In this illuminating book Roger Rosenblatt offers both sensitive analyses of individual works and a provocative and compelling thesis. He argues that black fiction has a unity deriving not from any chronological sequence, or simply from its black authorship, but from a particular cyclical conception of history on which practically every significant black American novel and short story is based. Marked for oppression by an external physical characteristic, black characters struggle constantly against and within a hostile world. Rosenblatt's analysis of the way black protagonists try to break historical patterns provides an integrated and sustained interpretation of motives and methods in black fiction. The black hero, after starting on a circular track, may try to change direction by means of his youth, love, education, or humor; or he may try to escape into his own elusive and vague history. But, as Rosenblatt demonstrates, these attempts all fail. And the black hero discovers in the failure of his attempts that the society which caused all this failure is not only unattainable but undesirable. Neither a sociological study nor a routine survey, this is distinctly a work of literary criticism which concentrates on black fiction as literature.

Why focusing on the wrong answers can be just as important as finding the right one...and how to do it effectively... The simple formula that allows you to crank out a top-scoring essay (that is, if you even need to take the ACT Writing test in the first place)... The special grammatical rules tested on the ACT English section-which may differ from what's commonly accepted in a high school or college classroom... The unwritten rules for every kind of ACT question... The many ways to approach an ACT Math question, and which ones are likely to work best for you... Why every real ACT Math question can potentially be answered in under 30 seconds... And much, much more than we can fit in this space...
