Read the series that's sold more than 2 million copies--if you dare! Warning: this description has not been authorized by Pseudonymous Bosch. As much as he'd love to sing the praises of his book (he is very vain), he wouldn't want you to hear about his brave 11-year old heroes, Cass and Max-Ernest. Or about how a mysterious box of vials, the Symphony of Smells, sends them on the trail of a magician who has vanished under strange (and stinky) circumstances. And he certainly wouldn't want you to know about the hair-raising adventures that follow and the nefarious villains they face. You see, not only is the name of this book secret, the story inside is, too. For it concerns a secret. A Big Secret.

This essay collection addresses the paradox that something may at once "be" and "not be" Shakespeare. This phenomenon can be a matter of perception rather than authorial

intention: audiences may detect Shakespeare where the author disclaims him or have difficulty finding him where he is named. Douglas Lanier's "Shakespearean rhizome," which co-opts Deleuze and Guattari's concept of artistic relations as rhizomes (a spreading, growing network that sprawls horizontally to defy hierarchies of origin and influence) is fundamental to this exploration. Essays discuss the fine line between "Shakespeare" and "not Shakespeare" through a number of critical lenses—networks and pastiches, memes and echoes, texts and paratexts, celebrities and afterlives, accidents and intertexts—and include a wide range of examples: canonical plays by Shakespeare, historical figures, celebrities, television performances and adaptations, comics, anime appropriations, science fiction novels, blockbuster films, gangster films, Shakesploitation and teen films, foreign language films, and non-Shakespearean classic films.

More than 500 alphabetically-arranged entries provide information regarding historical events, organizations, and people associated with unsolved mysteries or covert actions. Games are poised for a major evolution, driven by growth in technical sophistication and audience reach. Characters that create powerful social and emotional connections with players throughout the game-play itself (not just in cut scenes) will be essential to next-generation games. However, the principles of sophisticated character design and interaction are not widely understood within the game development community. Further complicating the situation are powerful gender and cultural issues that can influence perception of characters. Katherine Isbister has spent the last 10 years examining what makes interactions with computer characters useful and engaging to different audiences.

This work has revealed that the key to good design is leveraging player psychology: understanding what's memorable, exciting, and useful to a person about real-life social interactions, and applying those insights to character design. Game designers who create great characters often make use of these psychological principles without realizing it. *Better Game Characters by Design* gives game design professionals and other interactive media designers a framework for understanding how social roles and perceptions affect players' reactions to characters, helping produce stronger designs and better results.

Twelve Years a Slave (1853) is a memoir and slave narrative by Solomon Northup, as told to and edited by David Wilson. Northup, a black man who was born free in New York, details his kidnapping in Washington, D.C. and subsequent sale into slavery. After having been kept in bondage for 12 years in Louisiana by various masters, Northup was able to write to friends and family in New York, who were in turn able to secure his release. Northup's account provides extensive details on the slave markets in Washington, D.C. and New Orleans and describes at length cotton and sugar cultivation on major plantations in Louisiana.

Probably no decade saw as many changes in the Hollywood film industry and its product as the 1930s did. At the beginning of the decade, the industry was still struggling with the transition to talking pictures. Gangster films and naughty comedies starring Mae West were popular in urban areas, but aroused threats of censorship in the heartland. Whether the film business could survive the economic effects of the Crash was up in the air. By 1939, popularly called "Hollywood's Greatest Year," films like *Gone With the Wind* and *The Wizard of Oz* used both color and sound to spectacular effect, and remain American icons today. The "mature oligopoly" that was the studio system had not only weathered the Depression and become part of mainstream culture through the establishment and enforcement of the Production Code, it was a well-oiled, vertically integrated industrial powerhouse. The ten original essays in *American Cinema of the 1930s* focus on sixty diverse films of the decade, including *Dracula*, *The Public Enemy*, *Trouble in Paradise*, *42nd Street*, *King Kong*, *Imitation of Life*, *The Adventures of Robin Hood*, *Swing Time*, *Angels with Dirty Faces*, *Nothing Sacred*, *Jezebel*, *Mr. Smith Goes to Washington*, and *Stagecoach*.

