corporations as AT&T and Wal-Mart. It features over 5000 of America's key employers, listed by state and indexed by company name, industry, metropolitan area and human resources executive. The company capsules contain up-to-date headquarters addresses, phone and fax numbers, names of current top hiring executives, number of employees, number of jobs added in the last year, and industry descriptions.

Multi-volume major reference work bringing together histories of companies that are a leading influence in a particular industry or geographic location. For students, job candidates, business executives, historians and investors.

International Electronics Directory '90, Third Edition: The Guide to European Manufacturers, Agents and Applications, Part 1 comprises a directory of various manufacturers in Europe and a directory of agents in Europe. This book contains a classified directory of electronic products and services where both manufacturers and agents are listed. This edition is organized into two sections. Section 1 provides details of manufacturers, including number of employees, production program, names of managers, as well as links with other companies. The entries are listed alphabetically on a country-by-country basis. Section 2 provides information concerning agents or representatives, including names of manufacturers represented, names of managers, number of employees, and range of products handled. A number of these companies are also active in manufacturing and so appear in both Section 1 and Section 2. This book is a valuable resource for private consumers.

For more than 40 years, Computerworld has been the leading source of technology news and
