Why does society have difficulty discussing sexualities? Where does fear of Black sexualities emerge and how is it manifested? How can varied experiences of Black females and males who are lesbian, gay, bisexual, transgender (LGBT), or straight help inform dialogue and academic inquiry? From questioning forces that have constrained sexual choices to examining how Blacks have forged healthy sexual identities in an oppressive environment, *Black Sexualities* acknowledges the diversity of the Black experience and the shared legacy of racism. Contributors seek resolution to Blacks' understanding of their lives as sexual beings through stories of empowerment, healing, self-awareness, victories, and other historic and contemporary life-course panoramas and provide practical information to foster more culturally relative research, tolerance, and acceptance.

metropolis, Richard Rothstein's *The Color of Law* offers "the most forceful argument ever published on how federal, state, and local governments gave rise to and reinforced neighborhood segregation" (William Julius Wilson). Exploding the myth of de facto segregation arising from private prejudice or the unintended consequences of economic forces, Rothstein describes how the American government systematically imposed residential segregation: with undisguised racial zoning; public housing that purposefully segregated previously mixed communities; subsidies for builders to create whites-only suburbs; tax exemptions for institutions that enforced segregation; and support for violent resistance to African Americans in white neighborhoods. A groundbreaking, "virtually indispensable" study that has already transformed our understanding of twentieth-century urban history (Chicago Daily Observer), *The Color of Law* forces us to face the obligation to remedy our unconstitutional past.

A Companion to African American History is a collection of original and authoritative essays arranged thematically and topically, covering a wide range of subjects from the seventeenth century to the present day. While over the past decade a number of scholars have done significant work on questions of black lesbian, gay, bisexual, and transgendered identities, this volume is the first to collect this groundbreaking work and make black queer studies visible as a developing field of study in the United States. Bringing together essays by established and emergent scholars, this collection assesses the strengths and weaknesses of prior work on race and sexuality and highlights the theoretical and political issues at stake in the nascent field of black queer studies. Including work by scholars based in English, film studies, black studies,

sociology, history, political science, legal studies, cultural studies, and performance studies, the volume showcases the broadly interdisciplinary nature of the black queer studies project. The contributors consider representations of the black queer body, black queer literature, the pedagogical implications of black queer studies, and the ways that gender and sexuality have been glossed over in black studies and race and class marginalized in queer studies. Whether exploring the closet as a racially loaded metaphor, arguing for the inclusion of diaspora studies in black queer studies, considering how the black lesbian voice that was so expressive in the 1970s and 1980s is all but inaudible today, or investigating how the social sciences have solidified racial and sexual exclusionary practices, these insightful essays signal an important and necessary expansion of queer studies. burgeoning feminist movement with never-before-published writings from the Black Panther Party archives and Newton's private collection, including articles on President Nixon, prison martyr George Jackson, Pan-Africanism, affirmative action, and the author's only written account of his political exile in Cuba in the mid-1970s. Eldridge Cleaver, Bobby Seale, Angela Davis, Mumia Abu-Jamal, and Geronimo Pratt all came to international prominence through Newton's groundbreaking political activism. Additionally, Newton served as the Party's chief intellectual engine, conversing with world leaders such as Yasser Arafat, Chinese Premier Chou Enlai, and Mozambique President Samora Moises Machel among others.

Even in 1960s Detroit, race isn't everything. Tom Daniels and "Cookie" Marsh will be the first to tell you that race isn't everything. But it did shape the way they experienced the world growing up in Detroit in the 1950s and 60s. Tom "Cookie" Marsh grew up in a black neighborhood on Detroit's west side. Tom Daniels grew up in a mixed, working-class neighborhood on Detroit's east side. Both men grew up in strict households where they "always got what we needed, and sometimes what we wanted" and both saw their city, their country, and their world transform around them through the Civil Rights movement, riots, and the Viet Nam War. But sometimes parallel lines intersect. As each man tells his story, it is apparent that race isn't just "black and white" but it is part of what makes their friendship extraordinary. Their experiences will show you that race made for huge differences in their experiences, while, in spite of race, there are also touching similarities that made it possible for two men, in their older years, to overcome decades of racial turbulence of their upbringing to become lifelong friends. Follow Tom and Cookie. Hear about their lives, their upbringing, their successes and regrets growing up in black and white Detroit - and how when it boils down to it, the things that are truly important are actually black and white, like you and me.

