on an alien world. Now finding himself with a second chance, he takes the opportunity to try and reconcile with his past, build a new future. But it soon becomes apparent that far more than his conscience is at stake if he can't. Henry Forman, beloved hero and brilliant engineer, has his new life with the woman he loves ripped swiftly out from under him before it begins. A crisis of unprecedented scale emerges. He must rise to face this challenge, as there aren't many others who will. And

yet, he doubts that he can do enough to make a difference this time. Both must race against the clock if they are to rediscover who they really are, and save all of humanity from a terrible fate. Destiny may have stitched their lives in place, but strings can sometimes unravel.

The way mankind has responded to the dark sky throughout history has determined humanity's scientific - and cultural - progress. In this way, astronomy is in some way connected to everything. This fascinating theme is explored in *Dark Sky Legacy*. George Reed examines the powerful influence of the cosmos on cultural and societal development, reviewing mankind's historical propensity for projecting human experience into a cosmic framework and the centuries-old relationship between astronomy and astrology, the result of which is the emergence of the age of science. Since then, he writes, the purpose of astronomy has been to observe celestial objects for the advancement of scientific knowledge, while astrology deals only in the possibility that celestial bodies influence events on Earth. Reed asserts that the movement away from an inward-looking, meaningful cosmos toward an outward-gazing, impersonal one is a shift that has had enormous repercussions in every aspect of human life. He points out that astrology provides a scheme in which the believer is an integral component of an animistic, cyclical universe. Conversely, the pursuit of science and astronomy is a mechanistic, linear activity, which seeks extrinsic answers in terms of precise relationships between sense perceptions. *Dark Sky Legacy* probes the divergent approaches to the universe that compel individuals and cultures to pursue astrology or astronomy, the intuitive or the analytical. Blending modern science, ancient science, mythology, history, literature, and naked-eye astronomy, and spiced with fascinating detail about astronomy, astrology, celestial mythology, and calendar development, the book is an engrossing study of the profound impact of mankind's relationship with the universe. "Stunningly brilliant book.... a treasure trove of eminently useful...lore.... You don't even have to be [an astrologer] to experiment with these techniques.... One of the most exciting astrology books I've seen in years." Review, *The Mountain Astrologer*, Linda Johnsen, reviewer. The Vedic tradition of knowledge is actually a spiritual technology. Over millennia the sages of India have understood how to tweak the energy systems we live in so our lives can function better. Most visits to Indian astrologers will include costly recommendations for life "remedies." This book offers prescriptive recommendations for free. Having off-balance energy systems in your life is like grocery shopping using a cart with a wobbly wheel. You spend so much effort avoiding crashes that you forget half your list. When our lives are off-balance, we forget our goals. *VEDIC SECRETS TO HAPPINESS* allows each of us to assess the specific energy systems that need balancing in our own lives and offers many free and inexpensive practical activities that enhance the good stuff and fix problems. From improving moods to saving the life of a micro-preemie baby, these remedies apply to every arena of life. *VEDIC SECRETS TO HAPPINESS* is the product of Anne's two decades of experience using the remedial techniques of Jyotish (Vedic Astrology). The result is a unique and cross-cultural compendium of time-tested life-improvement activities which can be used by anyone, with or without knowledge of astrology. 292 pages of text, including examples, self-assessment tools, detailed activity sheets, appendices and index to help you get started immediately.

An award-winning professor takes readers on a guided tour of the stunning celestial discoveries of past cultures. Interweaving the

astronomy, mythology, and anthropology of ancient peoples, Aveni shows how to discover the harmony between their beliefs and their study of the sky through naked-eye observations. From CHAPTER ONE: "My tales of Venus and Mars, squash and corn, are designed to entice the reader away from some of the widely held notions about the discovery and exploration of nature that are ingrained in modern culture. I want us to walk some worthwhile paths that are not so well trod."

