This collection provides a state-of-the-art survey of key issues and approaches in contemporary second language teaching.

Discover English(A Language Awareness WorkbookThe Complete Guide to the Theory and Practice of Materials Development for Language LearningJohn Wiley & Sons The Routledge Handbook of English Language Teaching is the definitive reference volume for postgraduate and advanced undergraduate students of Applied Linguistics, ELT/TESOL, and Language Teacher Education, and for ELT professionals engaged in in-service teacher development and/or undertaking academic study. Progressing from 'broader' contextual issues to a 'narrower' focus on classrooms and classroom discourse, the volume's inter-related themes focus on: ELT in the world: contexts and goals planning and organising ELT: curriculum, resources and settings methods and methodology: perspectives and practices second language learning and learners teaching language: knowledge, skills and pedagogy understanding the language classroom. The Handbook's 39 chapters are written by leading figures in ELT from around the world. Mindful of the diverse pedagogical, institutional and social contexts for ELT, they convincingly present the key issues, areas of debate and dispute, and likely future developments in ELT from an applied linguistics perspective. Throughout the volume, readers are encouraged to develop their

'Extremely comprehensive and well written in terms of style - accessible to the reader, but intelligent and expressing some fairly subtle concepts. Would that more ELT practitioners could do the same!... Certainly a good read for those thinking about and also those engaged in initial training - or even post initial training stage' - Jenny Pugsley, Head of TESOL, Trinity College London 'It's essential reading whether you are simply curious about what is involved in training in ELT, need advice on choosing the right course, have already enrolled and want to make the most of your course, or are a new teacher just starting out. It's a book I wish I'd had when I was starting out in my ELT career, and that I wish had been available to many of the course participants I have tutored' - Lyn Strutt, ELT author and Chair of the British Council Families Association Each year, thousands of people all over the world take one of the hundreds of available short pre-service courses that lead to the award of a certificate in English Language Teaching (ELT) or Teaching English to Speakers of Other Languages (TESOL). Caroline Brandt's book is an invaluable guide to anyone thinking of enrolling on one of these courses. With a clear and concise structure that follows your general interest in TESOL right through to the intricacies of the course itself, it can be used from initial research stages to final qualifications, and beyond.

Brandt's decades of experience in this field across the globe shine through. Chapters include: -introducing English Language Teaching -becoming qualified -knowing your certificate course -getting started -learning -working together -being qualified. Throughout the book there are snapshots of students' experiences in their own words, and summaries of key points for you to take with you - whether into the next stage of learning or the next day's teaching. The chapters are stand alone resources as well as the building blocks to becoming a fully-qualified English Language teacher. The book is supported by a companion website, which provides quizzes to test understanding of each chapter, lesson plan proformas, a full glossary and annotated website links.

This book connects SLA theory and practice in ways that are relevant and accessible to students, researchers and practitioners.

Materials Development in Language Teaching aims to help readers apply current theoretical principles and research findings to the practical realities of developing and exploiting classroom materials. The authors also suggest new ideas and directions in materials development, which readers can pursue for themselves. This book is accessible to readers with little previous experience in the field, and is essential reading for all those involved in developing materials for language teaching. In the second edition of this highly popular title, each chapter has been comprehensively revised and updated to take into account both recent research and the significant technological developments since the first

edition was published in 1998. Two new chapters have been added to assess the potential of electronic media for materials development. These chapters include an overview of the technologies available, as well as individual case studies and activities.

This book contains 40 tasks of two types: discussion tasks and classroom-based tasks.

A book that develops an understanding of practices at the very centre of language education - the classroom. It is written for postgraduate students in Applied Linguistics and Education, and practitioners, whether in TESOL or other language teaching. In Part 1 the author explores key concepts in unpacking the complexity of classroom life. In Part 2 existing research and practice are examined through a series of research case studies. Part 3 provides a template for research activity and suggestions for projects and methodologies, and Part 4 collects resources for readers keen to follow up the themes developed in the book.

Applies applied linguistic theories to the development of materials for language learning to add new depth to the field.

This book examines current research in materials development and discussing their implications for the learning and teaching of languages.

Language Awareness in the Classroom addresses the central educational question of the impact that explicit language knowledge has on learning and

language learning. A substantial Introduction defines the issues and key concepts and relates them to contemporary educational policy and practice in Europe and internationally. The papers are organised into four thematic sections: the extent and nature of language awareness in teacher education; school-based language awareness programmes; tertiary education initiatives and modes of evaluation of language awareness programmes.