Why has the African American community remained silent about gender even as race has moved to the forefront of our nation's consciousness? In this important new book, two of the nation's leading African American intellectuals offer a resounding and far-reaching answer to a question that has been ignored for far too long. Hard-hitting and brilliant in its analysis of culture and sexual politics, *Gender Talk* asserts boldly that gender matters are critical to the Black community in the twenty-first century. In the Black community, rape, violence against women, and sexual harassment are as much the legacy of slavery as is racism. Johnnetta Betsch Cole and Beverly Guy-Sheftall argue powerfully that the only way to defeat this legacy is to focus on the intersection of race and gender. *Gender Talk* examines why the "race problem" has become so male-centered and how this has opened a deep divide between Black women and men. The authors turn to their own lives, offering intimate accounts of their experiences as daughters, wives, and leaders. They examine pivotal moments in African American history when race and gender issues collided with explosive results—from the struggle for women's suffrage in the nineteenth century to women's attempts to gain a voice in the Black Baptist movement and on into the 1960s, when the Civil Rights movement and the upsurge of Black Power transformed the Black community while sidelining women. Along the way, they present the testimonies of a large and influential group of Black women and men, including bell hooks, Faye Wattleton, Byllye Avery, Cornell West, Robin DG Kelley, Michael Eric Dyson, Marcia Gillispie, and Dorothy Height. into the present, Cole and Guy-Sheftall uncover the cultural assumptions and attitudes in hip-hop and rap, in the O.J. Simpson and Mike Tyson trials, in the Million Men and Million Women Marches, and in the battle over Clarence Thomas's appointment to the Supreme Court. Fearless and eye-opening, *Gender Talk* is required reading for anyone concerned with the future of African American women—and men.

In his own voice, the history of the civil right movement told by the black gay adviser to Martin Luther King, Jr. and the organizer of the 1963 March on Washington. Bayard Rustin, the famed openly-gay African American organizer, taught Martin Luther King, Jr. strategies of nonviolence during the Montgomery Bus Boycott, thereby launching the birth of the Civil Rights Movement. Widely acclaimed as a founding father of modern black protest, Rustin reached his pinnacle of notoriety in 1963 as organizer of the March on Washington. Long before the March on Washington and King's ascendance to international prominence, Rustin put his life on the line to challenge racial segregation. His open homosexuality, however, remained a point of contention among black church leaders, with controversy sometimes embroiling even King himself. *Time on Two Crosses* showcases the extraordinary career of this black gay civil rights pioneer. Spanning five decades, the book combines classic texts ranging in topic from Gandhi's impact on African Americans, white supremacists in Congress, the antiwar movement, and the assassination of Malcolm X, with never-before published selections on the call for gay rights, Louis Farrakhan, affirmative action, AIDS, and women's rights. Chronicles one hundred years of African-American homosexual literature, from the turn-of-the-century writings of Alice Dunbar Nelson, to the Harlem Renaissance of Langston Hughes, to the emerging sexual liberation movements of the

later postwar era as reflected by James Baldwin. Original.

- The first book to explore the theologies of lesbian, gay, bisexual, and transgender (LGBT) people of color
- Addresses issues of homophobia in communities of color, including ethnic churches, as well as racism in LGBT communities
- Pioneering work on the global and local intersections of race, sexuality, and religion

To date, no book has systematically examined the theological writings of LGBT people of color. Nor has any book explored how such writings might actually transform contemporary theological reflections on race and sexuality. This book remedies these gaps by constructing a rainbow theology around the theme of bridging or mediation. Rainbow Theology is the first book to reflect upon the theological significance of the intersections of race and queer sexuality across multiple ethnic and cultural groups. This is particularly important in light of the current polarizing debates over issues of race, sexuality, and religion within churches and communities of faith around the world.

Coney Island: the name still resonates with a sense of racy Brooklyn excitement, the echo of beach-front popular entertainment before World War I. Amusing the Million examines the historical context in which Coney Island made its reputation as an amusement park and shows how America's changing social and economic conditions formed the basis of a new mass culture. Exploring it afresh in this way, John Kasson shows Coney Island no longer as the object of nostalgia but as a harbinger of modernity--and the many photographs, lithographs, engravings, and other reproductions with which he amplifies his text support this lively thesis.

