Analyzes developments in the rise of the Ottoman Empire, from 1280 to 1808, and its modernization and demise in the nineteenth and early twentieth centuries

Meet Blackwater USA, the private army that the US government has quietly hired to operate in international war zones and on American soil. Its contacts run from military and intelligence agencies to the upper echelons of the White House; it has a military base, a fleet of aircraft and 20,000 troops, but since September 2007 the firm has been hit by a series of scandals that, far from damaging the company, have led to an unprecedented period of expansion. This revised and updated edition includes Scahill's continued investigative work into one of the outrages of our time: the privatisation of war.

The adventurous stories of the greatest explorers in history, illustrated with hundreds of evocative portraits, photographs, paintings, and maps. Marco Polo, Ferdinand Magellan, David Livingstone, Amelia Earhart, Neil Armstrong: these are some of the greatest travelers of all time. This book chronicles their stories and many more, describing epic voyages of discovery and exploration, from the extraordinary migrations out of Africa by our earliest ancestors to the latest voyages into space. In antiquity, we follow Alexander the Great to the Indus and Hannibal across the Alps; in medieval times we trek beside Genghis Khan and Ibn Battuta. The Renaissance brought Columbus to the Americas and the circumnavigation of the world. The following centuries

saw gaps in the global maps filled by Tasman, Bering, and Cook, and journeys made for scientific purposes, most famously by von Humboldt and Darwin. In modern times, the last inhospitable ends of the earth were reached including both poles and the world's highest mountain and new elements were conquered. Here are human stories of great triumph and success, but also of terrible hardships, tragedy, and astonishing courage in adversity. An incredible team of contributors from distinguished historians and writers to travelers and explorers bring firsthand experience to the journeys and places they describe. The contributors include Robert Ballard, Barry Cunliffe, Ranulph Fiennes, Pen Hadow, John Hemming, Robin Knox-Johnston, Christopher Ondaatje, and Simon Winchester.

This text examines the dogfights between the North American F-86 Sabres pitted against MiG-15s, which were flown by some of the best fighter pilots in history. It contains personal accounts from F-86 pilots.

A close presidential election in November could well come down to contested states or even districts--an election decided by vote theft? It could happen this year. Based on Greg Palast and Robert F. Kennedy, Jr.'s investigative reporting for Rolling Stone and BBC television, *Billionaires & Ballot Bandits: How to Steal an Election in 9 Easy Steps* might be the most important book published this year--one that could save the election. *Billionaires & Ballot Bandits* names the filthy-rich sugar-daddies who are super-funding the Super-PACs of both parties--billionaires with nicknames like "The Ice Man," "The Vulture" and, of course, The

Brothers Koch. Told with Palast's no-holds-barred, reporter-on-the-beat style, the facts as he lays them out are staggering. What emerges in Billionaires & Ballot Bandits is the never-before-told-story of the epic battle being fought behind the scenes between the old money banking sector that still supports Obama, and the new hedge fund billionaires like Paul Singer who not only support Romney but also are among his key economic advisors. Although it has not been reported, Obama has shown some backbone in standing up to the financial excesses of the men behind Romney. Billionaires & Ballot Bandits exposes the previously unreported details on how operatives plan to use the hundreds of millions in Super-PAC money pouring into this election. We know the money is pouring in, but Palast shows us the convoluted ways the money will be used to suppress your vote. The story of the billionaires and why they want to buy an election is matched with the nine ways they can steal the election. His story of the sophisticated new trickery will pick up on Palast's giant New York Times bestseller, *The Best Democracy Money Can Buy*. From his cage in a putrid, overcrowded Indian gaol, Paul Jordan reflects on a life lived on the edge and curses the miscalculation that robbed him of his freedom. His childhood, marred by the loss of his father and brother, produce a young man hell bent on being the best of the best - an ambition he achieves by being selected to join the elite SAS. He survives the gut-wrenching training regime, deployment to the jungles of Asia and the horrors of genocide in Rwanda before leaving the army to embark on a career as a security adviser. His new life

