Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different

native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover:

- How you can get your dog to come when called by acting less like a primate and more like a dog
- Why the advice to “get dominance” over your dog can cause problems
- Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief
- How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!”

breeders to send home with families in their packet of puppy information. What exactly is a Bernedoodle? It's cross between a Bernese Mountain Dog and a Poodle, and according to fans of this newcomer to the hybrid world, it's downright adorable. Sherry Rupke of SwissRidge Kennels was the first breeder to deliberately cross Bernese Mountain Dogs and Poodles. Rupke loved everything about the gorgeous and sweet-natured Bernese, except for the short-lived breed's genetic propensity for cancer. Plus it sheds. And it can be a little stubborn. Rupke knew from experience that adding Poodle to the hybrid equation could create a intelligent, lively, healthy and low- to non-shedding dog that fits the average person's lifestyle. At least, that's what happens when a breeder takes her work as seriously as Rupke does. Over the past decade, she's built her Bernedoodle program carefully to ensure that each scrupulously health-checked breeding dog has an impeccable pedigree, a calm temperament, and great conformation. In "Bernedoodles: A Head to Tail Guide," Rupke takes readers on a journey from her early days of breeding purebred dogs to establishing her highly successful hybrid program. This comprehensive, easy-to-read and entertaining book covers everything you need to know about this amazing hybrid. Since Bernedoodles can vary significantly in size, build, coloring, and even personality, prospective owners need advice from someone who knows the breed inside out. A Hollywood dog trainer explains how to use nonviolent, wolf-inspired methods in order to bond with and train canine companions, in a guide that reveals how to employ play-based techniques that elicit desirable dog behaviors.

For more than thirty years the Monks of New Skete have been among America's most trusted authorities on dog training, canine behavior, and the animal/human bond. In their two now-classic bestsellers, *How to be Your Dog's Best Friend* and *The Art of Raising a Puppy*, the Monks draw on their experience as long-time breeders of German shepherds and as trainers of dogs of all breeds to provide--brilliantly distilled--the indispensable information and advice that every dog owner needs. This new edition of *The Art of Raising a Puppy* features new photographs throughout, along with updated chapters on play, crating, adopting dogs from shelters and rescue organizations, raising dogs in an urban environment, and the latest developments in canine health and canine behavioral theory.

The Boerboel is a very majestic dog who was given immense recognition and respect by some of the greatest rulers in the history of mankind; including Assurbanipal of Assyria and Alexander the Great. Now, if you want to feel like royalty, too, it is a good idea to bring home a Boerboel. However, before you do that, make sure you know everything about taking care of this rather unique breed. Having a giant dog like the Boerboel at home is no easy task. For anybody who has even owned a dog before understanding the right way to care for a dog like the Boerboel seems like a challenge. Most Mastiff owners would agree that the docile nature of the breed reduces the burden to a large extent. So if you are bringing home a Boerboel you must worry mostly about giving the dog proper care to ensure that he has a long, comfortable and healthy life, this book is all that you will need to refer to. With the wrong care, this dog can sometimes become aggressive. With the right care, he will be the most incredible addition to your family. This book is a complete pet owner's guide that covers all the concerns that a new Mastiff owner may have. Training the Best Dog Ever, originally published in hardcover as The Love That Dog Training Program, is a book based on love and kindness. It features a program of positive reinforcement and no-fail techniques that author Dawn Sylvia-Stasiewicz used to train the White House dog, Bo Obama, and each of Senator Ted Kennedy's dogs, among countless others. Training the Best Dog Ever relies on trust and treats, not choke collars; on bonding, not leash-yanking or reprimanding. The five-week training program takes only 10 to 20 minutes of practice a day and works both for puppies and for adult dogs that need to be trained out of bad habits. Illustrated with step-by-step photographs, the book covers hand-feeding; crate and potty training; and basic cues—sit, stay, come here—as well as more complex goals, such as bite inhibition and water safety. It shows how to avoid or correct typical behavior problems, including jumping, barking, and leash-pulling. Plus: how to make your dog comfortable in the world—a dog that knows how to behave in a vet's office, is at ease around strangers, and more. In other words, the best dog ever.

