Muslims and Matriarchs is a history of an unusual, probably heretical, and ultimately resilient cultural system. The Minangkabau culture of West Sumatra, Indonesia, is well known as the world's largest matrilineal culture; Minangkabau people are also Muslim and famous for their piety. In this book, Jeffrey Hadler examines the changing ideas of home and family in Minangkabau from the late eighteenth century to the 1930s. Minangkabau has experienced a sustained and sometimes violent debate between Muslim reformists and preservers of indigenous culture. During a protracted and bloody civil war of the early nineteenth century, neo-Wahhabi reformists sought to replace the matriarchate with a society modeled on that of the Prophet Muhammad. In capitulating, the reformists formulated an uneasy truce that sought to find a balance between Islamic law and local custom. With the incorporation of highland West Sumatra into the Dutch empire in the aftermath of this war, the colonial state entered an ongoing conversation. These existing tensions between colonial ideas of progress, Islamic reformism, and local custom ultimately strengthened the matriarchate. The ferment generated by the trinity of oppositions created social conditions that account for the disproportionately large number of Minangkabau leaders in Indonesian politics across the twentieth century. The endurance of the matriarchate is testimony to the fortitude of local tradition, the unexpected flexibility of reformist Islam, and the ultimate weakness of colonialism. Muslims and Matriarchs is particularly timely in that it describes a society that experienced a neo-Wahhabi jihad and an extended period of Western occupation but remained intellectually and theologically flexible and diverse.

After completing this book, you will discover the art of high-performance learning, build your skills to match the speed of change, become a self-directed learner for life, and thrive as you create new opportunities.

This pack consists of the Basic English Grammar B Student Book and the Workbook B. Blending communicative and interactive approaches with tried-and-true grammar teaching, Basic English Grammar, Third Edition, by Betty Schramper Azar and Stacy A. Hagen, offers concise, accurate, level-appropriate grammar information with an abundance of exercises, contexts, and classroom activities. Features of Basic English Grammar, Third Edition: Increased speaking practice through interactive pair and group work. New structure-focused listening exercises. More activities that provide real communication opportunities. Added illustrations to help students learn vocabulary, understand contexts, and engage in communicative language tasks. New Workbook solely devoted to self-study exercises. New Audio CDs and listening script in the back of the Student Book.

Examines the ways in which cultural practices and knowledges are produced in and out of schools around the world.

New edition with foreword by Nobel Peace Prize winner Desmond Tutu: "How extraordinary that this humble suitcase has enabled children all over the world to learn through Hana's story the terrible history of what happened and that it continues to urge them to heed the warnings of history." In the spring of 2000, Fumiko Ishioka, the curator of a small Holocaust education centre for children in Tokyo, received a very special shipment for an exhibit she was planning. She had asked the curators at the Auschwitz museum if she could borrow some artifacts connected to the experience of children at the camp. Among the items she received was an empty suitcase. From the moment she saw it, Fumiko was captivated by the writing on the outside that identified its owner – Hana Brady, May 16, 1931, Waisenkind (the German word for orphan). Children visiting the centre were full of questions. Who was Hana Brady? Where did she come from? What was she like? How did Hana become an orphan? What happened to her? Fueled by the children's curiosity and her own need to know, Fumiko began a year of detective work, scouring the world for clues to the story of Hana Brady. Writer Karen Levine follows Fumiko in her search through history, from present-day Japan, Europe and North America back to 1938 Czechoslovakia and the young Hana Brady, a fun-loving child with a passion for ice skating. Together with Fumiko, we learn of Hana's loving parents and older brother, George, and discover how the family's happy life in a small town was turned upside down by the invasion of the Nazis. Based on an award-winning CBC documentary, Hana's Suitcase takes the reader on an incredible journey full of mystery and memories, which come to life through the perspectives of Fumiko, Hana and later Hana's brother, who now lives in Canada. Photographs and original wartime documents enhance this extraordinary story that bridges cultures, generations and time. Ideal for young readers aged 9 and up. Hana's Suitcase is part of the award-winning Holocaust Remembrance Series for Young Readers.

An invaluable aid to companies and auditors involved in first-time adoption of the new SMEs standard Applying the IFRS for SMEs provides expert insights and explanations of the International Financial Reporting Standards (IFRS) for small and medium enterprises (SMEs) issued by the International Accounting Standards Board (IASB). This important book includes comprehensive coverage of this recently issued standard aimed at small and medium-sized businesses. Provides essential coverage for application of IFRS-now a necessity in the accounting world Includes Foreword by Paul Pacter, Director of Standards for SMEs, IASB Offers commentary on the theory in the standard, illustrative disclosures, comprehensive illustrative financial statements and comparisons to full IFRS Includes relevant real life worked out examples aimed at SMEs, plus summaries of important points The first book on how to apply the new SMEs standard, Applying the IFRS for SMEs is a must-have book for your small or medium-sized business.

