A lyrical and deeply affecting novel recounting the seven days a father spends on the road with his daughter after kidnapping her during a parental visit. Attending a New England summer camp, young Eric Schroder-a first-generation East German immigrant-adopts the last name Kennedy to more easily fit in, a fateful white lie that will set him on an improbable and ultimately tragic course. SCHRODER relates the story of Eric's urgent escape years later to Lake Champlain, Vermont, with his six-year-old daughter, Meadow, in an attempt to outrun the authorities amid a heated custody battle with his wife, who will soon discover that her husband is not who he says he is. From a correctional facility, Eric surveys the course of his life to understand-and maybe even explain-his behavior: the painful separation from his mother in childhood; a harrowing escape to America with his taciturn father; a romance that withered under a shadow of lies; and his proudest moments and greatest regrets as a flawed but loving father. Alternately lovesick and ecstatic, Amity Gaige's deftly imagined novel offers a profound meditation on history and fatherhood, and the many identities we take on in our lives--those we are born with and those we construct for ourselves.

Los Angeles-based cult artist Richard Jackson consistently uses his mistrust of conventional painting as a gateway to works that straddle the divide between the explicitly civilized and the wildly primordial. Born in 1939, Jackson emerged alongside the Minimal and Conceptual artists of the 1970s with whom he became associated, yet remained distant in terms of approach. Influenced by Abstract Expressionism and action painting, Jackson has built his career over three decades, exploring the limits of painterly practice. This wryly designed monograph fuses Jackson's two passions: art-making and hunting. Using the format of a hunting magazine, it showcases images from recent solo exhibitions at Haswellediger & Co., Nyehaus, Hauser & Wirth and Galerie Georges-Philippe & Nathalie Vallois and includes essays by Paul McCarthy, Bozidar Brazda, Julian Bismuth and Carissa Rodriguez.

From the author of the acclimed and much-loved Waterlogand Wildwood. For the last six years of his life, Roger Deakin kept notebooks in which he wrote his daily thoughts, impressions, feelings and observations. Discursive, personal and often impassioned, they reveal the way he saw the world, whether it be observing the teeming ecosystem that was Walnut Tree Farm, thinking about the wider environment, walking in his fields or on Mellis Common, or quietly contemplating his past and present life. Notes From Walnut Tree Farmcollects the very best of these writings, capturing Roger's extraordinary, restless curiosity into the natural and human worlds, his love of literature and music, his knack for making unusual and apposite connections, and of course his distinct and subversive charm and humour. Together they cohere to present a passionate, engaged and - in spite of the worst pressures of contemporary life - optimistic view of our changing world.

One hundred stereotype maps glazed with the most exquisite human prejudice, especially collected for you by Yanko Tsvetkov, author of the viral Mapping Stereotypes project. Satire and cartography rarely come in a single package but in the Atlas of Prejudice they successfully blend in a work of art that is both funny and thought-provoking. The book is based on Mapping Stereotypes, Yanko Tsvetkov's critically acclaimed project that became a viral Internet sensation in 2009. A reliable weapon against bigots of all kinds, it serves as an inexhaustible source of much needed argumentation and-occasionally-as a nice slab of paper that can be used to smack them across the face whenever reasoning becomes utterly impossible. The Complete Collection version of the Atlas contains all maps from the previously published two volumes and adds twenty five new ones, wrapping the best-selling series in a single extended edition.

Language, whether spoken or written, is an important window into people's emotional and cognitive worlds. Text analysis of these narratives, focusing on specific words or classes of words, has been used in numerous research studies including studies of emotional, cognitive, structural, and process components of individuals' verbal and written language. It was in this research context that the LIWC program was developed. The program analyzes text files on a word-by-word basis, calculating percentage words that match each of several language dimensions. Its output is a text file that can be opened in any of a variety of applications, including word processors and spreadsheet programs. The program has 68 pre-set dimensions (output variables) including linguistic dimensions, word categories tapping psychological constructs, and personal concern categories, and can accommodate user-defined dimensions as well. Easy to install and use, this software offers researchers in social, personality, clinical, and applied psychology a valuable tool for quantifying the rich but often slippery data provided in the form of personal narratives. The software comes complete on one 31/2 diskette and runs on any Windows-based computer.

