Baz Dreisinger travels behind bars in nine countries to rethink the state of justice in a global context Beginning in Africa and ending in Europe, Incarceration Nations is a first-person odyssey through the prison systems of the world. Professor, journalist, and founder of the Prison-to-College-Pipeline, Dreisinger looks into the human stories of incarcerated men and women and those who imprison them, creating a jarring, poignant view of a world to which most are denied access, and a rethinking of one of America's most far-reaching global exports: the modern prison complex. From serving

as a restorative justice facilitator in a notorious South African prison and working with genocide survivors in Rwanda, to launching a creative writing class in an overcrowded Ugandan prison and coordinating a drama workshop for women prisoners in Thailand, Dreisinger examines the world behind bars with equal parts empathy and intellect. She journeys to Jamaica to visit a prison music program, to Singapore to learn about approaches to prisoner reentry, to Australia to grapple with the bottom line of private prisons, to a federal supermax in Brazil to confront the horrors of solitary confinement, and finally to the so-called model prisons of Norway. *Incarceration Nations* concludes with climactic lessons about the past, present, and future of justice.

Juan Martinez, the fiery prosecutor who convicted notorious murderess Jodi Arias for the disturbing killing of Travis Alexander, speaks for the first time about the shocking investigation and sensational trial that captivated the nation. Through two trials, America watched with baited breath as Juan Martinez fought relentlessly to convict Jodi Arias of Murder One for viciously stabbing her ex-boyfriend Travis Alexander to death. What emerged was a story wrought with sex, manipulation, and deceit that stunned the public at every turn. Arias, always playing the wronged and innocent woman, changed her story continually as her bizarre behavior surrounding the crime and its aftermath came to light. Unwavering, Arias and her defense team continued to play off the salacious details of the case, until she was finally found guilty and—controversially—sentenced to life behind bars. Now, speaking openly for the first

time, prosecutor Juan Martinez will unearth new details from the investigation that were never revealed at trial, exploring key facts from the case and the pieces of evidence he chose to keep close to the vest. Throughout the trials, his bullish and unfaltering prosecution strategy was both commended and criticized, and in his book, Martinez will illuminate the unique tactics he utilized in this case and how they lead to a successful conviction, and-for the first time-discuss how he felt losing the death penalty sentence he'd pursued for years. Going beyond the news reports, Martinez will explore the truth behind the multiple facades of Jodi Arias. Sparring with her from across the stand, Martinez came to know Arias like no one else could, dissecting what it took for a seemingly normal girl to become a deluded, cunning, and unrepentant murderer. With new stories from behind the scenes of the trial and Martinez's own take on his defendant, the book takes you inside the mind of Jodi Arias like never before. Complete with 16 pages of photos from the case and trial, this book is the definitive account of the case that shocked America.

You've read the Jeffrey Epstein headlines, now get the full story. The world's bestselling author, James Patterson, has written the definitive book on the billionaire pedophile at the

center of the newly unsealed federal sex crimes case. Jeffrey Epstein rose from humble origins into the New York City and Palm Beach elite. A college dropout with an instinct for numbers -- and for people -- Epstein amassed his wealth through a combination of access and skill. But even after he had it all, Epstein wanted more. That unceasing desire -- and especially a taste for underage girls -- resulted in sexual-abuse charges, to which he pleaded guilty and received a shockingly lenient sentence. Included here are police interviews with girls who have alleged sexual abuse by Epstein, as well as details of the investigation against him.

“A thrilling page-turner about the pursuit of justice” (New York Post), this is the definitive story of the case against Jeffrey Epstein, Ghislaine Maxwell, and the corrupt system that supported them, told in thrilling detail by the lawyer who has represented their victims for more than a decade. In June 2008, Florida-based victims’ rights attorney Bradley J. Edwards was thirty-two years old and had just started his own law firm when a young woman named Courtney Wild came to see him. She told a shocking story of having been sexually coerced at the age of fourteen by a wealthy man in Palm Beach named Jeffrey Epstein. Edwards, who had never heard of Epstein, had no idea that this moment would change the course of his life. Over the next ten years, Edwards devoted himself to bringing Epstein to justice, and came close to losing everything in the process. Edwards tracked down and represented more than twenty of Epstein’s victims, shined a light on his shadowy network of accomplices, including Ghislaine Maxwell, and uncovered the scope of his sexually exploitative organization, which reached into the highest levels of American society. In this “revelatory exploration of the long fight to bring a monstrous man to justice” (Kirkus Reviews, starred review), Edwards gives his riveting, blow-by-blow account of battling Epstein on behalf of his clients, and provides stunning details never

shared before. Epstein and his cadre of high-priced lawyers were able to manipulate the FBI and the Justice Department, but despite making threats and attempting schemes straight out of a spy movie, Epstein couldn't stop Edwards, his small team of committed lawyers, and, most of all, the victims, who were dead-set on seeing their abuser finally put behind bars.

