For the past several years, people passionate about food have been making the trek to Woodstock, Vermont, to visit a unique Italian restaurant and bakery: Pane e Salute, which translates to 'bread and health'. Combining Italy for both rare and traditional recipes, husband and wife Caleb Barber and Deirdre Heekin have brought the flavours and styles of its distinctive regions to their restaurant.

In vignettes taken from their years in Italy, they offer glimpses of a young vibrant Italy: rolling out pizza dough in an ancient hill town at midnight while wild dogs bay in abandoned villages; fogged car windows of an Italian lovers' lane amidst the olive groves near the Villa Rucellai. The 80 recipes included are every bit as luscious as the memories they share throughout. In Italy, meals are planned in accordance with the seasons; the same is true of each mouth-watering recipe here, all of which are designed to take advantage of the freshest local ingredients. From a master of popular history, the lively, immersive story of the race to seize Berlin in the aftermath of World War II as it's never been told before **BERLIN'S FATE WAS SEALED AT THE 1945 YALTA CONFERENCE**: the city, along with the rest of Germany, was to be carved up among the victorious powers—the United States, Britain, France, and the Soviet Union. On paper, it seemed a pragmatic solution. In reality, once the four powers were no longer united by the common purpose of defeating Germany, they wasted little time reverting to their prewar hostility toward—and suspicion of—one another. The veneer of civility between the Western allies and the Soviets was to break down in spectacular fashion in Berlin. Rival systems, rival ideologies, and rival

personalities ensured that the German capital became an explosive battleground. The warring leaders who ran Berlin's four sectors were charismatic, mercurial men, and Giles Milton brings them all to rich and thrilling life here. We meet unforgettable individuals like America's explosive Frank "Howlin' Mad" Howley, a brusque sharp-tongued colonel with a relish for mischief and a loathing for all Russians. Appointed commandant of the city's American sector, Howley fought an intensely personal battle against his wily nemesis, General Alexander Kotikov, commandant of the Soviet sector. Kotikov oozed charm as he proposed vodka toasts at his alcohol-fueled parties, but Howley correctly suspected his Soviet rival was Stalin's agent, appointed to evict the Western allies from Berlin and ultimately from Germany as well. Throughout, *Checkmate in Berlin* recounts the first battle of the Cold War as we've never before seen it. An exhilarating tale of intense rivalry and raw power, it is above all a story of flawed individuals who were determined to win, and Milton does a masterful job of weaving between all the key players' motivations and thinking at every turn. A story of unprecedented human drama, it's one that had a profound, and often underestimated, shaping force on the modern world – one that's still felt today.

Vinny and Lisa have been together ten long years. She's waited so very patiently for him to complete law school and pass the bar. Winning his first case was the last piece of the puzzle, and now nothing can stand in the way of true love, except that between them they don't have two nickels to rub together, and Vinny is about as romantic as a box of frogs. In the course of building his practice, Vinny is reunited with Joe, his walking, talking embarrassment of a brother, Lisa's nudging parents, Ma and Augie, and his dear old friend Judge Henry Molloy, who refers him the mother of all capital murder cases. Theresa Cototi is young and pretty but far from innocent, and darn her luck ... her boyfriend has just been scraped off the pavement after taking a header from eight- stories up. You'd better believe she's going to trial, charged with murder one. Aided by Lisa and a ragtag team of misfits, Vinny defends his client against overwhelming odds. Our endearing neophyte attorney must match wits with a cunning DA and a formidable influence peddler, who appears to anticipate his every move. The definitive biography of America’s best-known and least-understood food personality, and the modern culinary landscape he shaped. In the first portrait of James Beard in twenty-five years, John Birdsall accomplishes what no prior telling of Beard’s life and work has done: He looks beyond the public image of the "Dean of American Cookery" to give voice to the gourmet’s complex, queer life and, in the process, illuminates the history of American food in the twentieth century. At a time when stuffy French restaurants and soulless Continental cuisine prevailed, Beard invented something strange and new: the notion of an American cuisine. Informed by previously overlooked correspondence, years of archival research, and a close reading of everything Beard wrote, this majestic biography traces the emergence of personality in American food while reckoning with the outwardly gregarious Beard’s own need for love and connection, arguing that Beard turned an unapologetic pursuit of pleasure into a new model for food authors and experts. Born in Portland, Oregon, in 1903, Beard would journey from the pristine Pacific Coast to New York’s Greenwich Village by way of gay undergrounds in London and Paris of the 1920s. The failed actor–turned–Manhattan canapé hawker–turned–author and cooking teacher was the jovial bachelor uncle presiding over America’s kitchens for nearly four decades. In the 1940s he hosted one of the first television cooking shows, and by flouting the rules of

publishing would end up crafting some of the most expressive cookbooks of the twentieth century, with recipes and stories that laid the groundwork for how we cook and eat today. In stirring, novelistic detail, *The Man Who Ate Too Much* brings to life a towering figure, a man who still represents the best in eating and yet has never been fully understood—until now. This is biography of the highest order, a book about the rise of America's food written by the celebrated writer who fills in Beard's life with the color and meaning earlier generations were afraid to examine.

Considered by many the greatest war novel of all time, *All Quiet on the Western Front* is Erich Maria Remarque's masterpiece of the German experience during World War I. I am young, I am twenty years old; yet I know nothing of life but despair, death, fear, and fatuous superficiality cast over an abyss of sorrow. . . .

This is the testament of Paul Bäumer, who enlists with his classmates in the German army during World War I. They become soldiers with youthful enthusiasm. But the world of duty, culture, and progress they had been taught breaks in pieces under the first bombardment in the trenches. Through years of vivid horror, Paul holds fast to a single vow: to fight against the principle of hate that meaninglessly pits young men of the same generation but different uniforms against one another . . . if only he can come out of the war alive. No judgement of taste is innocent - we are all snobs. Pierre Bourdieu's *Distinction* brilliantly illuminates the social pretensions of the middle classes in the modern world, focusing on the tastes and preferences of the French bourgeoisie. First published in 1979, the book is at once a vast ethnography of contemporary France and a dissection of the bourgeois mind. In the course of everyday life we constantly choose between what we find aesthetically pleasing, and what we consider tacky, merely trendy, or ugly. Taste is not pure. Bourdieu demonstrates that our different aesth

many of the swirling patterns produced by computer graphics. It has become a new tool for modeling in biology, geology, and other natural sciences. Anthropologists have observed that the patterns produced in different cultures can be characterized by specific design themes. In Europe and America, we often see cities laid out in a grid pattern of straight streets and right-angle corners. In contrast, traditional African settlements tend to use fractal structures—circles of circles of circular dwellings, rectangular walls enclosing ever-smaller rectangles, and streets in which broad avenues branch down to tiny footpaths with striking geometric repetition. These indigenous fractals are not limited to architecture; their recursive patterns echo throughout many disparate African designs and knowledge systems. Drawing on interviews with African designers, artists, and scientists, Ron Eglash investigates fractals in African architecture, traditional hairstyling, textiles, sculpture, painting, carving, metalwork, religion, games, practical craft, quantitative techniques, and symbolic systems. He also examines the political and social implications of the existence of African fractal geometry.