What is the doctrine of the Trinity or Tri-une God? For years, the debate continues as to whether Jesus Christ and the Father are the same or if they are separate. Answers to this controversy are within the word of God which clearly reveals the truth. In the pages of this book, we will plainly discuss the Godhead; that is, the divine nature of God.

Through the presentation of biblical truth, we will bring clarity to this controversial subject.

Practical procedures for teachers to follow at every stage are outlined, including ways to stimulate students to write through pictures, readings and discussions, and ways to respond to student writing as a form of communication.

The cornerstone for all celestial navigation, listing the celestial bodies used for navigation, a sight reduction table, and other information valuable to the offshore navigator. The content of this edition is identical to the United States Naval Observatory 2021 edition.

Corporate governance principles provide guidance on how corporations should operate. Adoption of international corporate governance best practices leads to long-term sustainability and resilience, and can be a competitive tool to attract foreign investments. The Asian Development Bank, in partnership with the ASEAN Capital Markets Forum, have jointly developed the ASEAN Corporate Governance Scorecard, an assessment based on publicly available information and benchmarked against international best practices that encourage publicly listed companies to go beyond national legislative requirements. This report can be used by capital market regulators and other stakeholders as a reference to understand the current corporate governance standards across the region. It is also a useful diagnostic tool to guide improvement of corporate governance standards.

This book is a book about English speaking (conversation) learning in advanced level which was arranged practically and concisely, and it is one of books used by English Academy Bengkulu as a primary learning materials. However, this book is intended not only for students of English Academy, but is also intended for all English learners in the world. The themes in this book have been adapted to conversations in everyday life, so it can help learners at an advanced level to learn how to deliver English in a good and right way.

Challenge Math is being used by teachers to provide additional enrichment and develop student problem solving skills. Children love the fascinating stories that tie math and science together and show real life applications for math. Over 1000 problems at three levels of difficulty to challenge even the brightest students. Second edition answer section includes step by step instructions for solving the problems. Answer key included. (Grades 4-8)

Promoting Assessment as Learning sets out to re-examine the relationship between assessment and learning in the classroom. It argues that assessment is an important part of pupil learning, and needs to be understood by pupils in order to help them make judgements about their own progress. This timely book explores the theories of learning and assessment within the context of national tests and also through the theme of self-assessment. It offers practical approaches to help teachers translate national policy into meaningful classroom practice, and suggests ways to help pupils develop their own assessment skills through a process of consolidation, reflection and revision. This book will appeal to new and practising primary school teachers and headteachers and those on in-service courses. It will also be of interest to students on initial teacher training and higher degree courses.

Yakuza Moon is the shocking, yet intensely moving memoir of 37-yearold Shoko Tendo, who grew up the daughter of a yakuza boss. Tendo lived her life in luxury until the age of six, when her father was sent to prison, and her family fell into terrible debt. Bullied by classmates who called her "the yakuza girl," and terrorized at home by a father who became a drunken, violent monster after his release from prison, Tendo rebelled. A regular visitor to nightclubs at the age of 12, she soon became a drug addict and a member of a girl gang. By the age of 15 she found herself sentenced to eight months in a juvenile detention center. Adulthood brought big bucks and glamour when Tendo started working as a bar hostess during Japan's booming bubble economy of the nineteen- eighties. But among her many rich and loyal patrons there were also abusive clients, one of whom beat her so badly that her face was left permanently scarred. When her mother died, Tendo plunged into such a deep depression that she tried to commit suicide twice. Tendo takes us through the bad times with warmth and candor, and gives a moving and inspiring account of how she overcame a lifetime of discrimination and hardship. Getting tattooed, from the base of her neck to the tips of her toes, with a design centered on a geisha with a dagger in her mouth, was an act that empowered her to start making changes in her life. She quit her job as a hostess. On her last day at the bar she looked up at the full moon, a sight she never forgot. The moon became a symbol of her struggle to become whole, and the title of the book she wrote as an epitaph for herself and her family.

A Biography Book of Basuki Tjahaja Purnama (BTP). This book is a collection of stories about BTP from the views of 51 authors from various backgrounds. This book was conceived as a 51st birthday present for BTP. This book is the english version of Ahok di Mata Mereka.

