A tense and action-packed story of one man who could change history.

Beginning with the great-grandfather Isidor Levin and his emigration from Poland in the 19th century, his establishment of The Royal Danish Distillery - creators of the famous Danish snaps - and the family's successful assimilation in Denmark, the story follows the children and grandchildren, as they look for successes in Denmark and abroad, in business and within the arts. Suzanne Brogger's family saga takes us from Denmark to Riga and back, through two World Wars, to India and Afghanistan, to America as it was and as it is, and it takes us through boarding schools, mental hospitals, and almshouses for the poor. At the heart of the narrative is the grandmother, Katze, and her memories. She tells the story from her patrician apartment in Copenhagen's Gammel M-nt 14, where she has lived since the 1940s, and her story is a haunting portrait of the pride, conceitedness, grandness, and despair, that has followed the Levin family while the world outside the old apartment gradually fell apart. The family remains prey to drug addiction and suicide attempts. Some escape into sex, others into evangelical politics or religion. Regn becomes a UN diplomat in the Third World, his wife tries to kill their son, while their daughter serves her sexual apprenticeship in a Thai monastery-brothel and after a brief period of social acceptability, ends her days a

bag lady in Copenhagen. As diverse and uncompromising as William Styron's *Sophie's Choice* and Isabel Allende's *House of the Spirits*. To have conjured up a cast of grotesques and rendered them sympathetic is a challenge that Suzanne Brogger has triumphantly brought off. .

A beautifully illustrated volume on the Tudor-style house, a keystone in American interiors and architecture. Since its birth in sixteenth-century England, the Tudor-style house has been a favorite for homeowners from all walks of life. Hallmarks of the style include steeply pitched gables and roofs covered in slate or imitation thatch, bays of casement windows with diamond-paned leaded glass, clustered chimney stacks, interiors of wood paneling and plasterwork, and, especially, half-timbered and stuccoed facades. In the United States, prime examples can be found coast to coast, from the Tudor City apartment buildings of New York to the stately homes of Tuxedo Park; from the cozy, Prairie-inspired homes of Oak Park, Illinois, to the richly nuanced Arts and Crafts-inflected mansions of Pasadena, California. In an age when all agree that the McMansion, with its ungainly proportions and sameness of design, should be banished from the landscape, the Tudor house remains a delight and an inspiration, being anything but cookie-cutter, with tremendous variation from home to home. The *Tudor Home* showcases the wide variety of Tudor homes and the many manifestations the form has taken across the nation, from the famous communities of Bronxville, New York, to the California Tudors of Highland Park. With a wealth of color imagery newly

photographed for this volume and insightful commentary on the history, development, and evolution of the Tudor style in America, the book is an engaging read that opens a window on this much loved style of home.

The third volume of Thomas Keneally's history of the Australian people, *Australians: Flappers to Vietnam* chronicles the lives and deeds of Australians, both known and unknown, during the 20th century. Entering an age of consumerism, media, and communism, Australia underwent radical change in the hands of two less remembered prime ministers: the stoic Stanley Melbourne Bruce of the Melbourne Establishment and the humbler Irishman Jim Scullin of the Labor Party. Keneally examines the Great Crash, the rise of fascism, the reasons why Australia entered the Second World War

The blazingly inventive fictional autobiography of Mark Leyner, one of America's "rare, true original voices" (Gary Shteyngart) Dizzily brilliant, raucously funny, and painfully honest, *GONE WITH THE MIND* is the story of Mark Leyner's life, told as only Mark Leyner can tell it. In this utterly unconventional novel-or is it a memoir?-Leyner gives a reading in the food court of a New Jersey shopping mall. The "audience" consists of Mark's mother and some stray Panda Express employees, who ask a handful of questions. The action takes place entirely at the food court, but the territory covered in these pages has no bounds. A joyride of autobiography, cultural critique, DIY philosophy, biopolitics, video games, demagoguery, and the most intimate confessions, *GONE WITH THE MIND* is both a soulful reckoning with mortality and the tender story of the relationship between a complicated mother and an even more complicated son. At once nostalgic and acidic, deeply humane and completely surreal,

GONE WITH THE MIND is a work of pure, hilarious genius.

In an era of dramatic environmental change, social change is desperately needed to curb burgeoning consumption. Many calls to action have focused on individual behaviour or technological innovation, with relative silence from the social sciences on other modes and methods of intervening in social life. This book shows how we can go beyond behaviour change in the pursuit of sustainability. Inspired by the 'practice turn' in consumption studies, this interdisciplinary book looks through the lens of social practice theory to explore important and timely questions about how to intervene in social life. It discusses a range of applied sustainability topics including energy consumption, housing provision, water demand, transport, climate change, curbside recycling and smart grids, seeking to redefine what intervention is, how it happens, and who or what can intervene to address the growing list of environmental calamities facing contemporary societies. These issues are explored through a range of specific case studies from Australia, the UK and the US, providing theoretical insights that are of international relevance. The book will be of interest to researchers and students in the fields of sociology, consumption studies, environmental studies, geography, and science and technology studies, as well as policy makers and practitioners seeking to intervene in social life for sustainability.

Going beyond the issues of analyzing and optimizing programs as well as creating the means of protecting information, this guide takes on the programming problem of, once having found holes in a program, how to go about disassembling it without its source code. Covered are the hacking methods used to analyze programs using a debugger and disassembler. These methods include virtual functions, local and global variables, branching, loops, objects and their hierarchy, and mathematical operators. Also covered are methods of fighting disassemblers, self-modifying code in operating systems, and executing code in the stack. Advanced disassembler topics such as optimizing compilers and movable code are discussed as well.