*New Perspectives on Grammar Teaching in Second Language Classrooms* brings together various approaches to the contextualized teaching of grammar and communicative skills as integrated components of second language instruction. Its purpose is to show from both theoretical and practical perspectives that grammar teaching can be made productive and useful in ESL and EFL classrooms. In this text: \*First-rate scholars approach the teaching of grammar from multiple complementary perspectives, providing an original, comprehensive treatment of the topic. \*Discourse analysis and research data are used to address such pedagogical areas as grammatical and lexical development in speaking, listening, reading, and writing. \*The communicative perspective on ESL and EFL instruction that is presented provides ways for learners to enhance their production skills, whereas the meaning-based grammar instruction can supplement and strengthen current methodology

with a communicative focus. This volume is intended as a foundational text for second language grammar pedagogy courses at the advanced undergraduate and master's levels.

In a globalized society, effective communication is critical, and study of language from a mathematical perspective can shed light on new ways in which to express meaning across cultures and nations.

*Computational Linguistics: Concepts, Methodologies, Tools, and Applications* explores language by dissecting the phonemic aspects of various communication systems in order to identify similarities and pitfalls in the expression of meaning. With applications in a variety of areas, from psycholinguistics and cognitive science to computer science and artificial intelligence, this multivolume reference work will be of use to researchers, professionals, and educators on the cutting edge of language acquisition and communication science.

This supplementary ebook contains the 12 chapters from the first edition of Brian Tomlinson's comprehensive *Developing Materials for Language Teaching* on various aspects of materials development for language teaching that did not, for reasons of space, appear in the second edition.

This book offers a comprehensive perspective on metalinguistic knowledge and processes, and presents a coherent argument for building an element of language awareness into the language curriculum at all educational

levels. It offers a balanced perspective on first and second language acquisition, classroom talk, language use in the multicultural work place, translation, Esperanto, whole language, historical perspectives, critical pedagogy, the education of language teachers, the teaching of grammar, phonology, and writing.

Issues in Materials Development provides readers with theoretical foundations and practical aspects of designing materials for EFL/ESL contexts. It starts with discussing some basic and preliminary principles of materials design followed by scrutinizing critical issues in materials development in an objective and systematic way. This ranges from considering learners' needs, adopting, adapting, selection, and gradation of materials to the specific focus of the book on developing various types of materials for the four language skills, pronunciation, ESP vocabulary, and computer assisted language learning materials. Authenticity of materials to be designed and the inclusion of affective factors to develop motivating materials to engage language learners, in addition to features of materials design at a universal level are other areas to read about. This book finally tries to open new horizons and possible futuristic approaches to improve today's ELT materials.

This book brings together a number of high-profile exchanges on controversial issues between scholars of opposing positions reacting to each other in print. It engages the reader in a critical evaluation of the points at issue.

'Language Teacher Education' is an introduction to language teacher training and development for teachers and providers in pre-service and in-service programmes. The text outlines the main theories of human learning and applies them to teacher education. Based on a broadly social constructivist perspective, it suggests a framework for planning pre-service and in-service programmes, and is illustrated both with case

studies from a range of training situations around the world and appendices containing teacher education materials. Language Teacher Education is intended to inform readers' practical decisions and to help them build their own theories of teacher learning.

The Routledge International Handbook of Learning with Technology in Early Childhood focuses specifically on the most cutting-edge, innovative and international approaches in the study of children's use of and learning with digital technologies. This edited volume is a comprehensive survey of methods in children's technologies and contains a rich repertoire of studies from diverse fields and research, including both educational and developmental psychology, post-humanist literacy, applied linguistics, language and phenomenology and narrative approaches. For ease of reference, the Handbook's 28 chapters are divided into four thematic sections: introduction and opening reflections; studies answering ontological questions, which theorize how children take on original identities in becoming literate with technologies; studies answering epistemological questions, which focus on how children's knowledge and learning are (co)constructed with a diverse range of technologies; studies answering practice-related questions, which explore the resources and conditions that create the most powerful learning opportunities for children. Expertly edited, this interdisciplinary and international compendium is an ideal introduction to such a diverse, multi-faceted field.

The Routledge Handbook of Language Awareness is a comprehensive and informative overview of the broad field of language awareness. It contains a collection of state-of-the-art reviews of both established themes and new directions, authored and edited by experts in the field. The handbook is divided into three sections and reflects the engaging diversity of language awareness perspectives on language teaching

and teachers, language learning and learners, and extending to additional areas of importance that are less directly concerned with language instruction. In their introductory chapter, the editors provide valuable background to the language awareness field along with their summary of the chapters and issues covered. A helpful section giving further reading suggestions for each of the chapters is included at the end of the book. This volume is essential reading for graduate students and researchers working in the sphere of language awareness within applied linguistics, sociolinguistics and across the wider spectrum of language and communication.

This reference work deals with all aspects of language teaching and learning and offers a comprehensive range of articles on the subject and its history. Themes covered include: methods and materials; assessment and testing and related disciplines.

This book provides an accessible introduction to action research for teachers, by encouraging teachers to adopt a research attitude to their practice and development. It bridges the gap between theoretical and practical teacher training.

