I've been selling online for fifteen years now. During that time I've learned a lot about bookkeeping, business permits, and taxes. During that same time I have saved thousands of dollars in taxes by saving my receipts and keeping good records. And, so here's the deal... > Did you know eBay has an app that can automatically import all of your sales, fees, and other information and crunch the numbers to show whether you're making a profit or loss? > Did you know that same app will also import all of your information from Etsy and Amazon, if you sell on those platforms? > What would you say if I told you that you could save \$500 or more on your taxes every year just by writing down the mileage when you head to the post office, store, or bank? > And, you'd probably think I'd lost my marbles if I told you that you could deduct parts of your next vacation from your taxes. The advice in this little book can easily save you thousands of dollars every year.