Global value chains (GVCs) powered the surge of international trade after 1990 and now account for almost half of all trade. This shift enabled an unprecedented economic convergence: poor countries grew rapidly and began to catch up with richer countries. Since the 2008 global financial crisis, however, the growth of trade has been sluggish and the expansion of GVCs has stalled. Meanwhile, serious threats have emerged to the model of trade-led growth. New technologies could draw production closer to the consumer and reduce the demand for labor. And trade conflicts among large countries could lead to a retrenchment or a segmentation of GVCs. World Development Report 2020: Trading for Development in the Age of Global Value Chains examines whether there is still a path to development through GVCs and trade. It concludes that technological change is, at this stage, more a boon than a curse. GVCs can continue to boost growth, create better jobs, and reduce poverty provided that developing countries implement deeper reforms to promote GVC participation; industrial countries pursue open, predictable policies; and all countries revive multilateral cooperation.

Clarifies for the first time what contemporary early childhood practitioners and leaders need to know in order to manage early childhood services in a professional way. The text explores leadership concepts in an integrated manner. Authors are from the University of South Australia, & the University of Melbourne.

This activity-based program helps special-needs students achieve success and confidence in four content areas: science, social studies, math, and communication arts. Students learn to identify cause-and-effect relationships, identify main ideas and details, compare and contrast, summarize ideas, ask questions, make judgments, and more. Reading

Level: 2-3 Interest Level: 6-12

From an Islamic perspective, although the ownership of wealth is with God, humans are gifted with wealth to manage it with the objective of benefiting the human society. Such guidance means that wealth management is a process involving the accumulation, generation, purification, preservation and distribution of wealth, all to be conducted carefully in permissible ways. This book is the first to lay out a coherent framework on how wealth management should be conducted in compliance with guiding principles from edicts of a major world religion.

Now available from Waveland Press, the Third Edition of Roads to Geometry is appropriate for several kinds of students. Pre-service teachers of geometry are provided with a thorough yet accessible treatment of plane geometry in a historical context. Mathematics majors will find its axiomatic development sufficiently rigorous to provide a foundation for further study in the areas of Euclidean and non-Euclidean geometry. By using the SMSG postulate set as a basis for the development of plane geometry, the authors avoid the pitfalls of many "foundations of geometry" texts that encumber the reader with such a detailed development of preliminary results that many other substantive and elegant results are inaccessible in a one-semester course. At the end of each section is an ample collection of exercises of varying difficulty that provides problems that both extend and clarify results of that section, as well as problems that apply those results. At the end of chapters 3–7, a summary list of the new definitions and theorems of each chapter is included.

Here comes the crocodile! And he's sniffing and he's snarling. And he's grumbling and he's growling. And his great big tummy's rumbling . . . Oh no! He's hungry. RUN!

The proceedings of International Conference on Science, Education, and Technology 2019 are the compilation of articles in the internationally refereed conference dedicated to promote acceleration of scientific and technological innovation and the utilization of technology in assisting pedagogical process.

The authors present the key issues central to planning and conduct.

The Microsoft Technology Associate certification (MTA) curriculum helps instructors teach and validate fundamental technology concepts with a foundation for students' careers as well as the confidence they need to succeed in advanced studies. Through the use of MOAC MTA titles you can help ensure your students future success in and out of the classroom. This MTA text covers the following HTML5

Application vital fundamental skills: • Manage the Application Life Cycle • Build the User Interface by Using HTML5 • Format the User Interface by Using CSS • Code by Using JavaScript Click here to learn more about the Microsoft Technology Associate (MTA), a new and innovative certification track designed to provide a pathway for future success in technology courses and careers.

This book is the first work that comprehensively presents the accounts of Lia Eden, a former flower arranger who claims to have received divine messages from the Archangel Gabriel and founded the divine Eden Kingdom in her house in Jakarta. This book places Lia Eden's prophetic trajectory in the context of diverse Indonesian spiritual and religious traditions, by which hundreds of others also claimed to have been commanded by God to lead people and to establish religious groups. This book offers a fresh approach towards the rich Indonesian religious and spiritual traditions with particular attention to the accounts of the emergence of indigenous prophets who founded some popular religions. It presents the history of prophetic tradition which remains alive in Indonesian society from the colonial to reform period. It also explores the ways in which these prophets rebelled against two hegemonies: colonial power in the past and Islamic orthodoxy in the present. The discussion of this book focuses on Lia Eden including her biography, claims to prophethood and divinity, the development of her group Eden Kingdom, her challenge to Islamic orthodoxy under the banner of the MUI (Indonesian Ulama Council), her persecution by radical groups, her experiences in court trials and imprisonment, and public responses to her emergence. The discussion also covers other themes currently drawing public attention in Indonesia, such as pluralism, religious freedom, tolerance, discrimination against minorities, and secularisation.