An urgent exposé of the mental health crisis in our courts, jails, and prisons America has made mental illness a crime. Jails in New York, Los Angeles, and Chicago each house more people with mental illnesses than any hospital. As many as half of all people in America's jails and prisons have a psychiatric disorder. One in four fatal police shootings involves a person with such disorders. In this revelatory book, journalist Alisa Roth goes deep inside the criminal justice system to show how and why it has become a warehouse where inmates are denied proper treatment, abused, and punished in ways that make them sicker. Through intimate stories of people in the system and those trying to fix it, Roth reveals the hidden forces behind this crisis and suggests how a fairer and more humane approach might look. *Insane* is a galvanizing wake-up call for criminal justice reformers and anyone concerned about the plight of our most vulnerable.

In 1997 Mark Salzman, bestselling author *Iron and Silk* and *Lying Awake*, paid a reluctant visit to a writing class at L.A.'s Central Juvenile Hall, a lockup for violent teenage offenders, many of them charged with murder. What he found so moved and astonished him that he began to teach there regularly. In voices of indelible emotional presence, the boys write about what led them to crime and about the lives that stretch ahead of them behind bars. We see them coming to terms with

their crime-ridden pasts and searching for a reason to believe in their future selves. Insightful, comic, honest and tragic, True Notebooks is an object lesson in the redemptive power of writing.

While composers and percussionists are working more closely than ever with one another, there are few resources that address this collaborative relationship in depth. However, Samuel Z. Solomon, himself a percussionist and teacher, offers a comprehensive examination of the issues that percussionists and composers encounter in *How to Write for Percussion*. The first edition, self-published in 2004, provided musicians and music programs the world over with practical and indispensable information about issues of notation, concert production, and much more. This new edition goes even further as Solomon offers more insights derived from his personal experience as a percussionist and teacher and from his collaborations with other musicians. The second edition of *How to Write for Percussion* expands the survey of behind-the-scenes processes-from instrument

choice and notation to logistics, execution, and concert production-to uncover all the tools a composer needs to comfortably create innovative and skilled percussion composition. Solomon also includes more excerpts and performances as well as interviews with famous percussionists and composers that capture the intricacies of percussion composition. Moreover, the second edition features an expanded text with more instruments and more analysis, plus an extensive Online Video Companion containing over nine hours of videos with demonstrations, performances, interviews, and analysis to flesh out and clarify the material in the book. This updated edition of *How to Write for Percussion* will appeal to a wide swath of musicians including composers, arrangers, and percussionists. “An engaging, beautifully synthesized page-turner” (Slate). The #1 New York Times bestseller and Time #1 Nonfiction Book of the Year: Hillary Rodham Clinton’s most personal memoir yet, about the 2016 presidential election. In this “candid and blackly funny” (The New York Times) memoir, Hillary Rodham Clinton reveals what she was thinking and feeling during one of the most controversial and unpredictable presidential elections in history. She takes us

inside the intense personal experience of becoming the first woman nominated for president by a major party in an election marked by rage, sexism, exhilarating highs and infuriating lows, stranger-than-fiction twists, Russian interference, and an opponent who broke all the rules. “At her most emotionally raw” (People), Hillary describes what it was like to run against Donald Trump, the mistakes she made, how she has coped with a shocking and devastating loss, and how she found the strength to pick herself back up afterward. She tells readers what it took to get back on her feet—the rituals, relationships, and reading that got her through, and what the experience has taught her about life. In this “feminist manifesto” (The New York Times), she speaks to the challenges of being a strong woman in the public eye, the criticism over her voice, age, and appearance, and the double standard confronting women in politics. Offering a “bracing... guide to our political arena” (The Washington Post), What Happened lays out how the 2016 election was marked by an unprecedented assault on our democracy by a foreign adversary. By analyzing the evidence and connecting the dots, Hillary shows just how dangerous the forces are that shaped the outcome, and why Americans need to understand them to protect our values and our democracy in the future. The election of 2016 was unprecedented and historic. What Happened is the story of that campaign, now with a new epilogue showing

how Hillary grappled with many of her worst fears coming true in the Trump Era, while finding new hope in a surge of civic activism, women running for office, and young people marching in the streets.

