“A perfect pick for kids who love Rick Riordan.” —Booklist (starred review) “A winner for all kids, but it will be especially loved by Latinx and Hispanic families.” —Kirkus Reviews (starred review) The Lightning Thief meets the Story Thieves series in this middle grade fantasy inspired by Hispanic folklore, legends, and myths from the Iberian Peninsula and Central and South America. Charlie Hernández has always been proud of his Latin American heritage. He loves the culture, the art, and especially the myths. Thanks to his abuela’s stories, Charlie possesses an almost encyclopedic knowledge of the monsters and ghouls who have spent the last five hundred years haunting the imaginations of children all across the Iberian Peninsula, as well as Central and South America. And even though his grandmother sometimes hinted that the tales might be more than mere myth, Charlie’s always been a pragmatist. Even barely out of diapers, he knew the stories were just make-believe—nothing more than intricately woven fables meant to keep little kids from misbehaving. But when Charlie begins to experience freaky bodily manifestations—ones all too similar to those described by his grandma in his favorite legend—he is suddenly swept up in a world where the mythical beings he’s spent his entire life hearing about seem to be walking straight out of the pages of Hispanic folklore and into his life. And even stranger, they seem to know more about him than he knows about himself. Soon, Charlie finds himself in the middle of an ancient battle between La Liga, a secret society of legendary mythological beings sworn to protect the Land of the Living, and La Mano Peluda (a.k.a. the Hairy Hand), a cabal of evil spirits determined to rule mankind. With only the help of his lifelong crush, Violet Rey, and his grandmother’s stories to guide him, Charlie must navigate a world where monsters and brujas rule and things he couldn’t possibly imagine go bump in the night. That is, if he has any hope of discovering what’s happening to him and saving his missing parents (oh, and maybe even the world). No pressure, muchacho.

In a land where monsters are a thing of bedtime stories meant to scare young children into behaving, humans live each day struggling to get by. The kingdom Solara is dwindling as the last of their wealth is stretched thin to protect the many small villages blemishing the map outside of the capital city's walls. Those too poor to live near the capital, on the edge of the wild Forest Mordin, must fend for themselves as yet another harvest is coming to an end. Little are they aware that the lack of food stored for the winter is the least of their concerns. Trouble is brewing in the Forest Mordin as creatures long forgotten by Solara find themselves on the brink of a civil war. The vampires and humans who live by the law of House Faegon and the Crown are being terrorized by a vicious band of rogues who follow the ruthless King Logan. Logan and his followers will do anything to see the Crown fall in order to live according to more primal instincts and desires. The rogues have no desire to ignore the human kingdom, nor do they care to obey the Crown's dated formalities. Change is swiftly descending on the land and no one, human or vampire, will be spared from the consequences.

Welcome to the world of noir musical films, where tormented antiheroes and hard-boiled musicians battle obsession and struggle with their music and ill-fated love triangles. Sultry divas dance and sing the blues in shrouded nightclubs. Romantic intrigue clashes with backstage careers. This book explores musical films that use film noir style and bluesy strains of jazz to inhabit a disturbing underworld and reveal the dark side of fame and the American Dream. While noir musical films like *A Star Is Born* include musical performances, their bleak tone and expressionistic aesthetic more closely resemble the visual style of film noir. Their narratives unfold behind a stark noir lens: distorted, erratic angles and imbalanced hand-held shots allow the audience to experience a tortured, disillusioned perspective. While many musicals glamorize the quest for the spotlight in Hollywood's star factory, brooding noir musical films such as *Blues in the Night*, *Gilda*, *The Red Shoes*, *West Side Story*, and *Round Midnight* stretch the boundaries of film noir and the musical as film genres collide. Deep shadows, dim lighting and visual composition evoke moodiness, cynicism, pessimism, and subjective psychological points of view.

A story about romance and everyday life that takes place in the Chicagoland area.

In his *Poetics*, the cornerstone of narratology, Aristotle establishes plot as the most, and spectacle as the least, important of the six elements of tragedy. This initiates a bias for time and against space that continues to shape the narratological agenda to the present day. In the only book-length treatment of narrative space in Homer to date, Brigitte Hellwig reduces the wealth of spatial detail in the *Iliad* and *Odyssey* to a finite number of places and charts their trajectory throughout each respective epic. As such, she applies to space the structuralist methodology typically devoted to time, extracting from it as hypothetical temporality that subordinates experience to exegesis and disregards all but those spatial phenomena that survive the process of paraphrase. There exists, however, an aesthetic dimension of narrative as well, within which actions are conveyed to the audience in real time before they are abstracted into story-events. In this book, I offer a

narratological reading of Homer's Iliad from the standpoint of space rather than, the usual emphasis, time. I adapt Meyer Schapiro's conception of the picture frame as "a finding and focusing device placed between the observer and the image" to the dynamic medium of epic narrative, and establish the manipulation of frames as the basis for a poetics of narrative engagement. I demonstrate how Homer employs four cinematic devices in the Iliad-decomposition, intercutting, meta-audience, and vignette-to achieve montage-like control over his audience's attention and to reveal a semantic component of the epic that manifests itself exclusively within narrative space.

