As a result, the average person believes that success is hard to obtain and that those who do achieve it are either lucky or extremely brilliant. Most people are so busy attempting to make ends meet that they never take the time to really study the highly successful people. Every person who has made such a study has arrived at the same shocking conclusion: success is merely a decision. You must decide what you want and then begin moving toward it. You decide where you are, and you begin with whatever you have. That's it. "The only limits in our life are those that we impose on ourselves." - BOB PROCTOR

DO YOU REALLY WANT TO CHANGE YOUR LIFE? Mindset Revolution is a book/course on mental reprogramming that explains step by step how to achieve success in life and achieve happiness. Written in a simple way and with many real-life examples, it gives you all the tools you need to understand how your life is completely in your hands and that nothing is really impossible. You have probably already heard of the Law of Attraction or the theory of Positive Thinking but it is not easy to fully understand what great authors like Bob Proctor, Maxwell Maltz or Wallace Wattles (to name a few of the greatest) want to convey to us. All of us are fundamentally lazy and opportunistic people and therefore we tend to receive messages in the form that is most comfortable and apparently less tiring for us. Therefore, it happens that those who have tried to embark on a path of personal growth have only achieved the opposite effect to the one desired: failure, which is nothing but the confirmation of what they unconsciously thought they were achieving. The truth is that they failed only because they did not understand how to act and why to act in that particular way. In order to be able to change life you need to know three concepts that are decisive in order to act correctly and that are at the basis of the whole process: Know what your mind is like Know how your mind works Know how to change your subconscious The Law of Attraction is a principle that regulates the cause-effect relationship between thoughts and results. Through a change in your habits and consequently in your actions, you can achieve any goal in life. It always works and if your thoughts are negative, then so will your results. You have understood correctly: in order to achieve different results you have to change your thoughts. But what thoughts? You have to replace the thoughts that are embedded in your subconscious, thoughts that have been formed since your childhood and that limit you every day life. Nothing can change if you do not act directly on your beliefs, if you do not act on your subconscious. The subconscious is your autopilot, it is what guides you throughout the day. You can rationally imagine yourself being rich, but your subconscious will always bring you back to

When we look at people who have achieved great things, we often believe that they are more talented than the rest of us, or luckier, or more well-connected. But the only thing that separates the successful from everybody else is that they have learned how to bridge the gap between setting goals and achieving them. They have developed ways of behaving and -- more importantly -- ways of "thinking" that enable them to get what they want. The good news is, it's possible for anyone to learn these techniques. As a parent or teacher you can sharpen your own skills . . . then pass them along to the teens in your lives. Imagine implementing the concepts that "Secret teachers" and others are using to motivate thousands of adults and teens worldwide. Imagine improved relationships, increased self-esteem, and a direct path to your dreams. Imagine working with your children or students to help them get better grades, improve their results in sports, and pave a clear path to a brilliant future. Instead of imagining, start right now!

Life According to Me is a project of love in which I have been able to reflect on my life, both the mistakes and the triumphs. I want to share with you my life lessons and tell you that without a doubt, there is always hope. There are times you can't see clearly because you are stuck in a painful moment, one that clouds your judgment and keeps you trapped in sadness and uncertainty. Little did she know the adventure she was about to embark upon as a young woman, inspired by a mysterious man who called himself Savy. Page by page, Sophie discovers more and more about who she truly is, unmasking the illusion of her false identity and limitations, paving her road to endless love, abundance and a life beyond her wildest dreams. Reviews: "Pay attention to him and his material, you will be glad you did." Bob Proctor, best-selling author and star of The Secret. Description: It's vitally important that you read books. As Mark Twain wrote, "The man who does not read good books has no advantage over the man who cannot read them." And many would agree that "personal development" books are the ones to focus on if you're trying to improve yourself, your position in life and your quality of life. But which ones should you read? There are tens of thousands to choose from. Vic Johnson, a veteran personal development author, speaker and trainer, answers that question for us in "Self Help Books: The 101 Best Personal Development Classics." From an 1,100 page "encyclopedia of success" to a 28-page speech that became a classic more than a hundred years ago, Vic identifies the publication dates of the classics, the major theme(s) of the book and then some solid reasons to add them to your reading list. Along the way he also shares valuable anecdotes on his personal lessons learned from these authors (some of whom have mentored him). This is quick and easy reading that takes the guesswork out of choosing the books to add to your library as well as helping you prioritize your reading.

