The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this "vital, necessary, and beautiful book" (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and "allows us to understand racism as a practice not restricted to 'bad people' (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.

Henri Lefebvre's three-volume *Critique of Everyday Life* is perhaps the richest, most prescient work by one of the twentieth century's greatest philosophers. The first volume presented an introduction to the concept of everyday life. Written twenty years later, this second volume attempts to establish the necessary formal instruments for analysis, and outlines a series of theoretical categories within everyday life such as the theory of the semantic field and the theory of moments. The moment at which the book appeared—1961—was significant both for France and for Lefebvre himself: he was just beginning his career as a lecturer in sociology at Strasbourg, and then at Nanterre, and many of the ideas which were influential in the events leading up to 1968 are to be found in this critique. In its impetuous, often undisciplined prose, the reader may catch a glimpse of how charismatic a lecturer Lefebvre must have been.

Moving backward in time, Dorris's critically acclaimed debut novel is a lyrical saga of three generations of Native American women beset by hardship and torn by angry secrets.

A call to action from Jane Fonda, one of the most inspiring activists of our time, urging us to wake up to the looming disaster of climate change and equipping us with the tools we need to join her in protest In 2019, daunted by the looming disaster of climate change and inspired by Greta Thunberg, Naomi Klein, and student climate strikers, Jane Fonda asked herself one question: What can I do? Jane Fonda, one of the most influential activists of our time, moved to Washington, D.C., and has since led

thousands of people in demonstrations on Capitol Hill. In launching Fire Drill Fridays, Fonda teamed up with Greenpeace, leading climate scientists, and community organizers not only to understand what's at stake, but to equip all of us with the education and tools we need to join her in protest. What Can I Do? isn't a wish list—it's a to-do list. So many of us recognize the urgency in stemming the tide of climate change but aren't sure where to start. Our window of opportunity to act is quickly closing. And it isn't only Earth's life-support systems that are unraveling, so too is our social fabric. This is going to take an all-out war on drilling, fracking, deregulation, racism, misogyny, colonialism, and despair—all at the same time. The problems we face now require every one of us to join the fight for not only our immediate future, but for the future of generations to come. 100% of the author's net proceeds from What Can I Do? have gone to Greenpeace

#1 NEW YORK TIMES BESTSELLER • Discover the life-changing memoir that has inspired millions of readers through the Academy Award®-winning actor's unflinching honesty, unconventional wisdom, and lessons learned the hard way about living with greater satisfaction. **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE GUARDIAN** "McConaughey's book invites us to grapple with the lessons of his life as he did—and to see that the point was never to win, but to understand."—Mark Manson, author of *The Subtle Art of Not Giving a F*ck* I've been in this life for fifty years, been trying to work out its riddle for forty-two, and been keeping diaries of clues to that riddle for the last thirty-five. Notes about successes and failures, joys and sorrows, things that made me marvel, and things that made me laugh out loud. How to be fair. How to have less stress. How to have fun. How to hurt people less. How to get hurt less. How to be a good man. How to have meaning in life. How to be more me. Recently, I worked up the courage to sit down with those diaries. I found stories I experienced, lessons I learned and forgot, poems, prayers, prescriptions, beliefs about what matters, some great photographs, and a whole bunch of bumper stickers. I found a reliable theme, an approach to living that gave me more satisfaction, at the time, and still: If you know how, and when, to deal with life's challenges—how to get relative with the inevitable—you can enjoy a state of success I call "catching greenlights." So I took a one-way ticket to the desert and wrote this book: an album, a record, a story of my life so far. This is fifty years of my sights and seens, felts and figured-outs, cools and shamefuls. Graces, truths, and beauties of brutality. Getting away withs, getting caughts, and getting wets while trying to dance between the raindrops. Hopefully, it's medicine that tastes good, a couple of aspirin instead of the infirmity, a spaceship to Mars without needing your pilot's license, going to church without having to be born again, and laughing through the tears. It's a love letter. To life. It's also a guide to catching more greenlights—and to realizing that the yellows and reds eventually turn green too. Good luck.

