

Aurelia In Action

This book discusses the implementation of privacy by design in Europe, a principle that has been codified within the European Data Protection Regulation (GDPR). While privacy by design inspires hope for future privacy-sensitive designs, it also introduces the need for a common understanding of the legal and technical concepts of privacy and data protection. By pursuing an interdisciplinary approach and comparing the problem definitions and objectives of both disciplines, this book bridges the gap between the legal and technical fields in order to enhance the regulatory and academic discourse. The research presented reveals the scope of legal principles and technical tools for privacy protection, and shows that the concept of privacy by design goes beyond the principle of the GDPR. The book presents an analysis of how current regulations delegate the implementation of technical privacy and data protection measures to developers and describes how policy design must evolve in order to implement privacy by design and default principles.

From award-winning author, Ilona Andrews, an all-new novel set in the New York Times #1 bestselling Kate Daniels World and featuring Julie Lennart-Olsen, Kate and Curran's ward. Atlanta was always a dangerous city. Now, as waves of magic and technology compete for supremacy, it's a place caught in a slow apocalypse, where monsters spawn among the crumbling skyscrapers and supernatural factions struggle for power

and survival. Eight years ago, Julie Lennart left Atlanta to find out who she was. Now she's back with a new face, a new magic, and a new name—Aurelia Ryder—drawn by the urgent need to protect the family she left behind. An ancient power is stalking her adopted mother, Kate Daniels, an enemy unlike any other, and a string of horrifying murders is its opening gambit. If Aurelia's true identity is discovered, those closest to her will die. So her plan is simple: get in, solve the murders, prevent the prophecy from being fulfilled, and get out without being recognized. She expected danger, but she never anticipated that the only man she'd ever loved could threaten everything. One small misstep could lead to disaster. But for Aurelia, facing disaster is easy; it's relationships that are hard.

"A novel of court intrigue and action-packed military adventure,"* Joanna Hathaway's *Dark of the West*, is a breathtaking YA fantasy debut--first in the Glass Alliance series. A pilot raised in revolution. A princess raised in a palace. A world on the brink of war. Aurelia Isendare is a princess of a small kingdom in the North, raised in privilege but shielded from politics as her brother prepares to step up to the throne. Halfway around the world, Athan Dakar, the youngest son of a ruthless general, is a fighter pilot longing for a life away from the front lines. When Athan's mother is shot and killed, his father is convinced it's the work of his old rival, the Queen of Etania—Aurelia's mother. Determined to avenge his wife's murder, he devises a plot to overthrow the Queen, a plot which sends Athan undercover to Etania to gain intel from her children. Athan's

mission becomes complicated when he finds himself falling for the girl he's been tasked with spying upon. Aurelia feels the same attraction, all the while desperately seeking to stop the war threatening to break between the Southern territory and the old Northern kingdoms that control it—a war in which Athan's father is determined to play a role. As diplomatic ties manage to just barely hold, the two teens struggle to remain loyal to their families and each other as they learn that war is not as black and white as they've been raised to believe. “Heart-pounding . . . will leave the reader wanting more.”—*#1 New York Times bestselling author Melissa de la Cruz At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Sunny tries to shine despite his troubled past in this third novel in the critically acclaimed Track series from National Book Award finalist Jason Reynolds. Ghost. Patina. Sunny. Lu. Four kids from wildly different backgrounds, with personalities that are explosive when they clash. But they are also four kids chosen for an elite middle school track team—a team that could take them to the state championships. They all have a lot to lose, but they all have a lot to prove, not only to each other, but to themselves. Sunny is the main character in this novel, the third of four books in Jason Reynold's electrifying middle grade series. Sunny is just that—sunny. Always ready with a goofy smile and something nice to say, Sunny is the chilliest dude on the Defenders team. But his life hasn't always been sun beamy-bright. You see, Sunny is a murderer.

Or at least he thinks of himself that way. His mother died giving birth to him, and based on how Sunny's dad treats him—ignoring him, making Sunny call him Darryl, never “Dad”—it's no wonder Sunny thinks he's to blame. It seems the only thing Sunny can do right in his dad's eyes is win first place ribbons running the mile, just like his mom did. But Sunny doesn't like running, never has. So he stops. Right in the middle of a race. With his relationship with his dad now worse than ever, the last thing Sunny wants to do is leave the other newbies—his only friends—behind. But you can't be on a track team and not run. So Coach asks Sunny what he wants to do. Sunny's answer? Dance. Yes, dance. But you also can't be on a track team and dance. Then, in a stroke of genius only Jason Reynolds can conceive, Sunny discovers a track event that encompasses the hard beats of hip-hop, the precision of ballet, and the showmanship of dance as a whole: the discus throw. But as he practices for this new event, can he let go of everything that's been eating him up inside?