I wrote this book because I know for certain we are all much more powerful than we have ever imagined or allowed ourselves to be up until now. It is my sincere wish that this will help you or someone you love find peace, courage, inspiration and encouragement to walk the path laid out before you. You will find facts mixed with humor and compassion as you walk my journey with me. I am here to help you find your own courage, your own power, your own unwavering belief in your ability to heal, to grow and to be a shining light.

How can we change our thoughts so that the result of every thought--the offspring of thought--sets us up to win rather than lose? Bob Proctor and Greg S. Reid, authorized by the Napoleon Hill Foundation, delve deeply into the science and psychology of thought, and how thinking is vitally important to a meaningful, successful life. In their interviews with neuroscientists, cardiologists, spiritual teachers, and business leaders, the authors show in Thoughts Are Things how we can think to live!

The cigarette is the deadliest artifact in the history of human civilization. It is also one of the most beguiling, thanks to more than a century of manipulation at the hands of tobacco industry chemists. In Golden Holocaust, Robert N. Proctor draws on reams of formerly-secret industry documents to explore how the cigarette came to be the most widely-used drug on the planet, with six trillion sticks sold per year. He paints a harrowing picture of tobacco manufacturers conspiring to block the recognition of tobacco-cancer hazards, even as they ensnare legions of scientists and politicians in a web of denial. Proctor tells heretofore untold stories of fraud and subterfuge, and he makes the strongest case to date for a simple yet ambitious remedy: a ban on the manufacture and sale of cigarettes.

The valuable lesson contained in this book is that the best way to attract prosperity is to abandon the pursuit of wealth and allow it to flow toward oneself. The ancient laws of attraction are explained in plain language and applied in an economic framework—a new perspective not found in other popular explications of these principles. A path to prosperity is offered in tandem with guidance for achieving harmony in both professional and personal spheres while strategies to overcome destructive thinking patterns and to sustain the flow of wealth while channeling it constructively are delineated. Profiles of individuals who pursued their passion rather than profit, and subsequently reaped immense rewards, will inspire those seeking to transform their lives.

From the creator of the philosophy foster children are fabulous champions, author and previous foster child herself, Capri Cruz, shows us how to overcome childhood trauma by implementing the effective healing strategies she's used throughout her life of turmoil, which ultimately catapulted her voyage From Foster Care to Fabulous. As an authority in the psychology of emotional healing, she presents techniques to initiate profound subconscious and spiritual transformation, which include perception realignment, inner-mind awakening, and the art of surrendering. Although designed with the foster child in mind, this book is a must read for all as it addresses two fundamental threads encompassing humanity: the human experience and the interpretation of that experience. The effects of negative childhood experiences often linger with lasting toxicity, which confines the mind to constricted and often unforgiving ideals birthed thereafter. Capri shows us that no longer has to be true! Its time to let the inner healing begin as she peels back the layers to reveal secrets for reprocessing damaging experiences. The simplicity of it is astonishing. By disassembling damaging experiences from childhood abuse to adulthood divorce, then analyzing them through the lens of wisdom revealed within these pages, and reconstructing subsequent perceptions, dynamic change in the trajectory of your life will be imminent. Tie this in with knowledge of deliberate creation and the master piece called your future becomes limitless as pain gets transformed to freedom! Time waits for no one! The sand in the hour glass of life continues to slip away, whether we are mindful of it or not. Thus, let urgency lead the way as you journey into her world for a fresh look at what IS possible. I assure you, the quality of your life depends on it! The healing work within is the seed for the guaranteed reward without.

Personal and professional coaching, which has emerged as a powerful career in the last several years, has shifted the paradigm of how people who seek help with life transitions find a "helper" to partner with them in designing their desired future. No matter what kind of sub-specialty a coach might have, life coaching is the basic operating system: a whole-person, client-centered approach. Here, Pat Williams, who has been a leader in the life coaching movement, has co-authored another essential book for therapists working as coaches. Becoming a Professional Life Coach draws on the wisdom of years of collective experience that have gone into designing the curriculum for the Institute for Life Coach Training. This curriculum has trained therapists and psychologists around the world to add coaching to their current businesses. This book presents the essential elements of life coach training program in a content-rich form that is equivalent to a graduate-level education in the field.

