Bing Bunny is a loveable, feisty new pre-school character, created by Kate Greenaway-shortlisted illustrator Ted Dewan. Bing takes on pre-school challenges such as getting dressed, eating your breakfast and going to the park in his own inimitable style. He is a modern pre-schooler and, in Ted Dewan's exciting new artwork style, has a freshness and friendliness that is both appealing and different from anything else on the market. Bing Bunny: Bedtime takes us through the familiar toddler ritual of getting ready for bed. But as usual things don't go all that smoothly - but with a hiccup or two. Bing finally gets tucked up in bed and goes to sleep. Bedtime - it's a Bing thing!

"The best thing to happen to Bing Crosby since Bob Hope," (WSJ) Gary Giddins presents the second volume of his masterful multi-part biography Bing Crosby dominated American popular culture in a way that few artists ever have. From the dizzy era of Prohibition through the dark days of the Second World War, he was a desperate nation's most beloved entertainer. But he was more than just a charismatic crooner: Bing Crosby redefined the very foundations of modern music, from the way it was recorded to the way it was orchestrated and performed. In this much-anticipated follow-up to the universally acclaimed first volume, NBCC Winner and preeminent cultural critic Gary Giddins now focuses on Crosby's most memorable period, the war years and the origin story of White Christmas. Set against the backdrop of a Europe on the

brink of collapse, this groundbreaking work traces Crosby's skyrocketing career as he fully inhabits a new era of American entertainment and culture. While he would go on to reshape both popular music and cinema more comprehensively than any other artist, Crosby's legacy would be forever intertwined with his impact on the home front, a unifying voice for a nation at war. Over a decade in the making and drawing on hundreds of interviews and unprecedented access to numerous archives, Giddins brings Bing Crosby, his work, and his world to vivid life--firmly reclaiming Crosby's central role in American cultural history.

traditional American songs, such as "Take Me Out to the Ball Game" and "Yankee Doodle," as well as five classic songs from Chinese culture, are written here in artist Xu Bing's unique "square word calligraphy," which uses one-block words made of English letters. From a distance, these pieces are beautiful but unintelligible art. Up close, they are a mystery just waiting to be solved—like the fine art version of "Magic Eye." For readers ages 7 and up, *Look! At Eric's Rotisserie, Bing sat outside by himself, nursing white zinfandel beneath the large sunshade that jutted from the center of his table, while blustery wind roamed across campus—swirling dead leaves and bits of trash around the chairs and tables, flapping the awnings on the massive umbrellas. The weather kept the patio abandoned, and Bing preferred it that way—no chatty couples nearby, no loudmouth students talking about sports, or, even worse, popular music. On this chilly afternoon, he didn't care that he was alone. He didn't care that he'd left his coat in his office. And, for a moment, he almost didn't mind that his head wasn't quite screwed on tightly today. In *The Cosmology of Bing* Mitch Cullin offers a tale of intersecting lives during one school year in Houston: the college student and his artist roommate, the reclusive poet, the astronomer studying a supernova at a remote West Texas observatory, the young Japanese woman hopelessly in love with her gay friend—and at the center of this group is Bing Owen, a college professor who drowns his heartbreak, paranoia, and secret desires with alcohol. It's a darkly humorous novel about longing, buried feelings

and muted relationships, forgotten poetry and thrown pies—in which the mysteries of love, the interconnectedness of individuals, and the inexplicable nature of attraction occupy the same microcosm as exploding stars, ghost lights, and specters from the past.

Here is the quintessential Bing Crosby tribute from the pen of author and music historian, Richard Grudens, documenting the story of Crosby's colourful life, family, radio and television shows, and films; the amazing success story of a career that pioneered popular music spanning generations and inspiring many followers: Frank Sinatra, Tony Bennett, Perry Como, Jerry Vale, Dean Martin, Eddie Fisher, Pat Boone, Elvis Presley and Billy Eckstine, all of whom acknowledge their debt right between the covers of this book. An inspirational introduction by his lovely wife, Kathryn Grant Crosby, is followed by endearing, anecdotal accounts of those ubiquitous 'Road' films with Bob Hope, and detailed personal testimonials from show business icons in their own words. A 'must read' for Crosby fans, collectors, admirers, music lovers, and everyone who cherishes

the music and anecdotes of the players involved in the Golden Age of Popular Music.