sees him pursuing criminals and gun-toting bandits in Papua New Guinea and the Solomons, protecting CNN newsmen as the US 7th Cavalry storms into Baghdad with the outbreak of the Iraq War, and facing death on a massive scale as he accompanies reporters into the devastated Indonesian town of Banda Aceh, flattened by the Boxing Day tsunami. During his 24 days in an Indian gaol, Paul Jordan discovers that friendship and human dignity somehow survive the filth and deprivation. This is a personal account of a tough, hardened fighter who suddenly finds himself totally dependent on others for his every need. *The Easy Day was Yesterday* is fast paced, brutally honest and raw, but laced with dark humour. The core of Paul Jordan's eventful life, however, is the strength of his bonds with family and friends and the ability of the human spirit to survive even the direst adversity.

Hand-picked, pressure-tested, and full of astronaut gung ho, the young pilots of Eye of the Viper are poised for the toughest assignment of their career: the exhaustive six-month training course at Arizona's Luke Air Force Base, at a cost of \$2 million each. Luke, the world's largest fighter wing, is the only F-16 fighter training base in the United States, and each year it produces one thousand pilots who will fly the F-16 from Korea to Afghanistan to Iraq. But being among the elite pilots who are selected for the course is by no means a guarantee that they will earn the right to fly the F-16. Only a few select individuals will have what it takes. Award-winning journalist Peter Aleshire provides a full blast of the rigors and intensity of the course--the personalities, the

incredible machines, the irreverence, the bravado, and the toughness, not only of the hand-picked students seeking a place in the warrior subculture, but of the veteran pilots who must teach them how to stay alive. This volume brings together some of the leading researchers on early Islamic history and thought to study the legitimacy of violence.

An on-the-ground commander describes his brigade's first year in Iraq after the U.S. forces seized Baghdad in the spring of 2003, and explains what went right and wrong as the U.S. military confronted an insurgency, in a firsthand analysis of success and failure in Iraq.

South Armagh was first described as "Bandit Country" by Merlyn Rees when he was Northern Ireland's Secretary of State, and for nearly three decades it has been the most dangerous posting in the world for soldiers. Toby Harnden has stripped away the myth and propaganda associated with South Armagh to produce one of the most compelling and important books of the subject.

Drawing on secret documents and interviews in South Armagh's recent history, he tells the inside story of how the IRA came close to bringing the British state to its knees. For the first time, the identities of the men behind the South Quay and Manchester bombings are revealed. Packed with new information, *Bandit Country* penetrates the IRA and the security forces in South Armagh.

Wars dehumanize. This book humanizes. To those who have been silenced by the trauma of conflict, gagged by fear and conformity, and muted by the world's indifference, this book gives a voice. And it is an unforgettable voice: powerfully, intimately human, heart-wrenching and heart-warming in equal measure, singing a song of horror and of hope. Packed with eighty riveting interviews from eleven conflict zones around the globe, *Speaking Their Peace* lets "ordinary" people tell their own extraordinary stories of life during wartime and their efforts to build a better, more peaceful life for themselves, their families, and their societies. This emotionally compelling book puts a human face on the news reports that usually skim the surface of the trauma of violent conflict. *Speaking Their Peace* will change the way you think about how people cope with war and the transition from war to peace.

Explores the complex dynamics of foreign policy in post-Cold War America, profiling Washington decision makers and providing an analysis of the Clinton presidency. This retelling of the One Thousand and One Nights tale "Ali Baba and the Forty Thieves," set in tenth-century Baghdad, is told from the perspective of Marjana, the girl who saves Ali Baba, and brings a fresh perspective to the classic story! Marjana and her little brother, Jamal, who have been slaves of Ali Baba's cruel brother ever since their mother died, are kidnapped by the Forty Thieves one night. They are able to escape, but Marjana is worried for Jamal, as he becomes drawn to their lifestyle and joins a street gang. When Marjana meets