One of Bookpage's Most Anticipated Nonfiction Books of 2021 Join "America's funniest science writer" (Peter Carlson, Washington Post), Mary Roach, on an irresistible investigation into the unpredictable world where wildlife and humans meet. What's to be done about a jaywalking moose? A bear caught breaking and entering? A murderous tree? Three hundred years ago, animals that broke the law would be assigned legal representation and put on trial. These days, as New York Times best-selling author Mary Roach discovers, the answers are best found not in jurisprudence but in science: the curious science of human-wildlife conflict, a discipline at the crossroads of human behavior and wildlife biology. Roach tags along with animal-attack forensics investigators, human-elephant conflict specialists, bear managers, and "danger tree" faller blasters. Intrepid as ever, she travels from leopard-terrorized hamlets in the Indian Himalaya to St. Peter's Square in the early hours before the pope arrives for Easter Mass, when vandal gulls swoop in to destroy the elaborate floral display. She taste-tests rat bait, learns how to install a vulture effigy, and gets mugged by a macaque. Combining little-known forensic science and conservation genetics with a motley cast of laser scarecrows, langur impersonators, and trespassing squirrels, Roach reveals as much about humanity as about nature's lawbreakers. When it comes to "problem" wildlife, she finds, humans are more often the problem—and the solution. Fascinating, witty, and humane, Fuzz offers hope for compassionate coexistence in our ever-expanding human habitat.

NEW YORK TIMES BESTSELLER • From the bestselling author of *Before We Were Yours* comes a dramatic historical novel of three young women searching for family amid the destruction of the post-Civil War South, and of a modern-day teacher who learns of their story and its vital connection to her students' lives. "An absorbing historical . . . enthralling."—Library Journal Bestselling author Lisa Wingate brings to life startling stories from actual "Lost Friends" advertisements that appeared in Southern newspapers after the Civil War, as newly freed slaves desperately searched for loved ones who had been sold away. **Louisiana, 1875:** In the tumultuous era of Reconstruction, three young women set off as unwilling companions on a perilous quest: Hannie, a freed slave; Lavinia, the pampered heir to a now destitute plantation; and Juneau Jane, Lavinia's Creole half sister. Each carries private wounds and powerful secrets as they head for Texas, following roads rife with vigilantes and soldiers still fighting a war lost a decade before. For Lavinia and Juneau Jane, the journey is one of stolen inheritance and financial desperation, but for Hannie, torn from her mother and siblings before slavery's end, the pilgrimage west reignites an agonizing question: Could her long-lost family still be out there? Beyond the swamps lie the limitless frontiers of Texas and, improbably, hope. **Louisiana, 1987:** For first-year teacher Benedetta Silva, a subsidized job at a poor rural school seems like the ticket to canceling her hefty student debt—until she lands in a tiny, out-of-step Mississippi River town. Augustine, Louisiana, is suspicious of new ideas and new people, and Benny can scarcely comprehend the lives of her poverty-stricken students. But amid the gnarled live oaks and run-down plantation homes lie the century-old history of three young

women, a long-ago journey, and a hidden book that could change everything. Heart Tugging Mystery & Thrilling Suspense? Scott Drayco isn't a typical detective: a former concert pianist, he turned to law enforcement after a violent attack put an end to his music career. His unusual background, eidetic memory, and chromesthesia—a form of synesthesia where he "sees" all sounds as colors, shapes, and textures—give him unique insights into twisty cases others don't want to touch. Finalist for the Shamus, Silver Falchion, Daphne, and Foreword Review Awards. "Lawson's protagonist is greatly compelling." - Publishers Weekly Book Prize "Worth putting on your reading list." - Library Journal "I fell in love with the main character and found myself cheering him on to solve each mystery." - 5-star review "So good, I read it twice from beginning to end." - 5 star review Read the first three books in the Scott Drayco mystery series—60% off the print price!

