Tony Bolden presents an innovative history of funk music focused on the performers, regarding them as intellectuals who fashioned a new aesthetic. Utilizing musicology, literary studies, performance studies, and African American intellectual history, Bolden explores what it means for music, or any cultural artifact, to be funky. Multitudes of African American musicians and dancers created aesthetic frameworks with artistic principles and cultural politics that proved transformative. Bolden approaches the study of funk and black musicians by examining aesthetics, poetics, cultural history, and intellectual history. The study traces the concept of funk from early blues culture to a metamorphosis into a full-fledged artistic framework and a named musical genre in the 1970s, and thereby Bolden presents an alternative reading of the blues tradition. In part one of this two-part book, Bolden undertakes a theoretical examination of the development of funk and the historical conditions in which black artists reimagined their music. In part two, he provides historical and biographical studies of key funk artists, all of whom transfigured elements of blues tradition into new styles and visions. Funk artists, like their blues relatives, tended to contest and contextualize racialized notions of blackness, sexualized notions of gender, and bourgeois notions of artistic value. Funk artists displayed contempt for the status quo and conveyed alternative stylistic concepts and social perspectives through multimedia expression. Bolden argues that on this road to cultural recognition, funk accentuated many of the qualities of black expression that had been stigmatized throughout much of American history.

Jimi Hendrix called Earl Hooker “the master of the wah-wah pedal.” Buddy Guy slept with one of Hooker's slides beneath his pillow hoping to tap some of the elder bluesman's power. And B. B. King has said repeatedly that, for his money, Hooker was the best guitar player he ever met. Tragically, Earl Hooker died of tuberculosis in 1970 when he was on the verge of international success just as the Blues Revival of the late sixties and early seventies was reaching full volume. Second cousin to now-famous bluesman John Lee Hooker, Earl Hooker was born in Mississippi in 1929, and reared in black South Side Chicago where his parents settled in 1930. From the late 1940s on, he was recognized as the most creative electric blues guitarist of his generation. He was a “musician's musician,” defining the art of blues slide guitar and playing in

sessions and shows with blues greats Muddy Waters, Junior Wells, and B. B. King. A favorite of black club and neighborhood bar audiences in the Midwest, and a seasoned entertainer in the rural states of the Deep South, Hooker spent over twenty-five years of his short existence burning up U.S. highways, making brilliant appearances wherever he played. Until the last year of his life, Hooker had only a few singles on obscure labels to show for all the hard work. The situation changed in his last few months when his following expanded dramatically. Doves of young whites were seeking American blues tunes and causing a blues album boom. When he died, his star's rise was extinguished. Known primarily as a guitarist rather than a vocalist, Hooker did not leave a songbook for his biographer to mine. Only his peers remained to praise his talent and pass on his legend. "Earl Hooker's life may tell us a lot about the blues," biographer Sebastian Danchin says, "but it also tells us a great deal about his milieu. This book documents the culture of the ghetto through the example of a central character, someone who is to be regarded as a catalyst of the characteristic traits of his community." Like the tales of so many other unheralded talents among bluesmen, Earl Hooker, Blues Master, Hooker's life story, has all the elements of a great blues song—late nights, long roads, poverty, trouble, and a soul-felt pining for what could have been.

Unlike other band biographies, Red Hot Chili Peppers FAQ digs into the trivia that hardcore fans obsess over: every recorded (and unreleased) song and their origins, the story behind each band member's every tattoo, and every piece of gear each band member past and present has ever used. Ever wonder why current drummer Chad Smith switched drum companies? Or how Flea and Dave Navarro ended up recording with Alanis Morissette on "You Oughta Know"? Just when did Anthony Kiedis meet current guitarist Josh Klinghoffer for the first time? When did Kiedis first try harder drugs? How did Cher end up as a babysitter for young Kiedis? When did Buckethead try out for the band? Who currently owns the mansion where they recorded Blood Sugar Sex Magik? All the answers lay in the pages of Red Hot Chili Peppers FAQ.

