The primary skill needed by anyone who works in fashion is the ability to convey—to clients and the general public alike—images of the designs. The impression given to the viewer depends on whether the fashion design drawings are good. Contemporary Fashion Illustration Techniques thoroughly describes the basics of fashion illustration, and covers the latest trends such as vivid images, sprightly movement, and garment material texture. After all, fashion drawing is not simply about sketching a body and face; only when you accurately reproduce the garments and their colors can the designs truly come to life.

How a simple creative act spreads a message of love and acceptance around the world Emily's idea started small. Many beautiful ideas do. She folded, doodled, and snipped. But also, like many ideas, Emily's small idea grew. When a little girl decides to create a paper chain of dolls, her idea catches on. Then it spreads far and wide as children around the world begin to create and share their own. This is the story of how that girl's simple creative act spreads the message of love and acceptance around the world. For readers ages 4–8. Includes a make-your-own page to help you get started on your own paper doll chains.

With nostalgic glances to the past and visionary gazes into the future, Lynne Perrella and the contributing artists follow inspiration rather than tradition to present dolls that are charismatic, colorful and full of surprises. Technique related details are provided in each chapter's details dossier, where we are invited to go behind the scenes, into the artists studios. Take an up close and personal look to get the inside story on how the artists used paper and other exciting mediums to create their dolls. Artists include Nina Bagley, Lesley Riley, Judi Riesch, Lynn Whipple, Teesha Moore, Karen Michel, Jane Cather, Akira Blount, Laurel Hall and Maria Moya who explore the human form to create paper personas that are expressive, innovative and insightful.

A beautifully illustrated, wittily observed picture book about kindness, empathy and friendship from the award-winning Rebecca Cobb. Hello Friend! tells the story of one big-hearted and enthusiastic little girl who is insistent on making friends with a certain little boy. And why wouldn't he want to be friends with her? She's very good at sharing – even if it's a sandwich that he doesn't like. And she's certain that playing outside is their favourite thing to do, even if he is not so sure. But while he doesn't seem keen on many of the things that she loves to do, there is one thing he's very keen on after all . . . being friends. Also available from Rebecca Cobb: Lunchtime, Aunt Amelia and The Something.

"Born in Atlanta, Georgia, Emma Amos (1937-2020) was a distinguished painter and printmaker. She is best known for her bold and colorful mixed-media paintings that create visual tapestries in which she examines the intersection of race, class, gender and privilege in both the art world and society at large. This survey exhibition and catalogue, published and organized by the Georgia Museum of Art, include approximately 60 works from the beginnings of her career to the end of it, reflecting her experiences as a painter, printmaker, and weaver. Her large-scale canvases often incorporate African fabrics and semiautobiographical content, which are drawn from her personal odyssey as an artist, her interest in icons in art and world history and her sometimes tenuous engagement with these themes as a woman of color"-- Five Nights at Freddy's fans won't want to miss this awesome coloring book! This wonderful collection of handmade toys will delight children both young and old. The 25 projects, designed by expert craftsman Rob Merrett, take their inspiration from traditional playthings, including dolls, animals and more. Begin with Baby's First Soft Toy - delightful gifts for newborns designed in soft colours and gentle prints. Nursery Novelties is next, with easy patchwork and applique embellishments, followed by Activity Toys, where clever designs will stimulate young children's minds. Creature Comforts has adorable animals that are perfect for little ones in a range of pretty fabrics. Finally, Divine Dollies is packed with trendy, vintage-looking rag dolls that you will love to make. Rob also develops the concept of 'Kids Forever', where designs should appeal not just to children, but also to adults who will appreciate his stylish, retro approach. Each toy comes with clear, step-by-step text and beautiful photography and artworks that will guide even a novice stitcher, helping them to produce gorgeous gifts with a charming, handcrafted feel.

First released in the Spring of 1999, *How People Learn* has been expanded to show how the theories and insights from the original book can translate into actions and practice, now making a real connection between classroom activities and learning behavior. This edition includes far-reaching suggestions for research that could increase the impact that classroom teaching has on actual learning. Like the original edition, this book offers exciting new research about the mind and the brain that provides answers to a number of compelling questions. When do infants begin to learn? How do experts learn and how is this different from non-experts? What can teachers and schools do-with curricula, classroom settings, and teaching methods--to help children learn most effectively? New evidence from many branches of science has significantly added to our understanding of what it means to know, from the neural processes that occur during learning to the influence of culture on what people see and absorb. *How People Learn* examines these findings and their implications for what we teach, how we teach it, and how we assess what our children learn. The book uses exemplary teaching to illustrate how approaches based on what we now know result in in-depth learning. This new knowledge calls into question concepts and practices firmly entrenched in our current education system. Topics include: How learning actually changes the physical structure of the brain. How existing knowledge affects what people notice and how they learn. What the thought processes of experts tell us about how to teach. The amazing learning potential of infants. The relationship of classroom learning and everyday settings of community and workplace. Learning needs and opportunities for teachers. A realistic look at the role of technology in education.
