The Cuzco Valley of Peru was both the sacred and the political center of the largest state in the prehistoric Americas—the Inca Empire. From the city of Cuzco, the Incas ruled at least eight million people in a realm that stretched from modern-day Colombia to Chile. Yet, despite its great importance in the cultural development of the Americas, the Cuzco Valley has only recently received the same kind of systematic archaeological survey long since conducted at other New World centers of civilization. Drawing on the results of the Cuzco Valley Archaeological Project that Brian Bauer directed from 1994 to 2000, this landmark book undertakes the first general overview of the prehistory of the Cuzco region from the arrival of the first hunter-gatherers (ca. 7000 B.C.) to the fall of the Inca

Empire in A.D. 1532. Combining archaeological survey and excavation data with historical records, the book addresses both the specific patterns of settlement in the Cuzco Valley and the larger processes of cultural development. With its wealth of new information, this book will become the baseline for research on the Inca and the Cuzco Valley for years to come.

In *Searching for Harry Chapin's America*, journalist Pat Fenton describes his road trips to the towns and people that inspired Harry Chapin's most renowned songs. Fenton's account includes exclusive interviews with Chapin's family and associates, and an excerpt from Chapin's unpublished writings. Harry Chapin (1942-1981) was a legendary top-charting American songwriter in the 1970s and '80s. During his lifetime, Chapin was nominated twice for a Grammy Award: in 1972 for Best New Artist, and in 1974 for Best Pop Male Vocal Performance. In 2011, thirty years after his untimely death, Chapin's Number One-charting song, "Cat's In the Cradle," was inducted into the Grammy Hall of Fame. *Searching for Harry Chapin's America* is a fortieth-year commemoration of this musical icon's tragic death in a car crash in 1981, a tribute to his legacy of songs and philanthropy. America is an invaluable book to celebrate Harry Chapin's music and his legacy. Like *Don Quixote*, or *On the Road*, Pat Fenton's classic book takes you on an unforgettable series of journeys and makes you feel that you are now welcome to be with the people and places that Harry Chapin memorialized in his timeless songs. It was worth waiting 30 years to have this story told so compellingly." -David Amram, composer/multi-instrumentalist/author "A portrait of an age as well as an artist. Chapin was an American original who combined Walt Whitman's lyric realism with Woody Guthrie's passionate truth-telling. Fenton's blend of sympathy, honesty and insight gives us the man in full. Fenton's talents as a master storyteller have never been on better display." -Peter Quinn, novelist/political historian "The perfect marriage of author and subject. Fenton doesn't just trace the roots of Harry Chapin's music; he dares to explore the American soul, extracting from it much of the pulmonary essence that made Chapin such a classic American troubadour. By illuminating the physical and spiritual landscape of Chapin's artistry as a songwriter and voice of the common American, Fenton delivers a gem. Get this book, read it, and pass it on to someone you care about." -T. J. English, New York Times bestselling author "Patrick Fenton has written a unique appreciation of a musical artist's work by going on tour in the footsteps of Harry Chapin and listening to the American Everyman tell the other half of this timeless troubadour's wonderful story-songs. Brian Johnson's memoir from growing up in a small town to starting his own band to ultimately replacing Bon Scott, the lead singer of one of the world biggest rock acts, AC/DC. They would record their first album together, the iconic Back in Black, which would become the biggest selling rock album of all time. Brian Johnson was born to a steelworker and WWII veteran father and an Italian mother, growing up in New Castle Upon Tyne, England, a working-class town. He was musically inclined and sang with the church choir. By the early '70s he performed with the glam rock band Geordie, and they had a couple hits, but it was tough going. So tough that by 1976, they disbanded and Brian turned to a blue-collar life.

Then 1980 changed everything. Bon Scott, the lead singer and lyricist of the Australian rock band AC/DC died at 33. The band auditioned singers, among them Johnson, whom Scott himself had seen perform and raved about. Within days, Johnson was in a studio with the band, working with founding members Angus and Malcolm Young, Cliff Williams, and Phil Rudd, along with producer Mutt Lange. When the album, *Back in Black*, was released in July--a mere three months after Johnson had joined the band--it exploded, going on to sell 50 million copies worldwide, and triggering a years-long worldwide tour. It has been declared "the biggest selling hard rock album ever made" and "the best-selling heavy-metal album in history." The band toured the world for a full year to support the album, changing the face of rock music--and Brian Johnson's life--forever.

The *Book of Kells* and the *Art of Illumination* brings together the Gospel of St. Mark from the 1200-year-old

Irish masterpiece with a selection of medieval and Renaissance manuscripts which demonstrate the legacy of Kells throughout the centuries, both in terms of Gospel illustration and of the illuminated book. Not only does the Book of Kells testify to the vitality of Celtic art in the Early Middle Ages, but its fortunes also reflect the turbulent nature of the period in which it was created. This was an age in which the British Isles were ravaged by Viking raids, and monastic settlements, the cultural heart of the country, up-rooted. Yet, against these odds, the Book of Kells survived. In later times it suffered further disturbances, and in the middle of the 17th century, during Ireland's battles with Cromwell, it was transferred from the ruined parish of Kells to Trinity College, Dublin, where ever since it has had a secure and distinguished home.

Instead of being rescued from a plane crash, as in the author's book "Hatchet," this story portrays what would have happened to Brian had he been forced to survive a winter in the wilderness with only his survival pack and hatchet.
