This book is the first of a series of How To Pass OSCP books and focus on techniques used in Windows Privilege Escalation. This is a step-by-step guide that walks you through the whole process of how to escalate privilege in Windows environment using many common techniques. We start by gathering as much information about the target as possible either manually or using automated scripts. Next, we search for misconfigured services or scheduled tasks, insufficient file permission on binaries or services, vulnerable kernel, vulnerable software running with high privileges, sensitive information stored on local files, credential saved in the memory, registry settings that always elevate privileges before executing a binary, hard-coded credential contained in the application configuration files, and many more. Table of Contents Introduction Section One: Windows Configuration Chapter 1: AlwaysInstallElevated Section Two: Domain Controller Chapter 2: Zerologon Section Three: Windows Service Chapter 3: Service - Insecure File Permission Chapter 4: Service - Unquoted Path Chapter 5: Service - Bin Path Chapter 6: Service - Registry Chapter 7: Service - DLL Hijacking Section Four: Scheduled Tasks Chapter 8: Scheduled Tasks Section Five: Windows Registry Chapter 9: Autorun Chapter 10: Startup Applications Section Six: Windows Kernel Chapter 11: Kernel - EternalBlue Chapter 12: Kernel - MS15-051 Chapter 13: Kernel - MS14-058 Section Seven: Potato Exploits Chapter 14: Juicy Potato Chapter 15: Rogue Potato Section Eight: Password Mining Chapter 16: Password Mining - Memory Chapter 17: Password Mining - Registry Chapter 18: Password Mining - SiteList Chapter 19: Password Mining - Unattended Chapter 20: Password Mining - Web.config Section Nine: UAC Bypass Chapter 21: User Account Control Bypass For more information, please visit <http://www.howtopassoscp.com/>.

This two-volume primary-source collection provides a broad range of voices and perspectives from our nation's past, while emphasizing the important social, political, and economic themes of most U.S. history survey courses. Edited by one of the authors of *The American Promise* and designed to complement the textbook, *Reading the American Past* offers a rich selection of over 125 documents and editorial apparatus to aid students' understanding of the sources.

Addressing the transnational relationships of Freemasonry, politics, and culture in the field of Latin American and Caribbean literatures and cultures, *Writing Secrecy* provides insight into Pan-Caribbean, transnational and diasporic formations of these Masonic lodges and their influences on political and cultural discourses in the Americas.

Newnes Electrical Pocket Book is the ideal daily reference source for electrical engineers, electricians and students. First published in 1932 this classic has been fully updated in line with the latest technical developments, regulations and industry best practice. Providing both in-depth knowledge and a broad overview of the field this pocket book is an invaluable tool of the trade. A handy source of essential information and data on the practice and principles of electrical engineering and installation. The 23rd edition has been updated by engineering author and consultant electrical engineer, Martin Heathcote. Major revisions have been made to the sections on semiconductors, power generation, transformers, building automation systems, electric vehicles, electrical equipment for use in hazardous areas, and electrical installation (reflecting the changes introduced to the IEE Wiring Regulations BS7671: 2001).

The innovative program described in this book revolutionizes the the treatment of sexual dysfunction. During eleven years of daily clinical work, more than five hundred couples have been treated at Masters and Johnson's Reproductive Biology Research Foundation in St. Louis. Here the relationship itself is the patient. The authors stress that there is no uninvolved partner when sex is a problem. Therefore they treat the partners even if only one appears to be sexually dysfunctional. And their therapy techniques have proven successful in 80 percent of all cases treated. The key to this unprecedented record is the role of the dual therapy team. Masters and Johnson have found that it takes both a man and a woman therapist to treat a couple effectively. The dual therapy team acts as a catalyst, encouraging communication between partners when none has existed before. They use psychological and psychological methods of treating impotence, ejaculatory incompetence, premature ejaculation, orgasmic dysfunction in women, vaginismus, and painful intercourse. Basic to all treatment techniques is the premise that attitudes and ignorance rather than any mental or physical illness are responsible for most sexual problems. The two-week rapid therapy program developed by Masters and Johnson includes both counseling and specific instructions for patients to follow in privacy. All results of success or failure reported in *Human Sexual Inadequacy* Are substantiated by a unique five-year patient follow up program. The concept and format of the therapy program are examined in detail in the first two chapters of the book. Included are discussions of the qualifications for co-therapists and accounts of history-taking techniques and round table talks held by the co-therapists and the couple. A full description follows of the instructions given by the therapists to effect psychosexual reorientation of the marital problems. Analysis of each type of dysfunction, its progression and manifestations, accompanies the important step-by-step explanation of practical treatment methods. Chapters on sexual function and dysfunction of the geriatric population explain how the aging male and female can function sexually even in their eighties if they learn to adjust their sexual activities to the natural changes of aging. Program statistics and a critical review of treatment failures conclude this landmark book. Masters and Johnson estimate that one-half of the marriages in the United States are threatened by sexual dysfunction. The therapy program described in *HUMAN SEXUAL INADEQUACY* introduces a new era in the effective treatment of these sexual difficulties that prevent the enjoyment of a full sex life and a happy marriage. The exceptionally clear account of their major breakthrough in therapy is a long-needed and invaluable guide to clinical counseling and treatment. In addition, it provides an excellent basis for training programs for professional therapists. *HUMAN SEXUAL INADEQUACY* is essential reading for all health professionals and introduces a new era in the effective treatment of sexual dysfunction.

