This paper computes the default probabilities implicit in the prices of Brady bonds of seven developing countries and examines the factors that determine the high cross-correlation of the probability paths. The term structure of U.S. interest rates and the ratio of long-term foreign debt to GDP, together with a developing market index, explain more than 75 percent of the cross-sectional distribution of the default probabilities. The paper also demonstrates a new way to extract sovereign riskiness, implicit in traded bond prices. This allows the above results to be interpreted as explaining the cross-sectional distribution of sovereign riskiness as well.

As Kirito, Asuna, and Alice brave the wilds of the mysterious VRMMO “Unital Ring,” Sinon’s introduction to the world is no less harrowing. After numerous setbacks, she finds herself without friends, equipment, and only a few Thirst Points left to her name. Backed against a wall, she’ll need to defeat a terrifying boss monster to survive. Meanwhile, Kirito’s group splits up in order to both search for Sinon and defend their home, unaware that a mysterious assailant lies in wait...

Longarm fires up Hell's Half Acre! After U.S. Deputy Marshal Custis Long blasts a killer to hell in an epic gunfight, he seeks respite in Hell's Half Acre. Notorious beyond its size, Fort Worth's "Acre" features bullet-riddled corpses and scores of barely dressed women, drunks, gamblers, tinhorns, outlaws, cowboys and tradesmen. What better place for a marshal to vacation? But, sooner than later, the bad guys in Hell's Half Acre need reminding that there's no rest for the wicked—or for the lawman known as Longarm who blows them to blazes.

In this book I give you my honest views on the good and dark sides of Windows 11. There are more features, issues, hacks and tricks hiding in Windows 11 than most people will ever know. I unveiled some of them in this book. I've been a Windows user for over 20 years, and after further exploring two early builds of Windows 11, at first I had to admit that it looks rather nice, and is better than Windows 10. But I soon discovered there's a lot more than meets the eye. So I strongly advise you read this book first to help you decide if you should install or upgrade your OS to Windows 11. These are some of what you'll learn in this book: The new features and major changes since the Windows 11 insider preview was released. Why Microsoft's system health-check application, and the hardware constraints they plan to include in Windows 11 are shameful, and how they can affect your system and you. Why I suspect the rollout of Windows 11 will be relatively slow, and why it will take quite a long time before lots of people start using it. Apps experiencing troubles with Windows 11 and why Microsoft is unable to find a fix. 8 Windows 11 troubles Microsoft is currently investigating The Microsoft's policy and how it will affect Windows 11 users when Windows 10 support ends on October 14th, 2025. How to quickly and reliably check if your system can run Windows 11. Two methods to install Windows

11 step by step (for Windows and Linux-based systems with backup and restore options for programs and files). A work around to install Windows 11 on non-supported hardware. How to dual boot your PC with Windows 11 and 10 step by step. And so much more...

Kate is lost and broken after her sister's death. Now she is fifteen years old and trying to find her way through the guilt and hurt that surrounded that horrible day. Nothing changes until she walks through a door that leads her to another world. The world in which she entered is cruel. Voices that whisper in the air confirm her worst fears and thoughts. They attack her and deceive her. Soon Kate learns that voices belong to creatures, and that the creatures are more than just beings. They are in fact concepts in living forms: lies, guilt, and hate. Just as Kate starts to believe that all hope is lost, she hears another gentle voice; a voice full of love and promise. Finally Kate asks for help and her journey begins. Viktor (who portrays Jesus) guides Kate into Orus, a world full of other creatures. Along the way Kate meets redemption and grace and love along with many other beings that show her the way of truth.

"Updates Robert Louis Stevenson's classic story . . . Teens who enjoy brooding love stories will not be disappointed" (School Library Journal). Jill Jekel has always obeyed her parents' rules—especially the one about never opening the mysterious, old box in her father's office. But when her dad is murdered, and her college savings disappear, she's tempted to peek inside,

as the contents might be the key to a lucrative chemistry scholarship. To improve her odds, Jill enlists the help of gorgeous, brooding Tristen Hyde, who has his own dark secrets locked away. As a team, Jekel and Hyde recreate experiments based on the classic novel, hoping not only to win a prize, but to save Tristen’s sanity—and maybe his life. But Jill’s accidental taste of a formula unleashes her darkest nature and compels her to risk everything—even Tristen’s love—just for the thrill of being bad. “Fantaskey’s latest novel deliberately evokes the doppelganger theme and questionable experiments of Stevenson’s *The Strange Case of Dr. Jekyll and Mr. Hyde*. It also owes a great deal to Stephenie Meyer’s *Twilight* series . . . Fans of the genre won’t be able to resist this slick genre update.” —Booklist