This book of parent-to-parent advice aims to encourage, support, and bolster the morale of one of music's most important back-up sections: music parents. Within these pages, more than 150 veteran music parents contribute their experiences, reflections, warnings, and helpful suggestions for how to walk the music-parenting tightrope: how to be supportive but not overbearing, and how to encourage excellence without becoming bogged down in frustration. Among those offering advice are the parents of several top musicians, including the mother of violinist Joshua Bell, the father of trumpeter Wynton Marsalis, the parents of cellist Alisa Weilerstein, and those of violinist Anne Akiko Meyers. The book also features advice from music educators and more than forty professional musicians, including Paula Robison, Sarah Chang, Anthony McGill, Jennifer Koh, Jonathan Biss, Toyin Spellman-Diaz, Marin Alsop, Christian McBride, Miguel Zenón, Stephanie Blythe, Lawrence Brownlee, Kelli O'Hara, as well as Joshua Bell, Alisa Weilerstein, Wynton Marsalis, Anne Akiko Meyers, and others. The topics they discuss span a wide range of issues faced by the parents of both instrumentalists and singers, from how to get started and encourage effective practice habits, to how to weather the rough spots, cope with the cost of music training, deal with college and career concerns, and help young musicians discover the role that music can play in their lives. The parents who speak here reach a unanimous and overwhelming conclusion that music parenting is well worth the effort, and the experiences that come with it - from sitting in on early lessons and watching their kids perform onstage to tagging along at music conventions as their youngsters try out instruments at exhibitors' booths - enrich family life with a unique joy in music.

Bold and brazen, this compilation also includes a wealth of previously unpublished photographs as well as one of the last interviews with the late Frankie Venom, lead singer of Teenage Head.

The story of two outsiders and obsessives whose collision prompted an evangelistic alliance on the furthest frontiers of underground music. Steve Davis first met Kavus Torabi - guitarist with Gong, Guapo, Cardiacs and Knifeworld - in the mid-2000's at a gig by French underground rock legends Magma. Over the next few years, this unlikely duo's shared affinity for visionary psychedelic music would become the foundation of not only a firm friendship, but also the most infectiously inclusive broadcasting style since the much-mourned death of John Peel. In their weekly radio shows and a one-of-a-kind live DJ roadshow which included a legendary appearance at Glastonbury, Steve and Kavus mapped out a musical landscape of rare enchantment, where the only passport needed was a pair of open ears. No-one, least of all Davis and Torabi themselves, was expecting the 6-time former World Snooker champion and a British-Iranian underground rock musician to become one of the most trusted brands in British alternative music. As Steve and Kavus were starting to get to grips with the challenge of their newfound status, events took a further unexpected turn. Suddenly they found themselves in a band together. And not just any band ... as two thirds of Britain's (if not the world's) leading harmonium, guitar and analogue synth power-trio (with Michael J. York of Coil) The Utopia Strong, the two friends found themselves plunging into a vortex of spontaneous compositional excitement. How Steve and Kavus pulled this off is just one of the many questions MEDICAL GRADE MUSIC will try to answer. Part sonic memoir, part Socratic dialogue, part gonzo mission to the heart of what makes music truly psychedelic this book is the first work of joint autobiography to ever trace the evolution of a life-changing friendship through the discographies of Gentle Giant and Voivod. From the chip-shops of Plumstead to the wildest shores of Plymouth's nineties thrash scene. it's a funny and fearless buddy movie of the soul, with a soundtrack that will make your eyes bleed.

Formed in California's East Bay in 1987 by a 15-year-old guitar player named Billie Joe Armstrong and his bass-playing friend Mike Dirnt (later joined by drummer Tre Cool), Green Day has risen from the Bay Area's underground rock scene to become one of the world's most popular bands. Lauded for bringing punk rock to the masses, Green Day's remarkable rise from teenage garage band to multi-platinum artists is documented here for the first time to coincide with the band's 25th anniversary. Author and frequent Guitar World contributor Alan di Perna, who has

interviewed Green Day's three members several times, offers readers and fans a complete band history, from their formation and first gigs in Berkeley, California, and signing to the Lookout! label through their highs and lows, eight studio releases (including the opening salvo 39/Smooth, the door-opening Dookie, the less well-received Warning, and more), the critically acclaimed Broadway show American Idiot, and their latest recording and film efforts. Di Perna's revealing text is accompanied by more than 300 visuals, including concert and candid off-stage photography, gig posters and handbills, 7-inch picture sleeves, rare vinyl, backstage passes, and more, all presented in a stunningly designed package.