One of the Believer's Best Books of the Year: One woman's journey through that awkward period between being born and dying. A modern odyssey about trying to find one's home in the world, this collection of wickedly funny and offbeat vignettes touches upon quantum physics; the Donner Party; arctic exploration; Greek mythology; Rocky I, II, V, IV, VI, and III respectively; and literary immortality. Dating Tips for the Unemployed "melds novel, autobiography, and all manner of asides as [the author] flails at art, love, and friendship with the wry intelligence of someone just wise enough to realize they have no idea what they're doing. A flat-out joy to read" (O, The Oprah Magazine). "In engaging episodes, Iris-the-character neurotically navigates dating in New York City, smokes pot on Greek islands with hapless lovers, drinks too much, deals with disapproving family, and eats a lot of cannoli. Smyles's surreal, lyrical voice elevates these everyday scenarios into the realm of the fantastic and absurd. Included in the book are hilariously stylized advertisements full of false promises, such as 'Health Secrets of the Roman Empire' and 'Have Your Portrait Painted By An Elephant!' all for a price. Smyles is sharp, melancholy, and wickedly funny. She is unafraid to reveal and revel in her character's flaws because it is what makes them so achingly, relatably human." —Interview "Something like a cocktail of Dorothy Parker, James Joyce, and Philip Roth iced, sweetened, and blended." —The Nervous Breakdown

"Whimsy, satire, and rollicking social commentary . . . Ms. Smyles is a misanthrope-of-the-people, a standout on the order of Fran Lebowitz." —The East Hampton Star

In his landmark work, Sale details the crises facing modern society and offers real solutions, laying out ways to take control of every facet of peoples lives by building institutions, workplaces, and communities that are sustainable, ecologically balanced, and responsive to the needs of the individual.

Different from a textbook or academic journal, the File represents a collection of explicit descriptions about therapy interventions written by practitioners themselves. The description of the rationale for the therapy, the intervention itself and evaluation of outcomes are of paramount importance. Each contributor guides the reader through the thinking that they engaged in as they decided what to do, often with considerable frankness about the difficulties involved. The File will be of equal value to experienced practitioners and students alike.

A collection of exquisitely crafted essays by Ben Okri, one of Britain's foremost poets, and a Booker Prize-winning novelist, that explore such diverse themes as childhood and creativity, beauty, censorship, art and politics. 'A single line,' writes Ben Okri, 'can lead the mind to terraces of contemplation. Naturally it depends on the line and the view.' This is a collection of exquisitely crafted essays on themes as diverse as childhood and creativity, beauty, censorship, art and politics. They are responses to the world and the times we live in. They ask unsettling questions. They provoke thoughts and they make us dream. 'Profound and enchanting' The Times. 'There can be no mistaking Okri's passion and intelligence. A powerful piece of work' Sunday Telegraph.

This study guide explains how the world view shaped the subject and how each theory works out when facing ethical dilemmas. Confusions that may arise are highlighted with the aim to show how deontology can still be useful in the modern era.

In today's connected consumer environment, customers are better informed and harder to please, but they also leave a more visible evidence trail in the form of improved databases and customer information. Consumers are increasingly interconnected through various sorts of social networks, a trend that is facilitated by recent advances in electronic media and telecommunication (i.e., MySpace, Facebook, Twitter and Cyworld). Consumers are also increasingly connected with brands and seek to play a more participative role in their relationship with companies, stimulating companies to reconsider how to connect with consumers. This book consists of a collection of chapters by thought-leaders in the field of marketing and beyond that deals with the rich facets of connectivity. This edited volume is a great source of research ideas and fresh theory building for academics and students in marketing and related fields who wish to understand this exciting field. It will be a source of inspiration for practitioners who are eager to take up the challenge and adapt their marketing strategies to the changing nature of consumer and business markets.

This is a print on demand book and is therefore non- returnable. Though buffeted on all sides by rapid and at times cataclysmic social, political, and economic change, the medieval church was able to make adjustments that kept it from becoming simply a fossil from the past rather than an enduring institution of salvation. The dynamic interaction between the medieval church and society gives form to this compelling and well-informed study by Adriaan Bredero. By considering medieval Christianity in full relation to its historical context, Bredero elucidates complex medieval realities -- many of which run counter to common modern notions about the Middle Ages. Bredero moves beyond the usual treatment of history by framing his overall discussion in terms of a fascinating and relevant question: To what extent is Christianity today still molded by medieval society? The book begins with an overview of religion and the church in medieval society, from the early Christianization of Western Europe through the fifteenth century. Bredero counters earlier romanticized assessments of the Middle Ages as a thoroughly Christian period by arriving at a definition of Christendom, not in its original sense as the empire of Charlemagne, but rather as "the countries, people, and matters which stood under the influence of Christ."