This project draws together the diverse strands of the debate regarding disability in a way never before combined in a single volume. After providing a representative sampling of competing philosophical approaches to the conceptualization of disability as such, the volume goes on to address such themes as the complex interplay between disability and quality of life, questions of social justice as it relates to disability, and the personal dimensions of the

disability experience. By explicitly locating the discussion of various applied ethical questions within the broader theoretical context of how disability is best conceptualized, the volume seeks to bridge the gap between abstract philosophical musings about the nature of disease, illness and disability found in much of the philosophy of medicine literature, on the one hand, and the comparatively concrete but less philosophical discourse frequently encountered in much of the disability studies literature. It also critically examines various claims advanced by disability advocates, as well as those of their critics. In bringing together leading scholars in the fields of moral theory, bioethics, and disability studies, this volume makes a unique contribution to the scholarly literature, while also offering a valuable resource to instructors and students interested in a text that critically examines and assesses various approaches to some of the most vexing problems in contemporary social and political philosophy.

When "The Adventures of Barry McKenzie" burst onto the Australian screen in 1972 it created a furore. With 'Bazza' (Barry Crocker), the chundering, Fosters-sucking innocent abroad, Barry Humphries and Bruce Beresford created a foil for the poms and an Australian hero despised by film snobs but loved by audiences. The movie triggered a riotous sequel, "Barry McKenzie Holds His Own", and a wave of comedies that celebrate and critique the Australian national character. With irrepressible humour and sharp-witted insight Tony Moore explores the subversive satire of the films, their influence on his generation, and what they have to say about who we are today. Included is a glossary of Bazza-isms written by Barry Humphries. Impulsive Proposal by Jeneth Murrey released on Jan 25, 1990 is available now for purchase. As a young girl growing up in 1970s Afghanistan, Nelofer Pazira seems destined for a bright future. The daughter of liberal-minded professionals, she enjoys a safe, loving and privileged life. Some of her early memories include convivial

family picnics and New Years' celebrations overlooking the thousands of red flowers that carpet the hills of Mazar. But Nelofer's world is shattered when she is just five and her father is imprisoned for refusing to support the communist party. This episode plants a "seed of anger" in her, which is given plenty of opportunity to grow as the years unfold. In 1979, the Soviets invade Afghanistan beginning a ten-year occupation. The country becomes an armed camp with Russians fighting U.S.-backed mujahidin fighters while trying to impose military rule. For Nelofer, daily life includes an endless succession of tanks, rockets screaming overhead and explosions in the street. During this time, she and her best friend, Dyana, seek refuge in their love of poetry. At eleven, the two girls throw stones at Soviet tanks and plot other acts of rebellion at the local school. As Nelofer gets older, she joins the resistance movement, distributes contraband books, studies guerilla warfare and hides a gun in her parent's mint garden. When Nelofer's younger brother comes home from school in military garb, the family finally decides to flee Afghanistan. What follows is a perilous, clandestine journey across rugged mountains into Pakistan. But the life of a refugee is not what Nelofer expects. Though she once idealized the mujahidin as freedom fighters, she is shocked, as a woman, to find herself stripped of her personal freedom in their midst. In 1990, Nelofer and her family are offered refugee status

in Canada. Here she corresponds with her friend Dyana, whose letters reveal the increasing oppression of life under the Taliban. Fearing that her friend will kill herself, Pazira returns to Afghanistan to rescue her. This search becomes the basis for the acclaimed film Kandahar. Her journey to discover Dyana's tragedy leads her finally to Russia, the land of her enemy, where she confronts the legacy of the Soviet invasion of her homeland first-hand. *A Bed of Red Flowers* is a gripping, heart-rending story about a country caught in a struggle of the superpowers – and of the real people behind the politics. Universally acclaimed for its astute insights and extraordinary humanity, Pazira's memoir won the Drainie-Taylor Biography Prize for 2005. The Winnipeg Free Press writes: "Powerfully written, *A Bed of Red Flowers* is a rare account of a misunderstood country and its intrepid people, trying to live ordinary lives under extraordinary circumstances." The Gazette (Montreal) describes the book as "an outpouring of passionate non-fiction that captivates like the tales of Sheherazade.... It's a remarkable journey. An inspiring read."

on-stage accounts of everyday events of family life have entertained audiences for years. This hilarious collection of stories centered around Mandy's chaotic and slightly dysfunctional family life--and her attempts to be like the perfect, ideal mother she knows exists, somewhere.

Mandy's perspective on home life and all its complications is delightfully unconventional and, above all, wickedly funny. Her humorous take on the bizarre events and mundanities of daily life are honestly and sharply observed--whether it is trying to revive her children's dying guinea pig, coping with their Facebook friends, explaining the dangers of sex and drugs (while hoping desperately they don't find out about her own past indiscretions), battling against head lice, or struggling to regain her own disappearing self-identity.

"Aus Holbergs Zeit, Suite im alten Stil, Op.40" - now more commonly known as the "Holberg Suite" - was written in 1884 for the 200th anniversary celebration of playwright Ludvig Holberg's birth. Originally for piano, the composer scored it for strings the following year, conducting the newly-completed arrangement at a March concert in Bergen. The Suite consists of a Prelude and four dances characteristic of the 18th century. The work was meant to capture the feel of the era of Holberg's lifetime and has become one of Grieg's most beloved and performed works, especially in the present setting for strings. This new edition by Richard W. Sargeant, Jr. has been thoroughly researched to bring you a beautiful score as the composer intended it.