Saja, a slave who works at the bathhouse, who's also concerned about her little brother, Badi, becoming involved with the street gangs, Saja and Marjana try to get their brothers to become friends, and in turn, become friends themselves, despite Marjana's initial reluctance. Marjana's mistress, however, is more worried about what her husband's fortune will be and convinces Marjana to spy on him when the fortune-teller Abu-Zayed visits. Abu-Zayed predicts that Ali Baba will end up far richer and greater, which sends Marjana's master into a panic, especially when he learns that Ali Baba has found the secret of the Forty Thieves' cave, which indicates that the fortune is coming true. Can Marjana save her brother from joining the street gangs, all the while helping Ali Baba from the wrath of the Forty Thieves?

The first aircraft to be purposely designed as a radar-equipped nightfighter, Northrop's P-61 Black Widow was heavily influenced by early RAF combat experience with radar-equipped aircraft in 1940/41. Built essentially around the bulky Radiation Laboratory SCR-720 radar, which was mounted in the aircraft's nose, the P-61 proved to be the largest fighter ever produced for frontline service by the USAAF. Twin-engined and twin-boomed, the Black Widow was armed with a dorsal barbette of four 0.50-in Browning machine guns and two ventrally-mounted 20 mm cannon. This volume features all the frontline users of the mighty P-61, and includes many first-hand accounts from pilots and gunners who saw action in the Pacific, Mediterranean and Western Europe.

keep intruding. Violent government coups are almost annual events and it's difficult for a child to understand what's going on or who to believe. The need for secrecy means Lina cannot tell her best friend that they are just waiting for the right moment to flee. It is the 1960s and Lina is part of the dwindling Jewish community... Mona Yahia was born in Baghdad in 1954 and escaped with her family to Israel in 1970. In 1985 she moved to Germany to study fine arts and has remained there ever since. Winner of the Jewish Quarterly Wingate Prize for Fiction 2001 'Yahia rolls Baghdad around her tongue, savouring its suks, smells, and sweetmeats (reading her makes one hungry). This is a truly exotic novel, but it's also a coming-of-age work in which the almost imperceptible transformation from childhood to adolescence is saltily observed and never sentimentalised. Yahia's prose courses with insight and wit. Her deftness of touch means that, despite its subject-matter, this novel never becomes a bleak tale of religious persecution, but remains a fresh story about adolescent experience in adversity - with parallels in the most unlikely places.' Anne Karpf, *The Guardian* 'The novel powerfully conveys the author's outrage, as well as her nostalgia for her native land.' *The Times* 'Yahia's writing evokes both the sensuality of domestic intimacy...alongside the horror of public hangings...When the Grey Beetles Took Over Baghdad is most politically sophisticated, and also most poignant, when it explores questions of language and identity.' Messianic Beliefs and Imperial Politics in Medieval

Islam analyzes the role of Muslim messianic and apocalyptic beliefs in the development of the 'Abbasid Caliphate to highlight connections between charismatic authority and institutional developments in the early ninth century. Hayrettin Yücesoy studies the relationship between rulers and religion to advance understanding of the era's political actions and, more specifically, to illustrate how messianic beliefs influenced 'Abbsid imperial politics and contributed to the reshaping of the caliphate under al-Ma'mun (809-33) after a decade-long civil war. Yücesoy challenges traditional sociological views that marginalize messianic beliefs as oppositional ideologies of disfranchised social classes to be used against the political establishment. Instead he finds a mode of symbiosis between messianic beliefs, political reform, and imperial ambitions put in motion by al-'Ma'mun's acute understanding of the sociopolitical and ideological context of his time. Yücesoy demonstrates how the caliphate absorbed influences from the late antique world and Near Eastern cultures to fashion a prophetic vision that served to undergird al-'Ma'mun's imperial aspirations. A comprehensive portrait of the caliph and his reign emerges from this study as a result. By drawing on records of Muslim and non-Muslim apocalyptic prophecies circulating among the general public and educated elites alike, this study demonstrates the pertinence of messianic beliefs to

