Introducing Israel Armstrong, one of literature's most unlikely detectives in the first of a series of novels from the author of the critically acclaimed Ring Road.

Relationships fall apart, marriages fail, couples break up – it happens to us all. Time corrodes passion and the routines of daily life kill the excitement that surrounds the emotion of the first encounter. The difficulty of uniting sexual pleasure with love, which Freud considered to be the most common neurosis in any love life, has become emblematic of a truth that seems undeniable: desire is destined to die if its object is not constantly renewed, if we do not change partner, if it is closed for too long in the restrictive chamber of the same bond. And yet what happens to these bonds when one of the two partners betrays the other, when the promise fails, when there is another emotional experience cloaked in secrecy and deceit? What happens if the traitor then begs forgiveness? Are they asking to be loved again and, having declared that it is not like it used to be, now want everything to go back to how it was? Should we make fun of lovers in their attempts to make love last? Or should we try to face up to the experience of betrayal, with the offence caused by the person we love most? Should we not perhaps attempt to praise forgiveness in love?

Traces the epic history of ancient Greek philosopher Zeno's yet-unsolved paradox of motion, citing the contributions of such top minds as Aristotle, Newton, and Hawking to furthering the scientific community's

understanding of the elusive basic structure of time and space. Originally published as *The Motion Paradox*. Reprint.

Chrysalis, the glass-skinned queen of the Joker underworld, has been found brutally murdered in her popular restaurant, the Crystal Palace. Now two men are out to find her killer - Jay Ackroyd, the Ace private detective who discovered her ruined body, and the vigilante archer known as The Yeoman, who has been framed for the crime. Their quest leads them on a nightmare journey of madness, violence, passion and intrigue that will forever alter the fate of those who contracted the Wild Card virus. Collaboratively written by George R. R. Martin and John J. Miller, this is both a gripping mystery and a chilling story of suspense.

Adventure is in Tory Brennan's blood. After all, she's the grandniece of world-famous forensic anthropologist Temperance Brennan. Always up for a challenge, Tory and her science-geek friends spend their time exploring the marshlands of Loggerhead Island, home to the very off-limits Loggerhead Island Research Institute, where something strange is going on. After rescuing a stray wolfdog pup from a top-secret lab, Tory and her friends are exposed to a rare strain of canine parvovirus, changing them--and their DNA--forever. Now they are more than friends. They are a pack. They are Virals. And they're dangerous to the core. But are they unstoppable enough to catch a cold-blooded murderer?

What do eggs, flour, and milk have in common? They form the basis of crepes of course, but they also each have an evolutionary purpose. Eggs, seeds (from which

flour is derived by grinding) and milk are each designed by evolution to nourish offspring. Everything we eat has an evolutionary history. Grocery shelves and restaurant menus are bounteous evidence of evolution at work, though the label on the poultry will not remind us of this with a Jurassic sell-by date, nor will the signs in the produce aisle betray the fact that corn has a 5,000 year history of artificial selection by pre-Colombian Americans. Any shopping list, each recipe, every menu and all ingredients can be used to create culinary and gastronomic magic, but can also each tell a story about natural selection, and its influence on our plates--and palates. Join in for multiple courses, for a tour of evolutionary gastronomy that helps us understand the shape of our diets, and the trajectories of the foods that have been central to them over centuries--from spirits to spices. This literary repast also looks at the science of our interaction with foods and cooking--the sights, the smells, the tastes. The menu has its eclectic components, just as any chef is entitled. But while it is not a comprehensive work which might risk gluttony, this is more than an amuse bouche, and will leave every reader hungry for more.

Perfect for fans of Clive Cussler and Dan Brown, Pharaoh is a pulse-pounding new adventure starring intrepid marine archaeologist Jack Howard, on the trail of a shattering revelation about an ancient secret buried deep under the Egyptian pyramids. 1351 BC: Akhenaten

the Sun-Pharaoh rules supreme in Egypt . . . until the day he casts off his crown and mysteriously disappears into the desert, his legacy seemingly swallowed up by the remote sands beneath the Great Pyramids of Giza. AD 1884: A British soldier serving in the Sudan stumbles upon an incredible discovery—a submerged temple containing evidence of a terrifying religion whose god was fed by human sacrifice. The soldier is on a mission to reach General Gordon before Khartoum falls. But he hides a secret of his own. Present day: Jack Howard and his team are excavating one of the most amazing underwater sites they have ever encountered, but dark forces are watching to see what they will find. Diving into the Nile, they enter a world three thousand years back in history, inhabited by a people who have sworn to guard the greatest secret of all time. Praise for Pharaoh “[David Gibbins’s] love of archaeology and of diving really brings these books to life. . . . Add to this . . . a true passion for history and a writing skill that has grown book by book. By the time we get to Pharaoh the series is a serious example of how this genre should be written; it does not get much better than this. . . . Gibbins makes the astounding seem more than plausible, he writes the history in such a way that the myth feels factual or at least highly plausible, and it’s more that just places and names; it’s a philosophical undertone to the extended plot, to the ethos of Jack Howard and his search for the facts and the truth. . . . History, mystery and myth all brought together to astound the reading senses . . . a true leader of his genre and his art.”—Parmenion Books “Utterly absorbing . . . When the adventure is as exciting