As the people of Achlev struggle to survive the instability fueled by Dominic Castillion, Aurelia is determined to save them and her loved ones at any cost.

Nic may have escaped enslavement in the mines outside of Rome, but his troubles are far from over. The Praetor War -- the battle to destroy Rome from within -- is in full force, and Nic is caught in the crossfire. The secretive Praetors are determined to unlock a powerful amulet -- one sure to bring the empire to its knees. Worse, the Praetors believe Nic holds the key to finding this amulet, and they will stop at nothing to

steal it, even if that means harming the people Nic holds most dear. When the Praetors capture Nic's mother, Nic knows he must do anything to save her. He challenges the Praetors to a chariot race. If he wins, they will release his mother. But if he loses, he must hand over a magic that will certainly bring about the end of Rome as well as his own life. Can Nic once again harness his magic and gather the strength to defeat his enemies? Or will he lose his mother and bear witness to Rome's destruction?

An official companion to the #1 New York Times bestseller, this guided journal contains more than 50 activities to support your anti-racism journey. In *This Book Is Anti-Racist*, Tiffany Jewell and Aurélie Durand gave us an essential volume to understand anti-racism. Now, in the journal companion, understand your anti-racist self and dive further into the work. Within the vibrantly illustrated pages, you will find some familiar information along with new reflections and prompts to go deeper. This anti-racist toolkit gives you space to learn and grow through activities centered around identity, history, family, your universe, disruption, self-care, privilege, art, expression, and much more, including: Create a map of you by drawing, collaging, sticking, and painting your many and favorite social and personal identities Discover how diverse your universe is by

writing down the races and ethnicities of the people in your life Design your own buttons that share your beliefs, values, and what you stand for Write a letter to your future self to share your dreams and how you are growing into your anti-racism Make a plan and be ready for scenarios when you are confronted by racist comments, actions, and policies Brainstorm your anti-racist vision of what our communities will look like without racism and how we can get there “Continue to stay awake, start taking action, and always lean into the work of disrupting racism. Together, we can abolish the system that continues to misuse and abuse power and collectively work for anti-racism.”

Crown princess Aurelia is a survivor. She survived attempted assassination. She survived the king's rejection. She survived her mother's abandonment. And now, in exile, she must survive her kingdom-from hostile crowds to raw frontier to

desert sands. But even as unknown assailants track Aurelia and expedition guide Robert, she knows what her greatest risk is: falling love...

In the kingdom of Tranen, a king makes a promise to his dying wife that he'll only remarry a woman who possesses her golden hair. In time, the king's eyes are turned by his daughter. Realizing her father's intentions, Princess Aurelia tries to trick him by requesting impossible gifts: dresses created by the sun, moon and stars, and a coat made of a thousand furs. But when he is successful, Aurelia sacrifices her privileged life and flees her kingdom, disguised by the cloak and a new name, Allerleirauh. She enters the safe haven of Saarland der Licht, where the handsome and gentle Prince Klaus takes her under his care. Hoping not to be discovered by her father's courtiers, Allerleirauh tries to remain hidden under her new identity when she finds unexpected love with Prince Klaus, even though his arranged marriage to the princess of a neighboring kingdom approaches.

Risking everything, Allerleirauh must face her troubled past and her fears of the future along her journey to self-acceptance in this triumphant retelling of the classic Grimm Fairy Tale. *Trigger warning: Scenes depicting rape and violence.

Hadoop in Action teaches readers how to use Hadoop and write MapReduce programs. The intended readers are programmers, architects, and project managers who have to process large amounts of data offline. Hadoop in Action

will lead the reader from obtaining a copy of Hadoop to setting it up in a cluster and writing data analytic programs. The book begins by making the basic idea of Hadoop and MapReduce easier to grasp by applying the default Hadoop installation to a few easy-to-follow tasks, such as analyzing changes in word frequency across a body of documents. The book continues through the basic concepts of MapReduce applications developed using Hadoop, including a close look at framework components, use of Hadoop for a variety of data analysis tasks, and numerous examples of Hadoop in action. Hadoop in Action will explain how to use Hadoop and present design patterns and practices of programming MapReduce. MapReduce is a complex idea both conceptually and in its implementation, and Hadoop users are challenged to learn all the knobs and levers for running Hadoop. This book takes you beyond the mechanics of running Hadoop, teaching you to write meaningful programs in a MapReduce framework. This book assumes the reader will have a basic familiarity with Java, as most code examples will be written in Java. Familiarity with basic statistical concepts (e.g. histogram, correlation) will help the reader appreciate the more advanced data processing examples. Purchase of the print book comes with an offer of a free PDF, ePub, and Kindle eBook from Manning. Also available is all code from the book.