The New Yorker recently referred to Pat Metheny as "possibly the most influential jazz guitarist of the past five decades." A native of Lee's Summit, Missouri, just southeast of Kansas City, Metheny started playing in pizza parlors at age fourteen. By the time he graduated from high school he was the first-call guitarist for Kansas City jazz clubs, private clubs, and jazz festivals. Now 66, he attributes his early success to the local musical environment he was brought up in and the players and teachers who nurtured his talent and welcomed him into the jazz community. Metheny's twenty Grammys in ten categories speak to his versatility and popularity. Despite five decades of interviews, none have conveyed in detail his stories about his teenage years. Beneath Missouri Skies also reveals important details about jazz in Kansas City during the sixties and early seventies, often overlooked in histories of Kansas City jazz. Yet this time of cultural change was characterized by an outstanding level of musicianship. Author Carolyn Glenn Brewer shows how his keen sense of ensemble had its genesis in his school band under the guidance of a beloved band director. Drawn from news accounts, archival material, interviews, and remembrances, to which the author had unique access, Beneath Missouri Skies portrays a place and time from which Metheny still draws inspiration and strength.

Milwaukee hasn't earned a reputation as a launching pad for hopeful rock stars, but for generations it has had the perfect acoustics for the garage band rock scene. With dual citizenship in the research library and the basement show, Peter Roller follows Milwaukee's garage rockers everywhere they haul their amps, observing bands like the Stilettoes, the Angry Daisies, the Palmettos, the Chevelles and the Violent Femmes in their natural habitat.

"SETTLING SCORES: A Life in the Margins of American Music" details one life lived in the margins of America's musical consciousness. From a working-class background in gritty North Philadelphia to the sanctity of European concert stages, from imagined dangers lurking along the waterfronts in mysterious Asian cities to the real dangers lurking in the narrow minds of those who uphold the status quo in American music, this book reveals the life of one who embraced change, and, in the process, gained political leverage and intellectual freedom. It is the story of Joseph Franklin and a legion of collaborators, and it is a snapshot view of a slice of America's musical landscape in the final quarter of the 20th century, including a history of Relâche and The Relâche Ensemble. Born in Philadelphia, Joseph Franklin is a graduate of the Philadelphia Musical Academy and Temple University's Graduate School of Music. He served as founding executive and artistic director of Relâche until 1998. He formerly served as Artistic Director for Helena Presents--The Myrna Loy Center, a performing arts and film center located in Helena, Montana. He has published criticism and book reviews in the Philadelphia Inquirer and Philadelphia City Paper. Hollywood film scores underwent a supersonic transformation from the 1950s through the 1970s. This genre-by-genre overview of

film and television soundtrack music covers a period of tremendous artistic and commercial development in the medium. Film and television composers bypassed the classical tradition favored by earlier screen composers to experiment with jazz, rock, funk and avant-garde styles. This bold approach brought a rich variety to film and television productions that often took on a life of its own through records and CDs. From Bernard Herrmann to Ennio Morricone, the composers of the “Silver Age” changed the way movie music was made, used, and heard. The book contains more than 100 promotional film stills and soundtrack cover art images.

Pursuing the dream of a musical vocation—particularly in rock music—is typically regarded as an adolescent pipedream. Music is marked as an appropriate leisure activity, but one that should be discarded upon entering adulthood. How then do many men and women aspire to forge careers in music upon entering adulthood? In *Destined for Greatness*, sociologist Michael Ramirez examines the lives of forty-eight independent rock musicians who seek out such non-normative choices in a college town renowned for its music scene. He explores the rich life course trajectories of women and men to explore the extent to which pathways are structured to allow some, but not all, individuals to fashion careers in music worlds. Ramirez suggests a more nuanced understanding of factors that enable the pursuit of musical livelihoods well into adulthood.

Chilton details the work of musicians from every era of British jazz, ranging from those who played professionally before 1920 to today's young jazz stars.
