A provocative theory of the gimmick as an aesthetic category steeped in the anxieties of capitalism. Repulsive and yet strangely attractive, the gimmick is a form that can be found virtually everywhere in capitalism. It comes in many guises: a musical hook, a financial strategy, a striptease, a novel of ideas. Above all, acclaimed theorist Sianne Ngai argues, the gimmick strikes us both as working too little (a labor-saving trick) and as working too hard (a strained effort to get our attention). Focusing on this connection to work, Ngai draws a line from gimmicks to political economy. When we call something a gimmick, we are registering uncertainties about value bound to labor and time—misgivings that indicate broader anxieties about the measurement of wealth in capitalism. With wit and critical precision, Ngai explores the extravagantly impoverished gimmick across a range of examples: the fiction of Thomas Mann, Helen DeWitt, and Henry James; photographs by Torbjørn Rødland; the video art of Stan Douglas; the theoretical writings of Stanley Cavell and Theodor Adorno. Despite its status as cheap and compromised, the gimmick emerges as a surprisingly powerful tool in this formidable contribution to aesthetic theory.

But how does a brand make the transition from old to new? According to advertising gurus Alex Bogusky and John Winsor, it starts with the realization that the message is not the product, the product is the message. In Baked-In, they offer a step-by-step guide on how brands can adapt and thrive in this brave new world. Using these tools, Bogusky and Winsor have successfully marketed some of today's most important brands, including Google, Nike, Microsoft, Patagonia, Toyota, and Burger King. They reveal how, through tools at hand — product design, brand history, internal collaboration — and the new tools of digital technology — YouTube and the web in general — companies can succeed in the 21st-century marketplace.

The winner of The Great American Baking Show shares her story of personal growth and more than 100 delicious recipes. NAMED ONE OF THE BEST COOKBOOKS OF THE YEAR BY TIME OUT AND TASTE OF HOME • “As much about a collection of recipes that makes your mouth water and tugs at your heart with food memories as it is about the chronicles and life lessons of a true comeback kid.”—Carla Hall Popular baking personality and lawyer turned baker Vallery Lomas was ecstatic when she learned she won the third season of The Great American Baking Show. However, her win was never seen by the world—Vallery’s season was pulled after just a few episodes when one of the judges became a focal point in a Me Too accusation. Rather than throwing in her whisk and lamenting all of the missed opportunities she hoped to receive (Book deal! Product endorsements! TV show!), she held her head high and hustled—which resulted in her getting press coverage everywhere from CNN to People magazine. Now, Vallery debuts her first baking book. With 100 recipes for everything from Apple Cider Fritters to Lemon-Honey Madeleines and Crawfish Hand Pies to her Grandma’s Million Dollar Cake. Vallery shares heirloom family recipes from her native Louisiana, time spent in Paris, The Great American Baking Show, and of course sweets and breads inspired by her adopted hometown, New York City. Vallery’s “when life gives you lemons, make lemon curd” philosophy will empower legions of bakers and fans to find their inner warrior and bake their best life. “Life Is What You Bake It is not only a collection of recipes but also an empowering book that shows us there’s often more possible than we can even imagine.”—Julia Turshen, bestselling author of Simply Julia, host of Keep Calm and Cook On podcast, and founder of Equity at the Table