Sean Hunter is a web developer with nearly 10 years of experience. He's extremely passionate about all things Aurelia and has been working with the framework in production since the early beta days. Sean got a taste for teaching developers how to get started with Aurelia while visiting user groups across the UK, and he's been excited to expand on this teaching effort with this book. These days, Sean is working in a variety of web-development technologies with companies across Australia, and he blogs at <https://sean-hunter.io>.

Examines the ways in which the inclusion of African diasporic religious practices serves as a transgressive tool in narrative discourses in the Americas. *Oshun's Daughters* examines representations of African diasporic religions from novels and poems written by women in the United States, the Spanish Caribbean, and Brazil. In spite of differences in age, language, and nationality, these women

writers all turn to variations of traditional Yoruba religion (Santería/Regla de Ocha and Candomblé) as a source of inspiration for creating portraits of womanhood. Within these religious systems, binaries that dominate European thought—man/woman, mind/body, light/dark, good/evil—do not function in the same way, as the emphasis is not on extremes but on balancing or reconciling these radical differences. Involvement with these African diasporic religions thus provides alternative models of womanhood that differ substantially from those found in dominant Western patriarchal culture, namely, that of virgin, asexual wife/mother, and whore. Instead we find images of the sexual woman, who enjoys her body without any sense of shame; the mother, who nurtures her children without sacrificing herself; and the warrior woman, who actively resists demands that she conform to one-dimensional stereotypes of womanhood.

Two tiger cub brothers are torn from the jungle and taken to Rome. The stronger cub is trained as a killer at the Coliseum. Emperor Caesar makes a gift of the smaller cub to his beautiful daughter, Aurelia. She adores her cub, Boots. Julius, a young animal keeper, teaches Aurelia how to earn Boots's trust. Boots is pampered while his brother, known as Brute, lives in the cold and darkness, let out only to kill. Caesar trusts Julius to watch Aurelia and her prized pet. But when a prank backfires, Boots temporarily escapes and Julius must pay with his life.

Thousands watch as Julius is sent unarmed into the arena to face the killer Brute. Harness the power of the next-generation JavaScript Framework, Aurelia, and start creating apps that really set you apart

About This Book- Develop well-designed, decoupled, and testable single-page applications with Aurelia- Leverage the latest web standards to increase code performance, readability, and cross-compatibility- Understand how Aurelia is organized and use its innovative MVC approach to design professional-quality web apps

Who This Book Is For This book is for JavaScript developers who want to build modern web apps with Aurelia. No prior knowledge of Aurelia is needed.

What You Will Learn- Build a modern single-page web application- Understand the workflow of an Aurelia application- Design reusable web components, which can be shared and integrated into various frameworks and libraries- Write clean, modular, and testable code that will be easy to maintain and evolve- Use all the latest-and even future-web standards, so the application gathers minimal technical debt

In Detail Aurelia is one of the most promising new JavaScript frameworks for mobile, desktop, and web, which makes developing powerful, modern web applications a straightforward task. Its power lies in its simplicity and clear workflow that enables developers to build next-generation apps for the web with ease. From initial structuring to full deployment, this book will serve as a step-by-step guide

to develop a modern web application from scratch with the Aurelia framework. In addition to including a comprehensive coverage of various Aurelia framework features, this book will also show you how to utilize these features in the real world to develop a professional single-page web application. You'll see how to make the most out of Aurelia by understanding the Aurelia workflow and then applying it in real-world development tasks. By the end of the book, you will have learned to develop a clean and maintainable application in Aurelia from scratch.

Style and approach This book will show you how to leverage the cutting edge features of Aurelia framework to develop modern web apps with a clear workflow. Using the modern architecture and features of Aurelia, this book will demonstrate the development of a web application from scratch.

The woods are creeping in on a nanny and two young girls in this chilling modern Gothic thriller. Architect Tom Faraday is determined to finish the high-concept, environmentally friendly home he's building in Norway—in the same place where he lost his wife, Aurelia, to suicide. It was their dream house, and he wants to honor her with it. Lexi Ellis takes a job as his nanny and immediately falls in love with his two young daughters, especially Gaia. But something feels off in the isolated house nestled in the forest along the fjord. Lexi sees mysterious muddy footprints inside the home. Aurelia's diary appears in Lexi's room one day. And

Gaia keeps telling her about seeing the terrifying Sad Lady. . . . Soon Lexi suspects that Aurelia didn't kill herself and that they are all in danger from something far more sinister lurking around them.

