Named a Best Book of the Year by The San Francisco Chronicle "Survivor Cafe?...feels like the book Rosner was born to write. Each page is imbued with urgency, with sincerity, with heartache, with heart.... Her words, alongside the words of other survivors of atrocity and their descendants across the globe, can help us build a more humane world." —San Francisco Chronicle As firsthand survivors of many of the twentieth century's most monumental events—the Holocaust, Hiroshima, the Killing Fields—begin to pass away, *Survivor Cafe?* addresses urgent questions: How do we carry those stories forward? How do we collectively ensure that the horrors of the past are not forgotten? Elizabeth Rosner organizes her book around three trips with her father to Buchenwald concentration camp—in 1983, in 1995, and in 2015—each journey an experience in which personal history confronts both commemoration and memorialization. She explores the echoes of similar legacies among descendants of African American slaves, descendants of Cambodian survivors of the Killing Fields, descendants of survivors of the bombing of Hiroshima and Nagasaki, and the effects of 9/11 on the general population. Examining current brain research, Rosner depicts the efforts to understand the intergenerational inheritance of trauma, as well as the intricacies of remembrance in the aftermath of atrocity. *Survivor Cafe?* becomes a lens for numerous constructs of memory—from museums and commemorative sites to national reconciliation projects to small-group cross-cultural encounters. Beyond preserving the firsthand testimonies of participants and witnesses, individuals and societies must continually take responsibility for learning the painful lessons of the past in order to offer hope for the future. *Survivor Cafe?* offers a clear-eyed sense of the enormity of our twenty-first-century human inheritance—not only among direct descendants of the Holocaust but also in the shape of our collective responsibility to learn from tragedy, and to keep the ever-changing conversations alive between the past and the present.

A family plants an American elm on the Great Plains of Oklahoma just as the capital city is taking root -- the little tree grows as Oklahoma City grows until 9:02 a.m. on April 19, 1995, the day America fell silent at the hands of one of its own. With her branches torn and tattered and filled with evidence from the bombing, the charred elm faces calls from some that she be cut down. In the end, as the rubble of the Alfred P. Murrah Building is cleared, this solitary tree remains -- but only because of a few who marvel that, like them, she is still there. The next spring when the first buds appear proving the tree is alive, the word spreads like a prairie wildfire through the city and the world. And the tree, now a beacon of hope and strength, is christened with a new name: The Survivor Tree.

During the Rwandan genocide in 1994 up to one million Tutsi were murdered by members of the Hutu tribe. Eighty percent of the women who survived were raped. Today, victims and perpetrators live side by side. Although women have gained social status since then, the rape victims and their children exist on the bottom rungs of the social hierarchy. Many young women, however, have managed to rescue their traumatized mothers and free them from the stigma. Their courage and optimism in a society under authoritarian rule and marred by trauma are unparalleled. Rwandan

Daughters depicts these strong women who have overcome traumatic experiences. German photographer Olaf Heine (born 1968) has captured this turning point and the reconciliation in these impressive photographs, portraying mothers and daughters shoulder-to-shoulder at sites where the crimes occurred. Along with the photographs, the volume features brief statements from the women describing how they have dealt with their experiences.

NPR's Best Books of 2020 BookPage's Best Books of 2020 Real Simple's Best Books of 2020 Boston.com readers voted one of Best Books of 2020 "Anyone striving to understand and improve this country should read her story." —Gloria Steinem, author of *My Life on the Road* The Emmy Award-winning journalist and anchor of NPR's *Latino USA* tells the story of immigration in America through her family's experiences and decades of reporting, painting an unflinching portrait of a country in crisis in this memoir that is "quite simply beautiful, written in Maria Hinojosa's honest, passionate voice" (BookPage). Maria Hinojosa is an award-winning journalist who, for nearly thirty years, has reported on stories and communities in America that often go ignored by the mainstream media—from tales of hope in the South Bronx to the unseen victims of the War on Terror and the first detention camps in the US. Bestselling author Julia Álvarez has called her "one of the most important, respected, and beloved cultural leaders in the Latinx community." In *Once I Was You*, Maria shares her intimate experience growing up Mexican American on the South Side of Chicago. She offers a personal and illuminating account of how the rhetoric around immigration has not only long informed American attitudes toward outsiders, but also sanctioned willful negligence and profiteering at the expense of our country's most vulnerable populations—charging us with the broken system we have today. An urgent call to fellow Americans to open their eyes to the immigration crisis and understand that it affects us all, this honest and heartrending memoir paints a vivid portrait of how we got here and what it means to be a survivor, a feminist, a citizen, and a journalist who owns her voice while striving for the truth. While American teens were socializing in ice cream parlors, Siggi was suffering beatings by Nazi hoodlums for being a Jew and was soon deported along with his family to the darkest place the world has ever known: Auschwitz. Siggi used his wits to stay alive, pretending to have trade skills the Nazis could exploit to run the camp. After two death marches and near starvation, he was liberated from camp Mauthausen and went to work for the US Army hunting Nazis, a service that earned him a visa to America. On arrival, he made three vows: to never go hungry again, to support the Jewish people, and to speak out against injustice. He earned his first dollar shoveling snow after a fierce blizzard. His next job was laboring in toxic sweatshops. From these humble beginnings, he became President, Chairman and CEO of a New York Stock Exchange-listed oil company and grew a full-service commercial bank to more than \$4 billion in assets. Siggi's ascent from the darkest of yesterdays to the brightest of tomorrows holds sway over the imagination in this riveting narrative of grit, cunning, luck, and the determination to live life to the fullest.

