Canada's automotive "Dr. Phil" says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar, a worldwide recession driving prices downward, and a more competitive Japanese auto industry that's still reeling from a series of natural disasters.

Celebrate the rebirth of the world's most stunning high-performance automobile. Porsche made history when it brought turbocharging to the racing world in the form of the 917. When strict regulations regarding engine displacement took away the option of bigger engines, manufacturers turned to forced induction. In its wildest trim, the original 12-cylinder turbocharged Porsche racing engine yielded as much as 1,400 horsepower! Porsche's official philosophy was that racing cars must have a connection to street cars, so it was preordained that Porsche would eventually produce a turbocharged version of its air-cooled flat-six cylinder engine. The resulting 930 Turbo appeared in the spring of 1975 in Europe. Acceleration from 0 to 100 kilometers per hour took a scant 5.5 seconds, and its top speed was 155 miles per hour. The Turbo's distinctive rear wing let the world know that this was something very special. It was nothing less than the rebirth of the high-performance automobile. At a time when the big-block engines in America's so-called "muscle cars" were putting out 180 horsepower and the engines in exotic supercars weren't much more ambitious, the lightweight Porsche was a genuine rocket. Porsche Turbo: The Inside Story of Stuttgart's Turbocharged Road and Race Cars celebrates Porsche's five decades of turbocharged supercar performance, both on the track and on the street. It covers all of the major racing cars as well as the turbocharged street cars, including the 930, 935, 924, 944, 968, 911, and Cayenne Panamera. Don't let this one fly past you!

The first definitive book covering the 911 3.2 Carrera. Written and compiled by Tony Corlett, this book covers one of the greatest Porsches ever made. From 1984 to 1989, this 911 represented the peak of 911 evolution and stands today as a great blend between the classic and modern 911.

One of the most recognised and revered car brands, Bentley celebrates its centenary in 2019. In conjunction with the Bentley Drivers Club and the W.O. Bentley Memorial Foundation, 100 Years of Bentley is a lavish celebration of the company, from its earliest models right up to the modern day cars. A six-times winner in the gruelling Le Mans 24-hour race, Bentley is also the brand behind iconic cars such as the 4 1/2-Litre 'Blower', the R-type Continental, and modern classics such as the Continental GT and Mulsanne. Featuring more than 200 pictures, many from the club's archives and some never seen in print before, this beautiful book details the whole history of Bentley. From W.O. Bentley's early days as a railway engineer along with his first attempts at modifying French DFP cars, to the company's early racing exploits, including its victories in the early Le Mans races. Covering the Bentley brand's revival in the 1980s and renewed impetus when it was acquired by the Volkswagen group, the story is brought up to date with the awesome new Bentleys built for the 21st century and the new era of electrification just around the corner.

Get the whole story on the car built to beat the world--Ford's GT. Henry Ford II, "the Deuce," wanted a race car capable of winning top-flight sports car events in Europe. Specifically, he wanted to win Le Mans. Ford learned that Enzo Ferrari would consider selling his company and negotiations quickly ensued. But after Ford spent considerable time and money reviewing Ferrari's operations and negotiating with Enzo, Ferrari abruptly backed out of the talks. The Deuce took Ferrari's actions as a personal insult. Word was sent down from on high: beat Ferrari. Ford settled on UK-based Eric Broadley's Lola GT, a cutting-edge car that featured a mid-engine chassis and small-block Ford V-8 power. The Lola GT would morph into the Ford GT. Carroll Shelby helped shape it into the "Mark II" GT40. The result was one of the most legendary wins in racing history: Ford's 1-2-3 sweep of Le Mans in 1966. Ford GT celebrates the 50th anniversary of Ford's iconic victory, providing the detailed back story leading to that historic win, as well as the follow-up win in 1967. The GT40's last two competitive seasons in 1968 and 1969 are also covered, for a complete view of this remarkable era in racing. Author Preston Lerner details the ups and downs of Ford's GT program, accompanied by Shelby American photographer Dave Friedman's historic images. Come re-live one of the most exciting stories in all of racing history!