#1 NEW YORK TIMES BESTSELLER - OPRAH'S BOOK CLUB PICK - LONGLISTED FOR THE NATIONAL BOOK AWARD - "An instant American classic and almost certainly the keynote nonfiction book of the American century thus far."--Dwight Garner, The New York Times The Pulitzer Prize-winning, bestselling author of *The Warmth of Other Suns* examines the unspoken caste system that has shaped America and shows how our lives today are still defined by a hierarchy of human divisions. "As we go about our daily lives, caste is the wordless usher in a darkened theater, flashlight cast down in the aisles, guiding us to our assigned seats for a performance. The hierarchy of caste is not about feelings or morality. It is about power--which groups have it and which do not." In this brilliant book, Isabel Wilkerson gives us a masterful portrait of an unseen phenomenon in America as she explores, through an immersive, deeply researched narrative and stories about real people, how America today and throughout its history has been shaped by a hidden caste system, a rigid hierarchy of human rankings. Beyond race, class, or other factors, there is a powerful caste system that influences people's lives and behavior and the nation's fate. Linking the caste systems of America, India, and Nazi Germany, Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people--including Martin Luther King, Jr., baseball's Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others--she shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their out-cast of the Jews; she discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against; she writes about the surprising health costs of caste, in depression and life

expectancy, and the effects of this hierarchy on our culture and politics. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity. Beautifully written, original, and revealing, *Caste: The Origins of Our Discontents* is an eye-opening story of people and history, and a reexamination of what lies under the surface of ordinary lives and of American life today.

Citizen, have you seen the black and yellow menace? They may have already infiltrated your workplace, your school or EVEN YOUR HOME! I'm talking about wasps. WASPS OF THE MUTANT AND MAN-EATING VARIETY! They hate you, they hate me and they hate America. Has a wasp stung you or someone you love for no reason at all? Well that was probably just a regular wasp. They do that. Was the wasp THE SIZE OF A TRUCK at the time? Then you encountered a mutant wasp! Perhaps a coworker has recently called in sick with a case of BEING PARALYZED AND THEN EATEN ALIVE FROM THE INSIDE OUT BY WASP OFFSPRING. This may be a sign he chanced upon a mutant wasp! Be vigilant! If you see one, SPEAK UP! The Army is standing by, ready to kill on contact and keep on killing—even though this whole mutant wasp business was DEFINITELY AND TOTALLY NOT OUR FAULT. Together we can squish this threat.

Thus, sparking inspiration to pen this collection to urge people of African descent to remember the beauty and power of Black Love-that it is revolutionary and that it matters.

The essays in this book explore the role of Grace King's fiction in the movement of American literature from local color and realism to modernism and show that her work exposes a postbellum New Orleans that is fragmented socially, politically, and linguistically. In her introduction, Melissa Walker Heidari examines selections from King's journals and letters as views into her journey toward a modernist aesthetic—what King describes in one passage as "the continual voyage I made." Sirpa Salenius sees King's fiction as a challenge to dominant conceptualizations of womanhood and a reaction against female oppression and heteronormativity. In his analysis of "An Affair of the Heart," Ralph J. Poole highlights the rhetoric of excess that reveals a social satire debunking sexual and racial double standards. Ineke Bocking shows the modernist aspects of King's fiction through a stylistic analysis which explores spatial, temporal, biological, psychological, social, and racial liminalities. Françoise Buisson demonstrates that King's writing "is inspired by the Southern oral tradition but goes beyond it by taking on a theatrical dimension that can be quite modern and even experimental at times." Kathie Birat claims that it is important to underline King's relationship to realism, "for the metonymic functioning of space as a signifier for social relations is an important characteristic of the realist novel."

