A "fakebook" is a collection of melodies with the chord changes that allows jazz musicians to read the tunes instead of playing solely by ear and memory. It is, then, a place to start, a structure upon which jazz improvisation, "faking," builds. As a young man, the author, a jazz saxophone player, tried to make a living at what he loved most. He failed, gave up jazz and became a college English professor. Today he is playing his saxophone again, at weekend gigs, rediscovering the unending challenge and the fulfillment that jazz brings him. This journey of self-discovery demonstrates the power of both jazz and superbly crafted writing.

Conversations began as a column for the Huffington Post where it initially featured fashion designers. Author Blue Carreon would ask his subjects to answer a fill-in-the-blanks type of questionnaire on topics that touch on many different aspects of our lives—from personal rituals to alternative careers to thoughts on Botox. Discover the fascinating truth on who has resisted and succumbed to Botox, and those who wouldn't admit to using it by their twist of words or vague replies. From Tory Burch, Carreon went on to ask a great mix of personalities to be part of the Conversations series. Among these include the style icons Ines de la Fressange and Olivia Chantecaille; fashion designers Diane Von Furstenberg, Rachel Roy, and Michael Bastian; decorators Charlotte Moss, Vicente Wolf, and Mary McDonald; and artists James Nares and Polly Apfelbaum. Through sixty selected interviews, Conversations stretches over the fields of fashion, interior design, and art. Delve into the fascinating lives of some of the world's most creative minds and see just how many turns of phrase can be added to a single open-ended word like Happiness... Read their answers and you'll be surprised at how the subjects jump so quickly from clever to funny to philosophical—or all of the above—with each question.

This book is the 2nd volume in a series designed to help the student of jazz piano learn and apply jazz scales by mastering each scale and its uses in improvisation. In *Rewrite Man*, Alison Macor tells an engrossing story about the challenges faced by a top screenwriter at the crossroads of mixed and conflicting agendas in Hollywood. Whether writing love scenes for Tom Cruise on the set of *Top Gun*, running lines with Michael Keaton on *Beetlejuice*, or crafting Nietzschean dialogue for Jack Nicholson on *Batman*, Warren Skaaren collaborated with many of New Hollywood's most powerful stars, producers, and directors. By the time of his premature death in 1990, Skaaren was one of Hollywood's highest-paid writers, although he rarely left Austin, where he lived and worked. Yet he had to battle for shared screenwriting credit on these films, and his struggles yield a new understanding of the secretive screen credit arbitration process—a process that has only become more intense, more litigious, and more public for screenwriters and their union, the Writers Guild of America, since Skaaren's time. His story, told through a wealth of archival material, illuminates crucial issues of film authorship that have seldom been explored.

The author of the magisterial *A Biographical Guide to the Great Jazz and Pop Singers* now approaches the great singers and their greatest work in an innovative and revelatory way: through considering their finest albums, which is the format in which this music was most resonantly organized and presented to its public from the 1940s until the very recent decline of the CD. It is through their albums that Ella Fitzgerald, Frank Sinatra, Peggy Lee, Sarah Vaughan, Nat King Cole, Judy Garland, and the rest of the glorious honor roll of jazz and pop singers have been most tellingly and lastingly appreciated, and the history of the album itself, as Will Friedwald sketches it, can now be seen as a crucial part of musical history. We come to understand that, at their finest, albums have not been mere collections of individual songs strung together arbitrarily but organic phenomena in their own right. A Sinatra album, a Fitzgerald album, was planned and structured to show these artists at their best, at a specific moment in their artistic careers. Yet the albums Friedwald has chosen to anatomize go about their work in a variety of ways. There are studio and solo albums: Lee's *Black Coffee*, June Christy's *Something Cool*, Cassandra Wilson's *Belly of the Sun*. There are brilliant collaborations: famous ones—Tony Bennett and Bill Evans, Louis Armstrong and Oscar Peterson—and wonderful surprises like Doris Day and Robert Goulet singing *Annie Get Your Gun*. There are theme albums—Dinah Washington singing Fats Waller, Maxine Sullivan singing Andy Razaf, Margaret Whiting singing Jerome Kern, Barb Jungr singing Bob Dylan, and the sublime Jo Stafford singing American and Scottish folk songs. There are also stunning concert albums like *Ella in Berlin*, *Sarah in Japan*, *Lena at the Waldorf*, and, of course, *Judy at Carnegie Hall*. All the greats are on hand, from Kay Starr and Carmen McRae to Jimmy Scott and Della Reese (*Della Della Cha Cha Cha*). And, from out of left field, the astounding *God Bless Tiny Tim*. Each of the fifty-seven albums discussed here captures the artist at a high point, if not at the expected moment, of her or his career. The individual cuts are evaluated, the sequencing explicated, the songs and songwriters heralded; anecdotes abound of how songs were born and how artists and producers collaborated. And in appraising each album, Friedwald balances his own opinions with those of musicians, listeners, and critics. A monumental achievement, *The Great Jazz and Pop Vocal Albums* is an essential book for lovers of American jazz and popular music.