medieval Muslim politics and illustrates the manner in which the caliph responded and shaped societal concerns on three distinct fronts: domestic fiscal and administrative reforms, an increase in missionary and military activities, and religious reform. Yücesoy shows that political usefulness contributed to the longevity of charismatic ideologies by addressing how the 'Abbsid ruling class adopted such beliefs as a medium to initiate governmental reforms and expand their authority. This work adds new layers to ongoing interdisciplinary discourse about the importance of religion in Islamic sociopolitical life, both historically and in the contemporary Muslim world.

"In 2012, the year 1433 of the Muslim calendar, the Islamic population throughout the world was estimated at approximately a billion and a half, representing about one-fifth of humanity. In geographical terms, Islam occupies the center of the world, stretching like a big belt across the globe from east to west."--P. vii.

“Here is what you will not find in the news—the personal cost of war written as clear and beautiful as literature worthy of the name is. These stories are the real thing, passionate, imaginative, searing.”

—Richard Bausch, author of *Wives & Lovers* The first book of its kind, *Operation Homecoming* is the result of a major initiative launched by the National Endowment for the Arts to bring distinguished writers to military bases and inspire U.S. Marines, soldiers, sailors, and airmen and their families to record their wartime experiences. Encouraged by such authors as Tom Clancy, Mark Bowden, Bobbie Ann Mason, Tobias Wolff, Jeff Shaara, and Marilyn Nelson, American military personnel and their loved ones wrote candidly about what they saw, heard, and felt while in Afghanistan and Iraq, as well as on the home front. Taken together, these almost one hundred never-before-published eyewitness accounts, private journals, short stories, letters, and other personal writings become a dramatic narrative that shows the human side of warfare. • the fear and exhilaration of heading into battle; • the interactions between U.S. forces and Afghans and Iraqis, both as

enemies and friends; • the boredom, gripes, and humorous incidents of day-to-day life on the front lines; • the anxiety and heartache of worried spouses, parents, and other loved ones on the home front; • the sheer brutality of warfare and the physical and emotional toll it takes on those who fight; • the tearful homecomings for those who returned to the States alive— and the somber ceremonies for those who made the ultimate sacrifice for their nation. From riveting combat accounts to profound reflections on warfare and the pride these troops feel for one another, Operation Homecoming offers an unflinching and intensely revealing look into the lives of extraordinary men and women. What they have written is without question some of the greatest wartime literature ever published. “Andrew Carroll has given America a priceless treasure.” –Tom Brokaw, on War Letters

In Washington, CIA operative Todd Van Buren meets with a Washington Post investigative reporter who has uncovered strong evidence that a powerful lobbyist has formed a shadowy group called the Friday Club, a cabal whose members include high-ranking men inside the government: a White House adviser, a three star general at the Pentagon, deputy

secretaries at the State Department, Homeland Security, the FBI and even the CIA. That afternoon Van Buren, son-in-law of the legendary spy Kirk McGarvey, is brutally gunned down because of what he's been told. The same evening the reporter and his family are killed, all traces of the shadow group erased. A grief stricken McGarvey is drawn into the most far-reaching and bizarre investigation of his career, the stakes of which could destabilize the U.S. government, and shake the foundations of the world financial order. Based on Evan Wright's National Magazine Award-winning story in Rolling Stone, this is the raw, firsthand account of the 2003 Iraq invasion that inspired the HBO® original mini-series. Within hours of 9/11, America's war on terrorism fell to those like the twenty-three Marines of the First Recon Battalion, the first generation dispatched into open-ended combat since Vietnam. They were a new pop-culture breed of American warrior unrecognizable to their forebears—soldiers raised on hip hop, video games and The Real World. Cocky, brave, headstrong, wary and mostly unprepared for the physical, emotional and moral horrors ahead, the “First Suicide Battalion” would spearhead the blitzkrieg on Iraq, and fight against the hardest resistance Saddam had to offer. Hailed as “one of