#1 New York Times Bestseller In this pathbreaking guide, two of the world's most popular and trusted pet care advocates reveal new science to teach us how to delay aging and provide a long, happy, healthy life for our canine companions. Like their human counterparts, dogs have been getting sicker and dying prematurely over the past few decades. Why? Scientists are beginning to understand that the chronic diseases afflicting humans—cancer, obesity, diabetes, organ degeneration, and autoimmune disorders—also beset canines. As a result, our beloved companions are vexed with preventable health problems throughout much of their lives and suffer shorter life spans. Because our pets can't make health and lifestyle decisions for themselves, it's up to pet parents to make smart, science-backed choices for lasting vitality

and health. The Forever Dog gives us the practical, proven tools to protect our loyal four-legged companions. Rodney Habib and Karen Becker, DVM, globetrotted (pre-pandemic) to galvanize the best wisdom from top geneticists, microbiologists, and longevity researchers; they also interviewed people whose dogs have lived into their 20s and even 30s. The result is this unprecedented and comprehensive guide, filled with surprising information, invaluable advice, and inspiring stories about dogs and the people who love them. The Forever Dog prescriptive plan focuses on diet and nutrition, movement, environmental exposures, and stress reduction, and can be tailored to the genetic predisposition of particular breeds or mixes. The authors discuss various types of food—including what the commercial manufacturers don't want us to know—and offer recipes, easy solutions, and tips for making sure our dogs obtain the nutrients they need. Habib and Dr. Becker also explore how external factors we often don't think about can greatly affect a dog's overall health and wellbeing, from everyday insults to the body and its physiology, to the role our own lifestyles and our vets' choices play. Indeed, the health equation works both ways and can travel "up the leash." Medical breakthroughs have expanded our choices for canine health—if you know what they are. This definitive dog-care guide empowers us with the knowledge we need to make wise choices, and to keep our dogs healthy and happy for years to come.

If you've ever seen a dog in a television commercial, there's a pretty good chance it was a Border Collie. Or, if you've watched herding competitions, you've probably seen a Border Collie controlling the herd. First and foremost, Border Collies are sheep herders. But when they're not on the clock, they can make excellent companions. They're energetic, playful, and extremely intelligent. They're also sensitive, affectionate, and adorable. Even though this breed is still vital to livestock owners, we will focus on the Border Collie as a pet in this book. Intelligence is perhaps the most prominent trait of the Border Collie. In the pasture, this dog can understand specific commands and respond accordingly. They also excel at obedience competitions and agility runs because they can pick up new skills quickly and respond to challenging commands. This book will give you the information you need to jump-start your ownership journey, including:

Border Collies are an absolute joy to have as pets. These dogs are beautiful, intelligent, and silly. They love to test their owners and call the shots, but at the end of the day, they're capable of following orders. You'll never find another dog quite like them, as they're capable of running around one minute and snuggling up beside you the next. All your Border Collie wants is a purpose. While they may drive you nuts when they're bored, it's amazing to watch them work. Whether your Border Collie's "job" is to tend livestock, chase the rabbits and birds from your garden, or just be a loving companion, you'll find that your Border Collie will do anything for the love and affection with which you pay them.

Havanese Havanese are quite intelligent, but they prefer to use their minds to keep you entertained, which is what makes them so popular. Watching them dance around with their hair flying around them looks both graceful and hypnotic. They are also incredibly loving, but they do require a bit more attention since they are so smart. Habits like barking can become a problem if you do not train them – however, if you do a bit of training, they don't bark that much. Given their size, training is pretty easy since they can easily sit in your lap and just enjoy petting and listening to the chatter. They can be incredibly energetic as well, but it is also easy to help them work off that energy through moderate exercise. Walking with them daily and playing inside will be more than enough to make them a nearly perfect dog for any home!