Considered By Some As Science While By Others A Mere Blind Faith, Astrology Is A Complex Subject That Needs To Be Studied In Proper Perspective. In The Present Book, Astrology : A Science Or Myth, An Attempt Has Been Made To Unearth The Actual Basis Of The Astrological Principles Formulated By Our Ancient Sages, On Which The Whole Structure Of Astrology Is Erected, And To Blend The Primitive Knowledge With The Modern Concepts Related To Universe And Solar System. Thus, The Book Aims At Making The Astrological Principles Scientifically Logical And More Useful To The Mankind. All The Basic Astrological Principles Relating To Lord, Friendship, Aspect, Retrograde, Set, Exalted, Mool, Trikon, Vinshottary Periodicity, Ascendant, Forecast, Etc., Alongwith Review Of Krishnamurti System Have Been Studied In Depth In The Light Of Modern Concepts Of Astronomy. A Proper Knowledge Of The Effect Of Ayanansh And Also Other Planetary Impacts Paves The Way For Healthy Development Of The Society And Enables One To Mould His Destiny. The Present Book Would Prove A Great Help In Acquiring Such Knowledge. The Language Of The Book Has Been Deliberately Kept Simple So That Even An Average Reader Would Able To Understand It. The Lucid Style And The Well-Presented Diagrams Provided In The Book Make It All The More Accessible. It Is An Ideal Book For All Those Who Want To Enhance Their Knowledge Of Stars. The Students As Well As Teachers Of Astrology Will Find It Highly Informative And Useful. The Book Will Definitely Inspire The Learned Astrologers To Come Forward With New Research In The Field For Greater Benefit Of Human Civilisation.

When a blast strikes the moons of Cancer, killing thousands of citizens, Rhoma Grace must convince twelve worlds to unite as one against Ophiuchus, the exiled thirteenth Guardian of Zodiac legend, who has returned to exact his revenge. A Spectacular Enhancement to the Skill System Mythic Skills introduces a system of skill exploits that take the basic tasks your skills allow you to perform and dials them up to amazing levels. In addition, every skill in the Pathfinder Roleplaying Game Core Rulebook also gets brand-new skill exploits, as well as greater exploits that only the most skilled masters would even attempt. This book contains rules for using these enhanced skills with mythic characters but also provides an alternative system for use in non-mythic Pathfinder campaigns! This system allows your characters to focus on their skills as a key part of their character construction and to invest more of their character's abilities in their character itself, rather than the character's gear or magical tools. You can use these rules generally with mythic characters, allowing them to attempt all manner of skill-based exploits, or you can limit the ability to pull off these amazing skill stunts

to those mythic characters that have really invested in making their skills a key part of their character's identity. The mythic rules offer an opportunity to magnify what makes a character special, and the skills they choose to hone as part of their background narrative and throughout the course of the campaign should be just as important in defining them as their marvelous magic and fabulous feats. With Mythic Skills in your hands, your skills will be just as spectacular!"

In the not too distant future, an ancient bacterium is discovered by a group of scientists in the depths of the Amazon River basin. Found to have miraculous healing powers on the human brain, it fills the research team, led by noted Neurologist Dr. Lemuel Sanderson, with tremendous hope. That is until something goes terribly wrong. An unknown force is creating an army of undead bent on the destruction of the human race. Dr. Sanderson, with the assistance of an eccentric billionaire, sets out to track down one of his former test subjects. One he firmly believes holds the key to putting an end to this nightmare. Major Charles "Butch" Bradley has been entrusted with the evacuation of Washington D.C. Along the way he rescues a group of college students, a mother and her two children, and a stubborn outdoorsman with a penchant for blowing things up. He is now responsible for their safety as he and his men navigate this dangerous new world, looking for a safe haven. As events unfold, the Major and Dr. Sanderson find themselves on a collision course whose outcome may determine the fate of humanity.