Marina Benjamin grew up in London, feeling estranged from her family's Middle Eastern ways, refusing to speak Arabic or eat their food. But when Benjamin had her own child a few years ago, she realised that she was losing her link to the past, inspiring a journey to Baghdad and into her family's history. Her discoveries will haunt anyone who seeks to understand a country whose ongoing struggles continue to command the world's attention. By turns moving and funny, *Last Days in Babylon* is an adventure story, a riveting history and a timely reminder that behind today's headlines are real people whose lives are caught in the crossfire of misunderstanding, prejudice and ambition.

the years following, Iraqi-born, British-educated artist Nuha al-Radi shows us the effects of war on ordinary people. She recounts the day-to-day realities of living in a city under siege, where food has to be consumed or thrown out because there is no way to preserve it, where eventually people cannot sleep until the nightly bombing commences, where packs of stray dogs roam the streets (and provide her own dog Salvi with a harem) and rats invade homes. Through it all, al-Radi works at her art and gathers with neighbors and family for meals and other occasions, happy and sad. In the wake of the war, al-Radi lives in semi-exile, shuttling between Beirut and Amman, travelling to New York, London, Mexico and Yemen. As she suffers the indignities of being an Iraqi in exile, al-Radi immerses us in a way of life constricted by the stress and effects of war and embargoes, giving texture to a reality we have only been able to imagine before now. But what emanates most vibrantly from these diaries is the spirit of endurance and the celebration of the smallest of life's joys.

"It is rare to see a publication which includes personalities from both Shia and Sunni schools of thought and which is so much needed in today's turbulent world. Who have been the Muslim world's most influential people? What were their ideas, thoughts, and achievements? In one hundred short and engaging profiles of these extraordinary people, fourteen hundred years of the vast and rich history of the Muslim world is unfolded. For anyone interested in getting an intimate view of Islam through its kings and scholars, generals and sportsmen, architects and scientists, and many others—this is the book for you. Among those profiled are the Prophet Muhammad, the Caliph Umar, Imam Husain, Abu Hanifa, Harun al-Rashid, al-Khwarizmi, al-Ghazali, Saladin, Rumi, Ibn Battuta, Sinan, Ataturk, Iqbal, Jinnah, Ayatollah Khomeini, Malcolm X, and Muhammad Ali.

Insurgent, Raiders and Bandits explores the history of irregular warfare over the past 250 years through the lives and campaigns of the greatest masters of this mode of conflict. The book not only tells their stories, but shapes an alternate history of the world as seen through the eyes of those who made up for their small numbers with clever, unorthodox methods that often brought them victory. Their lesson for military affairs in our time must not be ignored.

American air power is a dominant force in today's world. Its ascendancy, evolving in the half century since the end of World War II, became evident during the first Gulf War. Although a great deal has

been written about military operations in Desert Shield and Desert Storm, this deeply researched volume by Dr. Diane Putney probes the little-known story of how the Gulf War air campaign plan came to fruition. Based on archival documentation and interviews with USAF planners, this work takes the reader into the planning cells where the difficult work of building an air campaign plan was accomplished on an around-the-clock basis. The tension among air planners is palpable as Dr. Putney traces the incremental progress and friction along the way. The author places the complexities of the planning process within the context of coalition objectives. All the major players are here: President George H. W. Bush, General H. Norman Schwarzkopf, General Colin Powell, General Chuck Horner, and Secretary of Defense Richard Cheney. The air planning process generated much debate and friction, but resulted in great success—a 43-day conflict with minimum casualties. Dr. Putney's rendering of this behind-the-scenes evolution of the planning process, in its complexity and even suspense, provides a fascinating window into how wars are planned and fought today and what might be the implications for the future. An inside look at seven of the most harrowing and significant Special Operations missions ever. Courage beyond reason. Loyalty beyond faith. Perseverance in the face of