1980s Vienna. Defeated and in exile, Aurelia Mitela is determined to liberate her beloved Roma Nova and its people from the brutal regime of dictator Caius Tellus. But he has alienated her from her allies and will do everything to destroy her. Can she succeed in regaining their trust and defeating him? "With Caius, it's always personal."

This book is written for EVERYONE who lives in this racialised society—including the young person who doesn't know how to speak up to the racist adults in their life, the kid who has lost themself at times trying to fit into the dominant culture, the children who have been harmed (physically and emotionally) because no one stood up for them or they couldn't stand up for themselves and also for their families, teachers and administrators. With this book, be empowered to actively defy racism and xenophobia to create a community (large and small) that truly honours everyone.

Jordana Laren is a hard-drinking, hard-fighting womanizer, who works as a freighter pilot in her spare time. Her latest customer drugs her, steals her ship, and abandons her on a desert hellhole called Rigeus, infamous penal planet for the worst women criminals. Her chances of survival aren't looking good. She has no food, water, or weapons, and the nearest bar is a million miles away. Just when she's ready to write her last will and testament, Jordana is rescued by a group of barely-clad women. Has she found nirvana? Her own personal harem seems like a possibility, until the intercession of their enemy, the Velkren. Their leader, Vel, remembers Jordana well, and not fondly. But why is Vel on this planet, surrounded by murderers, thieves, and bad-tempered bitches? Jordana knows Vel isn't a prisoner, so why is her nemesis on Rigeus mining mud, of all things? Jordana knows only one thing. She has to get off the planet before Vel kills her. Unfortunately, the women who saved her reveal themselves to be holy. They are the Noorthi, and Jordana's dream of endless debauchery becomes a nightmare of eternal servitude. The Noorthi make her one of them, marking her with a wrist tattoo, and leaving her no choice but to protect them with her life. The last thing

Jordana wants is to become involved in galactic politics or heroic actions. But the tattoo ochre in her body is suddenly giving her morals and scruples, not to mention a better vocabulary! And she really can't pass up a chance to outwit Vel, whose megalomaniac plans are endangering not only the Noorthi, but the civilized galaxy itself. But Jordana is torn. Does she stop Vel at all costs, or does she get out from under the thumb of the Noorthi while she can? Some things were never meant to be easy...

Summary CORS in Action introduces Cross-Origin Resource Sharing (CORS) from both the server and the client perspective. It starts with the basics: how to make CORS requests and how to implement CORS on the server. It then explores key details such as performance, debugging, and security. API authors will learn how CORS opens their APIs to a wider range of users. JavaScript developers will find valuable techniques for building rich web apps that can take advantage of APIs hosted anywhere. The techniques described in this book are especially applicable to mobile environments, where browsers are guaranteed to support CORS. Purchase of the print book includes a free eBook in PDF, Kindle, and ePub formats from Manning Publications. About the Book Suppose you need to share some JSON data with another application or service. If everything is hosted on one domain, it's a snap. But if the data is on another domain, the browser's "same-origin" policy stops you cold. CORS is a new web standard that enables safe cross-domain access without complex server-side code. Mastering CORS makes it possible for web and mobile applications to share data simply and securely. CORS in Action introduces CORS from both the server and the client perspective. It starts with making and enabling CORS requests and then explores performance, debugging, and security. You'll learn to build apps that can take advantage of APIs hosted anywhere and how

Aurelia is an Akkadian girl selected by the Witan to train at the Great Temple. She will become a Silver Spear and do her part to build the Community. At least, that is what she wanted to believe. When the Profane rebel against the Community, Aurelia gets caught between worlds. With her best friend, Nadia, by her side. The girls will fight for their freedom in a dystopian world. The Community rules. The Profane serve. The Workers suffer.

The acclaimed author of "When Kambia Elaine Flew in from Neptune" now delivers the story of one girl's excruciating struggle to beat the odds. Williams imbues this narrative with an unshakable sense of hope that transcends China's bleak reality.