as it is here, it is too good not to be allowed to speak for itself. . . . Put aside your assumptions of what a thriller should be and instead immerse yourself in one of the best historical adventures you'll read this year.”—For Winter Nights Praise for David Gibbins “What do you get if you cross Indiana Jones with Dan Brown? Answer: David Gibbins.”—Daily Mirror (U.K.), on Atlantis “An exciting mix of fact and fiction, with shades of Clive Cussler and Indiana Jones.”—York Evening Press, on Crusader Gold

A man falls from the fourth floor. It is the only choice he has left to stop suffering. As he falls he announces his last wish, but then his body freezes a few centimetres above the ground. A thread of light descends from above him, he clings to it, and tries to escape from the dark well of depression that has swallowed him. Aldo Amedei is a successful journalist who has lost everything, even his dreams. The past is regret, the present is populated by monsters and ghosts, but he tries to follow that thread of light, that crazy desire that kept him alive, by running the New York marathon. He doesn't even know why he thought of it; after all, he is a man who takes his car to drive a hundred metres. He starts running, like an escaped prisoner hunted by his nightmares. He falls, he gets up, he falls again and gets back on his feet. And each time it hurts more and more. But he doesn't let go. For love, and with the love of Teresa, his young partner. Spitting out his soul along streets full of toil, angels and vultures, he comes back to life, to passion and to dreams. He's helped by a doctor, a unexpected coach and a grandson even crazier than himself. He becomes another person, embedding people into his heart, along with laughter, surprises and new

emotions. But his enemies don't give up, they chase him, determined to bring him back into the black well of depression. There's everything still to play for, as in the last challenge, between life and death: the 42 kilometres and 195 metres of the New York marathon. Against the wind and against everything. From Hell to Central Park.

David Peace's acclaimed Red Riding Quartet continues with this exhilarating follow-up to Nineteen Seventy-Four. It's summer in Leeds and the city is anxiously awaiting the Jubilee of Queen Elizabeth's reign. Detective Bob Fraser and Jack Whitehead, a reporter at the Post, however, have other things on their minds-mainly the fact that someone is murdering prostitutes. The killer is quickly dubbed the "Yorkshire Ripper" and each man, on their own, works tirelessly to catch him. But their investigations turn grisly as they each engage in affairs with the prostitutes they are supposedly protecting. As the summer progresses, the killings accelerate and it seems as if Fraser and Whitehead are the only men who suspect or care that there may be more than one killer at large.

From Shannara to Landover, his work was a huge part of my childhood."—Patrick Rothfuss, New York Times bestselling author of The Name of the Wind "Terry Brooks has been my constant companion over a lifetime of exploring my beloved fantasy genre. Tolkien is the grandfather of modern fantasy, Terry Brooks is its favorite uncle.”—Peter V. Brett, New York Times bestselling author of *The Desert Spear*
“Terry Brooks is a master of the craft and a trailblazer who established fantasy as a viable genre. Not only do I owe him for many hours of reading pleasure, I owe him my job. He is required reading.”—Brent Weeks, New York Times bestselling author of *The Night Angel Trilogy*

When *Life in Peacetime* opens, on May 29, 2015, engineer Ivo Brandani is sixty-nine years old. He's disillusioned and angry--but morbidly attached to life. As he makes a day-long trip home from his job in Sharm el Sheik reconstructing the coral reefs of the Red Sea using synthetics, he reflects on both the brief time he sees remaining ahead and on everything that has happened already in his life to which he can never quite resign himself. We see his slow bureaucratic trudge as a civil servant, long summer vacations on a Greek island, his twisted relationship with his first boss, the turmoil and panic attacks he faced during the student uprisings in 1968 that pushed him away from philosophy and into engineering, and his fearful childhood as a postwar evacuee. A close-up portrait of an ordinary existence, *Life in Peacetime* offers a new look at the postwar era in Italy and the fundamental contradictions of a secure, middle-class life.

No Regrets, Coyote is a wild ride to the dark heart of the Florida underworld. Aristotle said 'you are what you repeatedly do'. Most of us have no idea that what we repeatedly do creates our lives, we think our future is shaped by big events, the decisions we make, the thoughts we have but, this book will show you that it is your daily actions that are the key. Over the last few decades neuroscientists and psychologists have discovered that there is more power in 'I do' than 'I think'. However, if an action is repeated enough times it becomes habit but habits lack thought, consideration and presence. To effect long-lasting meaningful change our actions need to be filled with a sense of personal meaning and power – they need to be ritualized. Creating personal ritual in our lives allows us to bring the presence of the sacred into the everyday. The rituals in this book have been designed as symbolic acts providing a framework for anyone to use to create positive change in their lives. The 7 morning rituals are designed to help you 'wake with determination', the 7 afternoon rituals focus on 'living on purpose', and the 7 evening rituals are about 'retiring with satisfaction'.

