\*Green River College's 2018-2019 One Book Selection\* Standing on the stage, I felt exposed and like an intruder. In these professional settings, my personal experiences with hunger, poverty, and episodic homelessness, often go undetected. I had worked hard to learn the rules and disguise my beginning in life... So begins *Born Bright*, C. Nicole Mason's powerful memoir, a story of reconciliation, constrained choices and life on the other side of the tracks. Born in the 1970s in Los Angeles, California, Mason was raised by a beautiful, but volatile 16-year-old single mother. Early on, she learned to navigate between an unpredictable home life and school where she excelled. By high school, Mason was seamlessly straddling two worlds. The first, a cocoon of familiarity where street smarts, toughness and the ability to survive won the day. The other, foreign and unfamiliar with its own set of rules, not designed for her success. In her Advanced Placement classes and outside of her neighborhood, she felt unwelcomed and judged because of the way she talked, dressed and wore her hair. After moving to Las Vegas to live with her paternal grandmother, she worked nights at a food court in one of the Mega Casinos while finishing school. Having figured out the college application process by eavesdropping on the few white kids in her predominantly Black and Latino school along with the help of a long ago high school counselor, Mason eventually boarded a plane for Howard University, alone and with \$200 in her pocket. While showing us her own path out of poverty, Mason examines the conditions that make it nearly impossible to escape

and exposes the presumption harbored by many—that the poor don't help themselves enough.

Life takes it out of you. But the reset you've been desperate for is within reach. Writer and Bible teacher Jen Wise knew that holistic faith—that reaches into every facet of life—is what brings grace and renewal. But she didn't begin to live this truth until her world fractured. So as she searched Scripture for a better way, she discovered Jesus' invitation for just that: small steps able to lead us into a bright new beginning. So to the woman who feels her all is never enough, *The Bright Life* is your invitation to a new start. You were created to be healthy, strong, vibrant, and to rest in the unforced rhythms of grace Jesus so lovingly makes available to us all. Come along and learn how to avoid habits that seem smart but are deceptively self-sabotaging, pick up habits of wholeness that actually stick, and try surprising ways to practice kindness toward yourself and generosity toward loved ones. *The Bright Life* extends a daily invitation with striking insights, tips to reclaim your energy, and a three-part practice of looking inward, upward, and outward as you step into a brighter way. This 40-day reset weaves story and Scripture together to cultivate a peaceful place where, through the attentive love of Jesus, you can experience the unforced rhythms of grace.

This third edition has been well revised and continues with the ideas expressed in the previous two editions. The details and reactions in light of experiences of the intervening years have been updated and expanded. This particularly interesting book is written from a student advocacy perspective, intended to speak to non-traditional students as well as those typical of past generations. Specific topics include: (1) how doctoral study differs from previous pursuits; (2) choosing a dissertation topic; (3) your chair, your committee, and you; (4) writing the proposal; (5) the dissertation; (6) defense of the thesis; and (7) spouses, family and friends. From the Preface: "Looking back upon my academic career, one of the memories that brings me the most pleasure are the words students used to pass along to each other, 'If you have a problem, go see Peggy Hawley.' My distress at seeing bright students drop out and my interest in social science research combined to provide the impetus for writing this book. On a year-long sabbatical leave I interviewed hundreds of doctoral students and dozens of professors across the nation. Then as professor emeritus, I finally found the time to put my thoughts into words . . . ." In making the unwritten rules of doctoral study more explicit, the author has attempted to be insightful rather than scientific, personal rather than objective, and practical rather than theoretical. This guide will therefore help to pave the way for those recipients who will pursue and capture academe's highest award: the terminal degree in a particular field of study.

On a walk in the woods, a historian is drawn into a conspiracy of murder Piers Colet is about to fly to Spain when his plane's engine catches fire. His research trip delayed, he decides to spend the week exploring the banks of the Severn, the ancient river that winds through the backwoods of Wales. Searching for a place to bed down for the evening, he finds himself in Simeon Marrin's commune, where a group of people disgusted with the course of modern civilization have gathered to wait for the coming end of the world. Here he meets the charming Elsa, who intrigues him only slightly less than the rumors that the Severn runs rich with gold. When a trip into the water with Marrin nearly costs Colet his life, the economic historian goes to ground, taking shelter in the mysterious Forest of Dean. Where ancient Romans once fought, where Druids once worshipped, Colet must now learn to kill.

The story of Nicolas Nabokov's involvement with the CIA-funded Congress for Cultural Freedom (CCF) is a story of the politics and sociology of culture; how music was used for political ends and how intellectual groups formed and functioned during the Cold War. The seemingly independent CCF, established to counteract apparent Soviet successes in the fields of the arts and intellectual life, appointed Nabokov (a Russian emigre and minor composer) as its Secretary General in 1951. Over the next ten years he gave music a high profile in the work of the organisation, producing four international musical festivals, the first and most ambitious of which was 1952's L'Oeuvre du XXe Sie in Paris, an event which showcased the work of no less than 62 composers. As Ian Wellens reveals, Nabokov's musical involvement with the CCF was in fact a struggle on two fronts. Apparently a defence of Western modernism against 'backward', 'provincial' Soviet music, Nabokov's writings show this to have meshed closely with the domestic concern - shared by many intellectuals - that high culture was being undermined by an increasingly culturally aware middle class. His attacks on Soviet cultural policy, and his unflattering assessments of Shostakovich, are seen to be not merely salvos in the cold war but part of a broader campaign aimed at securing the authority and prestige of intellectuals.

