Johannes Klumpers Biotechnologies, such as genetic engineering, cloning and biodiversity, raise many legal and ethical concerns, so it is important that people understand these issues and feel able to express their opinions. This is why the European Commission has been, for a number of years, supporting actions to improve communication among scientists in these diverse areas. The project 'Women in Biotechnology' (WONBIT), financed under the 6th

Framework programme of the European Commission, is an excellent example of what can be done to target opinion-formers such as scientists, economists and lawyers in bottom-up activities, and to encourage a debate on gender issues triggered by developments in the life sciences. WONBIT gave rise to a successful international conference highlighting the importance of adopting good practices and ethical considerations in parallel with the rapid pace of progress in biotechnology – from a woman’s point of view. In particular, the conference addressed women in decision-making positions in biotechnology with specific reference to scientific excellence, social competencies and management qualities as well as issues relating to environment, society and the younger generation. But it did not stop there: a key part of the conference was dedicated to stimulating public debate among non-specialists, which has led to a number of recommendations to policy-makers on better communication in biotechnology, on taking better account of the gender aspects of research, and on involving more women in the decision-making process that surrounds developments in biotechnology.

"The evil that men do" has been chronicled for thousands of years on the European stage, and perhaps nowhere else is human fear of our own evil more detailed than in its personifications in theater. In *Stages of Evil*, Robert Lima explores the sociohistorical implications of Christian and pagan representations of evil and the theatrical creativity that occultism has engendered. By examining examples of alchemy, astronomy, demonology,

An eBook edition of Bram Stoker's classic novel *Dracula* with a new extended introduction on vampire myths and legends by leading vampire expert Dr Tina Rath. The introduction explores the development of Vampire myths and legends from early sixteenth-century stories to the current teenage vampire obsession evinced by *Buffy the Vampire Slayer* and the *Twilight* series of books and films. From Arnold Paul, an allegedly real vampire of the sixteenth-century, to Lord Byron's physician Dr John Polidori who created the vampire Lord Ruthven, to Camilla, Brunhilda and Varney, who all made their contributions to our picture of the vampire, the picture was completed by *Dracula* when it was published in 1897. Tina Rath explores our impressions of vampires throughout the ages in books, on stage and on screen, as well discussing the origins of Bram Stoker's *Dracula*. *Dracula* is probably the best-known, least-read horror novel in the English (or possibly any other) language. Say 'Dracula' and we all know what we mean: the handsome Master Vampire with sleek dark hair forming a widow's peak on his forehead, a black cloak, possibly lined with red silk, over faultless evening dress,

Oliver Twist; or, the Parish Boy's Progress is Charles Dickens's second novel, and was published as a serial from 1837 to 1839 and released as a three-volume book in 1838, before the serialization ended.[1] The story centres on orphan Oliver Twist, born in a workhouse and sold into apprenticeship with an undertaker. After escaping, Oliver travels to London, where he meets the "Artful Dodger", a member of a gang of juvenile pickpockets led by the elderly criminal

Fagin. Oliver Twist is notable for its unromantic portrayal of criminals and their sordid lives, as well as for exposing the cruel treatment of the many orphans in London in the mid-19th century.[2] The alternative title, The Parish Boy's Progress, alludes to Bunyan's The Pilgrim's Progress, as well as the 18th-century caricature series by William Hogarth, A Rake's Progress and A Harlot's Progress.[3] In this early example of the social novel, Dickens satirises the hypocrisies of his time, including child labour, domestic violence, the recruitment of children as criminals, and the presence of street children. The novel may have been inspired by the story of Robert Blincoe, an orphan whose account of working as a child labourer in a cotton mill was widely read in the 1830s. It is likely that Dickens's own experiences as a youth contributed as well.[4] Oliver Twist has been the subject of numerous adaptations for various media, including a highly successful musical play, Oliver!, and the multiple Academy Award-winning 1968 motion picture. Disney also put its spin on the novel with the animated film called Oliver & Company in 1988.[5]

thought-provoking, scholarly essays, this volume analyzes works by a range of modern and contemporary Italian authors, from Giacomo Leopardi to Elena Ferrante, who have captured the shift from anthropocentrism and postmodernism to posthumanism. Indeed, this is the first academic volume investigating narrative configurations of posthuman identity in Italian literature and film.

Situated at the intersection of animal studies and literary theory, this book explores the remarkable and subtly pervasive web of animal imagery, metaphors, and concepts in the work of the Jewish-Italian writer, chemist, and Holocaust survivor Primo Levi (1919-1987). Relatively unexamined by scholars, the complex and extensive animal imagery Levi employed in his literary works offers new insights into the aesthetic and ethical function of testimony, as well as an original perspective on contemporary debates surrounding human-animal relationships and posthumanism. The three main sections that compose the book mirror Levi's approach to non-human animals and animality: from an unquestionable bio-ethical origin ("Suffering"); through an investigation of the relationships between writing, technology, and animality ("Techne"); to a creative intellectual project in which literary animals both counterbalance the inevitable suffering of all creatures, and suggest a transformative image of interspecific community ("Creation").

Since its publication in 1842, *Dead Souls* has been celebrated as a supremely realistic portrait of provincial Russian life and as a splendidly exaggerated tale; as a paean to the Russian spirit and as a remorseless satire of imperial Russian venality, vulgarity, and pomp. As Gogol's wily antihero, Chichikov, combs the back country wheeling and dealing for "dead souls"--deceased serfs who still represent money to anyone sharp enough to trade in them--we are introduced to a Dickensian cast of peasants, landowners, and conniving petty officials, few of whom can resist the seductive illogic of Chichikov's proposition.

Streets Snippets started in 2016 as a project for my son's 8th grade English class in New York City. The original concept was to give the kids a snippet of conversation heard on the streets of the city, and have each student write an original story based

upon that snippet. After my son graduated from middle school, the platform wasn't used for several years. It seemed logical to reopen the platform as an extension of the online curriculum development being created as an educational alternative during the COVID pandemic in 2020. When I first approached John Bapst High School in Bangor, Maine about using the Street Snippets platform for their 2020-2021 creative writing class, little did I know the diversity of ideas and formats that would come from this talented group of high schooler's. The first indication was when a request came through to submit a poem instead of a story. Sure, I thought, that would be fun. That was soon followed by requests for publishing songs, cartoon strips and images. The formats went far beyond the basic short story. What you will find in this book are the stories and projects created by the authors at John Bapst. We have kept the stories as written, laying them out as closely as possible to the format created by the authors. The stories in the book are arranged by snippet, with each story beginning with the snippet for that month. As you read through each chapter, you will find a diverse set of ideas, each original, each personal, that takes the snippet as its opening line and then has the story run its course. Each of the stories can be found in its original form on the Street Snippets site. If you like a particular story, you can leave a comment for the author when you visit the site. As the publisher of Street Snippets, I couldn't be prouder of the authors from John Bapst. I look forward to working with next year's students as we continue to encourage and promote the work of the next generation of authors.