Stéphanie Durrans analyzes "The Story of a Day" as an incest narrative and focuses on King's development of a modernist aesthetics to serve her terrifying investigation into social ills as she probes the inner world of her silent character. Amy Doherty Mohr explores intersections between regionalism and modernism in public and silenced histories, as well as King's treatment of myth and mobility. Brigitte Zaugg examines in "The Little Convent Girl" King's presentation of the figure of the double and the issue of language as well as the narrative voice, which, she argues, "definitely inscribes the text, with its understatement, economy and quiet symbolism, in the modernist tradition." Miki Pfeffer closes the collection with an afterword in which she offers excerpts from King's letters as encouragement for "scholars to seek Grace King as a primary source," arguing that "Grace King's own words seem best able to dialogue with the critical readings herein." Each of these essays enables us to see King's place in the construction of modernity; each illuminates the "continual voyage" that King made.

GOLIATH'S HEAD tells of a search for courage and hope amidst crushing oppression. Avi Schneider is a Jewish boy growing up in Russia on the eve of early-twentieth-century revolution. He is nine years old when he meets his own personal devil, Viktor Askinov, a brutal youngster who relishes tormenting Jews. In the following years, Avi is the object of his tormentor's obsession. Fourteen years later in 1905 the Tsar instigates riots - pogroms - against the poor, teeming Jewish villages. Now a husband and father, Avi takes to the barricades to defend his village from the mob coming to kill the men, rape the women, and burn down his village. Armed, he again faces Viktor Askinov, who is leading the mob. But he has been warned that if he kills Viktor Askinov, he puts his beautiful young wife Sara and newborn son Itzhak

W.E.B. Du Bois said that "the problem of the twentieth century is the problem of the color-line." It has been one hundred years since Du Bois made that prescient statement, which naturally leads to the question: "What is the problem of the twenty-first century?" In this anthology, the authors address a wide range of topics: race, gender, class, sexual orientation, globalism, migration, health, politics, culture, and urban issues--from a diversity of disciplinary perspectives. Paul Attewell, David Lavin, Thurston Domina, and Tania Levey examine the black middle class at the turn of the millennium. Todd C. Shaw considers how race shapes patriotism in the wake of the September 11 attacks. Robert A. Brown focuses on the growing chasm between blacks and whites with regard to views of government's obligation to address citizens' basic needs. H. Alexander Welcome details instances where white scholars have improperly analyzed black experiences. Antonio Pastrana revisits Du Bois's theories about the problems facing blacks. Joy James shows that the United States possesses the means and wealth to record and preserve (or censor) its slave/penal discourse as part of its vast warehouse of (neo)slave narratives. Ajuan Maria Mance hypothesizes that African-American literature will become less consumed with exploration and documentation of interracial differences, and more concerned with the relationships within ethnic groups. Rosamond S. King explores literary embodiments of the increasing prevalence of interracial relationships. Anthony J. Lemelle and Barbara Scott present a comparative historical policy analysis of the HIV/AIDS experience among African Americans. Sandra Barnes examines sociological promises and problems of the contemporary black church. Juan Battle and Natalie Bennett

scrutinize the experiences of African American gays and lesbians in the context of the larger community. Verna Keith and Diane Brown assess the state of African American health in the context of social group structures. Anthony Lemelle is professor of sociology at the University of Wisconsin, Milwaukee and the editor of the Journal of African American Studies, published by Transaction.

This two-volume reference seeks to capture the ways in which the tenets and foundations of African American culture have given rise to today's society. Approaching the field from a "street level" perspective, these two volumes cover topics of universal interest in America: rap music, sports, television, cinema, racism, religion, literature, and much more. The Encyclopedia of African American Society is also the first comprehensive yet accessible reference set in this field to give voice to the turbulent historical trends—slavery, segregation, "separate but equal"—that are often ignored in favor of mere facts. This is a definitive, reliable, and accessible entry point to learning the basics about African American society.

Why hate Abercrombie? In a world rife with human cruelty and oppression, why waste your scorn on a popular clothing retailer? The rationale, Dwight A. McBride argues, lies in "the banality of evil," or the quiet way discriminatory hiring practices and racist ad campaigns seep into and reflect malevolent undertones in American culture. McBride maintains that issues of race and sexuality are often subtle and always messy, and his compelling new book does not offer simple answers. Instead, in a collection of essays about such diverse topics as biased marketing strategies, black gay media representations, the role of African American studies in higher education, gay personal ads, and pornography, he offers the evolving insights of one black gay male scholar.