PULITZER PRIZE FINALIST • The gripping true story of a murder on an Indian reservation, and the unforgettable Arikara woman who becomes obsessed with solving it—an urgent work of literary journalism. "I don't know a more complicated, original protagonist in literature than Lissa Yellow Bird, or a more dogged reporter in American journalism than Sierra Crane Murdoch."—William Finnegan, Pulitzer Prize-winning author of *Barbarian Days* In development as a Paramount+ original series **WINNER OF THE OREGON BOOK AWARD • NOMINATED FOR THE EDGAR® AWARD • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY** The New York Times Book Review • NPR • Publishers Weekly When Lissa Yellow Bird was released from prison in 2009, she found her home, the Fort Berthold Indian Reservation in North Dakota, transformed by the Bakken oil boom. In her absence, the landscape had been altered beyond recognition, her tribal government swayed by corporate interests, and her community burdened by a surge in violence and addiction. Three years later, when Lissa learned that a young white oil worker, Kristopher "KC" Clarke, had disappeared from his reservation worksite, she became particularly concerned. No one knew where Clarke had gone, and few people were actively looking for him. *Yellow Bird* traces Lissa's steps as she obsessively hunts for clues to Clarke's disappearance. She navigates two worlds—that of her own tribe, changed by its newfound wealth, and that of the non-Native oilmen, down on their luck, who have come to find work on the heels of the economic recession. Her pursuit of Clarke is also a pursuit of redemption, as Lissa atones for her own crimes and reckons with generations of trauma. *Yellow Bird* is an exquisitely written, masterfully reported story about a search for justice and a remarkable portrait of a complex woman who is smart, funny, eloquent, compassionate, and—when it serves her cause—manipulative. Drawing on eight years of immersive investigation, Sierra Crane Murdoch has produced a profound examination of the legacy of systematic violence inflicted on a tribal nation and a tale of extraordinary healing.

psychotherapist, and national advice columnist, a hilarious, thought-provoking, and surprising new book that takes us behind the scenes of a therapist's world—where her patients are looking for answers (and so is she). One day, Lori Gottlieb is a therapist who helps patients in her Los Angeles practice. The next, a crisis causes her world to come crashing down. Enter Wendell, the quirky but seasoned therapist in whose office she suddenly lands. With his balding head, cardigan, and khakis, he seems to have come straight from Therapist Central Casting. Yet he will turn out to be anything but. As Gottlieb explores the inner chambers of her patients' lives — a self-absorbed Hollywood producer, a young newlywed diagnosed with a terminal illness, a senior citizen threatening to end her life on her birthday if nothing gets better, and a twenty-something who can't stop hooking up with the wrong guys — she finds that the questions they are struggling with are the very ones she is now bringing to Wendell. With startling wisdom and humor, Gottlieb invites us into her world as both clinician and patient, examining the truths and fictions we tell ourselves and others as we teeter on the tightrope between love and desire, meaning and mortality, guilt and redemption, terror and courage, hope and change. *Maybe You Should Talk to Someone* is revolutionary in its candor, offering a deeply personal yet universal tour of our hearts and minds and providing the rarest of gifts: a boldly revealing portrait of what it means to be human, and a disarmingly funny and illuminating account of our own mysterious lives and our power to transform them.

The first authoritative survey of the changing politics of the classroom since the Second World War. It charts the process by which society moved away from being one in which teachers decided both the content of the school curriculum and how it would be taught towards the present situation in which a host of external influences dictate the nature of the educational experience. The book identifies the key social and political developments which made this transformation inevitable and, at the same time, raises the question of how far the loss of control by teachers has also meant a shift away from progressive, child-centred education. Key issues covered include: The post-war debate on the school curriculum as well as the extent to which it was fiercely contested The Black Paper Movement of the early 1970s The ways in which radical right rhetoric has come to dominate the politics of education and the educational press How the term 'progressive education' has been subtly reworked, so that those claiming to reform education now focus on measurable outcomes and the answerability of schools to parental and government pressure An historical analysis of the ways in which the 'Thatcher revolution' in schools has been taken forward and developed under both John Major and Tony Blair. This ground-breaking analysis of how we have arrived at the present situation in our schools will be of interest to all students of education and to all those who wish to learn more about the changes that have taken place in our education system over the past sixty years. It helps us understand why they happened and, in so doing, raises profound questions about the aspirations of modern society and the role of the schools in shaping it.