Tapping into the political power of magic and astrology for social, community, and personal transformation. In a cross-cultural approach to understanding astrology as a magical language, Alice Sparkly Kat unmask the political power of astrology, showing how it can be channeled as a force for collective healing and liberation. Too often, magic and astrology are divorced from their potency and cultural contexts: co-opted by neoliberalism, used as a force of oppression, or distilled beyond recognition into applications that belie their individual and collective power. By looking at the symbolic and etymological histories of the sun, moon, Saturn, Venus, Mercury, Mars, and Jupiter, we can trace and understand the politics of magic--and challenge our own practices, interrogate our truths, and reshape our institutions to build better frameworks for communities of care. Fearless, radical, and fresh, Sparkly Kat's Postcolonial Astrology ushers in a new wave of astrology revival, refusing to apologize for its magickism and connecting its power to the spirituality and politics we need now. Intersectional, inclusive, and geared towards queer and POC communities, it uses our historical and collective constructs of the planets, sun, and moon to re-chart our subconscious history, redefine the body in the world, and assert our politics of the personal, in astrology and all things.

Life in lower class as offspring of a notorious thief was simple for the Quartar daughters until accidental mishaps with the other classes of society turn their dirt poor lives around for worse and better. Eight young women are taken from the slums into the high class world they never understood only at first to find betrayal, suffering, scandal, revenge and

corruption. Then, before they know it they are wrapped in the grandest scandal their country of Galli has ever seen. The kingdom of Cretaine is trying to overthrow the corrupted kingdom of Galli. The Quartar family must betray their world in order to save Galli from a brutal civil war.

Holl, Keith Doyle's best friend, has finally tied the knot with his beloved, Maura in the Little Folks' new home, Hollow Tree Farm. Keith has good news of his own: he has started on an internship as a copywriter with a Chicago advertising agency, coming up with slogans and designs for new products, but the project he is really enthusiastic over is chasing air sprites in a hot air balloon. Unfortunately, one of the agency's client businesses is using the Little Folks' land as a dump for toxic waste. Holl's young cousin Dola sees them do it, but they see her, too. To prevent anyone else from finding out, then men kidnap her and Holl and Maura's new baby, Asrai. All of the Little Folk are called in to hunt for them. Keith reaches out to the new and wonderful air creatures he's found in hopes of bringing the baby and her brave guardian back to the farm.

When ancient gods ruled and Druids kept Faith alive, the Celts thrived as a democratic, matriarchal society. Then savage Roman soldiers swept across Europe, killing and enslaving. The Celts did not succumb without a fight. Their Old Ways survived centuries of ruthless domain until another menace loomed: a tortured god worshiped in cold stone buildings. The sacred shores of Avalon began to drift away, the mists threatened to hide the island from mortal eyes forever. Against the bleak backdrop of war, the gorgeous Scottish Highlands stood tall, sheltering its inhabitants from greedy invaders. Yet the reach of the eagle banners was long and the highlanders turned to the Goddess for protection. However, the sacred groves felt silent and grim as Avalon faded away. Once sad, peeling bells began to sound strangely comforting while the high walls of monasteries offered an alluring barrier from violence. Caught in the middle of this centuries-old war, a young High Priestess might be Avalon's last chance. Wise beyond her years and powerful like no other Priestess in her lifetime, Rowen had served the Goddess faithfully, forsaking her family and the company of her soulmate. When the Lady of the Lake asks for another sacrifice, it might be one too many for her scarred heart. How could she obey the Goddess without betraying Caddaric? Could she trust Eochaid, who embodied everything she despised and hated? Would she be able to fulfill her duties without losing her soul? Caddaric had been Rowen's companion in countless lives; but, now, they existed in different realms. Beautiful Rowen lived in the mortal world while sweet Caddaric remained in the sacred isle of Avalon, watching over her. Could he step aside to allow another man - a flesh and blood man - to become her protector? Eochaid had sworn to protect the Old Ways. The rude warrior never quite understood his faith yet his loyal heart belonged to the Goddess. A gorgeous, fiery High Priestess was not in his plans. He would risk his life to protect Rowen; but, would the Goddess safeguard his heart? Could he defend the

