Oswaal CBSE MCQs Question Bank Chapterwise For Term-I, Class 11 (Set of 4 Books) Physics, Chemistry, Mathematics, English (With the largest MCQ Question Pool for 2021-22 Exam)Oswaal Books and Learning Private Limited

Foreword by Egyptologist JoAnn FletcherPreface by Harold Bursztajn, M.D.With New Data on the Egyptian CT ScanWritten in the style of a fictional whodunit, this fascinating piece of historical detection will appeal to history buffs, mystery lovers, and true-crime fans. - BooklistThe greatest archaeological find of the 20th century, and perhaps of all time, was the discovery in 1922 of the tomb of the Egyptian Pharaoh Tutankhamen. Untouched for 3,300 years, the ancient tomb, filled with spectacular treasures, raised many questions about the legendary reign of this boy king. Recently Tut has been in the news again. Not only has a traveling museum exhibit of his tomb's fascinating artifacts drawn the public's attention, but also a CT scan of his body, which provides new evidence concerning the king's fate, has received a good deal of media attention. Based on this new investigation, an Egyptian team of scientists and scholars has now publicly ruled out the possibility that Tut was murdered.In this thorough and intriguing review of all of the evidence, two law enforcement specialists in forensics and the psychology of criminal behavior dispute the conclusions reached by the Egyptian team. Applying sophisticated crime-solving techniques used in the investigation of contemporary murders, Detectives King and Cooper make a compelling case that the cause of King Tut's death was most likely murder.The detectives' investigation concentrates on Tut's inner circle of close confidants. One by one, the suspects are eliminated, due to evidence or probable cause, until in the end the detectives focus on the most likely suspect.For readers who enjoy mysteries, true crime, and history, Who Killed King Tut? is both an educational read and a real page-turner.Michael R. King is a senior investigative analyst for Motorola. He is a former State Attorney General Chief of Staff and intelligence supervisor for the Utah Criminal Intelligence Center and Homeland Security.Gregory M. Cooper is a manager and analyst for Motorola. He is a former Assistant Federal Security Director for Law Enforcement, U.S. Department of Homeland Security, and a federal air marshal for the Transportation Security Administration.Don DeNevi is the author, coauthor, or editor of thirty-five books, including Profilers: Leading Investigators Take You Inside the Criminal Mind and Into the Minds of Madmen: How the FBI's Behavioral Science Unit Revolutionized Crime Investigation (both with John H. Campbell).

New York Times bestselling author John Connolly's unique imagination takes readers through the end of innocence into adulthood and beyond in this dark and triumphantly creative novel of grief and loss, loyalty and love, and the redemptive power of stories. High in his attic bedroom, twelve-year-old David mourns the death of his mother. He is angry and alone, with only the books on his shelf for company. But those books have begun to whisper to him in the darkness, and as he takes refuge in his imagination, he finds that reality and fantasy have begun to meld. While his family falls apart around him, David is violently propelled into a land that is a strange reflection of his own world, populated by heroes and monsters, and ruled over by a faded king who keeps his secrets in a mysterious book... The Book of Lost Things. An imaginative tribute to the journey we must all make through the loss of innocence into adulthood, John Connolly's latest novel is a book for every adult who can recall the moment when childhood began to fade, and for every adult about to face that moment. The Book of Lost Things is a story of hope for all who have lost, and for all who have yet to lose. It is an exhilarating tale that reminds us of the enduring power of stories in our lives.

The classic reference work that provides annually updated information on the countries of the world.

Exciting, educational collection includes figure of famous Egyptian ruler, plus a peel-and-apply wardrobe of royal apparel and authentic artifacts.

The Discovering Science through Inquiry series provides teachers and students of grades 3-8 with direction for hands-on science exploration around particular science topics and focuses. The series follows the 5E model (engage, explore, explain, elaborate, evaluate). The Forces and Motion kit provides a complete inquiry model to explore the laws of motion through supported investigation. Watch as students design a safe-landing parachute to observe how the forces of deceleration work on parachutes. Forces and Motion kit includes: 16 Inquiry Cards in print and digital formats; Teacher's Guide; Inquiry Handbook (Each kit includes a single copy; additional copies can be ordered); Digital resources include PDFs of activities and additional teacher resources, including images and assessment tools; leveled background pages for students; and video clips to support both students and teachers.

Builds an understanding of grammar with a thorough step-by-step approach. Provides a systematic framework for introducing, practising and recording key vocabulary. There are frequent opportunities for self study to complement core learning and increase student confidence. Provides students with reading for enjoyment and a wide range of texts.

In the year 2025, time travel has become the latest rage. Nathan and his family are looking forward to visiting ancient Alexandria, but something goes terribly wrong during the transfer back in time. After Nathan lands alone near the palace of Tutankhamun, he soon realizes that unless he can convince the captain of the guards that he is not a tomb robber, a painful death awaits him. Eventually Nathan is introduced to the young king and becomes a high-ranking member of Tut's court, where he learns about the life and politics of the ancient Egyptian monarch. Assigned to watch for anything that might harm the king, Nathan is devastated when he witnesses a horrifying accident that endangers the life of the boy-king. Meanwhile, as his family tries to rescue Nathan and bring him back to the present, the threat of a major time paradox emerges. Nathan, accompanied by his sister, Lindsey, must return once more to the tomb of King Tut—a dark world filled with coffins and the threat of curses and magic spells—in a last-ditch effort to prevent the destruction of their timeline. But have they arrived in time?
