Kedewasaan merupakan masalah universal dan terkait bidang yang banyak bersentuhan dengan berbagai masalah kehidupan, berbicara masalah kedewasaan berarti berbicara masalah diri sendiri dan orang lain. Oleh sebab itu, tidaklah mudah menjawab masalah makna dewasa karena kedewasaan sering dikaitkan dengan berbagai masalah, ungkapan "kurang dewasa" ketika seseorang melakukan perbuatan yang di luar kebiasaan, demikian pula yang dengan ungkapan-ungkapan yang lain. Buku ini menggambarkan makna dan berbagai persoalan yang terjadi di sekitar kedewasaan, ditinjau dari perspektif psikologi Islami menurut Abdullah Nasih Ulwan. Semoga buku ini dapat memberikan wawasan yang luas dan dijadikan bahan rujukan, diskusi, dan pengembangan pemahaman mengenai kedewasaan, khususnya bagi mahasiswa maupun bagi para pembaca secara umum.

America's foremost baby and childcare experts, William Sears M.D. and Martha Sears, R.N., explain the benefits -- for both you and your child -- of connecting with your baby early. Would you and your baby both sleep better if you shared a bed? How old is too old for breastfeeding? What is a father's role in nurturing a newborn? How does early attachment foster a child's eventual independence? Dr. Bill and Martha Sears -- the doctor-and-nurse, husband-and-wife team who coined the term "attachment parenting" -- answer these and many more questions in this practical, inspiring guide. Attachment parenting is a style of parenting that encourages a strong early attachment, and advocates parental responsiveness to babies' dependency needs. The Attachment Parenting Book clearly explains the six "Baby B's" that form the basis of this popular parenting style: Bonding, Breastfeeding, Babywearing, Bedding close to baby, Belief in the language value of baby's cry, and Beware of baby trainers. Here's all the

information you need to achieve your most important goals as a new parent: to know your child, to help your child feel right, and to enjoy parenting.

Published in Indonesia in 2005, *The Rainbow Troops*, Andrea Hirata's closely autobiographical debut novel, sold more than five million copies, shattering records. Now it promises to captivate audiences around the globe. Ikal is a student at the poorest village school on the Indonesian island of Belitung, where graduating from sixth grade is considered a remarkable achievement. His school is under constant threat of closure. In fact, Ikal and his friends—a group nicknamed the Rainbow Troops—face threats from every angle: skeptical government officials, greedy corporations hardly distinguishable from the colonialism they've replaced, deepening poverty and crumbling infrastructure, and their own low self-confidence. But the students also have hope, which comes in the form of two extraordinary teachers, and Ikal's education in and out of the classroom is an uplifting one. We root for him and his friends as they defy the island's powerful tin mine officials. We meet his first love, the unseen girl who sells chalk from behind a shop screen, whose pretty hands capture Ikal's heart. We cheer for Lintang, the class's barefoot math genius, as he bests the students of the mining corporation's school in an academic challenge. Above all, we gain an intimate acquaintance with the customs and people of the world's largest Muslim society. This is classic storytelling in the spirit of Khaled Hosseini's *The Kite Runner*: an engrossing depiction of a milieu we have never encountered before, bursting with charm and verve.

Sahih Muslim is a collection of sayings and deeds of Prophet Muhammad (pbuh) (also known as the sunnah). The reports of the Prophets sayings and deeds are called ahadith. Muslim lived a couple of centuries after the Prophet's death and worked extremely hard to collect his ahadith. Each report in his collection was checked for compatibility with the Quran, and the veracity of the chain of reporters had to be painstakingly established. Muslims collection is recognized by the overwhelming majority of the Muslim world to be one of the most authentic collections of the Sunnah of the Prophet (pbuh). Muslim (full name Abul Husain Muslim bin al-

Hajjaj al-Nisapuri) was born in 202 A.H. and died in 261 A.H. He travelled widely to gather his collection of ahadith, including to Iraq, Saudi Arabia, Syria, and Egypt.

