Tarma, the only survivor of her clan's genocide, and Kethry, a fugitive from a forced marriage, swear a blood oath to use their own magical powers and that of a magical sword to avenge the wrongs done to womankind

A book which explores Christian vocation. There is particular support for those considering whether they should offer themselves as candidates for the ordained priesthood, the diaconate, or some other formal ministry. It begins with a vision of the Christian life and of Christian ministry rather than simply a technical discussion of the theological roots of ministry and vocation. It explores aspects of the theology of ministry, but it starts from experience of the world.

"This is a book of original American poetry"--

Three stories starring Golden Age heroes and featuring existential themes.

The author shows how museum culture offers a unique vantage point on the 19th and 20th centuries' preoccupation with history and subjectivity, and demonstrates how the constitution of the aesthetic provides insight into the realms of technology, industrial culture, architecture, and ethics.

“Waniek is a poet of intelligence, passion, and gentleness with a fine sense of the comic and unfailing judgment about what constitutes a poetic line. She creates a rich mixture of impressions about the speaker of these poems as a woman who is at the same time in her mid-twenties and her mid-fifties, who is black and white and red, who is both trapped by and freed by motherhood.” —Miller Williams Marilyn Nelson Waniek writes with great wisdom and compassion. Grounded but never earthbound, her poems speak honestly and eloquently about giving birth, nurturing life, and facing death; they inhabit the present, fully aware of their responsibilities to the past and the future. Waniek leaves us with the affecting strength and assurance of lasting things, as in the poem “Mama’s Promise.” But the dangerous highway curves through blue evenings when I hold his yielding hand and snip his minuscule nails with my vicious-looking scissors. I carry him around like an egg in a spoon, and I remember a porcelain fawn, a best friend’s trust, my broken faith in myself. It’s not my grace that keeps me erect as the sidewalk clatters downhill under my rollerskate wheels. Then I think of Mama, her bountiful breasts. When I was a child, I really swear, Mama’s kisses could heal. I remember her promise, and whisper it over my sweet son’s sleep: When you float to the bottom, child, like a mote down a sunbeam, you’ll see me from a trillion miles away: my eyes looking upon you, my arms outstretched for you like night. Horace Fletcher, an American health-food advocate of the Victorian era, earned the nickname "The Great Masticator" through his advocacy that food needed to be chewed thirty-two times before being swallowed. At the age of 58, he conducted a series of strength and endurance experiments at the Yale Gymnasium versus college athletes which claimed that Fletcher could outperform these athletes. Fletcher also had a great interest in human excreta, believing that it evidenced one's true nutrition. He also advocated for a low-protein diet as a means of health and well-being. Through this 1913 volume Fletcher explains his theories of health and well-being and how, you too, can become a Fletcherite.

"The Flagellants is the story of the romantic relationship between Ideal and Jimson. After a brief prologue establishing Ideal's childhood connection to a black community called "the Bottom," the novel unfolds as a series of arguments between the couple, representing the historical gender conflicts between black men and women."--eNotes.

The Horse Interlude presents a pictorial history of the role horses played in the wheat farming operations of the Pacific Northwest, concentrating on the geographical area located along the Snake River in Idaho, Washington, and Oregon. In it Thomas B. Keith surveys the period from the mid-1850s to the 1930s, during which technological innovations progressively enabled farmers to improve the efficiency of wheat farming operations, beginning with the replacement of the cradle and flail by the horse, and ending when the horse was in its turn supplanted by the self-propelled combine. Detailed photographs of horse-drawn equipment illustrate the ways in which the use of horses changed during three successive periods of agricultural history: the pioneer settlement of the area, the inauguration of large-scale farming, and the attainment of mechanization. Other sections of the book relate the histories of threshers, headers, and horse-propelled harvesters, while the conclusion recounts the accomplishments of the Northwest's greatest riders. In telling the story of the "horse interlude," Keith draws the reader back to a time of rapid growth and change, a time created by the ingenuity and resourcefulness of the early wheat farmers of the Pacific Northwest and their hard-working partners, the horses.

'I must down to the seas again, to the lonely sky and sea' John Masefield was sent to join a training ship at a young age, his aunt hoping the experience would cure him of his addiction to books. Instead, Masefield was to become one of the greatest writers on life at sea. In this collection of short stories, extracts from novels, poetry (including 'Sea-Fever' and 'Cargoes' which Betjeman said 'will be remembered as long as the language lasts') and autobiography, he writes of the hardship, romance and adventure of seafaring with a sailor's way with language and sense of a good yarn: of life in dock and on the swelling seas, of salt spray, mutiny, great storms, the spirits beneath the waves, and the devil and Davy Jones playing dice for souls. This edition includes an introduction by Philip W. Errington on Masefield's reputation, his mistreatment of his own youthful work, and his conflicted attitude to his colourful life story. It also includes a chronology, further reading and notes. Edited with an introduction and notes by Philip W. Errington

Emily Riddle has lived her entire life inside a patriarchal commune led by her father. There are many rules, but the most important one, 'keep it in the commune', is the most difficult for her to follow... especially since the only people willing to champion her cause live on the outside. When Emily learns her father has promised her to Lorenzo, a perverted man who has plans for her that extend well beyond marriage and kids, she rebels. Regardless of the consequences, she refuses to marry someone who'd rather beat her than caress her. A day of hooky that starts out as a tiny act of defiance - sneaking out of the commune for a swim - turns into a day filled with hope. After spending time with Levi, a man camping near the lake, she finds what true romance looks like and catches a glimpse into a future that's filled with love and admiration rather than hate and submission. That tiny peek is enough to change the course of Emily's existence and makes it nearly impossible for her to go back to the commune and pretend she'll ever be able to tolerate the life chosen for her instead of the life she longs for. One that includes Levi. Fighting to escape the commune, its leaders, and her fiance proves to be more dangerous than Emily expected. The secrets she knows, as the leader's daughter, will either follow her to the grave or send her - and Levi - there.

Entomology is that branch of zoology which deals with the study of insects. It studies the structure, classification, biological systems, nature, habitats, etc. of insects in detail. This book attempts to understand the multiple topics that fall under the discipline of entomology and how such concepts have practical applications and effects in the ecosystem. It picks up individual branches and explains their need and contribution in the context of the growth of this area. The

textbook also explains the various practices that highlight the conservation of the environment. Coherent flow of topics, student-friendly language and extensive use of examples make this text an invaluable source of knowledge.

ABC's, First Words, Numbers and Shapes, Colors and Opposites including a special note to parents. Children will enjoy hours of learning fun in each 32-page bi-lingual book. All four books are designed specifically to teach and reinforce basic concepts for preschool through early elementary school children.