From humble beginnings to celebrated entrepreneur and successful business coach, William Todd is one of the few to be personally mentored by one of the masters of personal and business development, Bob Proctor. The Mentor in Me chronicles a journey many of us can relate to -- been given the tools and guidance to achieve success and then only sometimes following through on the wisdom offered. The book documents the time when William used The Seven Levels of Awareness to unlock doors and change paradigms and the times when, to his detriment, he failed to make the most of opportunities presented. Until he understood why he was not achieving long-lasting success, he was doomed to failure. The Mentor in Me offers a rare opportunity to watch as Bob Proctor mentors William through the peaks and valleys (ditches) of entrepreneurship towards a life of seemingly effortless abundance. The Mentor in Me is not just for entrepreneurs, however. It is for corporate professionals, students, parents and grandparents, educators, and budding entrepreneurs alike. "The Mentor in Me is not a book you pick up and read. It's a book you form a relationship with and you will want to study it daily for the rest of your life." -- Bob Proctor

An accessible guide to the principles of success by one of the most respected and sought-after motivational speakers of our time. In the tradition of Og Mandino and Zig Ziglar, this inspirational guide uses a wide variety of subjects, from “Achievement” to “Worry,” to bring clarity, information, and motivation to readers. For millions of readers, Bob Proctor’s name is synonymous with success. A former protégé of personal development pioneer Earl Nightingale, Proctor first built a wildly successful business career, and then an internationally successful speaking career, elaborating on the principles of Napoleon Hill’s Think and Grow Rich and other classic success and prosperity texts. Proctor’s position in the business motivation community equals that of Stephen Covey or Og Mandino. But as is not the case with those masters, his books have never been available to the general public—until now! In *The ABCs of Success*—the first trade book ever published by this master of motivation and prosperity—Proctor goes beyond the simple laws of success and attraction, weighing in on sixty-seven different topics essential to all those who wish to make their dreams a reality, including persistence, winning, effectiveness, and vision. "[Hisham's] pragmatic wisdom will take you from where you are now to a higher level of excellence, which could have you experiencing greater fulfillment in all areas of your life. A must-read!" NPeggy McColl, "New York Times-"bestselling author of "Your Destiny Switch."

Science has defined a variety of natural laws that explain the physical world and how it changes. One such law states that for every action there is a reaction, and that for every motion there is corresponding counter-motion. Whether it’s visible to the human eye or not, one thing is certain – movement and change will occur as a result. Having studied these principles, author Raymond Holliwell not only understood the universal physical applications, he also understood the spiritual and mental applications as well. By using this law on a spiritual and mental level, Holliwell found that a specific thought could create a desired reaction in his personal and professional life through continual and dedicated practice. As he came to realize the expanded potential of this powerful law, he eventually recognized the ultimate source of the dramatic results – God.

When a career-ending injury left elite athlete and professional football player Lewis Howes out of work and living on his sister’s couch, he decided he needed to make a change for the better. He started by reaching out to people he admired, searching for mentors, and applying his past coaches’ advice from sports to life off the field. Lewis did more than bounce back: He built a multimillion-dollar online business and is now a sought-after business coach, speaker, and podcast host. In *The School of Greatness*, Howes shares the essential tips and habits he gathered in interviewing “the greats” on his wildly popular podcast of the same name. In discussion with people like Olympic gold medalist Shawn Johnson and Pencils of Promise CEO Adam Braun, Howes figured out that greatness is unearthed and cultivated from within. The masters of greatness are not successful because they got lucky or are innately more talented, but because they applied specific habits and tools to embrace and overcome adversity in their lives. A framework for personal development, *The School of Greatness* gives you the tools, knowledge, and actionable resources you need to reach your potential. Howes anchors each chapter with a specific lesson he culled from his greatness “professors” and his own experiences to teach you how to create a vision, develop hustle, and use dedication, mindfulness, joy, and love to reach goals. His lessons and practical exercises prove that anyone is capable of achieving success and that we can all strive for greatness in our everyday lives.

You may think, with this book’s title, it’s about being calm and cool in the face of pressure. It’s actually quite the opposite and more literal. My body actually stopped sweating. This was one of a variety of unusual health issues I faced, partially or wholly brought on by stress. And I had to learn how to get my body to sweat again naturally as no pill or prescription was going to help me. My solution to this and other issues were going to come from within. With people becoming more aware about stress and its incredible health impacts, many of us have found that we can pay a hefty price if we ignore or don’t acknowledge it. And I believe it frequently goes undiagnosed in the medical community. This book is about my journey, one I think many of you can relate to. This is not about what I’ve overcome. It’s about what I’ve learned in the hope it can help others. In this book I will share you with my journey and the key lessons I’ve learned along the way.