"Alif had never set foot outside of West Sumatra. He passed his childhood days searching for fallen durian fruit in the jungle, playing soccer on rice paddies, and swimming in the blue waters of Lake Maninjau. His mother wants him to attend an Islamic boarding school, a pesantren, while he dreams of public high school. Halfheartedly, he follows his mother's wishes. He finds himself on a grueling three-day bus ride from Sumatra to Madani Pesantren (MP) in a remote village on Java. On his first day at MP, Alif is captivated by the powerful phrase *man jadda wajada*. He who gives his all will surely succeed. United by punishment, he quickly becomes friends with five boys from across the archipelago, and together they become known as the Fellowship of the Manara. Beneath the mosque's minaret, the boys gaze at the clouds on the horizon, seeing in them their individual dreams of far-away lands, like America and Europe. Where would these dreams take them? They didn't know. What they did know was: never underestimate dreams, no matter how high they may be. God truly is The Listener. The Land of Five Towers is the first book in a trilogy written by A. Fuadi—a former TEMPO & VOA reporter, photography buff, and a social entrepreneur. He went to George Washington University and Royal Holloway, University of London for his masters. A portion of the royalties from the trilogy are intended to build Komunitas Menara, a volunteer-based social organization which aims to provide free schools, libraries, clinics and soup kitchens for the less fortunate. My name is Raib, I'm fifteen years old, I'm in Class 10. I'm an ordinary girl, just like your younger sisters, just like your neighbours. I have two cats: Whitey and Blacky. My parents are nice. My teachers are great. My friends are kind and supportive. I'm just like most teenagers, except for one thing. There's something that I have kept to myself since I was small. Something amazing. My name is Raib, and I can disappear. The first book of EARTH SERIES. "Wolfe does an exemplary job of detailing the ceremonies performed at Mecca and the reasons behind them . . . Highly recommended" (Library Journal, starred review). This updated and expanded edition of *One Thousand Roads to Mecca* collects significant works by observant travel writers from the East and West over the last ten centuries—including two new contemporary narratives—creating a comprehensive, multifaceted literary portrait of the enduring tradition. Since its inception in the seventh century, the pilgrimage to Mecca has been the central theme in a large body of Islamic travel literature. Beginning with the European Renaissance, it has also been the subject for a handful of adventurous writers from the West who, through conversion or connivance, managed to slip inside the walls of a city forbidden to non-Muslims. These very different literary traditions form distinct impressions of a spirited conversation in which Mecca is the common destination and Islam the common subject of inquiry. Along with an introduction by Reza Aslan, featured writers include Ibn Battuta, J.L. Burckhardt, Sir Richard Burton, the Begum of Bhopal, John Keene, Winifred Stegar, Muhammad Asad, Lady Evelyn Cobbold, Jalal Al-e Ahmad, and Malcolm X. *One Thousand*

Roads to Mecca is a historically, geographically, and ethnically diverse collection of travel writing that adds substantially to the literature of Islam and the West. "Serves as an excellent introduction to a religion, people, culture, and philosophy." —Santa Cruz Sentinel

The dictionary focuses primarily on the 19th and 20th centuries, stressing topics of most interest to Westerners. What emerges is a highly informative look at the religious, political, and social spheres of the modern Islamic world. Naturally, readers will find many entries on topics of intense current interest, such as terrorism and the Taliban, Osama bin Laden and al-Qaida, the PLO and HAMAS. But the coverage goes well beyond recent headlines. There are biographical profiles, ranging from Naguib Mahfouz (the Nobel Prize winner from Egypt) to Malcolm X, including political leaders, influential thinkers, poets, scientists, and writers. Other entries cover major political movements, militant groups, and religious sects as well as terms from Islamic law, culture, and religion, key historical events, and important landmarks (such as Mecca and Medina). A series of entries looks at Islam in individual nations, such as Afghanistan, the West Bank and Gaza, Bosnia-Herzegovina, and the United States, and the "Learning My Salah" teaches you how to pray as Prophet Muhammad (peace and blessings be upon him) did. Indeed, his guidance is the most perfect. By following him, your prayers will be in the manner most pleasing to Allah, the Gracious.