This versatile resource book contains a range of tasks suitable for many different in-service teacher education and development programmes. The materials are specifically designed to help teachers develop their skills, knowledge and attitudes so they can become more effective teachers. The book will be of particular interest to teacher trainers in countries which are undergoing educational reform, or where teacher training is being given special priority by the Government and Ministry of Education.

Includes bibliographical references and index.

An overview of form-focused instruction as an option for second language grammar teaching. It combines theoretical concerns, classroom practices, and teacher education.

There have been a number of books published on various aspects of materials development for language teaching but *Developing Materials for Language Teaching* is the only one which provides a comprehensive coverage of the main aspects and issues in the field. This second edition brings it completely up to date and expands on the original book. It deals with advances in IT and an increasingly globalized world. It is the only publication which views current developments in materials development through the eyes of developers and users of materials from all over the world. In doing so it applies principles to practice in ways demonstrated to facilitate the effectiveness of language learning materials. The chapters are written so that the book provides critical overviews of recent developments in materials development and at the same time acts as a stimulus for development and innovation in the field. It is intended both for use as a course book on postgraduate and teacher training courses and as a resource for the stimulus and refreshment of teachers, publishers and applied linguists in the field. The book contains updated versions of many of the chapters in the 2003 edition plus new chapters on corpus-informed materials development, materials development for blended learning, materials development for EAP, materials development for ESOL and materials development for young learners. This book uses an in-depth, phenomenological interview approach to explain the generational characteristics of today's Chinese university youths and the critical dispositions they believe indispensable in acquiring English as an academic language in and outside school settings. presenting the authentic voices of the recruited participants, the book clarifies how English for academic purposes (EAP), as an emerging global phenomenon and a research-informed practice, enables and empowers them for conscious self-transformation and critical awareness development through language study. The book also explores issues arising in the fields of general English language teaching as well as traditional and critical EAP, and discusses university English language learners' learning needs and rights. The book further promotes a dynamic and transformative University EAP pedagogy of particularity, practicality, and possibility moving from the oppression of language education to its liberation, and the increasing critical consciousness among the present and future university youths in a time of great social changes.

This volume explores the defining element in the work of language teacher educators: language itself. The book is in two parts. The first part holds up to scrutiny concepts of language that underlie much practice in language teacher education yet too frequently remain under-examined. These include language as social institution, language as verbal practice, language as reflexive practice, language as school subject and language as medium of language learning. The chapters in the second part are written by language teacher educators working in a range of institutional contexts and on a variety of types of program including both long and short courses, both pre-service and in-service courses, and teacher education practice focusing variously on metalinguistic awareness for teachers, language improvement, and classroom communication. The unifying factor is that collectively they illuminate how language teacher educators research their practice and reflect on underlying principles. The diversity of gap year opportunities on offer is such that it is only limited by your imagination or your ambition. Packed

Teacher Language Awareness (TLA) is an area of increasing interest to those involved in language teacher education. This book provides an introduction to the nature of TLA, assesses its impact upon teaching and its potential impact on learning. The book focuses specifically on grammar. It aims to encourage teachers and others involved in language education to think more deeply about the importance of TLA and to adopt a more principled approach to the planning of those parts of their programmes associated with it.

This two volume handbook provides a comprehensive examination of policy, practice, research and theory related to English Language Teaching in international contexts. More than 70 chapters highlight the research foundation for best practices, frameworks for policy decisions, and areas of consensus and controversy in second language acquisition and pedagogy. The Handbook provides a unique resource for policy makers, educational administrators, and researchers concerned with meeting the increasing demand for effective English language teaching. It offers a strongly socio-cultural view of language learning and teaching. It is comprehensive and global in perspective with a range of fresh new voices in English language teaching research.

Examines different conceptions of English as an international language, looking at world Englishes, native-speakers and 'standard' English. This book also covers the pedagogical implications of English as an international language; and

addresses key questions with regard to the teaching of English.

In this new edition there is a new chapter on teaching vocabulary, a section on discovery techniques, more on task-based learning and learner training, and a recognition of the change of perception about what communicative competence might be. Many of the categories of communicative activities have been rearranged and there is a more detailed account of teacher roles, together with a section on the use of the mother tongue. The sample lesson plan has been changed and the many examples from textbooks generally reflect the materials now in use rather than those which were current when the first edition came out.

This book contains a collection of more than 20 up-to-date overviews of a variety of aspects of language awareness and the role of metalinguistic knowledge in language development and education. The contributions offer a balanced perspective on a range of topics, including first and second language acquisition, classroom talk, language use in the multicultural work place, translation, Esperanto, whole language, historical perspectives from the UK and the Netherlands, critical pedagogy, the education of language teachers, the teaching of grammar, phonology and writing. The book offers a comprehensive perspective on metalinguistic knowledge and processes, and presents a coherent argument for building an element of language awareness into the language curriculum at all educational levels.