A vibrant, intimate, hypnotic portrait of one woman's life, from an important new writer Tess Lohan is the kind of woman that

we meet and fail to notice every day. A single mother. A nurse. A quiet woman, who nonetheless feels things acutely—a woman with tumultuous emotions and few people to share them with. *Academy Street* is Mary Costello's luminous portrait of a whole life. It follows Tess from her girlhood in western Ireland through her relocation to America and her life there, concluding with a moving reencounter with her Irish family after forty years of exile. The novel has a hypnotic pull and a steadily mounting emotional force. It speaks of disappointments but also of great joy. It shows how the signal events of the last half century affect the course of a life lived in New York City. Anne Enright has said that Costello's first collection of stories, *The China Factory*, "has the feel of work that refused to be abandoned; of stories that were written for the sake of getting something important right . . . Her writing has the kind of urgency that the great problems demand" (*The Guardian*). *Academy Street* is driven by this same urgency. In sentence after sentence it captures the rhythm and intensity of inner life.

When unscrupulous scientists try to kidnap Norby in order to learn the secret of the robot's anti-gravitational capabilities, he and Jeff discover on the dragon-inhabited planet Jamya the key to an even more precious secret.

threatened. But he soldiers on. And as he comes face to face with unthinkable evil, Hunter struggles to maintain his reputation, his sanity, and his life.

A thrilling quest through the past with Geronimo Stilton and his friends.

In this fascinatingly complex thriller, two people, each shattered by their past, team up to solve a series of killings and abductions—unspeakable crimes that turn out to be merely the surface of something far more sinister. When a woman is beheaded in a park outside Rome and her six-year-old son goes missing, the police arrest the woman's husband and await his confession. But the city's Chief of Major Crimes has his doubts and assigns two of Italy's top analytical minds to the case: Deputy Captain Colomba Caselli, a fierce, warrior-like detective still reeling from a horrific mass killing she survived, and Dante Torre, a man who spent his childhood trapped inside a concrete silo. Fed through the gloved hand of a masked kidnapper who called himself "the Father," Dante emerged from his ordeal with crippling claustrophobia but, also, with an unquenchable thirst for knowledge. All evidence suggests that the Father is back at work and wants a reunion with Dante. But when Colomba and Dante begin

unraveling the truth, they find themselves wanted for murder. Now Dante and Colomba must travel down a number of dark tunnels, both literal and figurative, as they confront the question that may solve it all: what lies beneath the water in a remote Italian quarry? And what might that revelation mean for ten children who have recently gone missing? Kill the Father boasts a brilliantly layered plot that offers new and more haunting revelations at every turn. Not since Thomas Harris's *The Silence of the Lambs* has there been as intriguing a pairing of hard-charging female detective and "damaged" savant, and not since Jo Nesbo has there been a foreign thriller talent as promising.

Žižek as comedian: jokes in the service of philosophy. "A serious and good philosophical work could be written consisting entirely of jokes."—Ludwig Wittgenstein The good news is that this book offers an entertaining but enlightening compilation of Žižekisms. Unlike any other book by Slavoj Žižek, this compact arrangement of jokes culled from his writings provides an index to certain philosophical, political, and sexual themes that preoccupy him. *Žižek's Jokes* contains the set-ups and punch lines—as well as the offenses and insults—that Žižek is famous for, all in less than 200 pages. So what's the bad news? There is no bad news. There's just the inimitable Slavoj Žižek, disguised as an impossibly erudite, politically incorrect uncle, beginning a sentence, "There is an old Jewish joke, loved by Derrida..." For Žižek, jokes are amusing stories that offer a shortcut to philosophical insight. He illustrates the logic of the Hegelian triad, for example, with three variations of the "Not tonight, dear, I have a headache" classic: first the wife claims a migraine; then the husband does; then the wife exclaims, "Darling, I have a terrible migraine, so let's have some sex to refresh me!" A punch line about a beer bottle provides a Lacanian lesson about one signifier. And a "truly obscene"

version of the famous “aristocrats” joke has the family offering a short course in Hegelian thought rather than a display of unspeakables. Žižek's Jokes contains every joke cited, paraphrased, or narrated in Žižek's work in English (including some in unpublished manuscripts), including different versions of the same joke that make different points in different contexts. The larger point being that comedy is central to Žižek's seriousness.

It is commonly assumed that the best way to help the poor out of their misery is to allow the rich to get richer, that if the rich pay less taxes then all the rest of us will be better off, and that in the final analysis the richness of the few benefits us all. And yet these commonly held beliefs are flatly contradicted by our daily experience, an abundance of research findings and, indeed, logic. Such bizarre discrepancy between hard facts and popular opinions makes one pause and ask: why are these opinions so widespread and resistant to accumulated and fast-growing evidence to the contrary?