bewitching maiden from himself? When stakes were so high that a simple mistake could cost their very world, a priestess, a Druid, and a warrior must learn to trust one another and the mysterious ways of the Goddess. Their success would save Avalon. Their failure would tear the island from the human realm forever, condemning it to oblivion. Failure was not an option. This is a standalone, historical/paranormal romance. Its mature themes - sexual violence, religion, and pagan rituals - might not be appropriate for audiences under 18.

Citizen, have you seen the black and yellow menace? They may have already infiltrated your workplace, your school or EVEN YOUR HOME! I'm talking about wasps. WASPS OF THE MUTANT AND MAN-EATING VARIETY! They hate you, they hate me and they hate America. Has a wasp stung you or someone you love for no reason at all? Well that was probably just a regular wasp. They do that. Was the wasp THE SIZE OF A TRUCK at the time? Then you encountered a mutant wasp! Perhaps a coworker has recently called in sick with a case of BEING PARALYZED AND THEN EATEN ALIVE FROM THE INSIDE OUT BY WASP OFFSPRING. This may be a sign he chanced upon a mutant wasp! Be vigilant! If you see one, SPEAK UP! The Army is standing by, ready to kill on contact and keep on killing—even though this whole mutant wasp business was DEFINITELY AND TOTALLY NOT OUR FAULT. Together we can squish this threat.

The modern world is passing through a time of critical change on many levels: cultural, political, ecological and spiritual. We are witnessing the decline and dissolution of the old order, the tumult and uncertainty of a new birth. Against this background, there is an urgent need for a coherent framework of meaning to lead us beyond the growing fragmentation of culture, belief and personal identity. Keiron Le Grice argues that the developing insights of a new cosmology could provide this framework, helping us to discover an underlying order shaping our life experiences. In a compelling synthesis of the ideas of seminal thinkers from depth psychology and the new paradigm sciences, Le Grice positions the new discipline of archetypal astrology at the centre of an emerging world view that reunifies psyche and cosmos, spirituality and science, mythology and metaphysics, and enables us to see mythic gods, heroes and themes in a fresh light. He draws especially on the work of C. G. Jung, Joseph Campbell, Richard Tarnas, Fritjof Capra, David Bohm and Brian Swimme. Heralding a 'rediscovery of the gods' and the passage into a new spiritual era, *The Archetypal Cosmos* presents a new understanding of the role of myth and archetypal principles in our lives, one that could give a cosmic perspective and deeper meaning to our personal experiences.

This is a story about a young boy named Tim Hartwell who lives in Tenby, Pembrokeshire in Wales. He learns about his family's magical past from his mother, Mary. Later, after learning and wondering about his past, he meets two Wyvern gargoyles who guide him to seven Galon Keys. The keys protect him through a parallel world in Wales called Selwyn's Chancer. Once there, he must avoid a beast named Stratford Hartwell who wants the power of the Galon Keys and the Book of Hartwell for himself.

Analyzes the mechanisms of astrology, traces its origins and evolution, and compares different astrological systems and schools
Astrology has been around for thousands of years, and has existed in many different cultures around the world. Today, Astrology has been formed into a science, which can somewhat accurately predict events, behaviors, traits, and the destinies of things and people. This book will explain to you how Astrology works, along with give you an explanation of the 12 zodiac signs, and how they affect you. You will learn about how horoscopes work, and how your life and personality is affected by the movements of the planets and their moons. At the completion of this book, you'll have a solid understanding of astrology and its history, the applications of astrology, and how you can personally use astrology to enhance your life and the lives of those around you! Here Is What You'll Learn About...What is Astrology?The 12 Zodiac Signs

and their MeaningsHow Horoscopes WorkHow Horoscopes are CreatedHow Astrology is UsedHow You Can Use AstrologyMuch, Much More!