March 2009 and the banking crisis has already struck the UK. The government has nationalised some large insolvent banks, dumping their debt onto the taxpayers. Yet the narrative in the mainstream media is sycophantically upbeat. Into this brave new world of profligate indebtedness steps Craig Reddy, investigative journalist at London's Daily Courier. Undeterred by his suspension from work, Reddy pursues the truth about the Ipswich & Blackwater, a major bank headquartered in his home town, for which he has evidence of being close to insolvency. When the bank's CEO mysteriously commits suicide, D.I. Pauline Wright of Ipswich police is tasked with investigating his death. Her and Reddy's investigations converge onto the same path: the complex truths of the lives and deaths of those exploiting the bank for their own ends

Since the 1930s and '40s, jazz has stood tall in American popular music, drawing into its embrace not only great horn players, percussionists, guitarists, bassists, and pianists, but also some of the greatest singers in America's musical history. Jazz has laid the groundwork for important innovations in modern singing, opening up entirely new ways of delivering songs through what would eventually become jazz standards—songs that formed the basis of the American Songbook. In *So You Want to Sing Jazz*, singer and professor of voice Jan Shapiro gives a guided tour through the art and science of the jazz vocal style. Throughout, Shapiro hones in on what makes jazz singing distinctive, suggesting along the way how other types of singers can make use of jazz. She looks at such key matters in jazz singing as the role of improvisation, the place of specific singers who influenced and even defined vocal jazz as we know it today, and the unique way in which jazz incorporates vibrato, conversational delivery, rhythmic phrasing, and melodic embellishment and improvisation. The book includes guest-authored chapters by singing voice researchers Dr. Scott McCoy and Dr. Wendy LeBorgne. In *So You Want to Sing Jazz*, singers and voice teachers finally have the go-to resource they need for singing vocal jazz. The *So You Want to Sing* series is produced in partnership with the National Association of Teachers of Singing. Like all books in the series, *So You Want to Sing Jazz* features online supplemental material on the NATS website. Please visit www.nats.org to access style-specific exercises, audio and video files, and additional resources.

Three compelling and unforgettable mysteries by Edgar Award winner David Housewright Holland Taylor is comfortable in interrogation rooms. For years the cold, dark cells of the Minneapolis homicide squad were his turf, and with the help of his partner he wrung confessions out of countless killers. But that was long ago. In *Penance*, Taylor is on the other side of the desk. Tonight he is the suspect. Taylor's career in the department ended after his wife and daughter were killed in a drunk driving accident. The culprit, John Brown, was sentenced to a measly six years for vehicular manslaughter, and Taylor vowed bloody vengeance in front of open court. After a few months of freedom, Brown is shot dead, and Taylor, now a private investigator, is called in as the obvious suspect. He didn't kill Brown, but he will find out who did—even if it means tearing Minneapolis apart from the inside out. In *Dearly Departed*, Holland Taylor discovers a recording made by a woman named Alison

Emerton explaining that if she is missing, it is because Raymond Fleck killed her. Fleck, a convicted rapist, lost his job at a kennel after Alison accused him of sexual harassment and stalking. She vanished soon after, leaving behind her wallet, coat, and boots, on a night when twenty-three inches of snow fell on Minneapolis. Her lawyer has hired Taylor to find her. But as Taylor digs into Alison's past, he learns that Fleck was not the only person who wanted her dead. In *Practice to Deceive*, Florida widow and retiree Irene Gustafson is rich and alone. Following the advice of Ann Landers, Gustafson hands her money over to an investment manager. The returns are steady until he starts investing in Willow Tree, a low-income housing development on the fringes of the Twin Cities. The money vanishes, and the widow is destitute. That's where Holland Taylor, Minneapolis private detective, comes in. His recently retired parents are her neighbors, and they want Taylor to recover the old lady's money. It seems impossible, but as he investigates Willow Tree he finds a twisted real-estate conspiracy with deep roots in city politics—and a vicious killer hired to protect the secret.