A collection of stories designed to teach the meaning of different words.

The instant Wall Street Journal, USA Today, and international bestseller “While the history books are filled with tales of obsessive visionary geniuses who remade the world in their image with sheer, almost irrational force, I’ve found that history is also made by individuals who fought their egos at every turn, who eschewed the spotlight, and who put their higher goals above their desire for recognition.” —from the prologue Many of us insist the main impediment to a full, successful life is the outside world. In fact, the most common enemy lies within: our ego. Early in our careers, it impedes learning and the cultivation of talent. With success, it can blind us to our faults and sow future problems. In failure, it magnifies each blow and makes recovery more difficult. At every stage, ego holds us back. *Ego Is the Enemy* draws on a vast array of stories and examples, from literature to philosophy to history. We meet fascinating figures such as George Marshall, Jackie Robinson, Katharine Graham, Bill Belichick, and Eleanor Roosevelt, who all reached the highest levels of power and success by conquering their own egos. Their strategies and tactics can be ours as well. In an era that glorifies social media, reality TV, and other forms of shameless self-promotion, the battle against ego must be fought on many fronts. Armed with the lessons in this book, as Holiday writes, “you will be less invested in the story you tell about your own specialness, and as a result, you will be liberated to accomplish the world-changing work you’ve set out to achieve.”

Susan Orlean’s bestseller and New York Times Notable Book is “a sheer delight...as rich in insight and as varied as the treasures contained on the shelves in any local library” (USA TODAY)—a dazzling love letter to a beloved institution and an investigation into one of its greatest mysteries. “Everybody who loves books should check out *The Library Book*” (The Washington Post). On the morning of April 28, 1986, a fire alarm sounded in the Los Angeles Public Library. The fire was disastrous: it reached two thousand degrees and burned for more than seven hours. By the time it was extinguished, it had consumed four hundred thousand books and damaged seven hundred thousand more. Investigators descended on the scene, but more than thirty years later, the mystery remains: Did someone purposefully set fire to the library—and if so, who? Weaving her lifelong love of books and reading into an investigation of the fire, award-winning New Yorker reporter and New York Times bestselling author Susan Orlean delivers a “delightful...reflection on the past, present, and future of libraries in America” (New York magazine) that manages to tell the broader story of libraries and librarians in a way that has never been done before. In the “exquisitely written,

consistently entertaining” (The New York Times) The Library Book, Orlean chronicles the LAPL fire and its aftermath to showcase the larger, crucial role that libraries play in our lives; delves into the evolution of libraries; brings each department of the library to vivid life; studies arson and attempts to burn a copy of a book herself; and reexamines the case of Harry Peak, the blond-haired actor long suspected of setting fire to the LAPL more than thirty years ago. “A book lover’s dream...an ambitiously researched, elegantly written book that serves as a portal into a place of history, drama, culture, and stories” (Star Tribune, Minneapolis), Susan Orlean’s thrilling journey through the stacks reveals how these beloved institutions provide much more than just books—and why they remain an essential part of the heart, mind, and soul of our country.