The grasses and legumes grown in pastures and rangelands form the basis of the worldwide animal production industry. Some species also have a significant role in the sport and leisure industry, for playing surfaces such as golf courses and football fields. It is therefore vitally important to ensure that seed supplies of appropriate species are available for use on a commercial scale. This book is published in association with the International Herbage Seed Production Research Group. It brings together leading researchers and along with its companion volume *Forage Seed Production Volume 2: Tropical and Subtropical Species*, provides the definitive resource for all those concerned with breeding and profitable seed production for grasses and legumes used within grazing systems or recreation and amenity provision. The book is in two parts. Part One covers all aspects relevant to seed production, including improving seed yield and quality, crop management, harvesting, processing and the international seed trade. Part Two consists of 11 case studies from eight countries, covering three continents. This book and its companion should be read

by all seed scientists involved in the breeding and commercial production of grass and legume seed. They also represent a valuable asset for all commercial seed suppliers. Additionally, the information presented within the book is important for all students and lecturers within departments of agriculture and plant breeding.

In this quietly powerful and eminently readable novel, winner of the prestigious Sinclair Prize, Kenyan writer Marjorie Macgoye deftly interweaves the story of one young woman's tumultuous coming of age with the history of a nation emerging from colonialism. At the age of sixteen, Paulina leaves her small village in western Kenya to join her new husband, Martin, in the bustling city of Nairobi. It is 1956, and Kenya is in the final days of the "Emergency," as the British seek to suppress violent anti-colonial revolts. But Paulina knows little about, about city life, or about marriage, and Martin's clumsy attempts to control her soon lead to a relationship filled with silences, misunderstandings, and unfulfilled expectations. Soon Paulina's inability to bear a child effectively banishes her from the confines of traditional women's roles. As her country at last moves toward independence, Paulina manages to achieve a kind of independence as well: She accepts a job that will require her to live separately from her husband, and she has an affair that leads to the birth of her first child. But Paulina's hard-won contentment will be shattered when Kenya's turbulent history intrudes into her private life, bringing with it tragedy—and a new test of her quiet courage and determination. Paulina's patient struggles for survival and identity are revealed through Marjorie Macgoye's keen and sensitive vision—a vision which extends to embrace the whole of a nation and a people likewise struggling to find their way. As the *Weekly Standard of Kenya* notes, "Coming to Birth is a radical novel in firmly asserting our common humanity."

"Organized chapter by chapter to parallel *The American promise: a history of the United States* in all its editions"--v. 1, p. iii.

An award-winning teacher, accomplished researcher, and experienced therapist, Ron Comer knows how to communicate the complexities of the abnormal psychology, to speak to the concerns of students, and to portray the real human impact of psychological disorders. With its signature integrated coverage of theory, diagnosis, and treatment, and remarkably inclusive cross-cultural perspective, this new edition of Comer's widely adopted textbook shows students where the study and treatment of psychological disorders stand today.

War related separations challenge military families in many ways. The worry and uncertainty associated with absent family members exacerbates the challenges of personal, social, and economic resources on the home front. U.S. military operations in Iraq and Afghanistan have sent a million service personnel from the U.S. alone into conflict areas leaving millions of spouses, children and others in stressful circumstances. This is not a new situation for military families, but it has taken a toll of magnified proportions in recent times. In addition, medical advances have prolonged the life of those who might have died of injuries. As a result, more families are caring for those who have experienced amputation, traumatic brain injury, and profound psychological wounds. The Department of Defence has launched unprecedented efforts to support service members and families before, during, and after deployment in all locations of the country as well as in remote locations. *Stress in U.S. Military Families* brings together an interdisciplinary group of experts from the military to the medical to examine the issues of this critical problem. Its goal is to review the factors that contribute to stress in military families and to point toward strategies and policies that can help. Covering the major topics of parenting, marital functioning, and the stress of medical care, and including a special chapter on single service members, it serves as a comprehensive guide for those who will intervene in these problems and for those undertaking their research.