NEW YORK TIMES BEST SELLER • A grand, devastating portrait of three generations of the Sackler family, famed for their philanthropy, whose fortune was built by Valium and whose reputation was destroyed by OxyContin. From the prize-winning and bestselling author of *Say Nothing*, as featured in the HBO documentary *Crime of the Century*. The Sackler name adorns the walls of many storied institutions—Harvard, the Metropolitan Museum of Art, Oxford, the Louvre. They are one of the richest families in the world, known for their lavish donations to the arts and the sciences. The source of the family fortune was vague, however, until it emerged that the Sacklers were responsible for making and marketing a blockbuster painkiller that was the catalyst for the opioid crisis.

Empire of Pain begins with the story of three doctor brothers, Raymond, Mortimer and the incalculably energetic Arthur, who weathered the poverty of the Great Depression and appalling anti-Semitism. Working at a barbaric mental institution, Arthur saw a better way and conducted groundbreaking research into drug treatments. He also had a genius for marketing, especially for pharmaceuticals, and bought a small ad firm. Arthur devised the marketing for Valium, and built the first great Sackler fortune. He purchased a drug manufacturer, Purdue Frederick, which would be run by Raymond and Mortimer. The brothers began collecting art, and wives, and grand residences in exotic locales. Their children and grandchildren grew up in luxury. Forty years later, Raymond's son Richard ran the family-owned Purdue. The template Arthur Sackler created to sell Valium—co-opting doctors, influencing the FDA, downplaying the drug's addictiveness—was employed to launch a far more potent product: OxyContin. The drug went on to generate some thirty-five billion dollars in revenue, and to launch a public health crisis in which hundreds of thousands would die. This is the saga of three generations of a single family and the mark they would leave on the world, a tale that moves from the bustling streets of early twentieth-century Brooklyn to the seaside palaces of Greenwich, Connecticut, and Cap d'Antibes to the corridors of power in Washington, D.C. Empire of Pain chronicles the multiple

investigations of the Sacklers and their company, and the scorched-earth legal tactics that the family has used to evade accountability. The history of the Sackler dynasty is rife with drama—baroque personal lives; bitter disputes over estates; fistfights in boardrooms; glittering art collections; Machiavellian courtroom maneuvers; and the calculated use of money to burnish reputations and crush the less powerful. *Empire of Pain* is a masterpiece of narrative reporting and writing, exhaustively documented and ferociously compelling. It is a portrait of the excesses of America's second Gilded Age, a study of impunity among the super elite and a relentless investigation of the naked greed and indifference to human suffering that built one of the world's great fortunes.

TOO FAMOUS collects pieces Michael Wolff has written as a columnist for New York, Vanity Fair, The Guardian, GQ and The Hollywood Reporter, and adds several new ones. Written over a 20-year period, the book spans that moment in popular culture when personal attention became one of the world's most valuable commodities, and ending with Donald Trump, fame's most hyperbolic exponent. Some of these pieces exist in the amber of a particular news moment, some as character portraits - as colourful now as when they were written - and some as lasting observations about human nature and folly. The common ground all of these thrilling stories share is that everyone in this book is a creature of, or

In this comprehensive and definitive survey of current notation procedures, Kurt Stone has brought order to a field traditionally fraught with confusion and idiosyncrasy. He not only describes and recommends new methods for notating modern music, thereby establishing standard procedures for the present and future, but integrates them with traditional practices still in use. The result is a guide to all forms of notation used in serious music today.

Written by experienced litigators, trial consultants, and graphic designers, *Demonstratives: Definitive Treatise on Visual Persuasion* guides lawyers and consultants through the process of creating and using persuasive visuals, and includes over 300 color images as examples.

The National Book Award-winning author of *Stamped from the Beginning* offers a bracingly original approach to understanding and uprooting racism and inequality in society--and in ourselves.