An exploration of astrology's impact on history considers such topics as the fervent observance of astrology by notable Greeks and Romans, St. Thomas Aquinas's belief that astrology was compatible with Christianity, and the astrological consultations of such modern figures as Winston Churchill and Ronald Reagan. Reprint. 35,000 first printing.

Many of the secrets of life and consciousness can be discovered through Vedic Astrology. Mythology students will find it helpful in unlocking the astrological keys to the great archetypes of the psyche.

"He Walks with Dragons" takes place when what was, what is, and what shall be were one in the same. Draig, a boy on the verge of his manhood, is summoned to the majestic mountain by the Great Ones. There he finds out he is about to transcend the ages and risk his life to prevent the destruction of mankind. Born into the naïve innocence of ancient man, Draig lives a simple pastoral existence in a quiet, small village. But one day he is flung on a magical journey into a forbidden new world. There, Draconos, a dragon, befriends the boy, training him in the art of warfare. From this day forward, the young boy finds himself in awe at the wonders the world holds for him. Not only has Draig become a man, but he is living like a dragon and learning their mystical powers. "From the time Man first crawled upon this earth...we found him worthy to take his rightful place among the creatures that walk upon the earth. While hiding in the shadows, we have protected him. We have nurtured him all these many ages. But now man grows in great numbers and makes war on everything he sees." And when the time comes, will Draig be willing to lay down his life for the sake of saving the dragons? And when the dragons are gone, where will he go? He is no longer just a man.

Author John Jacob Astor met his end in the sinking of the Titanic. Though he was born into wealth, Astor achieved fame as a popular science fiction writer. In this, his best-known work, Astor spins a captivating tale of what life would be like in the twenty-first century, including many technological predictions that are amazingly accurate.

Mainstream science has long dismissed astrology as a form of primitive superstition, despite or perhaps even because of its huge popular interest. From daily horoscopes to in-depth and personalized star forecasts, astrology, for many, plays a crucial role in the organization of everyday life. Present-day scholars and scientists remain baffled as to why this pseudo-science exercises such control over supposedly modern, rational and enlightened individuals, yet so far they have failed to produce any meaningful analysis of why it impacts on so many lives and what lies behind its popular appeal. Moving beyond scientific scepticism, *Astrology, Science and Culture* finally fills the gap by probing deeply into the meaning and importance of this extraordinary belief system. From the dawn of pre-history, humankind has had an intimate connection with the stars. With its roots in the Neolithic culture of Europe and the Middle East, astrology was traditionally heralded as a divinatory language. Willis and Curry argue that, contrary to contemporary understanding including that of most astrologers astrology was originally, and remains, a divinatory practice. Tackling its rich and controversial history, its problematic relationship to Jungian theory, and attempts to prove its grounding in objective reality, this book not only

persuasively demonstrates that astrology is far more than a superstitious relic of years gone by, but that it enables a fundamental critique of the scientism of its opponents. Groundbreaking in its reconciliation of astrology's ancient traditions and its modern day usage, this book impressively unites philosophy, science, anthropology, and history, to produce a powerful exploration of astrology, past and present.

Gulliver of Mars is the tale of Lieutenant Gulliver Jones of the United States Navy who magically appears on Mars. In a fortunate incident, he manages to save the life of Martian Princess Heru who sticks with him, as his quick return to Earth is not possible. Gulliver learns a lot about the culture of Martian society as they get through many adventures, going down a River of Death.