Virtually every action, message, and decision of a military force shapes the opinions of an indigenous population: strategic communication, treatment of civilians at vehicle checkpoints, and the accuracy or inaccuracy of aerial bombardment. Themes of U.S. goodwill mean little if its actions convey otherwise. Consequently, a unified message in both word and deed is fundamental to

success. Business marketing practices provide a useful framework for improving U.S. military efforts to shape the attitudes and behaviors of local populations in a theater of operations as well as those of a broader, international audience. Enlisting Madison Avenue extracts lessons from these business practices and adapts them to U.S. military efforts, developing a unique approach to shaping that has the potential to improve military-civilian relations, the accuracy of media coverage of operations, communication of U.S. and coalition objectives, and the reputation of U.S. forces in theater and internationally. Foremost among these lessons are the concepts of branding, customer satisfaction, and segmentation of the target audience, all of which serve to maximize the impact and improve the outcome of U.S. shaping efforts.

This classic work, first published in 1675, inaugurated the movement in Germany called Pietism. In it a young pastor, born and raised during the devastating Thirty Years War, voiced a plea for reform of the church which made the author and his proposals famous. A lifelong friend of the philosopher Leibnitz, Spener was an important influence in the life of the next leader of German Pietism, August Herman Francke. He was also a sponsor at the baptism of Nicholas Zinzendorf, founder of the Moravian Church, whose members played a crucial role in the life of John Wesley.

It contains new research on everything from genetics to the timing of puberty, including brain development, life span disorders and cultural diversity.

In an open cart Elspeth Huxley set off with her parents to travel to Thika in Kenya. As pioneering settlers, they built a house of grass, ate off a damask cloth spread over packing cases, and discovered—the hard way—the world of the African. With an extraordinary gift for detail and a keen sense of humor, Huxley recalls her childhood on the small farm at a time when Europeans waged their fortunes on a land that was as harsh as it was beautiful. For a young girl, it was a time of adventure and freedom, and Huxley paints an unforgettable portrait of growing up among the Masai and Kikuyu people, discovering both the beauty and the terrors of the jungle, and enduring the rugged realities of the pioneer life.

The Other Woman comprises a collection of stories in which Grace Ogot explores themes of social, cultural and spiritual importance. She uses adroit imagery to unveil some of the evils which bedevil modern society, such as brutal violence, lust for power and wealth, and family turmoil. Her grasp of social and the cultural conflict in her society is most vivid in these trenchant writings.

This book describes the potential and challenges of cosmopolitanism from a philosophical and historical point of view. Through the prism of cosmopolitanism, this book considers how the recent surge in migration is affecting our current reality, while also taking stock of the contemporary potential of cosmopolitan ideas. It considers and compares the significance of religion and culture for the wider societal acceptance or rejection of refugees. Moreover, the book examines the European Court of Human Rights jurisprudence on immigration policies, non-refoulement, humanitarian law and gender. It presents empirically based research of a quantitative, qualitative and comparative nature regarding the determinants of attitudes towards cosmopolitanism and more generally concerning public opinion on migration issues, and reflects on conceptions of and attitudes towards citizenship, while also imagining new forms of citizenship. This book serves as a comprehensive overview and resource for migration scholars from the social sciences and the humanities, as well as students and other stakeholders in the fields of migration and human rights.

The question in the title of this book draws attention to the shortcomings of a concept that has become a political tool of global importance even as the scientific basis for its use grows weaker. The concept of desertification, it can be argued, has ceased to be analytically useful and distorts our understanding of social-environmental systems and their resiliency, particularly in poor countries with variable rainfall and persistent poverty. For better policy and governance, we need to reconsider the scientific justification for international attempts to combat desertification. Our exploration of these issues begins in the Sahel of West Africa, where a series of severe droughts at the end of the 20th century led to the global institutionalization of the idea of desertification. It now seems incontrovertible that these droughts were not caused primarily by local land use mismanagement, effectively terminating a long-standing policy and scientific debate. There is now an opportunity to treat this episode as an object lesson in the relationship between science, the formation of public opinion and international policy-making. Looking beyond the Sahel, the chapters in this book provide case studies from around the world that examine the use and relevance of the desertification concept. Despite an increasingly sophisticated understanding of dryland environments and societies, the uses now being made of the desertification concept in parts of Asia exhibit many of the shortcomings of earlier work done in Africa. It took scientists more than three decades to transform a perceived desertification crisis in the Sahel into a non-event. This book is an effort to critically examine that experience and accelerate the learning process in other parts of the world.

The Many Faces of Global Migration report is an introduction to what Gallup has unearthed by asking migrants and potential migrants worldwide about their lives. The data presented in this report are based on Gallup's ongoing World Poll surveys in more than 150 countries, territories and regions and more than 750,000 interviews since 2005. As such, these findings provide an unprecedented look at the different push-and-pull factors that influence migration, the experiences of those who desire to migrate to other countries permanently or temporarily for work, those who are planning to go, those who are preparing to go, those who have already left, and those who have returned home – and what this means for governments, intergovernmental and non-governmental organizations, and other stakeholders.
