The Adventures of BaltoThe Untold Story of Alaska's Famous Iditarod Sled DogPublication Consultants

Poor little worm meets some remarkable animals, all with a claim to fame: the toughest (gorilla), fastest (falcon), longest tongue (chameleon), and most intelligent (human), among many others. He returns home feeling weak and inadequate until he realises that making compost is one of the most important things in the world. Lavishly illustrated and with some intriguing detail, this is a funny, thoughtful tale with an environmental message and plenty of talking points about diversity and self-esteem. Paul Fitzgerald is radical political cartoonist and activist known as Polyp. His work regularly appears in New Internationalist magazine and he has published several books. Eva Schlunke grew up off-grid in the Australian bush. She is a painter, illustrator, and prop builder. Both live and work in Manchester, United Kingdom.

Shares interesting facts about the video game and cool commands that will help users become experts, including how to get a rainbow sheep, how to write text into thin air, and how to let a creeper fly.

If you've never met a cat who is also a bat then please do take a look inside. Follow Bonnie on her adventures, it'll be a real please, just sit back and enjoy the ride!

The charming Adventures of Stanford and Samantha details the journey of Mama and Papa as they try to find just the right special addition to their empty nest. Leara L. Dory's tale of two puppies is an adventurous story of how her once quiet home transitioned quickly into a puppy nursery full of the hustle and bustle you might expect from two energetic puppies and a returning grown son. The story begins with a couple brimming with love to give. Their overwhelming sense of yearning leads them to add two four-legged babies to their nest. The book later describes the process of researching and selecting excellent breeders who raised chocolate Labradors. The adventure continues as the family makes room first for a little boy-and then a few weeks later for a second sweet girl puppy. The sleepless nights of wiggly, full-of-love Stanford made both Mama and Papa more than a little worried about what was to come when Samantha arrived. Would the puppies get along? Would Joey's moving home make things easier or more complicated? One thing is certain-the couple's life together would never be the same.

Whether it's the industrious ant, the breathtaking Monarch butterfly, or the multi-legged centipede, children will discover the fastest, strongest, and most harmful species in Pocket Genius: Bugs. Profiling more than 200 insects and bugs, from beetles and butterflies to spiders and scorpions, find out what bugs eat, which are poisonous, which live the longest, and which can be found in your own backyard. Plus, learn about the products we get from bugs, such as honey, ink, silk, and jewelry, and how bugs and insects play important roles in our world. Redesigned in paperback, DK's best-selling Pocket Genius series is now available in an engaging compact and economical format that is ideal for both browsing and quick reference for use in school and at home. Catalog entries packed with facts provide at-a-glance information, while locator icons offer immediately recognizable references to aid navigation and understanding, and fact files round off the book with fun facts such as record breakers and timelines. Each pocket-size encyclopedia is filled with facts on subjects ranging from animals to history, cars to dogs, and Earth to space and combines a child-friendly layout with engaging photography and bite-size chunks of text that will encourage and inform even the most reluctant readers.

/ Notch. We are also not associated with Stampy Cat or Amy Lee.

Balto, the great Alaska sled dog, has been dead since 1933. But he still stands larger-than-life on Dogdom's Mount Olympus, where the world's great canines are immortalized. Yet few people know Baltos true story. Only one small part has been told, and even it has been distorted. Several Balto books have been written. There's even a Balto animated movie, but it, too, is largely fiction. (Balto was NOT part wolf!) Like the books, the movie leaves off where this book begins — and tells the best part of the story. Balto was only three years old when he helped carry serum across Alaska from Nenana to Nome to save the town's children from diphtheria. As leader of the last dog team in the life-saving relay race, he became an overnight sensation — a BONEa fide international celebrity. But much more happened after that. Balto lived for eight more years. His days unfolded like a sled expedition to the North Pole, carrying him in an exhilarating rush over smooth snow one minute, an icy hummock the next. And how does the new story end? With a heart-thumping surprise that you can't imagine — and neither could have Balto. Hook up your harness, step into Balto's booties, and mush off to Balto's true story.