They Must Be Stopped is New York Times bestselling author Brigitte Gabriel's warning to the world: We can no longer ignore the growth of radical Islam--we must act soon, and powerfully. Gabriel challenges our western and politically-correct notions about Islam, demonstrating why radical Islam is so deadly and how we can halt its progress. Brigitte Gabriel speaks her mind: *Fundamentalist Islam is a religion rooted in 7th century teachings that are fundamentally opposed to democracy and equality. *Radical Islamists are utterly contemptuous of all "infidels" (non-Muslims) and regard them as enemies worthy of death. *Madrassas in America are increasing in number, and they are just one part of a growing radical Islamic army on US soil. *Radical Islam exploits the US legal system and America's protection of religion to spread its hatred for western values. *America must organize a unified voice that says "enough" to political correctness, and demands that government officials and elected representatives do whatever is necessary to protect us. Brigitte Gabriel has fearlessly faced down critics, death threats, and political correctness, and is one of the most sought after terrorism experts in the world. *They Must Be Stopped* is her clarion call to action. Gabriel thoroughly addresses the historical and religious basis of radical Islam, its frightening encroachment into societies around the world, and its abuses of democracy in the name of religion.

From the author of *The Harmony Silk Factory* and *Five Star Billionaire*, a compelling depiction of a man's act of violence, set against the backdrop of Asia in flux Ah Hock is an ordinary man of simple means. Born and raised in a Malaysian fishing village, he favors stability above all, a preference at odds with his rapidly modernizing surroundings. So what brings him to kill a man? This question leads a young, privileged journalist to Ah Hock's door. While the victim has been mourned and the killer has served time for the crime, Ah Hock's motive remains unclear, even to himself. His vivid confession unfurls over extensive interviews with the journalist, herself a local whose life has taken a very different course. The process forces both the speaker and his listener to reckon with systems of power, race, and class in a place where success is promised to all yet delivered only to its lucky heirs. An uncompromising portrait of an outsider navigating a society in transition, Tash Aw's anti-nostalgic tale, *We, the Survivors*, holds its tension to the very end. In the wake of loss and destruction, hope is among the survivors.

The Oklahoma City bombing, intentional crashing of airliners on September 11, 2001, and anthrax attacks in the fall of 2001 have made Americans acutely aware of the impacts of terrorism. These events and continued threats of terrorism have raised questions about the impact on the psychological health of the nation and how well the public health infrastructure is able to meet the psychological needs that will likely result. Preparing for the Psychological Consequences of Terrorism highlights some of the critical issues in responding to the psychological needs that result from terrorism and provides possible options for intervention. The committee offers an example for a public health strategy that may serve as a base from which plans to prevent and respond to the psychological consequences of a variety of terrorism events can be formulated. The report includes recommendations for the training and education of service providers, ensuring appropriate guidelines for the protection of service providers, and developing public health surveillance for preevent, event, and postevent factors related to psychological consequences.

"YOU NEVER REALLY OWN FREEDOM, YOU ONLY PRESERVE IT FOR THE NEXT GENERATION." From New York Times best-selling author Brigitte Gabriel This book is critical to your family and your personal freedom. Will you sit back and watch the greatest country our world has ever known slowly fade away? Or will you rise?

