Spanning thirty years of intensive research, this book proves what many scholars could not explain: that today's Western world must be considered the product of both Greek and Indian thought—Western and Eastern philosophies. Thomas McEvilley explores how trade, imperialism, and migration currents allowed cultural philosophies to intermingle freely throughout India, Egypt, Greece, and the ancient Near East. This groundbreaking reference will stir relentless debate among philosophers, art historians, and students.

? Toys—those celebrated childhood cohorts and lead actors in children's imaginative play—have a fantastic history of heroism in fiction. From teddy bears that guard sleeping babies to plastic soldiers and cowboys who lay siege to wooden block castles, toys are

often the heroes of the stories children inspire authors to tell. In this collection of new essays, scholars from a great range of disciplines examine fictional toys as protectors of the children they love, as heroes of their own stories, and as champions for the greater good in the writings of A.A. Milne, Hans Christian Andersen, William Joyce, John Lasseter and many others.

A full account of the Metaphysical Club, featuring the members' philosophical writings and four critical essays. The Metaphysical Club, a gathering of intellectuals in the 1870s, is widely recognized as the crucible where pragmatism, America's distinctively original philosophy, was refined and proclaimed. Louis Menand's bestseller about the group was a dramatic publishing success. However, only three actual members—Oliver Wendell Holmes Jr., Charles S. Peirce, and William James—appear in the book, alongside other thinkers who were never in the Club. *The Real Metaphysical Club* tells the full story of how this influential group shifted the course of philosophy in America. In addition to pioneering pragmatism, the group explored radical empiricism and idealism, and formulated personalism and process philosophy, equally important developments. This volume contains the important writings dating from 1870 to 1885 by the real members of the Metaphysical Club. The first section centers on pragmatism and science; the second part collects writings of the lawyers; and the third part covers idealist and personalist philosophers. Many of these writings have never been reprinted before, and nothing like this impressive collection has ever been attempted. A general

introduction provides a narrative history, and the editors' three introductions to the volume's sections vividly bring to life the intense meetings, sustained debates, and pioneering thought of the Metaphysical Club. "The Real Metaphysical Club includes some very important thinkers that don't always make it into anthologies of American philosophy. The period is also important. 1870 to 1885 is critical to the development of classical American philosophy. It precedes it and sets its direction. The book accomplishes its goal of giving the reader a sense of the period by arranging the works in a very interesting way. The readings and introduction are very readable and would be helpful to both graduate and undergraduate students as well as general readers interested in American Thought." — James M. McLachlan, Western Carolina University

Why can a "white" woman give birth to a "black" baby, while a "black" woman can never give birth to a "white" baby in the United States? What makes racial "passing" so different from social mobility? Why are interracial and incestuous relations often confused or conflated in literature, making "miscegenation" appear as if it were incest? Werner Sollors examines these questions and others in *"Neither Black nor White yet Both,"* a fully researched investigation of literary works that, in the past, have been read more for a black-white contrast of "either-or" than for an interracial realm of "neither, nor, both, and in-between." From the origins of the

term "race" to the cultural sources of the "Tragic Mulatto," and from the calculus of color to the retellings of various plots, Sollors examines what we know about race, analyzing recurrent motifs in scientific and legal works as well as in fiction, drama, and poetry. The nation-state and the colonial state have always been the same thing: the ethnic and religious majorities of the former created only through the violent "minoritization" inherent in the latter. Assessing cases from the United States to Eastern Europe, Israel, and Sudan, Mahmood Mamdani suggests a radical solution: the state without a nation.

Drawing upon the concepts of cultural and linguistic hybridity developed by Homi Bhabha, Salman Rushdie, Mikhail Bakhtin, and others, Garroway suggests that the first generation of Gentile converts were uncertain whether they had become Jews or remained Gentiles in the wake of their baptism into Christ.

This is the first comparative study of the work of the philosopher Paul Ricoeur and the psychoanalayst Jacques Lacan. The book explores the conflict between the two thinkers that arose from their differing views of ethics: Ricoeur's universalist stance drew on a phenomenological reading of Kant, whereas Lacan's was a relativist position, derived from a psychoanalytic reading of Freud and de Sade. Ricoeur and Lacan gives a full critical overview of the work of both figures, tracing the origins and development of their principal ideas, and

identifying key similarities and differences. Not only a valuable and original addition to the literature on two major thinkers, Ricoeur and Lacan is also an important study of contemporary Continental ethics.

This book is a translation and study of the Vajrasamadhi-Sutra and an examination of its broad implications for the development of East Asian Buddhism. The Vajrasamadhi-Sutra was traditionally assumed to have been translated from Sanskrit, but some modern scholars, principally in Japan, have proposed that it is instead an indigenous Chinese composition. In contrast to both of these views, Robert Buswell maintains it was written in Korea around A.D. 685 by a Korean adept affiliated with the East Mountain school of the nascent Chinese Ch'an tradition. He thus considers it to be the oldest work of Korean Ch'an (or Son, which in Japan became known as the Zen school), and the second-oldest work of the sinitic Ch'an tradition as a whole. Buswell makes his case for the scripture's dating, authorship, and provenance by placing the sutra in the context of Buddhist doctrinal writings and early Ch'an literature in China and Korea. This approach leads him to an extensive analysis of the origins of Ch'an ideology in both countries and of the principal trends in the sinicization of

Buddhism. Buddhism has typically been studied in terms of independent national traditions, but Buswell maintains that the history of religion in China, Korea, and Japan should be treated as a whole. Since its first publication in 2000, *Baptism and the Baptists* has become the definitive work on the subject. It examines the theology and practice of believers' baptism among twentieth-century Baptists associated with the Baptist Union of Great Britain, and identifies the major influences which have led to its development. In the nineteenth and early twentieth century, the majority of Baptists concentrated predominantly on the mode and subjects of baptism (immersion and believers), understanding the rite merely as an ordinance--the believer's personal profession of faith in Christ. However, in continuity with a tradition of Baptists going back as far as the first Baptists in the second and third decades of the seventeenth century, there were also a significant number of ministers and scholars who saw the inadequacy of this view of baptism both biblically and theologically. This sacramental view developed and grew

throughout the twentieth century, and influenced a resurgence of baptismal sacramentalism in the early twenty-first century among Baptists not just in Britain, but also in North America, Europe, and further afield.

Regarding gender relations, the evangelical world is divided between complementarians and egalitarians. While both perspectives have much to contribute, the discussion has reached a stalemate. Michelle Lee-Barnewall critiques both sides of the debate, challenging the standard premises and arguments and offering new insight into a perennially divisive issue in the church. She brings fresh biblical exegesis to bear on our cultural situation, presenting an alternative way to move the discussion forward based on a corporate perspective and on kingdom values. The book includes a foreword by Craig L. Blomberg and an afterword by Lynn H. Cohick.