Years ago, Millman had the good fortune to be tutored by a number of mentors as mysterious and wise as his best-known teacher he called Socrates. One of those masters revealed to him (and a few other close disciples) a previously secret (and more accurate) method of numerological insight that bordered on psychic abilities, and in fact opened doorways to profound insight into the core issues at the heart of one's own life and the lives of others. Millman worked with this system for a decade, providing "spiritual law alignment" readings for countless people, before teaching this system to a relatively small group of people — and finally, the time came to write *The Life You Were Born to Live*. In this book he presents the method and revelations of The Life Purpose system, a modern method based on ancient wisdom that has helped hundreds of thousands to find new meaning, purpose and direction. *The Life You Were Born to Live* describes:

- the thirty-seven paths of life
- a precise method to determine your own life path and the paths of others
- the core issues, innate talents and special needs related to each path, including areas of health, money and sexuality
- guidelines for approaching a career consistent with your innate drives and abilities
- the hidden purpose behind your own primary relationships
- how to live in harmony with the cycles of your life
- the key spiritual laws to help you understand your past, clarify your present, and empower your future.

When rock and roll first burst onto the scene in the 1950s, it was more than a new form of music—it was a rebellion against the past. With the music of such artists as Elvis Presley, Buddy Holly, Little Richard, and the Supremes came a new attitude that

allowed fans—many of them young—to look past the social norms of the time, a shift that included a greater interaction with and understanding between the races. This stunning, story-filled volume examines the phenomenon of rock and roll—the way it was before it crept into the mainstream it had once retaliated against—and the many musicians who made it into an art.

Her body from neck down a silk column, white with three black cranes swooping across her back. She looks out towards the mountains, and everything is more beautiful to her than it was early this morning. Nagasaki is more beautiful to her than ever before. She turns her head and sees the spires of Urakami Cathedral, which Konrad is looking up at when he notices a gap open between the clouds. Sunlight streams through, pushing the clouds apart even further. Hiroko. And then the world goes white. —From *Burnt Shadows* by Kamila Shamsie -- The morning of August 9, 1945 breaks dreary and unspectacular in the city of Nagasaki. Nonetheless, twenty-one year-old Hiroko Tanaka is elated: she is in love. Her emerging romance with the displaced German Konrad Weiss offers release from the greyness of wartime deprivation. In this time of heightened xenophobia, their affair must be kept secret, particularly as Hiroko's father has recently been outcast for questioning the patriotism of sending children on kamikaze missions. As Hiroko and Konrad furtively plan for a future after the war, there is no way they can comprehend the unspeakable devastation bearing down upon them. Two years later, Hiroko arrives in Delhi at the home of Konrad's sister Ilse and his brother-in-law James Burton. Upon Hiroko's back are crane-shaped scars, seared into her skin when her kimono was incinerated by the bomb. She is on the run from unbearable memories, as well as from the stigma of being

branded a hibakusha, a survivor of the bomb. Ilse, in an uncharacteristically impulsive move, welcomes Hiroko into her home, seeing in the brave young woman a possibility of release from her own conscripted existence. Hiroko quickly destabilizes the frigid hierarchy of the household, much to the relief of Sajjad Ashraf, James's bored servant. Tensions are running high in the Mohalla with the looming partition of India and Pakistan. Will Sajjad remain in his beloved Dilli/Delhi, or depart with so many others for the promise of Pakistan? Sajjad's family has secured for him a wife, and he yearns for a legal career, still half-clinging to the hope that James will assist him. But James's only use for him is as a chess opponent, an idle distraction as the Raj winds to a close. The Burtons are preparing to decamp for England, having already dispatched their son Harry to boarding school. But what James does not know is that Ilse is making other plans. A romance blooms between Hiroko and Sajjad, much to the incredulity of the Burtons, whose own emotional lives have become entwined in the futures of their charismatic young charges. Despite outbursts of jealousies and a terrible act of betrayal, the Burtons nevertheless assist Hiroko and Sajjad in their flight to married life in Istanbul. Later the Ashrafs will move to Karachi to raise their son, Raza. The lives of the Ashrafs and the Burtons will remain entwined for decades, though in ways they cannot anticipate. Across continents and through geopolitical flux, each family will continue to act as a catalytic force upon the other, sometimes in life-saving ways, and sometimes causing great peril. Why is it that some bonds flourish in times of crisis, and why do some fail? What defines the character that survives the cruelest of circumstances? And how is it that entire populations can support unspeakable acts en masse, while relating as individuals with compassion? Longlisted for the prestigious Orange Prize for Fiction, Kamila Shamsie's *Burnt Shadows* is an enthralling meta-cultural epic, the panoramic tale of two families tangled together in some of the most devastating conflicts of modern history.