An enraging, necessary look at the private prison system, and a convincing clarion call for prison reform.” —NPR.org New York Times Book Review 10 Best Books of 2018 * One of President Barack Obama’s favorite books of 2018 * Winner of the 2019 J. Anthony Lukas Book Prize * Winner of the Helen Bernstein Book Award for Excellence in Journalism * Winner of the 2019 RFK Book and Journalism Award * A New York Times Notable Book A ground-breaking and brave inside reckoning with the nexus of prison and profit in America: in one Louisiana prison and over the course of our country's history. In 2014, Shane Bauer was hired for \$9 an hour to work as an entry-level prison guard at a private prison in Winnfield, Louisiana. An award-winning investigative journalist, he used his real name; there was no meaningful background check. Four months later, his employment came to an abrupt end. But he had seen enough, and in short order he wrote an exposé about his experiences that won a National Magazine Award and became the most-read feature in the history of the magazine Mother Jones. Still, there was much more that he needed to say. In American Prison, Bauer weaves a much deeper reckoning with his experiences together with a thoroughly researched history of for-profit prisons in America from their origins in the decades before the Civil War. For, as he soon realized, we can't understand the cruelty of our current system and its place in the larger story of mass incarceration without understanding where it came from. Private prisons became entrenched in the South as part of a systemic effort to keep the African-American labor force in place in the aftermath of slavery, and the echoes of these shameful origins are with us still. The private prison system is deliberately unaccountable to public scrutiny. Private prisons are not incentivized to tend to the health of their inmates, or to feed them well, or to attract and retain a highly-trained prison staff. Though Bauer befriends some of his colleagues and sympathizes with their plight, the chronic dysfunction of their lives only adds to the prison's sense of chaos. To his horror, Bauer finds himself becoming crueler and more aggressive the longer he works in the prison, and he is far from alone. A blistering indictment of the private prison system, and the powerful forces that drive it, American Prison is a necessary human document about the true face of justice in America.

Willis Wu doesn't perceive himself as a protagonist even in his own life: He's

merely Generic Asian man. Sometimes he gets to be Background Oriental Making a Weird Face or even Disgraced Son, but he is always relegated to a prop. Yet every day he leaves his tiny room in a Chinatown SRO and enters the Golden Palace restaurant, where Black and White, a procedural cop show, is in perpetual production. He's a bit player here, too, but he dreams of being Kung Fu Guy--the most respected old that anyone who looks like him can attain. At least that's what he has been told, time and time again. Except by one person, his mother. Who says to him: Be more. Playful but heartfelt, a send-up of Hollywood tropes and Asian stereotypes, Interior Chinatown is Charles Yu's most moving, daring, and masterly novel yet.

A NEW YORK TIMES BESTSELLER WINNER OF THE 2019 NATIONAL BOOK AWARD FOR NONFICTION A brilliant, haunting and unforgettable memoir from a stunning new talent about the inexorable pull of home and family, set in a shotgun house in New Orleans East. In 1961, Sarah M. Broom's mother Ivory Mae bought a shotgun house in the then-promising neighborhood of New Orleans East and built her world inside of it. It was the height of the Space Race and the neighborhood was home to a major NASA plant—the postwar optimism seemed assured. Widowed, Ivory Mae remarried Sarah's father Simon Broom; their combined family would eventually number twelve children. But after Simon died, six months after Sarah's birth, the Yellow House would become Ivory Mae's thirteenth and most unruly child. A book of great ambition, Sarah M. Broom's *The Yellow House* tells a hundred years of her family and their relationship to home in a neglected area of one of America's most mythologized cities. This is the story of a mother's struggle against a house's entropy, and that of a prodigal daughter who left home only to reckon with the pull that home exerts, even after the Yellow House was wiped off the map after Hurricane Katrina. *The Yellow House* expands the map of New Orleans to include the stories of its lesser known natives, guided deftly by one of its native daughters, to demonstrate how enduring drives of clan, pride, and familial love resist and defy erasure. Located in the gap between the "Big Easy" of tourist guides and the New Orleans in which Broom was raised, *The Yellow House* is a brilliant memoir of place, class, race, the seeping rot of inequality, and the internalized shame that often follows. It is a transformative, deeply moving story from an unparalleled new voice of startling clarity, authority, and power.