overwhelming adversity. These are just some of the qualities of the members of the U.S. Special Operation Forces. BEYOND HELL AND BACK details the seven defining Special Ops missions that have made the Special Operation Forces the best fighting unit in the world, including: *THE RESCUE OF BAT-21: The largest and longest Combat Search and Rescue mission in the Vietnam War lasted 17 days and cost the lives of 13 Americans—all to rescue one man and the invaluable knowledge he alone possessed. * TASK FORCE NORMANDY: Planned in secrecy and executed with flawless efficiency, Task Force Normandy was an Army/Air Force Special Operations joint op that fired the opening shots behind enemy lines in Operation Desert Storm. *OPERATION EAGLE CLAW: The devastating Special Forces operation mounted to retrieve 52 American hostages in Iran resulted in the deaths of eight members of the rescue team. This failure ultimately led to the creation of Special Operations Command. *BASHER 52: Captain Scott O'Grady was shot down over the "no fly" zone above Bosnia, and his daring rescue was one of the Marine Corps' finest operations ever. These are a few of the dramatic true tales that represent the defining moments that helped shape the operational methods, planning, and deployment for all future Special Ops missions. BEYOND HELL AND BACK is the greatest collection of Spec Ops missions ever assembled. This work is comprised of verbatim accounts taken from the pilots who flew the unarmed F-117 Nighthawk into the "mother of all battles" - and returned without so much as a scratch on their aircraft. Included are accounts of evading Iraqi fighters during the early days, fears of the "golden BB," incredible secondary explosions, and re-selection of targets well after the release of a guided bomb. Included with the personal accounts are technical facts and details on the F-117 making this the most comprehensive book ever

Hybrid warfare has been an integral part of the historical landscape since the ancient world, but only recently have analysts - incorrectly - categorised these conflicts as unique. Great powers throughout history have confronted opponents who used a combination of regular and irregular forces to negate the advantage of the great powers' superior conventional military strength. As this study shows, hybrid wars are labour-intensive and long-term affairs; they are difficult struggles that defy the domestic logic of opinion polls and election cycles. Hybrid wars are also the most likely conflicts of the twenty-first century, as competitors use hybrid forces to wear down America's military capabilities in extended campaigns of exhaustion. Nine historical examples of hybrid warfare, from ancient Rome to the modern world, provide readers with context by clarifying the various aspects of conflicts and examining how great powers have dealt with them in the past.

Cutting-edge in its scope and approach, this unique volume offers first-person accounts of modern genocides to enable readers to more fully examine genocidal experiences and better understand the horror of such events. From the atrocities of the Holocaust to the ongoing horrors in Darfur, genocide has been a gruesome and all-too-prominent fixture of modern history. There is no better way to examine and understand these events than through the accounts of those involved. This unique collection of primary sources features 50 documents, some of which have never before been made public. These firsthand accounts—diary entries, memoirs, oral testimony, original interviews, and more—illuminate 10 genocides of the 20th and 21st centuries as they were experienced by victims, perpetrators, and bystanders. The book begins with the Herero Genocide (1904–1907) and ends

with a consideration of the atrocities in Darfur. Each of the 50 documents features a brief introduction that provides basic and essential information such as who created it as well as when, where, and why. The work concludes with an analysis comprised of scholarly commentary, additional contextual information, and a list of questions that will serve as a springboard for student discussion of history and of the nature of survival in the face of evil. • Examines 10 modern genocides that occurred between 1904 and 2004 • Conveys the story of each genocide through primary source documents that detail historical and contemporary contexts • Addresses not only the reality of modern genocides but also the consequences and impact on individuals • Challenges the readers to look more carefully into the historic details of the genocide under discussion, fostering critical thinking and research • Enables students and other readers to empathize more directly with the reality of massive human rights violations

Thieves of Baghdad is a riveting account of Colonel Matthew Bogdanos and his team's extraordinary efforts to recover over 5,000 priceless antiquities stolen from the Iraqi National Museum after the fall of Baghdad.