This book is an abridgment of my earlier work entitled, Adh-Dhikr wad-Du'a wal-'Ilaj bir-Ruqyah mina'-Kitab was-Sunnah. In order to make it small and easily portable, I have chosen only the section on words of remembrance for this abridgment. To achieve this, I only mentioned the text of the words of remembrance instead of the entire Hadith. I also limited myself to mentioning only one or two references from the original book for each Hadith. Whoever would like to know about the Companion who related a particular Hadith, or more information about where it is recorded, should refer to the original work (mentioned above). I ask Allah the Glorious, the Mighty, by His beautiful Names and by His sublime Attributes to accept this as having been done sincerely for His sake alone. I ask Him to bring me its benefits during my lifetime and after my death. May those who read it, those who print it, or have had any role in distributing it, benefit from it also. Surely He, glory be unto Him, is Capable of all things. May the peace and blessings of Allah be upon our Prophet, Muhammad, and upon his family and Companions and whoever follows them in piety until the Day of Judgment. Said bin Ali bin Wahaf Al-Qahtani, Safar, 1409

Belajar adalah suatu kata yang sudah akrab dengan semua lapisan masyarakat. Masalah pengertian belajar ini, para ahli psikologi dan pendidikan mengemukakan rumusan yang berlainan sesuai dengan bidang keahlian mereka masing-masing. James O. Whittaker, misalnya, merumuskan belajar sebagai proses di mana tingkah laku ditimbulkan atau diubah melalui latihan atau pengalaman. Cronbach berpendapat bahwa learning is shown by change in behavior as a result of experience. DO YOU ENJOY HELPING PEOPLE? Would you like to work with state-of-the-art technology? Are you interested in a profession in a skyrocketing segment of the allied healthcare field? These attractive features and many more, characterize the burgeoning specialty of Cardiovascular Technology. Employment of CVTs is expected to increase by a whopping 25 percent within the next decade. A trio of factors account for this career's upward trajectory, two of which are related to the aging population: the Baby Boom generation, 76 million strong, started turning 60 in 2007. People are living longer, thanks to continual advances in healthcare and medicine. The third factor is distressing: Americans, generally, do not take good care of their own health. Heart disease is a phenomenon of the modern age. In pre-industrial societies, most people's livelihoods consisted of manual labor. Domestic life involved vigorous activity by men, women, and even children. Before people had access to manufactured products and the conveniences of modern life, they were largely self-sufficient. American pioneers cut down trees for firewood, built their own and their neighbors' houses, repaired their own roofs, hunted for food, drew water from the well, churned milk into butter, harvested crops, sheared sheep, slaughtered their own livestock, played stickball and hopscotch, and walked to school. Tobacco and sugar were luxuries for most people, who had little discretionary spending money and lived far from the general store, if there was one. Food was plentiful at harvest time, but scarce in the winter. Today, our homes are heated and cooled with the flick of a switch. Water flows through our taps, our food comes from the supermarket, and high-tech entertainment devices have replaced physical activity as young people's recreation of choice. Those who are

old enough to purchase them easily obtain tobacco and alcohol. Foods laden with sugar, salt and fat are readily available at chain restaurants, as prepared frozen meals, and right off the shelf in the form of chips and other savory snacks. We do not walk to the corner store anymore, because there is not one. Instead, we drive to the mall. If we want to exercise, we go to the gym. Nevertheless, mostly we sit on the couch in front of the TV or in a chair in front of the computer screen. All of these dietary and lifestyle factors contribute to conditions implicated in heart disease, including high blood pressure, obesity, atherosclerosis (narrowing of the arteries that obstructs blood flow to the heart), and elevated levels of cholesterol, the soft, waxy substance that builds up in the blood, causing atherosclerosis.

Hypercholesterolemia may sometimes be an inherited condition, but often it is related to excessive consumption of saturated fat and dietary cholesterol. According to the American Heart Association, coronary heart disease is the leading cause of death in the United States, and stroke is the third leading cause of death. What can a cardiovascular technologist do to help alleviate these terrible healthcare problems? Working under the direction of a cardiologist (heart specialist) or other medical doctor, the CVT performs procedures on patients that are used in the diagnosis and treatment of cardiac (heart) and peripheral vascular (blood vessel) diseases. Data are collected from these procedures and interpreted by the doctor to determine the presence and degree of heart disease. Other duties may include reviewing and recording patients' medical histories, scheduling appointments, and recording into a database the physician's assessments of the diagnostic findings. Intrigued? This report tells you all about exploring and preparing for a job in cardiovascular technology, what kind of education is required, what you will earn, benefits and drawbacks to this work, and everything else you need to know about a career centered on that magnificent muscle, the heart!