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

In a series of powerful, unfiltered testimonials, survivors tell their stories in their own words and describe how the bigoted rhetoric and policies of the Trump administration have intensified bullying, discrimination, and even violence toward them and their communities. We hear from the family of Khalid Jabara, who was murdered in Tulsa, Oklahoma, in August 2016 by a man who had previously harassed and threatened them because they were Arab American. Sethi brings us the story of Jeanette Vizguerra, an undocumented mother of four who took sanctuary in a Denver church in February 2017 because she feared deportation under Trump's cruel immigration enforcement regime. Sethi interviews Taylor Dumpson, a young black woman who was elected student body president at American University only to find nooses hanging across campus on her first day in office. We hear from many more people impacted by the Trump administration, including Native, black, Arab, Latinx, South Asian, Southeast Asian, Muslim, Jewish, Sikh, undocumented, refugee, transgender, queer, and people with disabilities. A necessary book for these times, American Hate explores this tragic moment in U.S. history by empowering survivors whose voices white supremacists and right-wing populist movements have tried to silence. It also provides ideas and practices for resistance that all of us can take to combat hate both now and in the future.

The remarkable life story of Mitka Kalinski, who survived seven years of enslavement--while still a child--to a Nazi officer during and after World War II Mitka Kalinski had never revealed his past to anyone. Not even to his wife or his four children. But in 1981, three decades after it had all ended, Mitka finally broke his silence about the horrors he had endured during the Holocaust and in the years immediately afterward: not only German concentration camps and sadistic medical experiments but also seven years of enslavement in the household of a Nazi officer, "Iron" Gustav Dörr. Having been orphaned before the war, Mitka did not know his origins or even his name. Torture, slavery, and a false name stripped him of his identity entirely. Thus, when he immigrated to the United States in 1951, Mitka seized the opportunity to bury his past and forge a new life. He lived the American life in all its fullness and moved to Nevada with his beloved wife, Adrienne, and their children. But the secret he carried became an increasingly heavy burden, preventing wholeness and healing. This is Mitka's account of facing the past, confronting his captors, connecting with lost relatives, and finding peace in the rediscovery of his origins. For Mitka, this also meant reclaiming his Jewish heritage--a journey that gave him a new sense of purpose and freedom from the lingering effects of trauma that had filled his life to that point. By the end, Mitka's Secret is less a story of survival and more one of redemption and transformation--from hidden suffering to abundant joy.

Those infected quickly lose their minds and are driven to bite and infect as many others as they can before they inevitably succumb. Hiroshima is the story of six people--a clerk, a widowed seamstress, a physician, a Methodist minister, a young surgeon, and a German Catholic priest--who lived through the greatest single manmade disaster in history. In vivid and indelible prose, Pulitzer Prize-winner John Hersey traces the stories of these half-dozen individuals from 8:15 a.m. on August 6, 1945, when Hiroshima was destroyed by the first atomic bomb ever dropped on a city, through the hours and days that followed. Almost four decades after the original publication of this celebrated book, Hersey went back to Hiroshima in search of the people whose stories he had told, and his account of what he discovered is now the eloquent and moving final chapter of Hiroshima. The first tremors of the earth were felt at 7:22 EST. Every single person felt the rumbling and experienced the terror that forever altered the course of history. Most did not survive. These are the accounts of some of those who did. Follow Carl and John, Al and Mary Ellen, Xander and Riley as they navigate the disasters wreaking havoc on the world and struggle to locate loved ones while trying to survive their frightening new reality. Poignant Holocaust Survivor Story, offering a unique perspective on the lessons of the Holocaust for future generations. Holocaust survivor stories need to be kept alive. Every year, survivors with unique testimonies are passing away. Soon, we will no longer be able to hear first-hand from the people who survived the Holocaust. Books and video testimonials will be the only ways to get to know their moving stories. Joseph Schupack has fulfilled a vow to those who did not survive: to write his Holocaust memoirs and offer a unique perspective on the lessons of the Holocaust for future generations. In *The Dead Years*, Joseph Schupack (1922-1989) describes his life in Radzyn-Podlaski, a typical Polish shtetl from where he was transported to the concentration camps of Treblinka, Majdanek, Auschwitz, Dora / Nordhausen and Bergen-Belsen during the Second World War. We witness how he struggled to remain true to his own standards of decency and being human. Considering the premeditated and systematic humiliation and brutality, it is a miracle that he survived and came to terms with his memories. *The Dead Years* is different from most Holocaust survivor stories. Not only is it a testimony of the 1930s in Poland and life in the Nazi concentration camps - it also serves as a witness statement. This Holocaust book contains a wealth of information, including the names of people and places, for researchers and those interested in WW2, or coming from Radzyn-Podlaski and surroundings. The book takes us through Joseph Schupack's pre-war days, his work in the underground movement, and the murder of his parents, brothers, sister and friends. *The Dead Years* is deeply personal and moving. We witness how people in the depths of misery shared their last morsel of food, how they were prepared for any sacrifice. There are many examples of brotherly love that grew out of empathetic pain. Finally freed, Schupack encountered rampant anti-Semitism when he tried to reclaim his possessions in Poland after the end of the war. For the Poles in his home town, the best Jews were the ones who did not return. A new, strictly anti-Semitic organization had been founded and its primary goal was the liquidation of all Jews returning from hiding or concentration camps. Decades after WWII, the author, mentally scarred by his war experiences, confronted his demons. "Like a stranded man among the stranded, like a sufferer bound to all sufferers, I stood alone in front of the shambles of my life which had stopped when I was seventeen years old and from which nothing could be salvaged or repaired." We are grateful that Schupack confided his memories to paper, so we