"Trots and Bonnie is hilarious, poignant, raunchy, gorgeously drawn, and more relevant than ever. Shary Flenniken is an absolute genius." —Roz Chast In the 1970s and 1980s, *National Lampoon* was home not only to some of the funniest humor writing in America but also to many of its best cartoons. One of the greatest was *Trots and Bonnie* by Shary Flenniken, a comic strip that followed the adventures and mishaps of the guileless teenager Bonnie and her wisecracking dog, Trots. Bonnie stumbles through the mysteries of adulthood, as Flenniken—one of the few female contributors to *National Lampoon*—dissects the harsh realities of American life. Dating, sex, politics, and violence are all confronted with fearlessness and outrageous humor, rendered in Flenniken's timeless, gorgeous artwork. After all these years, they have lost none of their power to shock and amuse. This collection, handpicked by Flenniken and with an introduction by the *New Yorker* cartoonist Emily Flake, is the first book of *Trots and Bonnie* ever published in America, a long-overdue introduction to some of the most stunning and provocative comics of the twentieth century.

Twelve years after the events of *The Boys*, Hughie finds himself back home in Scotland where he intends to finally marry Annie in the company of friends and family. But the sudden appearance of a peculiar document sends our hero into a tailspin and threatens to bring the events of his nightmarish past crashing down on him in the worst possible way. There was one story about *The Boys* that Hughie never knew. Now, whether he likes it or not, he's going to. Collects issues #1-8 of *The Boys: Dear Becky*.

Unexpectedly thrown into the world of political intrigue and scandal, Barney's life is at least given some consistency when a serial killer begins to pick off members of

The true story of the American West on film, through its shooting stars and the directors who shot them... Howard Hughes explores the Western, running from John Ford's 'Stagecoach' to the revisionary 'Tombstone'. Writing with panache and fresh insight, he explores 27 key films, and draws on production notes, cast and crew biographies, and the films' box-office success, to reveal their place in western history. He shows how through reinvention and resurrection, this genre continually postpones the big adios and avoids ending up in Boot Hill...permanently. Major films covered include the best from genre giants John Ford, Howard Hawks and John Wayne, plus classics 'High Noon', 'Shane', 'The Magnificent Seven' and 'Butch Cassidy and the Sundance Kid'. 'Stagecoach to Tombstone' makes many more stops along the way, examining well-known blockbusters and lowly B-movie oaters alike. It examines comedy westerns, adventures 'south of the border', singing cowboys and the varied depiction of Native Americans on screen. Hughes also engagingly charts the genre's timely renovation by Sam Peckinpah ('Ride the High Country' and 'The Wild Bunch'), Sergio Leone ('Once Upon a Time in the West') and Clint Eastwood ('The Outlaw Josey Wales' and 'Unforgiven'). Presented too are the best of western trivia, a filmography of essential films - and ten aficionados and critics, including Alex Cox, Christopher Frayling, Philip French and Ed Buscombe, give their verdict on the best in the west.

A COMING STORM. A KILLER UNLEASHED. A body is found in a park in the middle of Glasgow. Arms and legs bound by strong, thin wire, small cuts made in the neck and the groin, arteries severed. The murder was surgical, the methods used fastidious and precise. Four days later, another body, another woman, a different park, the murder committed with the same surgical precision. The city, slowly trying to emerge from the throes of a long, cold, deadly winter, is thrown into panic, and officers are called from all outlying stations to the centre. DS Hutton is given speculative leads to follow, people who might have known both victims. And so it is that he comes to interview Dr Crispin Thebes. Retired art dealer, a man who sits at his workshop window by the Clyde, making model ships from scratch. Exact replicas, made with immaculate care. Surgical. Fastidious. Precise... "An underrated writer with an eccentric, blisteringly satirical voice." SUNDAY EXPRESS