J.M. Barrie Comedy Characters: 6 male, 9 female Interior Set Quality Street is a cup of exquisite comic delight. Set in England, about 1800, it is alive with elegant humor and wit. There are several maiden women in the action, some of them a bit sour and curiously officious. But the one named Phoebe, with the plain face, is a sparkling lass whose heart flutters for a bachelor by the name of Valentine, who is expected on a visit. Sadly we learn, Valentine, has come back not to propose to Miss Phoebe but to announce his enlistment in the Napoleonic wars. And Phoebe and her sister have met economic misfortune by teaching at a primary school. Rejuvenated by his return, Phoebe in a carefree moment discards her prim clothes and expression, and becomes a gay young girl, extravagant with her smiles, as well as with her dances at the military balls. The transformation is so complete that Phoebe is mistaken for a fictitious niece. The deception increases the merriment and produces many sudden changes of the plot. Valentine discovers his love for Phoebe, and then fortunately discovers the precarious plot in time to save it from the mischievous women. Surely this is one of the most endearing and enduring of all comedies.

divCollege years—when ideas collide, literature intrigues and inspires, lasting passions are first fired—can stamp a young writer for life. This extraordinary book contains the work of dozens of writers whose experiences at Yale over the past three centuries exerted a powerful force on their writing lives. Formed and nurtured by the unique intellectual community of the university, writers as diverse as Noah Webster and Gloria Naylor emerged from Yale to make their own fresh contributions to our nation's remarkable literary heritage. From the galaxy of authors Yale has produced, J. D. McClatchy selects a rich and varied sample. He includes sermons, essays, poems, short stories, and excerpts from novels. The book opens with a section devoted to the work of four great teachers of writing at Yale in recent decades: John Hersey, Robert Penn Warren, John Hollander, and Robert Stone. The middle and most generous section of the volume focuses on writers who have been working since the end of the Second World War. Each of these selections casts a strong light

on its author and his or her work. In the final section, McClatchy draws on the work of earlier literary figures from James Fenimore Cooper to Thornton Wilder, in many cases retrieving little-known material. A stroll through the pages of this bountiful anthology, dazzling in the diversity of its offerings, will appeal to any reader. Each of the authors was challenged and inspired by Yale. In this volume, each in turn challenges and inspires us. Among the authors and poets in this volume: Jonathan Edwards, Sinclair Lewis, Cole Porter, Robert Penn Warren, Brendan Gill, Robert K. Massie, William F. Buckley, Jr., Calvin Trillin, Paul Monette, Garry B. Trudeau, Claire Messud, Chang-rae Lee /DIV

"I would go into the deeps a hundred times to cheer a downcast spirit; it is good for me to have been afflicted that I might know how to speak a word in season to one that is weary." --Charles Spurgeon Millions read the words of the great nineteenth-century preacher Charles Spurgeon without knowing that his ministry succeeded during seasons of overwhelming emotional pain. *Bright Days, Dark Nights* offers a first look for many at the deep depression this great man of God encountered. Spurgeon confronted emotional problems with an acceptance based on physical, emotional, and spiritual causes and cures. Drawing from Spurgeon's enormous collection of sermons and conversations, author and therapist Elizabeth Skoglund provides insight into subjects such as confidence, depression, and anxiety. Readers will find strength and comfort for themselves and others in this unique blending of biblical principles and psychological wholeness. *Being Bright is Not Enough: The Unwritten Rules of Doctoral Study* Charles C Thomas Publisher

What the love of wisdom is and how it enables us to live in today`s world are explored in this ambitious work. Rich insights into what human maturity means and how it is reached have become too easily lost or confined to the world of high academia. Well-being, the true goal of human being, has been tragically reduced to `happiness` and its meanings lost. No subject could be more important, and few modern works deal with it that are not religious, dogmatic and furtively proselytising. Profound ideas are here applied to such unlikely things as skateboarding, love-making, getting rich, tourism and playing cricket, all of which can become a means to the development of mental strength and genuine love. Post-religious spirituality, clarified here, is the development of the psyche, which is as important as finding or losing oneself, and winning or losing in the arena of living. In the age of fiction our lives are enriched by myriad vital stories, personally loved, and also endowed with wider meanings through living in the shared master story for today, the incomplete saga of the salvation of the planet. Radical implications for education, human communication, politics and a sustainable future permeate the text, which calls upon authoritative voices from recent times and the deeper past, from Socrates to Habermas. from Judaism and Christianity to Islam and the traditions of the East. This is no mere history, but the building of a radical approach to human spirituality, lifestyle, communication and life-goals. Although the way is hard, deliverance from the darkness of consumerism, the pressure of rivalry, and confusion about ultimate goals is offered in this book. The thorough bibliography and referencing enable the reader to pursue a wide range of topics, and render the work suitable for the hard-pressed