“The story of what Dakota did . . . will be told for generations.”—President Barack Obama, from remarks given at Meyer’s Medal of Honor ceremony In the fall of 2009, Taliban insurgents ambushed a patrol of Afghan soldiers and Marine advisors in a mountain village called Ganjgal. Firing from entrenched positions, the enemy was positioned to wipe out one hundred men who were pinned down and were repeatedly refused artillery support. Ordered to remain behind with the vehicles, twenty-one year-old Marine corporal Dakota Meyer disobeyed orders and attacked to rescue his comrades. With a brave driver at the wheel, Meyer stood in the gun turret exposed to withering fire, rallying Afghan troops to follow. Over the course of the five hours, he charged into the valley time and again. Employing a variety of machine guns, rifles, grenade launchers, and even a rock, Meyer repeatedly repulsed enemy attackers, carried wounded Afghan soldiers to safety, and provided cover for dozens of others to escape—supreme acts of valor and determination. In the end, Meyer and four stalwart comrades—an Army captain, an Afghan sergeant major, and two Marines—cleared the battlefield and came to grips with a tragedy they knew could have been avoided. For his actions on that day, Meyer became the first living Marine in three decades to be awarded

the Medal of Honor. *Into the Fire* tells the full story of the chaotic battle of Ganjigal for the first time, in a compelling, human way that reveals it as a microcosm of our recent wars. Meyer takes us from his upbringing on a farm in Kentucky, through his Marine and sniper training, onto the battlefield, and into the vexed aftermath of his harrowing exploits in a battle that has become the stuff of legend. Investigations ensued, even as he was pitched back into battle alongside U.S. Army soldiers who embraced him as a fellow grunt. When it was over, he returned to the States to confront living with the loss of his closest friends. This is a tale of American values and upbringing, of stunning heroism, and of adjusting to loss and to civilian life. We see it all through Meyer's eyes, bullet by bullet, with raw honesty in telling of both the errors that resulted in tragedy and the resolve of American soldiers, U.S. Marines, and Afghan soldiers who'd been abandoned and faced certain death. Meticulously researched and thrillingly told, with nonstop pace and vivid detail, *Into the Fire* is the unvarnished story of a modern American hero. Praise for *Into the Fire* "A story of men at their best and at their worst . . . leaves you gaping in admiration at Medal of Honor winner Dakota Meyer's courage."—National Review "Meyer's dazzling bravery wasn't momentary or impulsive but deliberate and sustained."—The Wall Street Journal "[A] cathartic, heartfelt account . . . The creation of Xu Bing's *Book from the Ground* documented and described in text, images, and photographs. Although the pictogram-only narrative in *Xu Bing's Book from the Ground* can be read by anyone, there is much more to the story of Xu Bing's wordless book than can be gleaned from icons alone. from the Ground chronicles the entire project, mapping the history of Xu Bing's novel creation from inspiration to exhibition to publication. In the 1980s, Xu Bing created *Book from the Sky*. Using garbled and nonsensical faux-Chinese characters, this installation expressed Xu's doubts about written language and provoked questions about the Chinese language. Thirty years later, with *Book from the Ground*, the artist expresses his hope for a single, universally understood language. Inspired by airport signs that communicate instantaneously through images—directing a temporary community of modern nomads where to eat, shop, sit, and find a bathroom—Xu began to collect images, icons, and logos from which he could construct a story. This book describes Xu's research, showing notebook pages and bulletin boards full of clipped-out images; offers commentary by the artist and discussions of reading, alphabets and languages; documents, with text and photographs, exhibitions and installations connected to the work (including a *Book from the Ground* pop-up concept store); provides a list of works; describes Xu's "icon lab"; and "translates" Xu's pictographic narrative into English. *Bing Bunny* learns how to take turns with his friend, Flop, and also finds out that what goes up must come down.
