Capitalism's colonization of every hour in the day 24/7: Late Capitalism and the Ends of Sleep explores some of the ruinous consequences of the expanding non-stop processes of twenty-first-century capitalism. The marketplace now operates through every hour of the clock, pushing us into constant activity and eroding forms of community and political expression, damaging the fabric of everyday life. Jonathan Crary examines how this interminable non-time blurs any separation between an intensified, ubiquitous consumerism and emerging strategies of control and surveillance. He describes the ongoing management of individual attentiveness and the impairment of perception within the compulsory routines of contemporary technological culture. At the same time, he shows that human sleep, as a restorative withdrawal that is intrinsically incompatible with 24/7 capitalism, points to other more formidable and collective refusals of world-destroying patterns of growth and accumulation.

of instruction in countries where neither teachers nor students are native English speakers. This book offers ideas for adjusting and adapting teaching approaches for culturally and linguistically diverse student groups. Students may cross national boundaries to seek accreditation, or the courses may be 'transnational', being designed in one country and delivered in another using local as well as 'fly-in' faculty. It draws upon growing good practice recommendations using tried and tested methods alongside the extensive and varied experience of the author. The book is structured around a selection of the most common issues and statements of belief held by educators, with key topics including: the impact of educational mobility on teaching and learning; teachers as mediators between academic cultural differences; learning and teaching in English; inclusive teaching and learning; encouraging student participation; assessing diverse students. With a wealth of practical tips and tools that help deal with these issues, this book will be of value to any educator working with students from culturally and linguistically diverse backgrounds. It will also interest those involved in the design of curriculum and pedagogy.

At the start of 1987, Primo Levi took part in a remarkable series of conversations about his early life with a friend and fellow writer, Giovanni Tesio. This book is the result of those meetings, originally intended to be the basis for an authorized biography and published here in English for the first time. In a densely packed dialogue, Levi responds to Tesio's tactful and never too insistent questions with a watchful readiness and candour, breaking through the reserve of his public persona to allow a more intimate self to emerge. Following the thread of memory, he lucidly discusses his family, his childhood, his education during the Fascist period, his adolescent friendships, his reading, his shyness and his passion for mountaineering, and recounts his wartime experience as a partisan and the terrible price it exacted from him and his comrades. Though we glimpse his later life as a writer, the story breaks off just before his deportation to Auschwitz owing to his sudden death. In *The Last Interview*, Levi the man, the witness, the chemist and the writer all unite to offer us a story which is also a window onto history. These conversations shed new light on Levi's life and will appeal to the many readers of this most eloquent witness to the horrors of the Holocaust.