When orthopedic surgeon Harriet "Harry" Basantes is called to the ER to assess a patient who has been assaulted by her husband, she's instantly thrust back sixteen years to the day her childhood sweetheart, Desi Thompson, walked away and disappeared without a trace. Desi's

always done the right thing, including marrying the man her father insisted was a better match than Harry. But when she ends up in the ER after an argument gone wrong, she can't help wondering if the right thing is worth the cost. Harry refuses to let Desi return to an unsafe home, even if that means putting aside her own broken heart. With love on the line, can they give each other one more chance? Aurelia was like any normal 18 year old. She was blessed with a loving mum, a doting step-father and a perfect boyfriend. The summer before university should have been a joyous time. Yet this idyllic life was irrevocably marred by the past. A past she could not hide from, however hard she had tried. Aurelia's battle had, in truth, been underway since she was a little girl. Now, it was coming to an end...one way or another.

When an insecure teen starts impersonating someone else, her life spirals dangerously out of control in a realistic, relatable novel about finding yourself—and discovering your true friends. Leah Lobermier dreams of becoming a doctor, but it's hard to stay focused on getting good grades when boys make oinking sounds at her in school and her mother spends every night on the couch with a bottle of wine. Leah's skinny and popular "friends," Kristy and Corinne, aren't much better and can hardly be counted on for support. When the girls convince a handsome older man to buy them beer, Leah takes his phone number and calls him, pretending to be Kristy—coy and confident—and they develop a relationship, talking and texting day after day. But as the lie she created grows beyond her control, can Leah put a stop to things before she—or Kristy—is

When thieves find an abandoned child lying in a monster's footprint, they have no idea that their wilderness discovery will change the course of history. Cloaked in mystery, Auralia grows up among criminals outside the walls of House Abascar, where vicious beastmen lurk in shadow. There, she discovers an unsettling--and forbidden--talent for crafting colors that enchant all who behold them, including Abascar's hard-hearted king, an exiled wizard, and a prince who keeps dangerous secrets. When Auralia's gift opens doors from the palace to the dungeons, she sets the stage for violent and miraculous change in the great houses of the Expanse. Auralia's Colors weaves literary fantasy together with poetic prose, a suspenseful plot, adrenaline-rush action, and unpredictable characters sure to enthrall ambitious imaginations.

An impressive debut, equal parts commercial appeal and literary prowess. Princess Aurelia is next in line to rule the kingdom of Tyralt, but she would rather be one of the common folk, free to learn and roam and . . . not marry the next tyrannical prince that comes courting. Naturally, the king wants Aurelia to marry for political power. Aurelia wants to marry for love. And someone in the kingdom wants her . . . dead. Assigned to investigate and protect Aurelia is Robert, the son of the king's former royal spy and one of Aurelia's oldest friends. As Aurelia and Robert slowly uncover clues as to who is threatening her, their friendship turns to romance. With everything possible on the line?her life, her kingdom, her heart?Aurelia is forced to take matters into her own

hands, no matter the cost.

Dragons, myth, and magic unite in the third installment of Cornelia Funke's bestselling Dragon Rider series. Ben and the Greenblooms must protect a mythical new creature rising from the ocean -- a creature who can bring either light or darkness to whoever it first meets. A new peril has emerged in the world of Fabulous Creatures. One that could cause the disappearance of their kind. Luckily, all of our favorite characters are back--Ben and Firedrake, his wonderful dragon friend, plucky Guinevere and the Greenbloom family, Sorrel the irrepressible brownie, the miniature man Twigleg and a host of new Fabulous Animals and sturdy helpers. But the threat is real and quickly encroaching. A villain from the family's past is seeking revenge. And all the while, the mysterious Aurelia, the most fabulous and powerful creature of all, moves across oceans to its final destination, introducing a new underwater world to enjoy.

Part war drama, part romance, Storm from the East is the second installment in Joanna Hathaway's epic Glass Alliance series War has begun, and the days of Athan's and Aurelia's secret, summer romance feel a world away. Led by Athan's father, the revolutionary Safire have launched a secret assault upon the last royal kingdom in the South, hoping to depose the king and seize a powerful foothold on the continent. Athan proves a star pilot among their ranks, struggling to justify the violence his family has unleashed as he fights his way to the capital—where, unbeknownst to him, Aurelia has lived since the war's onset. Determined to save the kingdom Athan has been ordered

to destroy, she partners with a local journalist to inflame anti-Safire sentiment, all while learning this conflict might be far darker and more complex than she ever imagined. When the two reunite at last, Athan longing to shake the nightmare of combat and Aurelia reeling from the discovery of a long-buried family truth come to light, they'll find the shadow of war stretches well beyond the battlefield. Each of them longs to rekindle the love they once shared . . . but each has a secret they're desperate to hide.