Astronomers are discovering more and more celestial objects in the far reaches of our solar system. Twenty-eight original hand-drawn coloring pages introduce the astronomy and myth of this new solar system, from the Sun out to remote Sedna and Planet 9. Includes classical planets, dwarf planets, TransNeptunian objects, some asteroids and centaurs, with 13 pages of mythic storylines from global cultures, new astronomy information, tables and maps. For ages 8?adult. The Earth's True Children is a mythical tragedy featuring an element of science fiction/fantasy. Founded by a group of separatists who had become disenchanted with the decadence rife in the other six great northern city-states of the world, the city of Anaxagorus and its citizens pride themselves on their crusade for knowledge and moral adherence. Hylax, the son of Heracon – the late but still revered pioneer of the city – has grown tired of government and seeks a simple life. Struggling to deal with his obligation to his father's legacy and his own feelings of disillusionment with mankind, he tries to find a way of satisfying himself and his people. But when his old confidant, Abenader, returns half-dead from the desert and a person dear to him is murdered, a conspiracy threatens to usurp his authority. Meanwhile, an age-old species has emerged from the confines of the earth. They have seen the future and know where man's corrupting and insatiable desire to plunder its resources will lead. A great conflict looms that could reshape the world entirely. At once an intimate and epic study of power, set in a time akin to the ancient Greek era, 'The Earth's True Children' examines humanity at its best and at its worst. Warning: This is NOT a book for children.

Without a doubt this is the most complete and well-researched book on Transpluto (Planet X) ever written. Valerie Vaughan presents her case for the existence of Planet X and goes further by offering an interpretation of its astrological influence and meaning. She argues that Transpluto should be named Persephone because its influence is feminine. She begins the book with descriptions of the circumstances of the discoveries of Uranus, Neptune, Pluto, and Chiron, all named for male deities and all symbolizing masculine functions. Included also is a 112-year ephemeris for Persephone/Transpluto.

In a compelling synthesis of the ideas of seminal thinkers from depth psychology and new paradigm science, Le Grice positions the new discipline of archetypal astrology at the centre of an emerging world view that reunifies psyche and cosmos, spirituality and science, mythology and metaphysics, enabling us to see mythic gods, heroes and themes in a fresh light. --

This book gives an overview of astrology in layman's terms, making the horoscope wheel and other difficult concepts easier to grasp. This is a compilation of 12 books, one on each zodiacal sign, in which the author discusses basic astrology for novices and then the challenging traits of each zodiac sign. Tips are included for the inherent pitfalls of each zodiac sign, so that weaknesses can be turned into strengths. This book also can help friends and family to comprehend their loved ones more easily and is meant to be a tool for both confirmation and understanding of the people with each zodiac sign.

Astrology A Science Or Myth Atlantic Publishers & Dist

In the future, the past will never be the same... By the end of the 25th Century few had as storied a career as Doctor J. Burke. An historian who used quantum superluminal teleportation to mingle among her forebears through twenty different decades making discoveries and recovering lost artifacts, she was the last of the Historical Archive Collection's 'big three' antiquarians. The physical effects of the profession had grounded jovial Ike Chernovich in old San Francisco, companion Braham Lilienthal had vanished without a trace three years before, and the indifference of the Minders from the future, who were best positioned to help, left Burke with a weary cynicism. Only the promise of a special mission, the brainchild of rookie archivist Nathan Rialto, brought her back again. It was Burke's specialty, the recovery of a glamorous old airliner from 1951 using a revolutionary new teleport, and in California as well. She would gather her trusty team of specialists, teach the rookie the ropes and perhaps contemplate a different kind of future afterward with Ike. From the moment it began it felt as if the whole mission had been created just for her...and that was only the beginning of her problems!

"Imagine a little white pill that can dramatically boost your memory and IQ. Oh, just one thing-- it also removes your ability to believe in God ... The God antenna is a story of unusual extraterrestrial visitation and much more: artificial intelligence, post-humanity, alien beings, and the origin of the ancient entity we call God"--Publisher description.

A falling apple inspired the law of gravity—or so the story goes. Is it true? Perhaps not. But why do such stories endure as explanations of how science happens? Newton's Apple and Other Myths about Science brushes away popular misconceptions to provide a clearer picture of scientific breakthroughs from ancient times to the present.