"From young activists at the forefront of the movement to end sexual assault on college campuses, a collection of survivor stories that will connect with students and inform and inspire us all Across the U.S. student activists are exposing a pervasive cover-up of sexual assault on college campuses. Every day more survivors come forward. But other survivors choose not to. We Believe You elevates the stories the headlines about this issue have been missing--more than 30 experiences of trauma, healing and everyday activism, representing a diversity of races, economic and family backgrounds, gender identities, immigration statuses, interests, capacities and loves. More than 1 in 5 women and 5 percent of men are sexually assaulted at college, a shocking status quo that might have stayed largely hidden and unaddressed but for the two authors of We Believe You. In 2013, Annie E. Clark and Andrea L. Pino, then 23 and 20, building on the work of earlier activists, outed themselves as assault survivors and filed a federal complaint against the University of North Carolina (Chapel Hill) for mishandling such crimes; within a month, the U.S. government began to investigate UNC. Within a year, dozens of colleges were under federal investigation. But Clark and Pino rightly see themselves as two among many. Students from every kind of college and university--large and small, public and private, highly selective and less so--are sounding alarms and staking claims to justice by filing complaints, by pressing charges, and by simply living beyond the effects of assault and the betrayals of their schools. A sampling of their voices speak out in this book"--

From the front page of The New York Times to YouTube, Dr. Wafa Sultan has become a force radical Islam has to reckon with. For the first time, she tells her story and what she learned, first-hand, about radical Islam in A God Who Hates, a passionate memoir by an outspoken Arabic woman that is also a cautionary tale for the West. She grew up in Syria in a culture ruled by a god who hates women. "How can such a culture be anything but barbarous?", Sultan asks. "It can't", she concludes "because any culture that hates its women can't love anything else." She believes that the god who hates is waging a battle between modernity and barbarism, not a battle between religions. She also knows that it's a battle radical Islam will lose. Condemned by some and praised by others for speaking out, Sultan wants everyone to understand the danger posed by A God Who Hates.

writer better demonstrates how American dreams are so often sabotaged by American history. Adam Serwer is essential.”—Ta-Nehisi Coates “Trump summoned the most treacherous forces in American history and conducted them with the ease of a grand maestro.” Like many of us, Adam Serwer didn’t know that Donald Trump would win the 2016 election. But over the four years that followed, the Atlantic staff writer became one of our most astute analysts of the Trump presidency and the volatile powers it harnessed. The shock that greeted Trump’s victory, and the subsequent cruelty of his presidency, represented a failure to confront elements of the American past long thought vanquished. In this searing collection, Serwer chronicles the Trump administration not as an aberration but as an outgrowth of the inequalities the United States was founded on. Serwer is less interested in the presidential spectacle than in the ideological and structural currents behind Trump’s rise—including a media that was often blindsided by the ugly realities of what the administration represented and how it came to be. While deeply engaged with the moment, Serwer’s writing is also haunted by ghosts of an unresolved American past, a past that torments the present. In bracing new essays and previously published works, he explores white nationalism, myths about migration, the political power of police unions, and the many faces of anti-Semitism. For all the dynamics he examines, cruelty is the glue, the binding agent of a movement fueled by fear and exclusion. Serwer argues that rather than pretending these four years didn’t happen or dismissing them as a brief moment of madness, we must face what made them possible and continues to endure. Unless we confront these toxic legacies, the fragile dream of American multiracial democracy will remain vulnerable to the forces that have nearly destroyed it time and again.
