The Accounting and Review Services Committee (ARSC) has issued Statement on Standards for Accounting and Review Services No. 21, Statements on Standards for Accounting and Review Services: Clarification and Recodification. The issuance of SSARS No. 21 represents a major milestone in the ARSC's project to clarify and revise the standards for reviews, compilations, and engagements to prepare financial statements. To assist readers to easily locate information, a detailed table of contents is provided at the beginning of the SSARS. This statement recodifies and supersedes all outstanding SSARSs through No. 20, except SSARS No. 14, Compilation of Pro Forma Financial Information. SSARS No. 21 is effective for reviews, compilations, and engagements to prepare financial statements for periods ending on or after December 15, 2015 but early implementation is permitted. This statement is a standalone SSARS and is not a codification of all clarified SSARSs. This statement has been codified in AICPA Professional Standards, which contains a complete codification of Statements on Standards for Accounting and Review Services. Practitioners are advised to use the codified version of this SSARS as they prepare to evaluate and update their methodologies, and prepare for changes precipitated by the clarity project.

competitive position, and reporting the performance of a stock portfolio. Unlike typical books on this subject—which feature chapters to read and exercises to complete—this resource allows readers to actively participate in the learning experience by completing writing exercises and manipulating interactive spreadsheets that illustrate the principles being taught. The learning system also features instructional videos that demonstrate how to use the spreadsheet models and excerpts from the author's blog, which are used to depict additional examples of the analysis process. Along the way, it skillfully outlines an effective approach to creating and interpreting outputs typically associated with a top-down money management shop — including a macroeconomic forecasting newsletter, detailed stock research reports, and a portfolio performance attribution analysis. Covers topics including active and passive money management, fundamental analysis and portfolio attribution analysis Companion streaming videos show how to use free online data to create your own analyses of key economic indicators, individual stocks, and stock portfolios A valuable resource for universities who have applied equity analysis and portfolio management courses Practical and up-to-date, the book is an excellent resource for those with a need for practical investment expertise.

A less-expensive grayscale paperback version is available. Search for ISBN 9781680923018. Business Law I Essentials is a brief introductory textbook designed to meet the scope and sequence requirements of courses on Business Law or the Legal Environment of Business. The concepts are presented in a streamlined manner, and cover the key concepts necessary to establish a strong foundation in the subject. The textbook follows a traditional approach to the study of business law. Each chapter contains learning objectives, explanatory narrative and concepts, references for further reading, and end-of-chapter questions. Business Law I Essentials may need to be supplemented with additional content, cases, or related materials, and is offered as a foundational resource that focuses on the baseline concepts, issues, and approaches.

Accounting is essential, and easy to learn. At its most basic, it's simply the grammar of business, giving structure to the way financial information is recorded. It is also the language of finance, providing the vocabulary that you need to work effectively in the business world. The fact is, if you want to manage successfully and really master the art of business, you have to understand financial statements--those documents that summarize the financial results of your business. Accounting Simplified: A Self-Study Guide will help you accomplish this goal easily and quickly. If you are: An investor considering whether to buy, sell or hold securities; A lender evaluating loan requests; A supplier deciding whether to extend credit; A manager trying to determine how to run your business better; you will immediately benefit from this straightforward, no-nonsense book. Using this simple self-study guide, you'll quickly learn how to: Work comfortably with income statements and balance sheets by understanding revenues and expenses; assets, liabilities, and owners equity; Analyse and record transactions and determine how they relate to the financial statements; Close the books in preparation for a new year; Recognize income whether on an accrual basis or a cash basis, and what the difference is; Understand and record prepaid expenses, inventories, and long-lived assets; And much more. Filled with examples and practice exercises you can do at your own pace, in your own time, this practical "how-to" book will lead you to a higher level of business expertise and give you renewed confidence in your daily business tasks.
